PURCHASE OPTIONS ON RENTAL EQUIPMENT

Rental Typewriters, when new equipment to start with, may be purchased from Remington Office Machines and any portion of the rental paid, up to three months, may be applied against and deducted from the purchase price of the machine.

List price of typewriters shown on preceding page is \$470.00 each.

Special pricing to the State of Kansas under open end contract #17764 is \$414.00 per single unit. This contract expires June 30th, 1967.

Typewriters purchased in quantities of twenty-five or more under above contract are priced at \$364.50 each.

If typewriters were rented for three months and then purchased, price of machines after rental deduction would be \$302.60 per unit.

Warranty of Remington Office Machines purchased is for one year and includes all service calls, parts and labor.

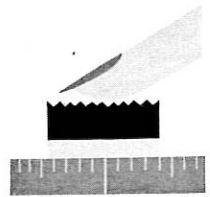

This is the new Remington[®] 25
Electric

the one with UltraTouch

We had to name it the 25. For 25 compelling reasons.

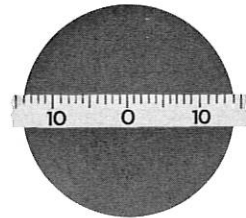

1

VISIBLE MARGIN-STOPS

Your margin-stops are in full view, on top of the typewriter. A flick of the finger sets each one, instantly. No need to move the carriage, or even to have paper in machine when setting margins.

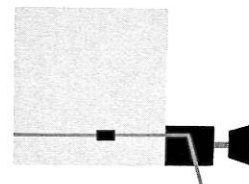

2

PERFECT POSITIONING SCALES... FOR PERFECT MARGINS AND HEADINGS

Zero is at exact center of scales, with same numbers each side of zero. For perfect margins, simply place margin-stops at corresponding numbers.

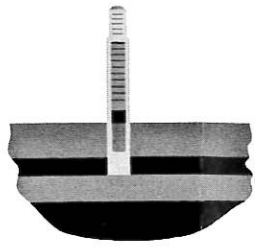

3

NEW EASY PAPER HANDLING

Paper handling is fast, smooth and quiet. Transparent holders guide the paper under the bail. Paper Release automatically raises bail rolls from the paper.

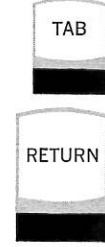

4

PAGE END INDICATOR

Now you can end every page you type at exactly the same line. A mere glance at this sliding scale tells you exactly how many typing lines remain on your page. Also acts as a convenient paper support.

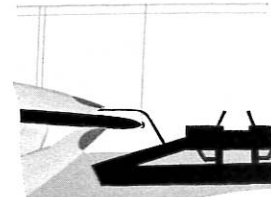

13

SELECTIVE TABULATION

Tabular work often requires a partial return of the carriage from, say, a third to a second column. The REMINGTON "25" makes this easy. You press the Carriage Return and, almost simultaneously, the Tab Key.

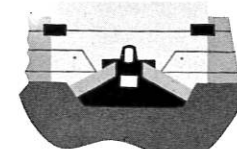

14

RULING DEVICE

You can rule accurate straight lines vertically and horizontally even while the paper is in the typewriter. The small openings in the Transparent Paper Holders are for the point of a pen, pencil or stylus.

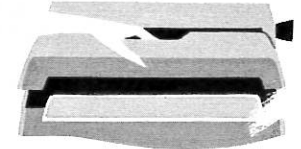

15

ADJUSTABLE TRANSPARENT HOLDERS

Our Transparent Paper Holders let you see the entire typing area. Any size card or paper is held securely. The holders can also be adjusted for large carbon packs.

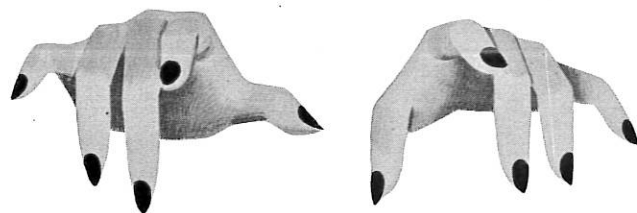

16

REMOVABLE TOP COVER

The top cover of the typewriter snaps off instantly, to give you complete freedom of action for cleaning type, changing ribbon or attaching interchangeable type symbols or letters.

5

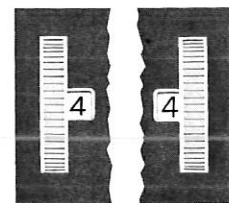

NEW UltraTouch

A remarkable new system of touch engineered by and available only on Remington. So

receptive and obedient to your fingertips it's as if the keys actually sensed what you wanted them to do!

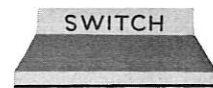

6

TWIN COPY CONTROLS

The Imprint Control governs force of imprint — light or dark. The Carbon Control provides for the thickness of carbon pack. Together they spell quality printwork.

7

VISIBLE SWITCH

Just flick down the switch and you're ready to type. And you always know at a glance if the switch is on or off.

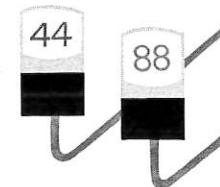

17

FABRIC AND CARBON RIBBON

Your carbon ribbon produces superb printwork. Your fabric ribbon does all-round heavy duty work.

18

44-KEY KEYBOARD

The expanded keyboard offers you the advantage of additional, useful characters — the exclamation point, numeral one, plus and equals signs, or substitutes for these. The scoop keytops are comfortably shaped to your fingertips.

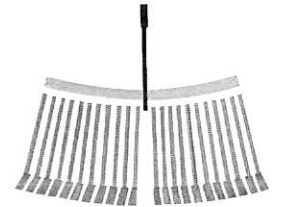

19

INTERCHANGEABLE TYPE

The Interchangeable Type key lets you change type symbols, in mere seconds.

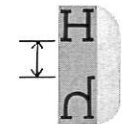

21

CENTER-STRIKE UNDERSCORE

No ragged underlining on this typewriter. The underscore key strikes from direct center of the type basket... no whipping of type bar from a side angle. Underscoring is beautifully accurate.

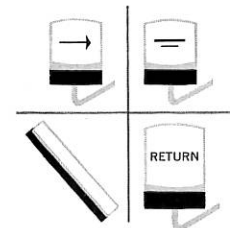

20

WIDE MOTION TYPE

The wide space between capital and small letters prevents "ticking" or "shadowing."

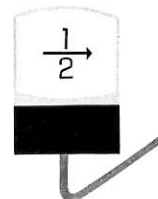

9

AUTOMATIC REPEAT FEATURES

For fast, easy repeat action these repeat features are available: Forward-Space, Back-Space, Vertical-Space and Underscore/Hyphen.

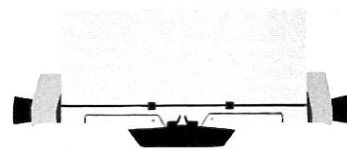

10

FRACTIONAL BACKSPACE (CORRECTION KEY)

This key lets you backspace half a space or any fraction of a space. Ideal for making corrections, such as inserting or omitted letters, substituting a shorter for a longer word, or vice versa.

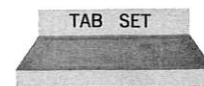

11

13" PAPER CAPACITY

You can use any conventional-size typing paper in this typewriter. It has full 13" capacity. Please note that this means the REMINGTON "25", unlike many typewriters, does actually hold paper 13" in width.

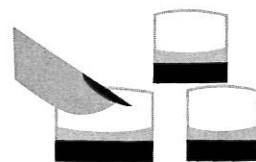

12

SINGLE SPACE TAB CAN BE SET ON ENTIRE WRITING LINE

Space your tabular columns as close together as you please—the Remington Tab Set can be set on every space in your entire writing line. No other typewriter offers you a tab more versatile.

22

POSITIVE SPEED SHIFT

When you shift from small to capital letters or vice versa, the Remington type segment locks swiftly and positively in position. You won't see capital letters "floating" out of alignment.

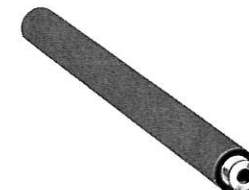

23

PROTECTIVE SHIELD OVER INNER PARTS

A highly durable MYLAR shield protects the internal mechanism against erasure dust, grit and cleaning solvent. Makes for more efficient operation which means longer typewriter life.

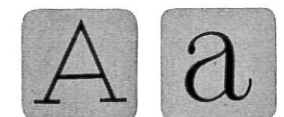

24

BUNA-N POWER ROLL

The power roll, very heart of the typewriter, controls the key action. Our BUNA-N power roll is more durable than steel. It means fast, dependable key action, and even type impressions.

25

CAP AND SMALL LETTER IMPRESSION CONTROLS

Beautiful printwork depends upon even impressions: only Remington has a separate impression control for each and every one of the 88 characters on the keyboard! One for each small letter, one for each cap!

What secretaries say about the new Remington® 25 Electric

“How did you feel when you went back to your own electric typewriter?”

“Help!”

“For beautiful printwork, just touch the keys.”

“This is the machine that turns out more work.”

“Like switching from regular transmission to automatic drive.”

“It’s like driving a Rolls Royce after driving a truck.”

“My speed improved without hurting my accuracy”

SPECIFICATIONS

DECORATOR COLORS Gray-Beige, Blue-Green, Coral.

CARRIAGE WIDTHS 13", 17", 21", 27".

PAPER CAPACITY Same as carriage width.

WRITING LINE 12", 16", 20", 26".
