State Water Plan Fund Revenue Sources and Statutory Authority

The State Water Plan Fund is a statutory fund (KSA 82a-951) that was created by the 1989 Legislature for the purpose of implementing the State Water Plan. Subject to appropriation acts, the State Water Plan Fund may be used for the establishment and implementation of water related projects or programs and related technical assistance. State Water Plan Fund moneys may not be used to fund FTE positions or for recreational projects that do not meet the goals or objectives of the State Water Plan (KSA 82a-903).

Revenue for the State Water Plan Fund is generated by a water protection fee levied on public, industrial, and stockwater users; a per-ton tax on fertilizer; a registration fee on pesticides; certain fines levied by suppliers; and annual transfers of \$6.0 million from the State General Fund and \$2.0 million from the Economic Development Initiatives Fund (EDIF). The State General Fund transfer was not made at all in FY 2010, or FY 2012-FY2015, and a partial transfer was made in FY 2009 and FY 2011. The 2013 Legislature suspended the EDIF transfer for FY 2014. The 2014 Legislature transferred a partial amount of \$800,000 to the State Water Plan Fund from EDIF. Beginning in FY 2008, the majority (101 of 106) of the Clean Drinking Water Fee receipts are deposited in the State Water Plan Fund. Of the funding received from the Clean Drinking Water Fee, 85.0 percent is to be used to renovate and protect lakes which are used directly as a source of water for public water supply systems. The remaining 15.0 percent is to be used to provide on-site technical assistance for public water supply systems.
