Communication Equipment & Engineering Corp.  
5646 West Race Avenue  
Chicago, Illinois 60644

Attention: Mr. Robert Gullick

Dear Sir:

Your Haison in Topeka, Mr. Oppitz, has examined two desk-mounted indicator devices belonging to your vote tabulation equipment in the Kansas House of Representatives, and recommended they be sent in for repair. I am doing this, by insured parcel post, with the hope they can be put in working order and returned immediately.

I would suggest that, if possible, Mr. Oppitz be provided one or two spares in order to prevent further displeasure among the legislators.

Very truly yours,

John Webb  
Buildings & Grounds Engineer
