

M I N U T E S  
PUBLIC UTILITIES COMMITTEE  
Wednesday, January 17, 1968

Meeting was called for 4 p.m. in Room 528 with Chairman Strowig presiding.

The following members were absent: Mrs. Graham; Messrs. Dierdorff, Ratner and Turner.

HB 1724, prescribing the powers and authority of municipally owned utilities - Chairman introduced Mr. Kelly of the Research Department and Mr. Alderson of the Revisor of Statutes' office, who related hearings held before the Labor & Industries Committee of the Legislative Council this summer and which resulted in this Council recommendation.

Mr. Kelly said it was decided from the hearings that HB 1112 introduced last session did not go far enough, hence, the decision to put municipal and private utilities outside city limits on the same plane.

Mr. Alderson further explained changes in wording. There was a question session in order that all members might be fully informed on the proposed legislation.

Meeting adjourned.
