When searching for a hospital be sure to:

Check the hospital's quality measures to improve your chances of good results with your knee replacement surgery.
Choose a physician who is affiliated with a high quality hospital.
Review your costs for care. You will likely have to pay your out-of-pocket maximum allowed by your plan.

A hospital with great results for one kind of care may not be so strong in another. Castlight's clinical quality ratings rank hospitals in each of four critical care areas. [Learn more about Castlight quality measures.](#)

▼ Surgical safety

🟢 Average

Surgical safety

🟢 Average

Infections, surgical mistakes, and other medical harm are often avoidable and can cause longer hospital stays, additional pain and suffering, and even death. If you need surgery, choose a hospital that does a better job of caring for surgical patients based on data from Centers for Medicare & Medicaid Services.
