MINUTES OF THE HOUSE COMMITTEE ON GOVERNMENTAL ORGANIZATION

The meeting was called to order by Representative Stephen R. Cloud at  
Chairperson

9:02 a.m. ~~pm~~ on Thursday, January 17, 1985 in room 522-S of the Capitol.

All members were present except:  
Representative Fuller - Excused

Committee staff present:

Carolyn Rampey - Legislative Research Department  
Avis Swartzman - Revisor  
Jackie Breymeyer - Committee Secretary

Conferees appearing before the committee:

Dick Brock, Administrative Assistant to Commissioner Bell, Kansas Insurance Department

The meeting of the House Governmental Organization Committee was called to order at 9:02 a.m. by Representative Stephen R. Cloud, Chairman. The agenda for the meeting was a presentation by Dick Brock, Administrative Assistant to Insurance Commissioner Bell, Kansas Insurance Department. Mr. Brock presented each member of the committee with copies of the "One Hundred Fourteenth Annual Report of the Kansas Insurance Department" (See Attachment A) and "Report to the 1985 Kansas Legislature in Regard to the Kansas Sunset Law". (See Attachment B)

Mr. Brock stated that the Kansas Insurance Department stands ready to assist and cooperate with the Legislature. He also commented that the Department is scheduled for abolition July 1, subject to the provisions of the Kansas Sunset Law.

Mr. Brock said that insurance regulation is the responsibility of the states and, as long as the states are effectively regulated, the federal government will not assume control. The National Association of Insurance Commissioners (NAIC) exists to assist the states in their regulatory responsibilities by sharing information, coordinating examinations of insurance companies and developing model laws and regulations.

Mr. Brock gave a short history of the Kansas Insurance Department and stated that the insurance laws of Kansas are located in Chapter 40 of the Kansas Statutes Annotated. He gave the Department's location, office hours and phone number. There is also a branch office in Wichita.

Mr. Brock next described the major activities of the Department so as to make clear why insurance companies need to be regulated and why the Department should not be terminated, or sunsetted. He went through a page-by-page summary of the report and answered many questions from committee members dealing with the minimal financial requirements of companies, monitoring of their financial condition and the securities deposited in the vault in the State Office Building.

As Mr. Brock did not have time to finish his presentation, he was invited to appear before the committee in the near future.

The chairman reviewed next week's agenda and adjourned the meeting at 10:14.

THE HONORABLE JOHN CARLIN

Governor

FLETCHER BELL  
COMMISSIONER OF INSURANCE

The Honorable John Carlin  
Governor of Kansas  
Statehouse  
Topeka, KS

Dear Governor Carlin:

I am very proud to present to you the One Hundred and Fourteenth Annual Report of the Kansas Insurance Department.

The basic content of this report is established by the provisions of K.S.A. 40-108. The report sets forth the recent activities of the department and the statistical data relating to the financial condition of the companies authorized in Kansas as of December 31, 1983.

Respectfully submitted,

Fletcher Bell  
Commissioner of Insurance

**THE COMMISSIONER**

**Duties and Responsibilities**

The functions of the Commissioner of Insurance and his Department differ significantly from many other state officers since the Commissioner, by virtue of his elected capacity, is directly responsible for service to and protection of the people of this state. K.S.A. 40-103 and K.S.A. 40-104 impose complex duties on the Commissioner of Insurance by granting him sole supervision, control and regulation of corporations, companies, associations, societies, exchanges, partnerships, or persons authorized to transact the business of insurance in Kansas as well as supervision over many of their transactions.

A wide variety of responsibilities emanate from this broad grant of supervisory authority. To outline the areas of responsi-

## Kansas Department of Insurance

bility in a general sense, the Commissioner has ultimate supervisory authority in the following fields:

(1) *Company Admissions and Examinations.* The Commissioner determines which companies are authorized to transact business within Kansas and regulates their operation. This regulatory authority not only applies to the company at its inception and/or admission, but throughout its operation by annual scrutiny of each company's financial statement. In addition, the financial records of every company are audited at least once every three years.

(2) *Supervision of Policy Forms.* Facsimiles of all policy forms issued in this state are filed with and examined by this Department prior to issuance to Kansas residents.

(3) *Rate Filings.* The rate or premium charge for a given coverage is required to be filed with the Department. This requirement is designed to protect the insured from an unfairly discriminatory premium. In determining the proper premium rate, the Department examines actuarial data to assure the rate is statistically justified.

(4) *Claim Practices of Insurance Companies.* The Commissioner may inquire into the affairs of insurance companies to ascertain whether a company acts lawfully and is properly considering the public interest in claim settlement practices.

(5) *Supervision of Agents.* The Commissioner maintains control over the licensed agent by having the authority to suspend or revoke his license, should the Commissioner be convinced the agent fails to act in the best interests of the public.

(6) *Unfair Trade Practice Regulation.* According to the provisions of the Kansas Unfair Trade Practices Act (K.S.A. 40-2401 *et seq.*), the Commissioner is given broad authority to penalize companies and agents, who are found guilty of misrepresentation. Monetary penalties, license revocations or suspensions, and cease and desist orders are among those sanctions which may be imposed for violations of this act.

(7) *Deposit of Securities.* Companies are required by statute to deposit securities with the Commissioner to be held in joint accounts with the State Treasurer. Such deposits are designed to assure the financial solvency of each company in order to protect policyholder's investment in the companies.

(8) *Service of Process.* K.S.A. 40-218 and K.S.A. 40-2001 *et seq.* establish the Commissioner of Insurance as process agent for both authorized and unauthorized insurers. As process agent, the Commissioner forwards the summons to the appropriate company which has been named as defendant in a lawsuit.

### Committee Memberships

(1) *National Association of Insurance Commissioners (N.A.I.C.).* The Commissioner of Insurance is a member of the N.A.I.C. which is one of the oldest and most prestigious organizations of State officials. The membership of the N.A.I.C. comprises representatives from each state as well as the District of Columbia and various territories and possessions of the United States. The objectives of the N.A.I.C. are to promote uniformity in legislation affecting insurance; to encourage uniformity in departmental rulings under the insurance laws of each state; to disseminate information of value to state insurance officials in the performance of

## One Hundred Fourteenth Annual Report

their duties and to establish means of fully protecting the interests of insurance policyholders throughout the nation.

The benefits Kansans derive from the N.A.I.C. can be cited by the passage of several model laws developed from the research of the N.A.I.C. Specifically, Kansas has adopted the Model N.A.I.C. Unfair Trade Practices Act and the Model Life and Accident and Health Insurance Guaranty Association Act.

Commissioner Bell served as President of the N.A.I.C. (1973-74) and Vice-President (1972-73). Currently he serves in the following capacities:

*Executive Committee*, Midwestern Zone; Chairman

*Executive (EX) Committee Task Forces*, Constitutional Amendments

*Internal Administration (EX1) Subcommittee Task Forces*, Education, Research and Training; Chairman

*Zone Coordination (EX2) Subcommittee*; Chairman

*Market Conduct & Consumer Affairs (EX3) Subcommittee Task Forces*,

Market Conduct Surveillance

### AGENCY PUBLICATIONS

The following publications are available from the Department upon request. The office provides these publications within a limited supply to Kansas citizens at no cost. For other than Kansas residents the charge for these publications is as follows:

1. Directory of Authorized Companies . . . . . \$3.50
2. Commissioner's Annual Report . . . . . 2.75

In addition to the publications listed above, the Department currently has available a Fire and Casualty study manual at a cost of \$10.00 each. Until recently a Life and Health study manual was also available through the Department, however, the Life and Health study manual is now available at a cost of \$19.00 through the Kansas Association of Life Underwriters, Independent Insurance Agents of Kansas or Professional Insurance Agents of Kansas. This change took place early in 1984 in conjunction with the development of a completely new study manual published by The Merritt Company. The Department is currently in the process of developing a new Fire and Casualty study manual which when completed will be available through the above mentioned organizations.

The Department has prepared numerous pamphlets which serve to acquaint the reader with facts relative to insurance commonly purchased and what the Kansas Insurance Department can do to assist the citizens of Kansas. The following pamphlets are available, free of charge, upon request from either the Topeka or Wichita offices:

### ADMINISTRATIVE DIVISION

The Administrative Division, under the direction of the Commissioner, coordinates the assignments of the entire department. In addition to administrative duties, the Administrative Services Section provides accounting, budgeting, computer services, fiscal management, office management, personnel and purchasing services for the other divisions.

All proposed legislation and departmental rules and regulations are drafted, assembled and edited by this division. Various members of this division are responsible for legislative matters. Our legislative programs have been very effective and successful

## *Kansas Department of Insurance*

through the cooperative efforts of this division, other staff members, the legal staff, the legislature and the Governor.

Being charged with the responsibility of developing an Affirmative Action Program, the Administrative Services Section prepared and implemented the program in 1975. The formal program is a continuation of our efforts to encourage equal employment opportunities, particularly in regard to the employment of females, minorities and the handicapped.

### **LEGAL DIVISION**

The Legal Division is charged with the responsibility of the interpretation and enforcement of the Kansas Insurance Code and supplementary rules and regulations. In addition, this Division interprets contract provisions in insurance policies and conducts research into special areas of insurance law. A prime responsibility of this Division is dealing with complaints on behalf of Kansas policyholders.

The major functions of the Division may be categorized into the following areas:

- (1) enforcement of the Kansas Insurance Code provisions relating to agents' licensing and behavior;
- (2) enforcement of the Kansas Insurance Code provisions relating to company licensing and behavior;
- (3) interpretation and administration of the Kansas Automobile Injury Reparations Act;
- (4) interpretation and administration of the Kansas Insurance Holding Companies Act;
- (5) interpretation and administration of the Workers' Compensation Fund;
- (6) interpretation and administration of the Health Care Stabilization Fund;
- (7) interpretation and administration of Group-Funded Workers' Compensation Pools;
- (8) enforcement and interpretation of the Code provisions relating to all lines of insurance;
- (9) miscellaneous legal opinions relating to contract and statutory provisions;
- (10) service of process on behalf of admitted insurance companies, issuance of stock permits and review of proxies;
- (11) internal advice and counsel.

### **The Hearing and Order Processes**

The hearing and order processes are initiated with the issuance of a notice of hearing. The notice explains the purpose for which the hearing is being scheduled, the material allegations to be proven at the hearing and allows the respondent to have the

## *One Hundred Fourteenth Annual Report*

presence of counsel during the hearing. Upon receipt of the notice, the respondent may choose either to waive a hearing and enter into a consent order or to proceed with a hearing following which an order is drawn.

A consent order is permitted when the Department and the respondent can reach a satisfactory agreement without the formal hearing procedure. In the consent order itself, the respondent neither denies nor admits that the allegations regarding Code violations are true, but stipulates to the penalty imposed.

The Department is willing to enter into negotiations for consent orders for several reasons. First, substantial costs are saved by foregoing the court reporter expenses incurred in the hearing. Second, a complaining witness may not be willing to testify at a hearing although a violation has occurred. Without the evidence provided by the witness, it is difficult to produce a record on which a penalty could be imposed. Third, the Department will only enter into a consent order that imposes a penalty which is commensurate with one which would most likely result from a hearing.

Hearings are conducted by two Department attorneys, one of whom acts as the hearing examiner and the other presents the case for the Department. Although K.S.A. 40-242 stipulates that strict adherence to the rules of pleading and evidence is not required, the hearings are conducted in a formal manner and the respondent is encouraged to present such evidence as he deems pertinent.

Following a hearing, when the court reporter submits a transcript, the hearing examiner reviews the record and recommends a course of action to the Commissioner in the form of a proposed order. When the Commissioner reaches a determination regarding the disposition of the case, a final order is drafted and issued to the respondent. The order that results from a hearing differs from a consent order in that all of the allegations which are proven by the evidence at the hearing are then recorded as facts in the order and the penalty imposed by the order may be imposed without the consent of the respondent.

### **Agents Licensing and Revocation**

K.S.A. 40-241 requires that the Commissioner be satisfied that the applicant for a Kansas insurance agent's license is of good business reputation. Not only must the applicant possess this

## *Kansas Department of Insurance*

requisite but, upon becoming licensed, the agent must continue to maintain a good business reputation. The basis for this requirement is the belief that individuals with sound business judgment can best protect the Kansas insuring public in its decision regarding insurance protection.

Although the aforementioned statute does not contain provisions for hearings, the Department follows the procedure detailed in K.S.A. 40-242, which refers to revocation or suspension of an agent's license. This statute requires that an agent, who is the subject of an administrative hearing in the Department, shall receive basic due process requirements such as those mentioned in the Hearing and Order Processes portion of this report.

For those individuals who sought to take an insurance agent's examination in 1983, eight (8) hearings were called regarding license applications. The disposition of these cases permitted seven (7) of the individuals to take the examination, one was denied permission, and one was granted permission through a consent order rather than a hearing.

Under K.S.A. 40-242, the Commissioner is authorized to revoke or suspend licenses of agents who are found to have obtained a license by fraud, or have misrepresented policy terms to applicants, or have rebated a premium, or have misled applicants as to the nature or comparative advantage of a policy. Additionally, under this section, the Commissioner is allowed to revoke or suspend the licenses of agents in the event that such licenses are not in the best interest of the insurer or the insurable interests of the public.

Furthermore, disciplinary action may be taken against an agent for engaging in "any unfair method of competition or any unfair or deceptive act or practice in the business of insurance" under the Kansas Unfair Trade Practices Act (K.S.A. 40-2401, *et seq.*). K.S.A. 40-2407, the penalty section of the act, authorizes the Commissioner of Insurance to issue cease and desist orders, impose monetary penalties, or suspend or revoke the licenses of agents found to be in violation of the Unfair Trade Practices Act. Many of the violations contained in the Unfair Trade Practices Act are also violations of K.S.A. 40-242. Therefore, much of the disciplinary action taken by this Department against agents is pursuant to both K.S.A. 40-242 and K.S.A. 40-2407.

In 1983, a total of four (4) orders were issued against agents and thirty-five (35) agents entered into consent orders for viola-

## *One Hundred Fourteenth Annual Report*

tions of K.S.A. 40-242 and/or K.S.A. 40-2401, *et seq.* Penalties levied pursuant to these orders for violations of K.S.A. 40-242 included the revocation of two (2) agents' licenses and two (2) cease and desist orders. Penalties levied against agents in 1983 for violations of the Unfair Trade Practices Act included the suspension of one agent's license, thirteen (13) cease and desist orders and two hundred dollars (\$200) in fines and penalties. Most disciplinary action taken by this Department against agents involved violations of both K.S.A. 40-242 and the Unfair Trade Practices Act, K.S.A. 40-2401, *et seq.* Penalties levied in 1983 for violations of both of these statutes included the revocation of four (4) agents' licenses, the suspension of two (2) agents' licenses, fourteen (14) cease and desist orders and three thousand twenty-five dollars (\$3,025) in fines imposed.

### **Company Hearings**

For violations of the Kansas Insurance Code, companies can be called for a hearing or waive a hearing by entering into a consent order. The various bases for holding a hearing concern rate filings, licensing, unfair trade practice violations, financial conditions, uniform policy violations, and Holding Companies Act violations. During 1983, twenty-two (22) orders were issued by the Department, either as a result of a hearing or a consent order, with fourteen thousand six hundred eighty-one dollars and eighty-four cents (\$14,681.84) in fines imposed.

### **Financial Stability of Companies**

Action also was initiated on nine (9) companies because of concern regarding their financial stability. Three hearings were held which resulted in the companies' certificates of authority being suspended and one of those companies was required to make a special deposit with the Commissioner. One company was ordered to reduce its volume of business in this state until further notice. Another was ordered to refrain from writing any new business in Kansas and was required to submit quarterly financial statements until further notice. A company whose certificate of authority had been suspended in 1982 had that suspension extended twice in 1983. A company whose certificate of authority had been suspended earlier in 1983 had their certificate revoked by year end. Finally, an automobile self-insurer had its certificate of authority revoked.

## *Kansas Department of Insurance*

### **General Legal Opinions**

Inquiries and complaints registered by private citizens comprise the bulk of the Legal Division's correspondence. The Legal staff is particularly concerned with the private citizen since it recognizes that individuals are at somewhat of a disadvantage when dealing with an insurance company who possesses broader resources. For this reason, the Legal Division corresponds with insurance companies on behalf of the individual in an effort to achieve a satisfactory resolution to disputes. Our authority in this area is statutorily limited to interpretation of the law, and thus, we are unable to intercede to decide factual questions presented in many complaints.

### **Health Care Stabilization Fund**

Pursuant to K.S.A. 40-3401, *et seq.*, the Commissioner of Insurance is charged with administration of the Health Care Stabilization Fund, established by an act of the Legislature in July of 1976. The Fund is accumulated through a surcharge assessed on every premium dollar paid for medical malpractice insurance policies, and is liable to pay any amount of a judgment against a qualified health care provider in excess of \$100,000 (or in certain cases, the full amount of the judgment).

The Legal Division has the responsibility of monitoring, defending, and negotiating settlements in malpractice actions involving Kansas health care providers. In Calendar Year 1983, the Fund paid out a total of \$2,412,391.40, consisting of attorney fees, settlement payments, consultation fees, and fees for reproduction of medical records.

### **Workers' Compensation Fund**

The Legal Division of the Insurance Department works in conjunction with the Kansas Workers' Compensation Act, K.S.A. 44-501, *et seq.* Representatives of the Legal Division are charged with the responsibility of controlling the receipts and disbursements from a fund established by the Act. Attorneys throughout Kansas are appointed by the Department to represent and conserve the Fund. As of December 31, 1983, the Workers' Compensation Fund had a total of 1,693 active cases.

## *One Hundred Fourteenth Annual Report*

### **Service of Process, Stock Permits, Proxies**

Among its administrative duties, the Legal Division receives summonses on behalf of insurance companies admitted to transact business in Kansas as well as issuing stock permits and receiving and approving proxy applications. Transactions of this nature during 1983 totaled six hundred three (603) summonses, four (4) stock permits and four (4) proxies.

### **FINANCIAL SURVEILLANCE DIVISION**

The Financial Surveillance Division was created on July 1, 1974 to incorporate within one division the responsibility for the financial examination of insurance companies, the admission of new companies to this state, and the surveillance of the financial condition of insurers operating in Kansas. Since that time as the personnel of the division changed, so did the responsibilities of the division. In that regard, the Financial Surveillance Division now considers its primary areas of responsibility to be: (1) the financial examination of insurance companies; (2) the surveillance of the financial condition of all insurers operating in Kansas; and (3) the coordination of this Department's activities with the Kansas Insurance Guaranty Associations. In addition to its primary areas of responsibility, the Financial Surveillance Division has continued to work closely with the other divisions regarding market conduct examinations, certain provisions of the insurance holding companies act, the formation of new companies, the depositing of securities, and numerous other daily activities.

#### **Financial Examination Function**

This function consists primarily of conducting the triennial examinations required by K.S.A. 40-222. In 1983, we were able to complete or, at least, commence an examination on each insurance company due for examination during the year. In addition, we participated on three out-of-state examinations in 1983.

This particular function is labeled "Financial Examination Function" because it has historically focused only on the financial condition of the insurance company being examined. However, occasionally our examiners are called upon to perform

## *Kansas Department of Insurance*

certain functions which would normally be performed as part of a Market Conduct Examination. We anticipate that our financial examiners will continue to perform certain Market Conduct activities on a limited basis.

The examinations of the following domestic companies were started and completed during 1983:

### *Fire and Casualty Companies*

Farmers Insurance Company, Inc.  
Patrons Mutual Insurance Association  
Swedish American Mutual Insurance Company  
Trinity Universal Insurance Company of Kansas, Inc.

### *Life Companies*

Great-West Life and Annuity Insurance Company  
Manhattan Mutual Life Insurance Company  
Pyramid Life Insurance Company  
Standard Mutual Life Insurance Company

### *Health Maintenance Organizations*

Family Health Plan, Inc.

The examinations of the following domestic companies and associations were in progress at December 31, 1983:

Blue Cross of Kansas, Inc.  
Blue Shield of Kansas, Inc.  
Town & Country Fire & Casualty Company  
Travel Air Insurance Company (Kansas)  
Western Casualty & Surety Company  
Western Fire Insurance Company  
Western Indemnity Company

During 1983, Kansas examiners participated on the financial examination of the following foreign companies. These examinations were still in progress at December 31, 1983.

Security National Insurance Company  
Trinity Lloyds Insurance Company  
Trinity Universal Insurance Company, Inc.

During 1983, Kansas examiners participated on "special" examinations of the following domestic companies and associations:

### *Organizational examinations:*

Kansas City Health Care, Inc.  
HCP Corporation

We continued our efforts during 1983 to keep the entire Department apprised of the activities of the examiners and of any

## *One Hundred Fourteenth Annual Report*

unusual or troublesome discoveries made by them. This of course, also includes keeping the examiners apprised of any particular problems encountered by the personnel in the Topeka office with the companies they are examining. These activities are carried out as follows:

- (1) Prior to the beginning of an examination of a domestic insurer, notice of the impending examination is sent to the Commissioner, certain other members of the Administrative Division, and each division supervisor soliciting their ideas relative to any particular matter to be aware of during the examination and offering to review any specific item they may desire.
- (2) When notice is received of an association examination, the same individuals as identified in (1) above are notified and given the opportunity to have any particular item reviewed for them regardless of whether or not we will have an examiner participating.
- (3) At the conclusion of each examination of a domestic company, an examination report summary is prepared for each person identified in (1) above summarizing significant discoveries made during the examination and detailing the company's progress since the last examination. This report allows these individuals to obtain the benefit of the examination report without reading the entire report. A review of these summaries prior to the next examination allows us to easily recall these significant items to make sure that the examiners review any problem areas and note the progress made or corrective action initiated since the last examination.

The examination reports of all domestic companies are reviewed in detail by the Chief Examiner when they are completed and prior to being filed as public documents.

We continued during 1983 to maintain close contact with our field company examiners by telephone and by utilizing a bi-monthly report form that the examiners use to denote the progress being made on each examination. We sent numerous items to our examiners in 1983 that either outlined standard procedures to be adopted for uniformity's sake or which were informational in character. We consider our examiners to be among the best informed of any in the country.

Scheduling of examinations is another function of this division and many factors must be taken into consideration in fulfilling this responsibility. Included among these factors is an attempt to refrain from sending an examiner to the same company two consecutive times, the notification of the NAIC thirty days in advance of an association examination of a Kansas company, the obtaining of jobs outside Kansas for those examiners eligible to participate when our schedule so permits or requires, the scheduling of Kansas examinations so that not more than one

## *Kansas Department of Insurance*

Junior Examiner is on any one job, our attempt to rotate those individuals going out-of-state when possible, and our attempt to avoid having the same examiners work together for excessive periods of time.

During 1983, one new examiner was hired. Therefore, at December 31, 1983, we had a total of seven examiners. We will be taking steps to expand our examination staff during 1984.

### **Financial Surveillance over Insurers**

This function was one of the primary reasons for this division being formed and several procedures are now employed in carrying out this responsibility. The primary responsibility lies in detecting as early as possible those companies in financial difficulty or that are in potential financial difficulty in order that appropriate action can be taken to protect the Kansas policyholders.

The examiners have available to them the Insurance Regulatory Information System (IRIS) tests of the NAIC. These test results are reviewed by a team of financial examiners at the NAIC level to determine if the results justify targeted or immediate regulatory attention. Those Kansas companies which are designated as needing targeted or immediate regulatory attention are given priority attention. Then, the Kansas companies with results outside the usual range are reviewed followed by those foreign companies failing the most or the more significant tests. Throughout our review of companies, we attempt to keep all interested Department personnel advised of any significant discoveries or other items in which they have an interest.

In addition, the examination report of each company admitted to Kansas is reviewed as it is received in an attempt to obtain as complete of an understanding of the company and its operations as is possible. These reports are normally available once every three or four years for each company.

Certain companies, including some Kansas companies, are required to submit quarterly financial statements which are also used in maintaining our surveillance over the companies. At year-end 1983, quarterly statements were being furnished by 24 Kansas companies and by 120 foreign companies.

### **Holding Companies Function**

The Holding Companies Act became effective January 1, 1975.

## *One Hundred Fourteenth Annual Report*

Since then, this division has spent a considerable amount of time working on holding company transactions that effect our domestic insurers. We have not, however, been involved or responsible for, the registration statements required by the Holding Companies Act.

### **Other Activities**

1. We worked closely with both Guaranty Associations during 1983 relative to several problem companies. We continued the practice of advising the appropriate association of any formal action initiated against a company and kept that association advised of all subsequent developments. We also were in attendance at most of the meetings held by the associations and answered numerous telephone inquiries and letters relative to the financial status of the companies licensed in Kansas.

2. We continued to encourage our examiners and Topeka office personnel to participate in educational courses. As a result, during 1983, five of our employees were enrolled in educational courses.

3. We continued to review the operation of Kansas companies with foreign ownership to determine if the foreign owners, in fact, guided the day-to-day operation of the Kansas companies thereby subjecting the Kansas companies to a premium tax rate applicable to foreign companies.

4. We have continued to work closely with the Securities Vault in an attempt to make sure every company has and maintains a deposit at least equal to that required by statute.

### **RESEARCH AND PLANNING DIVISION**

The Research and Planning Division has six primary areas of responsibility which are:

1. To provide research and planning assistance to the Commissioner and other staff members.

2. To coordinate the market conduct activities of the Department.

3. To serve as liaison between the Department and the Kansas Insurance Education Foundation.

4. To authorize to do business in Kansas those insurance companies, automobile clubs, and premium finance companies meeting the requirements of the statutes.

## *Kansas Department of Insurance*

5. To maintain jointly with the State Treasurer securities deposited by insurance companies.
6. To coordinate the Department's compliance with the Kansas Open Records Act.

A description of the 1983 activities of the Admission Section of the Research & Planning Division follows:

The admission review entails an extremely detailed process which incorporates a technical review of items purporting to satisfy our statutory requirements as well as a detailed study of the company's history, organizational structure, financial condition, personnel, proposed plan of operation in this state, and related items. The admission process can be summarized as one which attempts to obtain as much knowledge as possible about the company from information available to us without actually physically examining the company. Those individuals actually assuming the ultimate responsibility within this division for admission files perform their review functions with the knowledge they must be prepared to explain the entire operation of the company and justify its admission to other individuals involved in the final review process.

Associated with the admission responsibility is the duty to take care of the necessary technical details when foreign and domestic companies change their name, merge or redomesticate. This work is often similar to the actual admission work.

We make a preliminary review of the financial statement and other pertinent data of each company seeking admission as soon as possible after it is received in order to determine whether the company can be considered for admission. This assists us in maintaining a minimum number of files to be processed and facilitates control over the files. The Admissions Coordinator continued during 1983 to personally follow the progress of each aspect of the admission files through other divisions in order to see that work was being kept current.

The Admission Section continued to receive a large number of applications for admission during 1983. The number of applications submitted tends to fluctuate from year to year and was down nearly 15% compared to the number received in 1982.

The number of companies admitted in 1983 increased nearly 38% and the number of applications withdrawn decreased nearly 64% over what was reported in 1982. The number of applications pending decreased approximately 13%. Several of the applications pending were received during the latter part of 1983.

The number of corporate changes processed (i.e., effected, cancelled, not approved) during 1983 increased nearly 42% over the number processed in 1982. Many of these corporate changes involved admission of companies as a result of redomestications and other corporation reorganizations.

Companies are subject to a formalized set of requirements and procedures during the admission review. It should be pointed out that each company has unique characteristics. More time is spent processing some applications than others due to problems discovered during the admission review, delayed responses by companies when additional information is requested, and various other difficulties.

We continually evaluate our admission operation to determine whether we can

## One Hundred Fourteenth Annual Report

process an application in a more timely manner. One of the primary goals of the Admission Section is to make the admission process more effective and efficient. The Admission Section is taking, and will continue to take, any necessary steps in order to achieve this goal.

A reconciliation of the admission applications pending at December 31, 1982 to those pending at December 31, 1983 follows:

### **A Description of the 1983 Activities of the Securities Section of the Research and Planning Division follows:**

The Securities Section is responsible for maintaining the securities placed on deposit by insurance companies. These securities are held under joint custody of the Commissioner of Insurance and the State Treasurer.

As of December 31, 1983, a total of 159 insurance companies had securities on deposit with this section. The combined deposit of these companies at year end amounted to \$1,097,107,231.99. This is an increase of \$111,192,061.73 over the preceding year, and an increase of \$277,245,355.53 over the past five years.

During the calendar year 1983, the Securities Section processed securities for deposit and withdrawal in an amount of \$434,910,055.94. In addition, this section clipped and checked a total of 123,573 bond coupons, in the amount of \$6,827,258.67. This is an increase of 819 coupons over 1982 representing \$1,362,272.14. The Securities Section processed a total of 3,995 partial payments made on mortgages held on deposit for 16 insurance companies.

In addition, during 1983 the following activities occurred:

1. Two complete physical audits were conducted.

## *One Hundred Fourteenth Annual Report*

2. The annual updating of the signature authorization and identification files was performed.
3. Certifications of securities on deposit were prepared for 153 insurance companies.
4. All savings and loan deposits were withdrawn in 1983.
5. Leases authorized by K.S.A. 40-2b08 were deposited for the first time.

Of the total amount of securities on deposit at year end 1983, bonds accounted for 73%, mortgages represented 19%, stocks accounted for 6%, certificates of deposit represented 1%, and real estate and leases constituted the other 1%. The following chart shows the classification of deposits for each company as of December 31, 1983.

**AGENTS AND BROKERS DIVISION**

This division has supervision and control over the examination and qualification of agents and brokers prior to their being licensed, the responsibility of renewing the certifications each year, and is charged with the administration of the laws relative to these functions and found in Kansas Statutes Annotated, Chapter 40.

The examinations were administered at the following locations in addition to Topeka and Wichita: Hays, Dodge City, and Kansas City, Kansas. This division also has the responsibility of licensing excess lines agents. A total of 309 excess lines agents were licensed during calendar year 1983.

Another function of this division is the issuance of motor club agents' registrations in accordance with the provisions of Article 25 of the Insurance Code. The total number of registrations issued during 1983 was 805.

### CONSUMER ASSISTANCE DIVISION

This Division's principal responsibility is the review of complaints and inquiries from Kansas consumers regarding insurance companies, insurance agents or the insurance coverage of the consumer. In addition, the Division performs a number of education or information functions for the benefit of the general public. The Division's primary goal is to insure Kansas consumers are fully advised concerning the facts surrounding their insurance complaints or insurance coverages; that they understand why their insurance claims or insurance problems are handled in the manner they are; and, that all complaints against

## *Kansas Department of Insurance*

companies and agents are handled promptly and are equitably resolved.

### **Complaints and Inquiries**

Most of the complaints and inquiries handled by this Division, and for which a file is established, originate from correspondence from Kansas citizens. However, a large number of complaints and inquiries, relating to every facet of insurance, are also received from the public through telephone calls and personal visits to the office. In 1983, the Division received approximately 28 new complaint and inquiry letters a day, approximately 350 telephone calls a day, an average of 15 office callers a day and an average of 73 "Hot Line" WATS calls a day. Since these complaints and inquiries involve a wide variety of insurance questions, the Division maintains a close working relationship with other divisions of the Department, to ensure those divisions are aware of problems of interest to them and to take advantage of technical support available from those other divisions to answer these consumer inquiries. The other divisions also coordinate consumer complaints and inquiries with this Division so that a proper record of all consumer matters handled by the department can be maintained.

### **Wichita Branch Office**

The Department maintains a branch office in Wichita to handle consumer matters brought to us by citizens from that area of the state. The Wichita Branch Office is a unit of this Division. In addition to the functions described above, and participating in consumer education activities in the area surrounding Wichita, the branch office, in cooperation with the Department's Agents' and Brokers' Division, also administers the agent's licensing examinations conducted at the branch office site.

### **WATS "Hot Line"**

Since its inception, the Consumer "Hot Line" has proven to be a valuable service to Kansas citizens. In 1983, an average of 1,574 calls per month were received on the "Hot Line," compared to an average of 1,362 calls in 1982. Even though many calls received on the "Hot Line" involve matters requiring follow-up correspondence or other action, the primary objective of the system is to handle to a conclusion as many matters as possible

## *One Hundred Fourteenth Annual Report*

through that one telephone call, eliminating, where possible, correspondence which is time consuming for both the citizen and this Division.

### **Field Representatives**

This Division has two field representatives who, in addition to handling office duties, have assisted the Agents' and Brokers' Division in giving agent's licensing examinations. In addition, the field representatives travel throughout the state, when needed, investigating complaints. This includes taking statements from citizens who have complained about misrepresentations by agents or companies, overselling by agents, fraudulent acts by an agent and other misfeasance. Whenever severe storm, flood or fire damage occurs in a community, the Commissioner also dispatches field representatives to survey the damage to determine the extent of the damage, type of damage, area covered and the approximate number of people affected. From such surveys, it can be determined whether the insurance industry will have sufficient claims adjusters in the area to handle the losses. These representatives also act in coordination with federal and other state disaster relief personnel to ensure all appropriate steps are taken to alleviate hardship and return citizens, as much as possible, to their situations prior to the disaster.

### **Consumer Education**

This Division provides a variety of educational programs for citizens of this state, ranging from informal talks with school groups to formal presentations to senior citizen groups.

*Senior Citizen Forums.* In 1983, the Division conducted 21 Senior Citizen Forums at widely scattered points throughout the state. At each forum, individuals from Blue Cross and Blue Shield of Kansas, who administer the Medicare program in Kansas for the federal government, first explain the benefits provided by Medicare. Division representatives, through a slide presentation and question and answer sessions, explain the benefits customarily available through Medicare Supplement, nursing home and cancer policies, with particular attention paid to what these policies do and do not cover. At such forums, the Division also provides to each participant a packet of brochures prepared by the Department. Attendance and interest in these

## *Kansas Department of Insurance*

forums was significant from their inception and, if anything, appears to be increasing.

*Other Forums, Talks and Speeches.* In addition to the Senior Citizen Forums, the Division also offers forums on auto insurance and on homeowners' insurance. The Department also provides speakers from within the Division for talks, speeches and seminars conducted by civic groups, elementary and high schools, colleges, insurance industry groups and senior citizen groups. The Division has also supplied articles for senior citizen groups and other organizations. These talks and articles generally relate to insurance problems encountered by the group being addressed; e.g., auto insurance problems are discussed with high school drivers' education classes, and articles or speeches on Medicare and Medicare Supplement policies to senior citizen groups.

*Market Conduct Examinations.* In 1983, representatives of the Division participated in 12 Market Conduct Examinations conducted by the Department. The Division's participation consisted of reviewing the claims processing and complaint handling practices of the company under review. The Division maintains a continuous statistical review of complaints received by the Department respecting each company operating in this state. Whenever Market Conduct Examinations of companies are undertaken, particular attention is directed to areas indicated as being a problem, if any, in the Division's analysis of the complaints received against that company.

### **Other Activities**

As mentioned above, the Division maintains an on-going computer program analyzing those complaints received by the department against each company operating in Kansas. This computer analysis enables the Division to identify companies with a high number of complaints in relation to their premium volume in this state, as well as those particular lines of business with a big incidence of complaints and the most frequent causes of complaints.

A relatively small number of individual complaints may result in enforcement actions against companies and agents, depending on the amount of business done in this state and the severity of the actions complained of. Companies may be targeted for special market conduct activity or more informal action, if this will

*One Hundred Fourteenth Annual Report*

result in correction of improper activities. This approach to monitoring company and agent activities has significantly improved the quality of service Kansas consumers are receiving from insurance companies operating in this state.

The division also prepares and prints a number of educational brochures relating to common insurance problems in this state: *Kansas Auto Insurance Facts*, *Kansas Homeowners' Insurance Facts*, *Kansas Cancer Insurance Facts*, *Kansas Nursing Home Facts* and *Kansas Health Insurance Facts*. In 1983 the Commissioner also developed and published a *Kansas Medicare Supplement Insurance Shopper's Guide*, which has become a very popular brochure.

### COMMUNICATIONS DIVISION

The Communications Division was established in June of 1980. The Division was organized to incorporate within the Insurance Department the use of automated equipment, *i.e.*, word processing typewriters, to increase the efficiency of producing typed documents. These documents originate from dictation, handwritten material or form letters.

The Communications Division is responsible for making sure that documents requested from the Fire & Casualty Division, Consumer Assistance Division, Financial Surveillance Division, Licensing Division, Accident & Health Division, Life Division, Administrative and Administrative Services Division are produced with quality. It is also important that these documents be produced with the least amount of time possible.

The Communications Division is also responsible for special projects that require a large volume of final documents. Such products can be produced much more efficiently by a word processing system. After the initial preparation of the various brochures and the updating by the various Divisions of the *Directory of Insurance Companies*, the Communications Division is responsible for producing a copy that is to be sent to the printer for printing purposes.

### LIFE DIVISION

The Life Division staff is responsible for various areas of supervision over 638 companies licensed to do business in the State of Kansas. One of the primary functions of the division is the review of form filings and accompanying materials submitted by the companies holding a Kansas Certificate of Authority. Increasingly complex forms each year continue to require a great deal of research prior to actual approval or disapproval. Universal Life products, group insurance, variable annuities, HR-10 retirement plans and other complex forms of insurance are developing at a rate which requires extensive research not reflected by statistics alone. The following table, however, does give some indication of the number of filings received and processed by the Life Division this past year:

## *One Hundred Fourteenth Annual Report*

Policy forms received . . . . .	15,543
Policy forms approved . . . . .	13,037 *
Policy forms disapproved . . . . .	1,330 *

\* The forms approved and disapproved will not reflect the number received as they include forms reviewed from the backlog of the past year. In like manner, a portion of the forms received as shown above were not acted upon, and will form the backlog reflected in next years approved/disapproved statistics.

Letters sent out in connection with form reviews numbered 6,093. In addition to the above reviews, 81 pieces of advertising were reviewed. These figures are taken from submissions of advertising only filings. Filings included with policy form have not been counted, nor have consumer files involving advertising which were eventually reviewed.

### **Annual Statement Review**

There were 644 annual statements filed in 1983 with the Life Division as required by K.S.A. 40-225. Each statement was given a detailed audit with regard to errors in the statement, solvency (including adequacy of reserves for business written by Kansas companies) and authentication of various supplementary documents made. This effort is coordinated with the Financial Surveillance Division which conducts in-depth research on many of the statements received.

### **Certificates of Authority**

K.S.A. 40-215 allows for a continuous certificate of authority which shall continue in force until suspended, revoked, or otherwise terminated by the Commissioner of Insurance. It is only necessary to issue a certificate of authority to companies newly admitted, changing name, or merging.

### **Tax Collection and Distribution**

In accordance with K.S.A. 40-252 and 40-2801 the Life Division computes, assesses and collects premium and privilege taxes as well as statutory fees. Taxes and fees collected on life companies was \$19,019,994.50 in fiscal 1983. Of that amount, a premium tax passed in 1970 on Kansas companies amounted to \$3,375,386.11 and a privilege tax also on Kansas companies passed in that same year resulted in the collection of an additional \$88,843.68.

## *Kansas Department of Insurance*

### **Life and Health Insurance Guaranty Association**

The purpose of this act is to provide a mechanism for the payment of covered claims under certain insurance policies, to avoid excessive delay in payment and to avoid financial loss to claimants or policyholders because of the insolvency of an insurer, to assist in the detection and prevention of insurer insolvencies and to provide an association empowered to assess the cost of such protection among insurers. The Board of Directors of the association is composed of not less than five nor more than nine members who are selected by member insurers subject to approval of the Commissioner. Records of that association are kept by the Life Division as well as a notification plan for furnishing information to the president of the association.

### **Advisory Duties and Research**

If it is found necessary to call formal hearings with reference to a company or an agent's violation of the insurance code, the Life Division assists the Legal, Licensing and Consumer Assistance Divisions in matters of investigation and procuring evidence. This division also acts as technical advisor during the process of such a hearing. Research needed for any phase of life insurance is conducted whether it be for legislative purposes, departmental positions or statistical evaluation. The insurance industry is constantly changing concepts and types of coverage and it is important for the Life Division to properly advise the Commissioner and conduct any studies or research on new subject matters. In that same light the Life Division also assist in the compilation of agents' examinations and act in an advisory capacity on any change within the examination itself.

### **Securities Valuation**

A determination is made by the Life Division that adequate securities are on deposit by life companies in accordance with K.S.A. 40-401 and 40-404. As of December 31, 1983, these deposits amounted to \$1,097,107,213.99. If quarterly or monthly reports are required of a company, the valuations are made more frequently by the Financial Surveillance Division.

### **Certifications**

The Life Division prepared and issued 995 various certifica-

## *One Hundred Fourteenth Annual Report*

tions for companies and insurance departments. Those certifications required the study of the division's records to determine the correctness of the material we were asked to certify.

### **Annual Report**

The material contained within this annual report must be assembled and compiled statistically in connection with the total business operations and Kansas operations of all life companies. This information is also used in the Commissioner's preparation of the department's annual budget and report.

### **Directory of Companies**

Each year a report showing the companies licensed in the various lines of business they are qualified to write in Kansas must be compiled and published. Information is taken from the Official List filed with this division in conjunction with the annual statements.

### **Examination Reports**

Kansas law requires that each company doing business in Kansas shall be examined at least once every three years. This division filed 103 such reports in 1983. The accuracy of current filings are checked at the close of annual statement review each year.

### **Company Charter and Bylaws**

This division receives and reviews certified copies of Kansas company charters, bylaws, and amendments thereto. Foreign company charters are also filed in the same manner. In addition, all official company files are maintained within the Life Division.

### **Biographical Sketches**

Biographical forms for each director and key officer of each Kansas life company must be maintained by the Life Division. The biographical sketch files are updated at the close of each annual statement review period to determine if officer changes have resulted in unfiled biographical sketch forms.

## *Kansas Department of Insurance*

### **Company Admissions**

This division participates in the examination of companies making application to be admitted to do business in Kansas, mergers, name changes, consolidations, reinsurance and the formation of new companies. During 1983, 49 life companies were admitted with 41 companies seeking admission to Kansas at year end.

### **Claim Handling**

Although the Consumer Assistance Division is basically responsible for the handling of complaints and inquiries, we act in a consulting nature on the more difficult problems which arise and in which more technical assistance is needed. We handle, as an example, any IRA or KEOH problems as a matter of routine. During the year, we handled 264 complaints or inquiries by letter, 20 complaints or inquiries by personal visits with the public, and 1,087 telephone inquiries.

### **Market Conduct Examinations**

A personal visit by some member of the Life Division is made to each Kansas domiciled company undergoing a financial examination. During that visit a market conduct exam is conducted in conjunction with the financial examiners. During the past year, six such examinations were conducted by the Life Division staff.

### **Replacement**

Twenty-two replacement cases were opened by the Life Division in 1983. Informal conferences were held in many cases and the amount of time spent by our policy examiners on those problems were extensive. All examiners continue to assist in the investigation. This gives us the benefit of complete awareness by all staff members of the problems involved and helps alert them to the policy provisions which might be troublesome, if approved.

### **Credit**

Approximately, 97 companies are presently issuing credit life insurance in this state with a total premium volume of \$21.5 million. Current credit rate structures are receiving extensive

## *One Hundred Fourteenth Annual Report*

analysis. Again, a great amount of time is being devoted to research and review in this area.

### **Microfilming**

The Life Division files continue to be placed on microfilm and approximately two-thirds of the total volume of files were completed by year end.

*One Hundred Fourteenth Annual Report*

**ACCIDENT AND HEALTH DIVISION**

This Division is charged with the general supervision and regulation of all matters relating to the writing of accident and health insurance by insurance companies, corporations and societies licensed for such business in Kansas. As of December 31, 1983, there were 740 insurance organizations licensed to transact the business of accident and health insurance in Kansas. This figure represents 19 foreign fraternal societies, 9 Kansas and 217 foreign fire and casualty companies, 1 reciprocal inter-insurance exchange, 15 Kansas and 469 foreign life insurance companies, 2 non-profit medical and hospital service corporations, 1 non-profit dental corporation, 1 non-profit optometric service corporation, and 6 health maintenance organizations.

Such insurance organizations write one or more of the following classes of insurance: basic hospital expense coverage, basic medical-surgical coverage, hospital confinement indemnity coverage, major medical expense coverage, disability income protection coverage, accident only coverage, credit accident and health coverage, specified disease coverage, dental expense coverage, vision care benefits and specified accident coverage. Pursuant to Kansas insurance laws and regulations, such organizations submitted to this Division for our review a total of 12,428 forms and rates in 1983. The figures below show a breakdown of the work load of this Division during that time period.

**Review of Policy Forms**

With respect to policy form filings, the following chart illustrates the number of filings received and acted upon for 1983.

	1983
Total number of policy forms, applications	
inserts and riders received .....	9,806
Forms Disapproved .....	2,763 *
Forms Withdrawn .....	343
Forms Approved .....	7,062 *
Forms Reviewed .....	11,039

\* The forms approved and disapproved will not reflect the number received as they include forms reviewed from the backlog of the past year. In like manner, a portion of the forms received as shown above were not acted upon, and will form the backlog reflected in next year's approved/disapproved statistics.

### **Review of Rate Filings**

This Division also exercises some authority over rates for individual accident and health policies underwritten by commercial companies, rates charged by Blue Cross and Blue Shield and other non-profit service corporations and rates charged by health maintenance organizations. In addition, rates for group accident and health policies are submitted for our information. An accounting of this Division's rate review activity during 1983 produced the following results, indicating a 7.5% increase in the number of rate filings received:

	1983
Rate Filings Received . . . . .	2,622
Rates Not Filed . . . . .	1,037 *
Rates Withdrawn . . . . .	48
Rates Filed . . . . .	2,250 *
Rates Reviewed . . . . .	3,236

An important factor in the review of rates by this Division is the monetary savings which accrues to the citizens of Kansas as a result of negotiated reductions in the amount of rate increases requested. The dollar amount of savings created by these actions are difficult to measure since few insurers provide data as to the number of Kansas citizens affected by a particular rate filing. Reductions through rate review occurs in three ways: (1) lower rates than actually requested are allowed; (2) companies voluntarily withdraw the rate filings in response to this Division's review; and (3) no response is received from a company and the file is closed.

\* The rates filed and not filed will not reflect the number received as they include rates reviewed from the backlog of the past year. In like manner, a portion of the rates received as shown above were not acted upon, and will form the backlog reflected in next year's filed and not filed statistics.

### **Market Conduct Reviews**

To provide a method by which this department can more closely monitor the activities of insurance companies transacting accident and health business in Kansas, the Accident & Health Division is involved in a market conduct review system. This system has allowed the establishment and maintenance of records of the activities of companies, agents, and products solicited in order to identify and correct problems with regard to policy-

## *One Hundred Fourteenth Annual Report*

holder understanding, misrepresentation, claim payments, etc. During 1983, the Accident & Health Division participated in market conduct reviews of The Pyramid Life Insurance Company and The Life Insurance Company of Kansas, Inc. These reviews were conducted in connection with these company's tri-annual financial examinations.

### **Company Admissions**

As in previous years, increased effort was applied to the processing of applications for amended Certificates of Authority to include accident and health insurance. As a result of these efforts, 66 companies were authorized to conduct the business of accident and health insurance in the state of Kansas in 1983. This figure represents a 9.8% increase in the number of companies licensed during 1982.

### **Review of Company Advertising and Solicitation Practices**

A total of approximately 381 pieces of accident and health advertising were reviewed by the Accident & Health Division in 1983. Of the total, 161 were not filed by this Division as they did not comply with our advertising requirements. Our review of advertising usually involves correspondence between this department and the companies. Companies are advised of possible violations of the Kansas statutes and administrative regulations.

### **Consumer Assistance**

This Division continued to be successful in avoiding the nonrenewal of accident and health policies by insurers. Companies that issue policies that are renewable at the option of the company have the contractual right to decline renewal of these forms in accordance with policy provisions. Possible reasons for the nonrenewal of optionally renewable policies are adverse claims experience and the elimination of obsolete policy forms. Upon notification of the nonrenewal of such programs, negotiations with the company by this Division usually resulted in the renewal of policies with an appropriate increase in premium or the offering of a conversion to a similar form of coverage. Decisions of this nature enabled a large number of Kansans to continue their coverage without regard to past health history, age or other underwriting restrictions.

## *Kansas Department of Insurance*

Another area of responsibility this Division is involved in is responding to consumer complaints and inquiries. Our files indicate that in 1983, we received a total of 67 consumer rate and miscellaneous inquiries. It should be noted that this total number of inquiries does not include those handled by this Division by telephone. During 1983, we received approximately 720 telephone inquiries and a number of people visited the Division to discuss insurance matters. The majority of the rate inquiries related to Blue Cross and Blue Shield rate increases. The miscellaneous inquiries were in the form of questionnaires, licensing status of companies and/or agents, claim matters, content of company advertising, effect of new legislation and the legality of cancellations of coverage by companies.

### **Investigation and Penalty Assessments**

During 1983, this Division initiated a number of investigations, two which culminated in the assessment of fines totaling \$600. Several files continue to be investigated which may result in possible violations and assessments of penalties. Areas investigated include: use of rates not on file, use of solicitation materials not in compliance with the Kansas advertising regulations, and group insurance policies issued to trusts domiciled in other states.

### **Regulation of Administrators**

This Division supervises the initial licensing and annual license continuations of third party administrators operating in this state pursuant to Article 38 of the Kansas Insurance Code. This statute requires administrators, as defined in the statute, who handle premiums or who adjust or settle claims for residents of Kansas in connection with life or accident and health insurance or annuities, to acquire a Certificate of Registration from the Commissioner of Insurance. An initial fee of \$100 is required at the time of application and a \$50 fee is required for continuation of the certificate for successive annual periods. In addition, each administrator must maintain a current synopsis of agreements with insurers outlining the name of the insurance company, effective date of the agreement, the name and type of group insured and coverages provided and an indication of the service provided by the administrator. As of December 31, 1983, there

## *One Hundred Fourteenth Annual Report*

were 131 third party administrators registered in Kansas, 16 of which were registered during 1983.

### **Regulation of Health Maintenance Organizations**

This Division is responsible for the ongoing review of the operations of Health Maintenance Organizations. As of December 31, 1983, six HMOs have been admitted to transact business in Kansas since the enactment of the Health Maintenance Organization Act in 1974. The Community Group Health Plan a/k/a Prime Health, Total Health Care and Kansas City Health Care are all non-profit HMOs operating in the greater Kansas City area. Family Health Plan, also non-profit, operates in the greater Newton and McPherson, Kansas, areas and Health Care Plus, Inc., Wichita as of December 31, 1983, was operational in the greater Wichita, Lawrence, and Salina areas. Medplan, Inc., admitted in 1976, is licensed to operate in the greater Kansas City area, however, did not transact any business during 1983.

Pursuant to K.S.A. 40-3209 and K.S.A. 40-3210, all contract forms and rates used by an HMO operating in Kansas must be submitted for approval by this Department. Contract forms are required to contain a complete description of the health care services and benefits afforded, a list of facilities providing medical services, all exclusions and coverage limitations, must describe enrollment, re-enrollment and disenrollment criteria and describe procedures to be followed in the event of member grievances. Rates submitted for approval must be adequately justified using benefit cost data, utilization projections, enrollment projections and reflect anticipated costs for the operation of the HMO in each community where they are authorized to transact business.

During 1983 this Division was involved in the review of several filings for service area expansions and additional regional components for Kansas HMOs. Health Care Plus, Inc., submitted two separate filings to establish regional components in Lawrence, Kansas, and Salina, Kansas, and subsequent to the approval of these filings, submitted a proposal to expand the enrollment area for the Lawrence component. Family Health Plan submitted a filing to expand their service area to incorporate an area in and around Valley Center, Kansas, where one of their provider groups, the Bethel Clinic, has a satellite location.

## *Kansas Department of Insurance*

The review of a filing to establish an expanded service area or an additional regional component requires the submission of a detailed plan of operation and sufficient information to determine that the HMO should be able to provide medical services in a given location. Evidence of contracts with physicians, hospitals, ambulance companies, skilled nursing facilities, home health agencies and out-patient facilities must be submitted as well as rate development studies and justification. An HMO must provide a detailed explanation of the operation of quality control mechanisms and grievance procedures applicable to all service areas.

It was determined, after a review of these filings, that these HMOs would be able to continue to meet the requirements of Kansas statutes while expanding their operations to other communities.

Two additional HMOs, HMO Kansas, Inc., and Health Plan of Mid-America also submitted applications in 1983 for admission; HMO Kansas, Inc., for operation in Wichita and Topeka and Health Plan of Mid-America for operation in the greater Kansas City area. As of December 31, 1983, these applications were still pending.

### **Projects Involving Blue Cross and Blue Shield**

The Accident & Health Division has devoted a considerable amount of time to the review of various Blue Cross and Blue Shield matters. Major projects undertaken in 1983 were as follows:

1. An extensive review was made of the rate increases submitted by Blue Cross and Blue Shield of Kansas which were to affect community rated groups, the non-group category, Plan 65 and Plan D coverages. The total increase originally requested was \$25,524,000. As a result of our objection to the original increase, the department approved a revised request of \$24,156,000.
2. In connection with the above rate review, this Division was involved in organizing three public conferences to discuss the rate increase requests made by Blue Cross and Blue Shield of Kansas. The public conferences were held on September 27 in Salina, September 30 in Topeka and October 7, 1983, in Wichita. These meetings were well attended. The information exchanged was helpful in promot-

*One Hundred Fourteenth Annual Report*

ing a public understanding of the reasons for the increase in rates and in making Blue Cross and Blue Shield representatives more aware of the legitimate public concern about the economic difficulties such increases create, particularly to those with relatively fixed incomes.

3. This Division was also involved in reviewing the rate increase requests made by Blue Cross and Blue Shield of Kansas City for the "Over 65 Tie-In Plan" and the "Disabled Tie-In Plan," which affected approximately 13,000 subscribers in Johnson and Wyandotte counties in Kansas. A public conference relative to this filing was held in Kansas City, Kansas on November 8, 1983. The initial filing proposed a \$51.01 monthly rate for the "Over 65 Tie-In Plan" and a \$91.24 monthly rate for the "Disabled Tie-In Plan." As a result of our objection to the original increases, the rates were resubmitted in a revised filing and the department approved a revised "Over 65 Tie-In Plan" rate of \$45.56 per month and "Disability" rate of \$54.88 per month.
4. During 1983, the Accident & Health Division was involved in the approval of a new reimbursement system for Blue Cross and Blue Shield of Kansas, called CAP (Competitive Allowance Program). Under CAP, Blue Cross and Blue Shield of Kansas reimburses hospitals only up to a set amount for each specific diagnosis. This method of reimbursement is commonly called Diagnostic Related Groups (DRGs). Other providers of health care receive only up to a specific dollar amount for each procedure. Contracting providers will accept the Blue Cross and Blue Shield of Kansas allowance as payment in full and subscribers will only be responsible for the deductible and co-insurance amounts stipulated in their contracts and for any uncovered services. The new reimbursement system became effective January 1, 1984. All 137 acute care hospitals in Kansas, along with 87.3% of the physicians and 72.1% of the dentists, signed reimbursement agreements to participate in the Competitive Allowance Program for 1984.
5. On May 1, 1983, Blue Cross of Kansas and Blue Shield of Kansas consolidated into a new corporation to be known as Blue Cross and Blue Shield of Kansas, Inc. The consolidation process took several months. Prior to the formation of

## *Kansas Department of Insurance*

- the new corporation this Division reviewed the company's plan of consolidation for its acceptability.
6. In November of 1983, the Division was involved in granting Blue Cross and Blue Shield of Kansas City authority to operate, as a line of business in the state of Kansas, a new discount health care plan known as "Preferred Care." Participating hospitals and physicians who contract with the company discount their normal charges when providing services to subscribers enrolled in the "Preferred Care" program. Initially, the rates for the new program will average 15 percent lower to group members who seek care from "Preferred Care" hospitals and doctors. In 1983, "Preferred Care" was offered to employee groups within the Blue Cross and Blue Shield of Kansas City enrollment area of Wyandotte and Johnson counties in Kansas and Johnson, Clay and Platte counties in Missouri. In receiving medical services, "Preferred Care" subscribers retain their free choice of hospital or physician. If the subscriber uses a "Non-Preferred Care" hospital or physician, it may cost the subscriber certain out-of-pocket expenses.
  7. Throughout each year, both Blue Cross and Blue Shield organizations submit various other rate filings for our review. These include one-case group rate filings and changes in various rating formulas, etc.

### **Involvement in Other Projects**

1. In 1983, this Division was involved in holding seminars for state of Kansas employees with regard to their health insurance coverage. Approximately 25 seminars were held at various locations and generally each session was well attended. The subject matter of these seminars related to the effect of rising health care costs and the steps that employees can take to control his or her health benefit costs.
2. Each year, this Division has undertaken the examination and audit of the following annual statements:
  1. Blue Cross and Blue Shield of Kansas
  2. Blue Cross and Blue Shield of Kansas City
  3. Delta Dental Plan of Kansas
  4. Family Health Plan
  5. Health Care Plus, Inc.
  6. Prime Health

*One Hundred Fourteenth Annual Report*

7. Total Health Care

3. This Division was also involved in the continuing process of reviewing and investigating the adequacy of current statutes and regulations in an attempt to propose more efficient and beneficial insurance legislation.

**Selected Accident and Health Premium and Loss Information**

In response to a number of inquiries, we are including financial information extracted from the 1983 Annual Statements of various hospital corporations, medical indemnity corporations, non-profit medical and hospital service corporations and health maintenance organizations. This information appears in table form on the following pages.

**FIRE AND CASUALTY DIVISION**

This division is responsible for the review and approval or disapproval of Fire and Casualty rates, rules and forms filings submitted by approximately 613 companies licensed to operate in Kansas. The following table is a comparison between the years 1982 and 1983 showing the number of filings received and handled by this division:

	1982	1983
Policy and Endorsement Forms Received . . . . .	23,015	28,311

Rate Filings Approved . . . . .	5,464	6,330
Rate Filings Disapproved . . . . .	98	102

**Annual Statement Review**

In addition to the division's function of reviewing Fire and Casualty rate, rule and form filings, it is also this division's responsibility to assist in examining the yearly annual statements submitted by the companies holding a Kansas Certificate of Authority. Each company's financial report is reviewed to determine whether it is in compliance with the minimum statutory requirements for capital, surplus and deposit required by Kansas statutes.

See tables 4-12 for information extracted from the annual statements of Mutual Insurance Companies, Kansas Mutual Hail Insurance Companies, Reciprocal or Inter-Insurance Exchanges, Stock Fire and Casualty Insurance Companies of the U.S., and Stock Fire and Casualty Insurance Companies of foreign countries.

Additional tests are made regarding solvency including adequacy of reserves for all lines of business written by each company. (A summary of the Kansas business for Fire and Casualty companies can be found in this report.)

Another responsibility of this division is to verify, assess and collect, pursuant to applicable statutes, fees and premium taxes on all direct Kansas business written by licensed companies. As of Dec. 31, 1983 a total of \$23,682,016.22 was collected in fees and premium taxes from Fire and Casualty companies in 1983. This includes the Fire Marshal Tax and the Firemen's Relief Tax collected on fire insurance premiums written in this state.

## *One Hundred Fourteenth Annual Report*

### **Excess Lines Insurance**

This division collects the excess lines tax from authorized agents writing business in insurers not authorized to do business in this state. A total of \$510,356.12 was collected from the 4% gross premium tax applicable to do business written through the listed, not authorized insurer.

### **Firemen's Relief Fund Tax and Fire Marshal Tax**

All premium taxes collected are deposited into the General Revenue Fund. In 1983, the Firemen's Relief Fund Tax was collected and deposited in a special fund. The revenue collected for this fund was distributed to 441 cities, counties, townships and fire districts qualified to participate in the distribution of the tax. Ninety-seven (97%) percent of the tax collected for each participating fire department is returned to the local department as it is coded and reported by the insurance companies. This money is held in trust by the Firemen's Relief Association of each department and used as a fund for the relief of any member of the fire department when injured or disabled while performing duties as a fireman. Additional benefits are described in K.S.A. 40-1707. The remaining three (3%) percent of the tax is distributed to the Kansas State Fire Fighters Association, Inc., for educational efforts of fire prevention and other related programs such as regional schools, arson schools, special hazard schools and the annual Kansas Fire School. The 1984 tax distribution is reflected in the table entitled "*Firemen's Relief Fund Tax Collections and Distributions*".

### **Premium Tax on Kansas Companies**

The 1970 Legislature enacted a tax on Kansas insurance companies at the rate of one percent per annum on all premiums received on risks located in this state. The revenue from this tax is deposited into the General Revenue Fund. The year 1983 marked the thirteenth time in which this department collected the premium tax from companies organized under the laws of this state.

### **Privilege Tax on Kansas Companies**

The year 1983 also marked the thirteenth time this department collected a Privilege Tax from each company organized under

the laws of this state. The revenue from this tax is also deposited into the General Revenue Fund and is the result of the 1970 Legislation which enacted a five percent tax on the companies' net income as a privilege of doing business in this state.

### Kansas Insurance Guaranty Association

The Kansas Insurance Guaranty Association Act continues to function pursuant to legislation, also enacted by the 1970 Legislature. The purpose of the act is to provide a mechanism for the payment of coverage under certain insurance policies, to avoid excessive delay in payment of such claims and to avoid financial loss to claimants or policyholders because of the insolvency of an insurer. Further, this act assists in the detection and prevention of insurer insolvencies, and provides an association to assess the costs of such protection among insurers. The act applies to the kinds of direct insurance specified in K.S.A. 40-901 and 40-1102, except for certain specified lines such as Accident and Health, Credit and Title Insurance.

The Board of Directors of the Kansas Insurance Guaranty Association is composed of nine persons representing member insurance companies and appointed by the Commissioner of Insurance.

### Workers' Compensation Assigned Risk Plan

The Workers' Compensation Assigned Risk Plan operates under authority of K.S.A. 40-2108. The Plan provides Workers' Compensation and Employers Liability Insurance for qualified applicants unable to procure this kind of insurance in the normal market. The Kansas Council on Compensation Insurance administers the Workers' Compensation Assigned Risk Plan and has provided the following information:

### Kansas Fair Plan

Kansas FAIR Plan (Fair Access to Insurance Requirements) operates under K.S.A. 40-2101 and Insurance Department Regulation 40-3-33. The purpose of the Plan is to provide fire, extended coverage, vandalism and malicious mischief insurance for qualified applicants unable to obtain this kind of insurance in the normal market, and to provide an all-industry placement facility which will provide for an equitable distribution and placement of risks among all insureds. The nine members of the governing committee were appointed by the commissioner. The following table reflects a comparison of the years 1978 through 1983.

Year	No. of Policies in Force (New & Renewal)	No. of New Applications Received	Premium Written	No. of Losses Reported	Amount of Losses Paid	Loss Ratio Paid/ Written	Insurance in Force

### The Kansas Automobile Insurance Plan

The Kansas Automobile Insurance Plan operates under authority of K.S.A. 40-2102. The Plan provides automobile liability insurance and automobile physical damage insurance for qualified applicants unable to procure this kind of insurance in the normal market. There are nine members in the Governing Board representing the insurance companies, insurance agents and general public, all appointed by the Commissioner of Insurance.

The Kansas Automobile Insurance Plan has provided the following information:

Year	Number of Private Passenger Vehicles Insured	New Applications Assigned	Percent of Private Passenger Vehicles in the Plan to the Total Registered Private Passenger Vehicles in the State
1979	63,404	30,802	4.67%
1980	61,914	33,233	4.49%

### **Kansas Automobile Assigned Claims Plan**

The Kansas Automobile Assigned Claims Plan operates under authority of K.S.A. 40-3116. The Plan is designed to provide personal injury protection benefits for certain qualified persons who suffer injury in this state pursuant to the Kansas Automobile Injury Reparations Act. The Plan has provided the following information relative to this activity:

Year	Claim Cost	No. of Claims
1977	\$21,711.39	26
1978	31,457.94	26
1979	17,218.64	23
1980	42,418.75	21
1981	49,924.81	15
1982	20,225.73	18
1983	20,007.16	27

### **Self-Insurers (No-Fault Law)**

A total of fourteen (14) firms qualified as self-insurers under the Kansas Automobile Injury Reparations Act in 1983. To qualify for a Certificate of Self-Insurance, a comprehensive review of the financial condition of the individual or corporation is required. In addition, the applicant must submit other supporting information relative to claim handling procedures and must submit monthly report forms outlining claim activity. K.S.A. 40-3104(d) also requires that more than 25 vehicles be owned and registered in the State of Kansas. The self-insurers reported a total of 270 claims incurred during 1983 and total claim payments of \$132,257.50.

### **Medical Malpractice Insurance**

The Kansas Health Care Provider Insurance Availability Act, which became effective on July 1, 1976, continues to provide an effective solution to the availability problems encountered prior to the implementation of this act. Under the provisions of the Act, the Health Care Stabilization Fund and the Health Care Provider Insurance Availability Plan were established. On December 31, 1983, the Health Care Stabilization Fund, administered by the Commissioner, had a balance of \$9,231,325.29. As required by the Act, the Fund provides unlimited excess professional liability coverage for Kansas health care providers complying with the basic coverage insurance requirement. The Health Care Provider Insurance Availability Plan is the profes-

sional liability insurance availability mechanism for health care providers unable to obtain the required basic coverage from normal insurance markets. The Health Care Provider Insurance Availability Plan, through its servicing carrier, The Western Casualty and Surety Company of Fort Scott, Kansas, issued approximately 409 policies during Fiscal year 1983. From Fiscal year 1977 through Fiscal year 1982, the Plan's operations resulted in an overall "profit" total of \$394,247. In Fiscal year 1983, the Plan experienced an operating deficit of \$1,379,305, which was transferred to the Plan from the HCSF.

Other provisions of the Health Care Provider Insurance Availability Act permit health care providers to comply with the basic coverage requirements by becoming authorized self-insurers for \$100,000/\$300,000 professional liability losses. During 1983, three Kansas hospital facilities qualified for self-insurance authorization.

### **Products Liability Insurance**

Statutory product liability statistics and closed claim reporting requirements, as set forth in K.S.A. 40-1130, continue to create special workload requirements in soliciting, reviewing, correcting and processing the required reporting forms from insurance companies. In 1983, approximately 900 closed claims reports were received along with the required product liability statistical reports from 278 companies.

### **Professional Liability Insurance**

In addition to the collection and compilation of product liability closed claims, the Professional Liability Section also receives closed claims reports on various types of health care providers, engineers, architects, land surveyors, attorneys and certified public accountants. A report of Medical Malpractice Closed Claims reveals 467 claims were closed in calendar year 1983.

### **Automobile Clubs**

A total of 19 Automobile Clubs were licensed by this division in 1983 pursuant to Chapter 25 of Article 40 of the Insurance Code.

*Kansas Department of Insurance*

**Premium Finance Companies**

A total of 14 Premium Finance companies were licensed by this division in 1983 pursuant to Chapter 26 of Article 40 of the Insurance Code.

**Certificate of Authority**

All Certificates of Authority for Fire and Casualty companies are prepared in this division. A total of 613 companies were licensed by this division to transact the business of insurance in Kansas as of December 31, 1983. Many amendments to the Certificates of Authority were also processed in the Division during the year.

Following are the corporate changes finalized in 1983:

Admissions .....	43
Cancellations .....	4

Mergers .....	3

(The above does not include Premium Finance Companies, Automobile Clubs, or Rating Organizations.)

**Admissions**

The final administrative details of admitting a Fire and Casualty company are handled in this division. A total of 43 Fire and Casualty companies were admitted during 1983.

**Rate Filings**

The year 1983 was also an active year for the submission of rate filings involving rate increases and decreases. A total of 7,484 rate filings were received in the division during 1983. This represents an increase in number from 1982. The following is an analysis of the premium effect of all rate filings approved in the three major sections of this division during 1983:

Section	Premium Effect
Automobile .....	+\$17,895,792
Fire .....	+ 3,521,439
Commercial Multi-Peril & Casualty .....	- 3,127,994
TOTAL .....	+\$18,289,237

In addition to the rate filings mentioned above, this division also reviewed 34 filings relating to fire insurance grading of cities and towns in Kansas. The proposals were submitted by the Insurance Services Office which is the only rating organization

### Complaints and Inquiries

Personnel of this division handled many consumer inquiries and complaints either directly or upon referral from the Consumer Assistance Division. In 1983, the division handled numerous complaints directly from the consumer. The inquiries referred to this division totaled 232 in 1983.

### Market Conduct Review

During 1983, this Division performed market conduct reviews involving forty-one (41) insurance companies. Reviews for twenty-eight (28) of these companies were completed and placed on file as public documents; therefore, the reviews for the remaining thirteen (13) companies are either pending or are in process. In addition, a follow-up market conduct review has been performed on eight (8) insurance companies.

The market conduct reviews involved many areas within the field of insurance. The areas reviewed for each company depended upon the concerns of the department and the writings of the company.

The areas monitored were:

1. Advertising Material and Practices
2. Underwriting Practices
3. Rating Practices
4. Redlining
5. Refunding Practices
  - a. Reviewed to determine that the amount of refund was correct.

## PREFACE

The Kansas Insurance Department is subject to the Kansas Sunset Law pursuant to K.S.A. 40-102(b) and is scheduled for abolition on July 1, 1985 pursuant to K.S.A. 74-7262 and 74-7263. The Department is, in essence, required pursuant to K.S.A. 74-7248 to justify its continued existence. This report is designed to assist the Legislature in understanding the work of the Department and its regulatory activities on behalf of the public.

Insurance regulation is the responsibility of the states pursuant to the McCarron-Ferguson Act of 1945. This act provides, in general, that as long as the states are effectively regulating the business of insurance, the federal government will not assume control of this activity even though insurance transacted across state lines has been deemed to be interstate commerce. Kansas is, therefore, a participant in a state system of insurance regulation.

The National Association of Insurance Commissioners is comprised of the chief insurance regulatory official of every state and U.S. territory and exists to assist the states in their regulatory responsibilities by sharing information, coordinating examinations of insurance companies and developing model laws and regulations. The executive offices of the NAIC are in Kansas City, Missouri with a Securities Valuation branch in New York, New York.

I. HISTORY, PURPOSE, AND ORGANIZATION OF THE KANSAS INSURANCE DEPARTMENT

The Kansas Insurance Department was organized in 1871 and is presently authorized by K.S.A. 40-102. The Commissioner of Insurance is the chief officer of the Department. Originally, the Commissioner was an appointed official; however, this was changed to an elective office by emergency action of the legislature shortly after the turn of the century and has been an elective office ever since. The Commissioner is charged with the administration of all laws relating to insurance, insurance companies and fraternal benefit societies doing business in this state. Other duties related to this primary responsibility have been imposed upon the Commissioner by law. The insurance laws of Kansas are located in Chapter 40 of the Kansas Statutes Annotated.

The Department is located at 420 S.W. 9th Street, Topeka, Kansas. Its office hours are 8:00 a.m. to 12:00 noon and 1:00 p.m. to 5:00 p.m. Monday thru Friday except for state holidays. The telephone number of the Department is (913) 296-3071. There is a toll free number (1-800-432-2484) available to the public. The Department has a branch office in Wichita whose telephone number is (316) 267-5279. The Department currently has approximately 130 employees.

## II. DEMONSTRATION OF A PUBLIC NEED FOR THE CONTINUED EXISTENCE OF THE INSURANCE DEPARTMENT

Although there are various approaches that could be utilized in demonstrating a public need for the continued existence of the Insurance Department, we have chosen in preparing this report to describe the major activities of the Department with the anticipation that the readers will understand the benefits derived by the public and the importance of the activities to the public. In other words, we believe a relatively brief description of the activities and responsibilities of the Insurance Department will make it abundantly clear that insurance companies must be regulated; that insurance consumers must be protected; and, that there is a relationship between the regulation of insurance and the general fund revenue that is generated through premium taxes and fees paid by the insurance industry.

A. Regulation for Solvency

People purchase insurance for economic protection. The insured, by paying a premium, is doing so with the anticipation that a legitimate claim will be paid by the insurance company in a timely manner. In essence, the insured is anticipating the insurance company will be financially capable of paying its claims. The insured is generally not in a position to carefully ascertain the financial condition of the insurance company from which insurance coverage is purchased. For this reason, it is extremely important that the solvency of insurance companies be strictly regulated by the Department. In fact, regulation for solvency is one of the highest priorities for the Kansas Insurance Department.

Regulation for solvency is, at this time, carried out by the Department in the following manner:

1. Minimum financial requirements:

Each insurance company authorized to do business in Kansas must meet certain minimum financial requirements established by the legislature and enforced by the Insurance Department. These requirements represent the bare minimum, in the opinion of the legislature, at which an insurance company should be allowed to sell insurance in this State. Companies meeting these requirements are identified in a directory which is furnished at no charge to Kansas residents upon request. In addition, information in regard to whether a company meets these requirements is furnished to persons calling, writing or visiting the Department.

2. Admission of Insurance Companies to the State:

Prior to issuance of a Certificate of Authority to transact business in this state, a thorough review is made of the company. Areas reviewed include the company's financial condition, examination reports, marketing policy, organizational structure, claim practices, and related areas. A similar review is performed, to the extent possible, on companies being organized in this State.

3. Monitoring of the Financial Condition of Insurance Companies:

Subsequent to admission of an insurance company to this State, surveillance is maintained over the financial condition of the company. Measures employed by the Department to monitor the financial condition of insurance companies doing business in Kansas include the following:

- a. Examination of the financial condition of insurance companies doing business in Kansas. Kansas is a participant in a nationwide examination system coordinated by the National Association of Insurance Commissioners which provides for sharing of information and expertise.
- b. Analysis of critical financial ratios prepared from annual statements of insurers by the National Association of Insurance Commissioners.

- c. Analysis of annual statements submitted to this Department by admitted insurers.
- d. Analysis of quarterly statements submitted to this Department by certain insurers.
- e. Review of filings made by insurers under the Kansas Insurance Holding Companies Act.
- f. Review of examination reports prepared by other states on foreign insurance companies admitted to Kansas.

If it appears from such monitoring that a company's financial condition is deteriorating to the extent that its continued operation might be hazardous to the public, the Department initiates steps to protect, to the extent possible, the public. The steps taken by the Department to protect the public may include requiring the company to cease writing new business, obtaining a deposit of securities to pay claims of Kansas policyholders in the event of insolvency, requiring the company to reinsure its Kansas business, or suspending the company's Certificate of Authority to do business in Kansas.

4. Operation of the Securities Vault:

Securities are required to be deposited by Kansas statutes in the securities vault by most Kansas companies. In addition, certain

foreign companies are required to deposit securities because of financial problems, the retaliatory statute or other reasons. These securities, which now exceed one billion dollars, are to be used for the benefit of policyholders and/or creditors in the event of insolvency of the depositing company. The Department maintains the securities and monitors their value and adequacy to assure they are available and adequate if needed.

5. Utilization of Guaranty Associations:

Kansas statutes provide for creation and operation of guaranty associations to assist Kansans in the event an insurance company is financially unable to meet its obligations to these persons. The Department works closely with these associations to assure that Kansans to whom benefits are owed receive proper payment through the associations.

B. Consumer Services

An insurance company's ability to serve the public becomes very apparent at the time a claim is filed. Inasmuch as accurate, proper and prompt service to the public is important, it is vitally necessary that this aspect of an insurer's operations be regulated. At this time, regulation of a company's market conduct is carried out in the following manner.

1. Consumer Assistance Division Activities:

- a. This division, which has a branch office in Wichita, is responsible for assisting the public when they have complaints or inquiries in regard to insurance companies, agents or coverage. The chart below demonstrates the extent to which the services of this division are utilized by the public.

\*\*Approximately \$2.3 million of the 1984 represents amount was recovered from one company in one case on behalf of a large number of policyholders.

- b. This division periodically schedules "consumer days" in various locations across the State during which representatives of the Insurance Department are present to assist with insurance complaints and inquiries. This type of activity accommodates those persons who would rather visit personally with an employee of the Insurance Department than call or write the Department.
- c. This division sends representatives to assist communities that have experienced severe storms, floods, or fire damage. These representatives will establish a temporary office to assist the public in contacting their insurance company and in filing claims and will assess the total damage to help assure there will be a sufficient number of adjusters present from the insurance companies to handle the claims.
- d. The Consumer Assistance Division maintains detailed records through the assistance of a computer in regard to all complaints and inquiries received. From these records, the Department can determine if any company is having an unusual number of

complaints filed against it. The Department can then determine the most appropriate method to address the problem. The options available to the Department include asking the company for an explanation, calling the company into the Department for a conference, initiating a market conduct examination on the company, calling a hearing on the company, and proceeding against the company under the Unfair Trade Practices Act contained in the Kansas statutes.

- e. This division also participates in a market conduct review conducted on each domestic insurance company in conjunction with its financial examination. A number of items are looked at on each review to determine if the company is treating the public fairly and if the company is in compliance with the Unfair Trade Practices Act and the Unfair Claim Settlement Practices Regulation.
- f. This division also develops and conducts seminars of various kinds to assist the public in better understanding insurance. The most visible of these seminars are the Senior Citizen Seminars that have been conducted at 46 different Kansas locations during the past 3 years and have been repeated several times in more populous communities.

3. Participation in the Market Conduct Surveillance System Coordinated by the National Association of Insurance Commissioners:

The Department is a participant in the market conduct surveillance system coordinated by the National Association of Insurance Commissioners. The Department receives notice of examinations called by other states through the National Association of Insurance Commissioners and circulates this information to supervisors in order that they may request information from the other states if they so desire. The Department can also participate in the examinations called by other states if it so desires. The examination reports prepared by other states on companies admitted to Kansas are also available to the Department.

Representatives of the Department's rate and form divisions participate in the market conduct review of domestic companies on a regular basis. The examiners from the rate and form divisions ascertain if the public is being treated properly in several areas: e.g., rating, underwriting, etc.

4. Legal Division Responsibilities:

Representatives of the Legal Division research possible violations of Kansas law, including the Unfair Trade Practices Act, by insurance

companies, agents and the other segments of the insurance industry under our jurisdiction as they relate to treatment of Kansans. The Legal Division can then initiate any appropriate remedial action under Kansas law. This includes calling and conducting formal administrative hearings; recommending a manner of disposition to the Commissioner and issuing an order carrying out the decision to suspend, revoke, penalize, cease and desist or exonerate. The division also is responsible for all litigation the Department becomes involved with.

5. Financial Examiners Participation:

In addition to their primary mission of performing a financial audit, the Department's financial examiners also look for possible evidence of company practices that are unfair to the public during financial examinations. Any information of this type discovered by the examiners is reported to the Department for appropriate action.

C. Regulation of Policy Forms and Rates

Policy forms issued by insurance companies are extremely technical documents. Although most forms have, in recent years, been drafted in "easy-to-read" language, they are still complex and are often not easily understood. Equally, if not more difficult, are the procedures utilized by insurance companies in developing rates for the policies. For this reason, the public is dependent upon the Department to review forms and rates to the extent provided by law prior to their utilization in Kansas. The type of work performed by the Department in this area is of the type that the public would generally not have the time or the ability to do prior to purchasing a policy. The Department has three divisions responsible for review of policy forms, rates and supporting documents. A description of these activities by each of these divisions follows:

ACCIDENT & HEALTH DIVISION

The Kansas insurance code requires approval by the Commissioner of all accident and health policy forms and endorsement forms that an insurance company desires to use in this State. In addition, the classification of risks and the premium rates pertaining to individual accident and health policy forms issued by insurance companies must be filed with this Department. The Department is also responsible for approving all policy forms and rates which non-profit hospital, medical service, dental service, and optometric service corporations and health maintenance organizations desire to use in this State. The Kansas statutes and regulations contain requirements pertaining to the content of policy forms submitted for approval for use in Kansas: e.g.,

uniform policy provisions, renewal conditions, countersignature provisions, ten day free-look provisions, etc. The primary objective of the Accident & Health Division is to ensure that the forms issued by organizations doing accident and health insurance business in Kansas are not unfair, unjust, inequitable, misleading, or deceptive; that such forms contain all requirements imposed by statutes and regulations; and that the rates charged for certain coverages are reasonable, not excessive, and not unfairly discriminatory.

A summary of the activities of this division in this area follows:

	<u>Policies, Riders, etc.</u>				
	1980	1981	1982	1983**	1984
Total Forms Received	7,432	9,558	11,779	9,806	15,990
Forms Disapproved*	5,564	7,655	9,413	2,763	6,721
Forms Withdrawn	280	420	458	343	679
Forms Approved*	4,984	5,512	8,556	7,062	12,924
Forms Reviewed	10,959	15,137	16,836	11,039	18,991

\*The forms approved and disapproved will not reflect the number received as they include forms reviewed from the backlog of the past year. In like manner, a portion of the forms received as shown above were not acted upon, and will form the backlog reflected in next year's approved/disapproved statistics.

\*\*The figures shown for 1983 cannot be realistically compared to those figures prior to 1983. The method of accounting for such forms was revised in

1983. Currently, only the original submission of a file is counted whereas prior to 1983 original submissions as well as resubmissions to the original file were added into the total.

	<u>Rates</u>				
	1980	1981	1982	1983	1984
Rate Filings Received	1,775	2,372	2,439	2,622	2,135
Rates Not Filed*	1,549	1,574	2,094	1,037	1,109
Rates Withdrawn	103	72	79	48	43
Rates Filed*	917	1,853	2,270	2,250	1,954
Rates Reviewed	2,622	3,861	5,023	3,236	3,040

\*The rates filed and not filed will not reflect the number received as they include rates reviewed from the backlog of the past year. In like manner, a portion of the rates received as shown above were not acted upon, and will form the backlog reflected in next year's filed and not filed statistics.

#### LIFE DIVISION

The Kansas insurance code also requires approval by the Commissioner of all life insurance policy forms, annuity contracts, and riders that an insurance company desires to use in this State. In addition, the rates to be charged by the company for each policy form submitted for approval must be filed with the Commissioner although the Commissioner has no authority to approve or disapprove such rates. The Department is also responsible for establishing the maximum rates that can be charged for credit life insurance. The Kansas statutes contain requirements pertaining to the content of policy forms submitted for approval for use in Kansas; e.g., standard provisions for life

contracts, ten day free-look, etc. The primary objective of the Life Division is to ensure that the forms issued by organizations in this State are not unjust, unfair, inequitable, misleading, or deceptive; that all forms comply with statutory requirements; and that credit life rates comply with the appropriate regulations.

A summary of activities of this division in this area follows:

	<u>Policies, Riders, etc.</u>				
	1980	1981	1982	1983	1984
Forms Submitted	12,726	10,504*	9,530	12,794	12,518

Forms Disapproved	1,321	1,669	1,328	1,051	601

\*The method of counting these forms was revised in FY 1981.

#### FIRE & CASUALTY DIVISION

The Kansas insurance code requires approval by the Commissioner of almost all property and casualty forms, rates, and rules that an insurance company desires to use in this State. The Kansas statutes and regulations contain requirements pertaining to the policy forms and rates submitted for use in Kansas; e.g., cancellation of automobile liability insurance; advertising; return of unearned premiums; reasonable, adequate, and not unfairly discriminatory rates; etc. In addition, the statutes require submission of necessary supporting and related information to determine compliance with the laws and regulations

of this State. The primary objective of the Fire & Casualty Division is to assure that all contracts the company desires to use in Kansas are in compliance with applicable statutes and regulations; that the forms issued by companies in this state provide coverage that is reasonable in relation to the premium charged; and that rates are not excessive, inadequate, nor unfairly discriminatory.

A summary of the activities of the division in this area follows:

	1980	1981	1982	1983	1984
Policy & Endorsement Forms Received	17,978	20,123	23,015	28,311	33,070

Rate Filings Disapproved	1,254	993	1,120	1,349	1,757

D. Regulation of Agents and Brokers

Any discussion of insurance regulation should include a discussion of agents and brokers. These individuals are often perceived to be the insurance company by the public and are frequently relied upon by the public for advice in regard to developing their insurance programs. For this reason, regulation to help assure that the individuals authorized by the Commissioner to sell insurance to the public in this State possess a good business reputation, are worthy of a license, and possess the necessary intelligence to serve the public in a professional manner is absolutely necessary. Because of the Department's recognition of the importance of sound regulation in this area, a study committee comprised of industry and Department personnel was appointed in 1980 to review the entire area of agents licensing regulation in this State. This study committee considered alternatives ranging from eliminating regulation over agents entirely to the imposition of continuing education requirements for all agents. As a result of this study, a recommendation was made which resulted in legislation being enacted allowing the Department to use an outside firm to prepare study manuals for applicants for agents licenses. The firm selected to produce these manuals has an arrangement with Drake University of Des Moines, Iowa to prepare examination questions for the Department. This legislation has, therefore, allowed the Department to obtain the expertise of professionals in developing the study manuals and examinations. The Department continues to administer the examinations.

The statutes contain the minimum requirements an individual must meet to obtain a license and provides authority for the Commissioner to determine his

or her worthiness to hold a license. The importance of this function is evident by the following activities carried out by the Department to help ensure the public is served by qualified individuals:

1. Review of application for agent's license.
2. Conduct a background check through the Kansas Bureau of Investigation.
3. Ascertaining that the applicant has at least a minimum high school education or its equivalent.
4. Test applicant over the lines applicant desires to write.
5. License applicant for lines for which examination was passed.
6. Administer laws requiring minimum education requirements for life and health agents within 5 years after initial licensure.

The number of examinations administered and certifications issued during the last five years is shown below:

	Examinations Administered	* Certifications Issued
1980	5,411	139,890
1981	5,532	166,707

1982	7,217	193,503
1983	6,911	213,338
1984	8,205	228,488

\*A certification is the form issued to a licensed insurance agent authorizing him or her to sell insurance for a particular company. There are in excess of 24,000 individuals licensed as insurance agents at the present time.

E. Advocate for the Public

The Department has a solid record of developing programs, activities and legislation for the benefit of the public. Included in this category are the following:

1. Education

- a. **Senior Citizen Seminars:** Over 10,000 Kansans have attended Senior Citizen Seminars conducted by representatives of the Insurance Department and Medicare to acquaint people with coverages provided by Medicare and Medicare Supplement insurance. These forums have proved to be very beneficial to senior citizens in developing their insurance programs.
- b. **The Kansas Insurance Education Foundation:** As a result of the Department's suggestion, the Kansas Insurance Education Foundation was organized on March 31, 1981, to provide insurance education programs and materials to Kansans. The Foundation works with three primary groups: junior and senior high school students and teachers, college and university personnel, and the general public. The Foundation has received numerous requests for materials and programs.
- c. **Speeches:** Members of this Department have been very active in delivering speeches to schools, civic clubs, and other organizations in regard to insurance related matters.

- d. **Brochures:** The Department has published eight brochures to help the public understand pertinent facts about various types of insurance coverage. These brochures are available at no charge to the public.
  - e. **News Releases:** The Department prepares news releases for the public in regard to insurance issues in which the public should be interested.
2. **Legislation.** The Department has recommended legislation to assist the public in the following areas:
- a. Impose limitations on the right of insurance companies to refuse to renew auto liability insurance policies.
  - b. Prohibition of unfair discrimination solely because of age in the issuance or renewal of auto liability insurance policies.
  - c. Obtain statutory authority to disapprove the use of life insurance policies that contain provisions which are unjust, unfair, inequitable, misleading, deceptive or that encourage misrepresentation.
  - d. Obtain a stronger Unfair Trade Practices Act to give the Commissioner authority to enforce the laws relative to misrepresentations and unfair advertising.

- e. Obtain increased regulatory authority over operations, including rates, of Blue Cross and Blue Shield organizations.
  - f. Obtain increased authority to restrict operations of insurance companies that may be in a weak financial condition.
  - g. Establish insurance guaranty funds to give protection to the public in the event their insurance company becomes insolvent.
  - h. Establish a program to provide medical malpractice insurance to health care providers and doctors at a time when the availability of this coverage was lacking.
  - i. Provide for organization of health maintenance organizations as an alternative to the traditional health care delivery system.
  - j. Numerous "housekeeping" proposals which enable the Department to fulfill its responsibilities more efficiently and more effectively.
3. Easy-to-read policies: The Department has been a strong advocate of policies written in easy-to-read language and has formally encouraged companies to draft forms in this manner.

F. Tax Collection

The Kansas Insurance Department is responsible for collecting taxes and fees from insurance companies, agents, and other entities doing business in Kansas. For Fiscal Year 1984, the Department collected over \$46 million dollars in taxes and fees. These monies were deposited in the General Fund of the state of Kansas. A summary of the taxes, fees, and other monies received in Fiscal Year 1984 is attached as Exhibit 1.

The Department, in order to ascertain that companies pay the proper amount of taxes and fees, performs an intensive audit on the annual tax statements submitted by insurance companies. This auditing function is often complex and generally requires a great deal of knowledge about the Kansas tax and fee structure as well as an understanding of the insurance industry. Adding complexity to this process is a retaliatory statute which requires that our auditors ascertain that any retaliatory amounts due this State are paid.

G. Other Activities

Other activities for which the Department is responsible include:

1. Approval of any new stock issued in Kansas by an insurance company.
2. Approval of any proxy material to be sent to stockholders of Kansas domiciled companies.
3. Approval of any merger or consolidation transaction involving a Kansas company.
4. Administration of the Health Care Provider Insurance Availability Act which includes the Health Care Stabilization Fund.
5. Administration of the Workers' Compensation Fund.
6. Licensing of automobile clubs and premium finance companies.
7. Licensing of third party administrators.
8. Administration of the Firemen's Relief Fund.
9. Regulation of health maintenance organizations.
10. Licensing of excess lines agents and collection of premium tax for excess lines business. (Insurance written on Kansas risks by insurance companies that do not possess a Kansas Certificate of Authority)

### III. LOOKING AHEAD

An effective Insurance Department must constantly be looking ahead to prepare for continuous strong regulation on behalf of the public. To adequately prepare for the future, the Department must continually be monitoring the industry including its organization, its products, its product distribution system, its financial resources, and other pertinent areas. In addition, the Department must concurrently be analyzing its own resources to determine the best approach to meet its future regulatory responsibilities. The insurance industry today is in a time of tremendous change which makes future planning even more critical. Integrated financial services, new interest sensitive products, financially troubled companies, data processing technology and many other factors are requiring new approaches to regulation of insurance. The Department is constantly attempting to identify critical areas that will need regulatory attention and is continually improving its ability to address these issues.

#### IV. CONCLUSION

This Department is regulating an industry that is providing promises to pay when certain events occur. These events can occur at any time from immediately after purchasing a policy to many years later. There are, at the present time, approximately 1,200 insurance companies authorized in Kansas who make these promises. Adding to the complexity of the regulatory responsibilities is the very technical nature of the promises. The public is often trusting their financial well-being to the insurance industry by placing their faith in the promises of the company. The regulatory responsibilities of the Department are, therefore, very great because we see our job as being one of assuring to the extent humanly possible, that insurance companies doing business in Kansas only make promises they can keep and keep the promises they make.

Hopefully, this report satisfactorily describes the Department's activities in regulating the insurance industry and the importance of this regulation to the public. The absence of this regulation would certainly not be in the best interest of the public. Accordingly, we believe the Department should be continued in existence for the maximum amount of time permitted under the statutes.
