

I am covered with health insurance thru Social Security. My husband is covered with health insurance thru Social Security and the VA. Our son that is 26 years old does not have a job and does not have any health coverage.

Any time that he is sick and needs to be looked at, he waits until the health clinic is closed and goes to the emergency room of the hospital to be seen because they cannot refuse to see him. This is more costly than if he was just able to go to the doctor's office to be seen.

I have seen a lot of others do this also. My husband has even done it before he got covered. The federal government pays for the emergency room visit which costs. It would be cheaper to provide health coverage for ones that do not have it and cannot afford to pay for it. That way if they need to see a doctor, they do not end up having to go to the emergency room.
