Meeting commenced at 9:15 a.m.

Chairman recognized Rep. Turner who made his presentation regarding House Resolution No. 1012, i.e. changing Rule 21 by reducing the majority required to withdraw bills from committees from 2/3 to a majority of members elected.

Turner feels issues which should be considered are neglected. Legislation should be debated openly and in a public forum. Turner believes the Legislature should be given the responsibility to determine what the people want, rather than having a small group deny the majority's wishes.

The merits of such a change were discussed.

Meeting adjourned at 10:00 a.m.
