

Kansas Insurance Department

Ken Selzer, CPA, Commissioner of Insurance

Testimony on HB 2021

House Insurance Committee

January 26, 2015 3:30 p.m. – Room 152-S

Chairman and members of the committee:

Thank you for allowing the Kansas Insurance Department staff to express their view on HB 2021. This bill would give the department the responsibility of converting unused sick and vacation time into the cash equivalent for purchasing of health care benefits for retired state highway patrol and maintain all program records.

The department at this time does not administer any similar type of programs nor do we have the expertise to administer and maintain such a program.

We leave this bill up to the wisdom of the committee to determine which agency is best suited to administer this program.

I stand for questions.
