Waiver Integration – Why?

- To create parity for populations served through Home and Community Based Services (HCBS) – services should be based on a personalized plan of care and centered on an individual's needs rather than their disability
- To offer a broader array of services – some individuals have disabilities that qualify them for more than one HCBS program, but they are limited to a single set of services

Waiver Integration – Why? cont

- To improve moves between HCBS Programs and in transitioning from child to adult services
- To support development and expansion of community-based services
- To make things simpler for KanCare members, their families, and providers

Waiver Integration - Stakeholder Input

- Two rounds of statewide information sharing sessions and listening tours (including evening sessions and conference call options).
- Focused work of Waiver Integration Stakeholder Engagement (WISE) workgroup
 - 100 stakeholders across all disability groups, providers, consumers and families
 - Five focus groups worked over four, 4-hour sessions, making numerous recommendations

WISE Workgroup Recommendations

1. Waitlists
 - Eliminate if possible
 - Cost savings should be applied to waitlist reduction
