FAIRFAX, VIRGINIA 22030-7400**

MEMORANDUM

DATE: January 28, 2015
TO: House Federal and State Affairs Committee
FROM: John Commerford, State Liaison
RE: House Bill 2087

Mr. Chairman, members of the committee, I appreciate the opportunity to address you this morning on an issue important to NRA members and gun owners throughout Kansas. My name is John Commerford and I am here today on behalf of the National Rifle Association Institute for Legislative Action to express our support for HB 2087. This legislation addresses an issue that arose after the passage of HB 2578 last session.

HB 2578 included language which was supposed to provide for protections against local regulations of Federal Firearms License (FFL) holders. Unfortunately this was not accurately represented in the bill and needs to be addressed with the new legislation before you.

HB 2087 is a technical fix that will accurately provide important protections for FFL's.

On behalf of the National Rifle Association I respectfully request your support of House Bill 2087.

Thank you for your consideration.
