This request would be to amend K.S.A. 65-2872 as follows: Collect Administrative fines, amend several statutes, change fellowship license to restricted institutional permits, etc. There was a lengthy questioning posed to Mr. Strole.

There was a hand-out given to committee in form of a sample bill and a bill brief, see (Attachment No. 6), and (Attachment No. 6-A), for details. She explained this is a request for in home and community based care for people who are slightly over the poverty level, and do not qualify for medicaid. It calls for a sliding fee scale, local program planning, gap filling, (so there are no duplications), and screening those desiring these services. She asked that this be introduced as a committee bill. Ms. Major then went into great detail about studies being done, and the importance of the need of these services to the elderly so that they may continue to live in their own homes and communities. She then answered numerous questions from committee, i.e., yes, the bill is for older people as well as for handicapped; yes, there is a fiscal note; coordination of these services is necessary so there is no overlapping, etc.

Others aided Ms. Major in answering questions were Nadine Burk, and Mr. Gary Petz from Coalition on Aging.

Chair then asked committee their wishes in regard to these requests. Rep. Williams moved a bill be introduced as per this request, seconded by Rep. Pottorff, motion carried.

TO: The Honorable Marvin Littlejohn, Chairman, and Members
of the House Public Health and Welfare Committee

FROM: Dr. Lois Rich Scibetta, Executive Administrator

DATE: January 24, 1985

RE: Re-Introduction of Senate Bill 807

Thank you Mister Chairman for providing me the opportunity to speak in favor of the reintroduction of SB 807. Last year this Bill was lost on the calendar. It was however, reported out favorably by the Senate and House Public Health and Welfare Committees.

The Bill does not involve an increase in fees. The purpose of reintroduction of SB 807 is essentially a clean-up Bill. Since the Board of Nursing does not have the authority to write general policy statements per se, the Board believes that standard procedures should be in regulatory form. This is what we are attempting to do with this Bill.

The Board voted in October 1983 to have the examination candidates make direct payment to the examination service for the cost of the examination only. This is generally a one-time cost for the candidate of \$18.50. In the past, the Board was required to pay \$21.50 per candidate out of our \$60.00 licensure fee. The Board continues to clear all candidates for examination, and the candidates continue to pay the Board the licensure fee of \$60.00. The new process reduces the Board of Nursing expenditures and, because of this, a fee increase was averted. The State of Kansas continues to receive 20% of all Board income.

It is true, that other Boards in Kansas do not use this direct payment procedure, because the option is not available to them. In the United States there are currently fifty (50) nursing boards following the direct payment procedure.

The second part of the Bill is related to our regulatory responsibilities. The Bill would enable the Board to strengthen the in-house handling of disciplinary matters, regarding interstate findings and requests for continuance of hearings. These changes were suggested by our Board attorney.

I am asking the Committee to introduce SB 807, and to recommend the Bill out favorably for passage.

Thank you for your consideration. I will be happy to answer any questions which you may have.

At the hearing the board shall administer oaths as may be necessary for the proper conduct of the hearing. WHATS NEW??

*Staff Recruitment: The position of Nursing Education Specialist is now being recruited. The job requires that an RN have at least a Masters Degree, preferably a doctorate, and experience in curriculum development and teaching experience on the baccalaureate and Masters level. Candidates will be interviewed in December. We will keep you informed. In July, Marge McCready accepted a position with the Stormont Hospital School of Nursing in Topeka. We all wish her well in her new position.

Needless to say, the vacancy of the Nursing Education Specialist has caused delays related to education matters. School visits have been postponed and other activities (continuing education) have been greatly curtailed until the position is filled. Your patience in this matter is appreciated.

Please give us as much time as possible to review any continuing education program. The regulations do require three months notice. In the past, with a full-time professional here, the time factor was not as serious a problem, as it is at this time. Again, thank you for your cooperation.

I am happy to report that Mrs. Ruth Engle, Clerk III, joined our staff on October 8, 1984. Mrs. Engle replaced Mrs. Cindy Pangburn, who transferred to another job. Mrs. Engle will be responsible for the clerical activities in education and in the practice area.

*LMHT Regulations: As you will recall, during the 1983 Sunset Review of the Board, legislation was passed which enabled the Board to promulgate regulations for continuing education hours for Mental Health Technicians. The regulations have been written, the public hearing was held in Salina on November 15, 1984. Briefly, the regulations provide for a two year license for the MHT and require 20 hours of continuing education for renewal in 1986.

*Video Tape Series on the Board of Nursing: Plans are underway to update the tape series prepared in 1982. Some of the materials are outdated, and the Sunset Review in 1983 resulted in many changes in the Nurse Practice Act. If you have seen the tapes, and have suggestions, please let us know. (Continued, page 2)

The purpose of the Board of Nursing is to protect the public through the licensure process.

Board Vice-President, Joan Olden Brake, R.N., recently presented a paper to the Public Health Nurse Section, American Public Health Association in Anaheim, California.

WHATS NEW!! (Continued)

*Nurse Practice Act: The 1984 Revised edition of the laws and regulations is now at the printers. We should have them by the end of December. The official name of the regulations has been changed to the Kansas Nurse Practice Act. If you would like a copy of the revised edition of the Nurse Practice Act, please send a check or money order for \$2.00 per copy to the Board office.

A survey of the institution or institutions and of the schools applying for accreditation shall be made by an authorized employee of the board or members of the board, who shall submit a written report of the survey to the board. If, in the opinion of the board, the requirements as prescribed by the board in its rules and regulations for an accredited school for professional nurses or for practical nurses are met, it shall so approve and accredit the school as either a school for professional nurses or practical nurses, as the case may be. From time to time, as deemed necessary by the board, it shall cause to be made a resurvey of accredited schools and written reports of such resurveys submitted to the board. If the board determines that any accredited school of nursing is not maintaining the standards required by this act and by rules and regulations prescribed by the board, notice thereof in writing, specifying the failures of such school, shall be given immediately to it. A school which fails to correct such conditions to the satisfaction of the board within a reasonable time shall be removed from the list of accredited schools of nursing until such time as the school shall comply with said standards. All accredited schools shall maintain accurate and current records showing in full the theoretical and practical courses given to each student.

[L. 1949, ch. 331, § 8; L. 1963, ch. 314, § 5; L. 1973, ch. 249, § 2; L. 1978, ch. 240, § 5; L. 1980, ch. 188, § 2; L. 1980, ch. 186, § 2; L. 1981, ch. 244, § 2; L. 1982, ch. 261, § 3; L. 1983, ch. 207, § 3; L. 1983, ch. 206, § 9; L. 1983, ch. 206, § 14; July 1.]

65-1120. Denial, revocation or suspension of licenses or certificates of qualification; costs. (a) The board shall have the power to deny, revoke, limit or suspend any license or certificate of qualification to practice nursing as a registered professional nurse, as a licensed practical nurse or as an advanced registered nurse practitioner that is issued by the board or applied for in accordance with the provisions of this act in the event that the applicant or licensee is found after hearing to have been: (1) Guilty of fraud or deceit in procuring or attempting to procure a license to practice nursing; (2) guilty of a felony if the board determines, after investigation, that such person has not been sufficiently rehabilitated to warrant the public trust, or of any offense involving moral turpitude; (3) unfit or incompetent by reason of negligent habits or other causes; (4) habitually intemperate in the use of alcohol or addicted to the use of habit-forming drugs; (5) mentally incompetent; (6) guilty of unprofessional conduct; or (7) has willfully or repeatedly violated any of the provisions of the Kansas nurse practice act or any rule and regulation adopted pursuant to that act.

(b) *Proceedings.* Upon filing of a sworn complaint with the board charging a person with having been guilty of any of the unlawful practices specified in subsection (a), two or more members of the board shall investigate such charges, or the board may designate and authorize an employee or employees of the board to conduct such investigation. After investigation, the board may institute charges. In the event such investigation, in the opinion of the board, shall reveal reasonable grounds for believing the applicant or licensee is guilty of the charges, the board shall fix a time and place for a hearing thereof and shall

cause a copy of the charges, together with a notice of the time and place fixed for hearing, to be personally served on the accused at least 20 days prior to the time fixed for hearing. When personal service cannot be effected and such fact is certified on oath by any person duly authorized by the board to make service, the board shall cause to be published, once in each of two successive weeks, a notice of the hearing in a newspaper published in the county in which the accused last resided, according to the records of the board, and shall mail a copy of the charges and of such notice to the accused at the last known address of the accused. When publication of notice is necessary, the date of hearing shall not be less than 20 days after the last date of publication of the notice. At the hearing, the accused shall have the right to appear personally or by counsel, or both, to produce witnesses and evidence, to cross-examine witnesses, and to have subpoenas issued by the board. At the hearing the board shall administer oaths as may be necessary for the proper conduct of the proceedings.

(c) *Witnesses.* No person shall be excused from testifying in any proceedings before the board under this act or in any civil proceedings under this act before a court of competent jurisdiction on the ground that such testimony may incriminate the person testifying, but such testimony shall not be used against such person for any prosecution for any crime under the laws of this state except the crime of perjury as defined by K.S.A. 21-3805 and amendments thereto.

(d) *Costs.* If the order of the board is adverse to the applicant or licensee, the costs of the board's proceedings shall be charged to the applicant or licensee as in ordinary civil actions in the district court, but if the board is the unsuccessful party, the costs shall be paid by the board. Witness fees and costs may be taxed by the board according to the statutes relating to procedure in the district court. All costs accrued at the instance of the board, when it is the successful party, and which the attorney general certifies cannot be collected from the applicant or licensee shall be paid out of any available moneys in the board of nursing fee fund. [L. 1949, ch. 331, § 9; L. 1963, ch. 314, § 6; L. 1972, ch. 231, § 10; L. 1975, ch. 316, § 7; L. 1978, ch. 240, § 6; L. 1981, ch. 245, § 1; L. 1983, ch. 206, § 10; April 28.]

65-1121. Rehearing of orders of board; appeals to court; notice of stay of order or decision. Any person suffering legal wrong because of any order of the board refusing to issue, or revoking or suspending a nursing license or certificate of qualification, and any school of nursing or educational and training program for advanced registered nurse practitioners suffering a legal wrong because of an order of the board refusing to accredit the school of nursing or educational and training program for advanced registered nurse practitioners or revoking or suspending accreditation previously granted may:

(a) Apply to the board for a rehearing in respect to such matters within 10 days from the date of the service of such order, and the board shall grant or deny such rehearing within 10 days from the date application therefor shall be filed with it. If a rehearing or reconsideration be granted, the matter shall be determined by the board within 30

days after the matter is submitted. No cause of action arising out of any order of the board shall accrue to any party unless such party makes application for rehearing as herein provided.

(b) Appeal to a court of competent jurisdiction from any such order of the board by petition filed in such court within 30 days of service of the order from which appeal is taken and serving a copy of the petition upon the secretary of the board.

Such petition shall specifically state the grounds for appeal. The secretary of the board shall promptly certify to the clerk of such court a correct and full copy of the record of the board in connection with the order, including a transcript of evidence if taken, its findings of fact, conclusions and a copy of the order. The court shall review the record of the board's proceedings of such order or decision and, if it finds such order or decision unlawful, arbitrary or unreasonable, may vacate or set aside such order. Procedure upon trial of such proceedings shall be the same as in other civil actions, but no party shall urge or rely upon any ground not set forth in its application for rehearing. The filing or pendency of a petition for review shall not in itself stay or suspend the operation of any order or decision of the board, but, during the pendency of such proceedings the court, in its discretion, may stay or suspend, in whole or in part, the order or decision of the board. No order of the court so staying or suspending an order or decision of the board shall be made by the court otherwise than on five days' notice and after hearing and shall be based upon a finding by the court from the evidence that great or irreparable damage would result to the petitioner in the absence of such stay or suspension. [L. 1949, ch. 331, § 10; L. 1975, ch. 316, § 8; L. 1978, ch. 240, § 7; L. 1983, ch. 206, § 11; April 28.]

65-1122. Misdemeanors; penalties. It shall be a misdemeanor for any person, firm, corporation or association to:

(a) Sell or fraudulently obtain or furnish any nursing diploma, license, record or certificate of qualification or aid or abet therein;

(b) practice professional nursing, practical nursing or practice as an advanced registered nurse practitioner, unless duly licensed or certified to do so;

(c) use in connection with such person's name any designation implying that such person is a licensed professional nurse, a licensed practical nurse or an advanced registered nurse practitioner unless duly licensed or certified so to practice under the provisions of this act, and such license or certificate is then in full force;

(d) practice professional nursing, practical nursing or as an advanced registered nurse practitioner during the time a license or certificate issued under the provisions of this act shall have expired or shall have been suspended or revoked;

(e) represent that a school for nursing is accredited for educating either professional nurses or practical nurses, unless such school has been duly accredited by the board and such accreditation is then in full force; or

(f) violate any provisions of the Kansas nurse practice act or any rule and regulation adopted pursuant to that act.

Any person who violates this section shall be guilty of a

class C misdemeanor, except that, upon conviction of a second or subsequent violation of this section, such person shall be guilty of a class B misdemeanor. [L. 1949, ch. 331, § 11; L. 1963, ch. 314, § 7; L. 1975, ch. 316, § 9; L. 1978, ch. 240, § 8; L. 1983, ch. 206, § 12; April 28.]

65-1123. Injunctions. When it appears to the board that any person is violating any of the provisions of this act or that any person, firm, corporation, institution or association is employing (except as permitted under K.S.A. 65-1124 and amendments thereto) a person to perform professional nursing or practical nursing in Kansas, who is not licensed under this act, the board may in its own name bring an action in a court of competent jurisdiction for an injunction against such violation or such employing, and the proper courts of this state may enjoin any person, firm or corporation, institution or association from violation of this act or such employing without regard to whether proceedings have been or may be instituted before the board or whether criminal proceedings have been or may be instituted. [L. 1949, ch. 331, § 12; L. 1963, ch. 314, § 8; L. 1975, ch. 316, § 10; July 1.]

Upon receipt of such application and payment of any applicable fee, and upon being satisfied that the applicant for renewal of a certificate of qualification meets the requirements established by the board under K.S.A. 1983 Supp. 65-1130 in effect at the time of initial qualification of the applicant, the board shall verify the accuracy of the application and grant a renewal certificate of qualification.

KANSAS STATE BOARD OF NURSING

ORGANIZATIONAL CHART

HISTORY

The Kansas State Board of Nursing was first constituted by legislation which was passed in the 1913 Legislative Session. That first legislation related only to the licensure of Registered Nurses, and became effective in July, 1913. Since that time, legislative changes have occurred from time to time. These changes have kept pace with current trends and practices.

In 1949 provision was made for the licensure of Practical Nurses, and licensure for professional nurses was made mandatory. In 1973, the Legislature provided for the licensure of Mental Health Technicians.

During the 1975 Legislative Session extensive amendments were made to the Nurse Practice Act. The most important changes provide for: (A) mandatory licensure for anyone who practices practical nursing, (B) a change from annual to biennial renewal of licenses, and (C) the creation of an eleven (11) member Board of Nursing -- five (5) registered professional nurses, two (2) licensed practical nurses, two (2) licensed mental health technicians, and two (2) members of the general public.

In 1976, the Nurse Practice Act was amended to provide for the certification of Advanced Registered Nurse Practitioners and to permit the administration of medications to residents of adult care homes by an unlicensed person certified as a medication aide. House Bill No. 2720 provides for the certification of Advanced Registered Nurse Practitioners and House Bill No. 3136 relates to the administration of medications by unlicensed persons.

The most recent amendments to the Nurse Practice Act were passed by the 1980 Legislature. House Bill No. 2922 provides for a professional nurse licensee or a practical nurse licensee no longer engaged in the active practice of nursing to renew his or her license without meeting the continuing education requirement. House Bill No. 2746 stipulates that the governor shall appoint successors to the professional nurse members of the Board of Nursing in such a manner that three of the professional nurse members are engaged in nursing service and two are engaged in nursing education.

Two important pieces of legislation were passed in the 1981 Legislative Session. Senate Bill No. 381 passed. The bill enabled the Board of Nursing to charge fees for the accreditation of nursing programs and for the certification of continuing education providers. Senate Bill No. 362 was also passed. This bill was related to the nurse practice area. It enabled the Board to employ a skilled investigator to review complaints filed against licensees and also to charge court costs to those licensees found guilty by the Board in administrative hearings.

Licensure is for the protection of the public. It is commendable that the Legislature has spent many hours in an effort to keep the Statutes relevant and responsive to the needs of Kansas citizens.

The Statutes which currently relate to the Board of Nursing and its functions are K.S.A. 65-113 et. seq., K.S.A. 65-4201 et. seq., and K.S.A. 74-1106 et. seq.

In 1982, the regulations (K.S.A. 60-3-110) standards for revocation, suspension or limitation of nursing licensure were adopted, and reference to the American Nurses Association Code of Ethics (K.S.A. 60-3-109) was revoked. While the Board supports the Code of the American Nurses Association, we are not able to reference it in our law because of a Supreme Court decision. The standards of revocation, suspension and limitation were designed to specify what is meant by unprofessional conduct, which was vague in the past.

The Board of Nursing is due for possible termination on June 30, 1983 under the Kansas Sunset Law enacted in 1978. In April, 1982, the Sunset Audit Team began their review of the Board of Nursing. Two auditors were assigned to the Board and were with us for the remainder of the fiscal year (6/30/82). It was an interesting and professionally demanding experience. The preliminary report is expected in the fall of 1982.

1982 was a year of challenges, one of the most significant was the Medical Association's challenge that statutes, rules and regulations regarding Advanced Registered Nurse Practitioners were unconstitutional. Depositions were taken from the Board President and Vice-President regarding the role of the ARNP. Several months of legal bantering followed. On June 21, 1982, the court ruled in favor of the Medical Society and declared the statute and regulations unconstitutional. This pattern of challenge seems to be a part of the national challenge of the expanded role of the nurse by medicine. It will probably continue.

PHILOSOPHY

The Kansas State Board of Nursing subscribes to the philosophy of our democratic society which places emphasis on the inherent worth of the individual, the value of human life, and the attainment of the highest possible standard of health as a fundamental right of every individual.

We believe that the State Board of Nursing was established for the purpose of protecting the citizens of Kansas from the practice of nursing by unscrupulous and unqualified individuals.

We believe that individual licensure should only be granted to those persons who have met specific standards and have proved their competency to practice nursing at the level for which the license is issued, and that all individuals who practice professional or practical nursing should be currently licensed under a mandatory licensure act.

We believe each licensee must accept individual responsibility to maintain competency in nursing practice.

We believe that continuing education should be required as one mechanism to increase competency.

We believe that the Board should promote communications and work cooperatively with local, state, and national nursing organizations, and other organizations and individual members of the health team to insure safe and effective nursing care for the citizens of Kansas.

We believe that the Board has the responsibility to promote high standards of nursing practice and of nursing education, but that it can not accomplish this without the cooperation of the nursing community.

We believe that nursing practice must be based on a theoretical framework and the nursing education must be based on sound education principles.

We believe that self-evaluation, innovation, and research are appropriate tools for improving nursing education and nursing practice.

OBJECTIVES

The objectives of the Kansas State Board of Nursing shall be to:

1. Establish and implement minimum standards for the practice of nursing and mental health technology through administering and interpreting the Kansas Nurse Practice Act, and the Kansas Mental Health Technician's Licensure Act.
2. License, as nurses and mental health technicians, duly qualified applicants in order to protect and safeguard the health and safety of the citizens of the State of Kansas.
3. Protect the public from persons (1) who are not competent to practice nursing or mental health technology, and (2) who seek to operate a non-accredited school of nursing or mental health technician program.
4. Require evidence of continuing education for the relicensure of all registered nurses and licensed practical nurses.
5. Encourage and support a higher level of excellence for nursing education and nursing practice than the minimum standards established by the Board.
6. Accredite nursing education programs and approve mental health technician programs which have achieved and are maintaining minimum standards, and approve providers of continuing education for nurses.
7. Cooperate with appropriate groups in an effort to improve health services for all persons.
8. Provide interpretations and consultation services to individuals and groups in matters relating to the education and practice of the Board's licensees.
9. Consider current and future trends in nursing education and nursing practice when standards are established.

MEETINGS

The Board of Nursing held meetings on seventeen (17) days. In addition to these meetings, the Board members participated in the administration of the licensure examinations, open forums, survey visits, consultation visits, and other sub-committee activities.

FY 1982: HIGHLIGHTS AND SUMMARY: KANSAS STATE BOARD OF NURSING

General Statistical Picture:

In FY 1982, we licensed a total of 30,417; 21,617 RN's, 7,063 LPN's and 1,737 MHT's. Of the RN's licensed, 3,541 resided out of state, there were 765 out of state LPN's licensed, and 83 LMHT's residing in other states. Based on our total registrants, 26,028 were living and working in Kansas. There was a total registrant increase over FY 1981 of 1,359 residing in Kansas, most were RN's. It should be noted here that some nurses carry both an RN and LPN license.

Again we see the picture that more RN's left the state than came into Kansas. There were 765 nurses endorsed into Kansas, and 942 verified to other states, or left Kansas. This pattern has occurred for over ten years. In terms of the licensed practical nurses, in FY 1982, we endorsed 292 LPN's into the state and verified 281 to other states. This year there were a few more (9) LPN's who came into the state than who left. One mental health technician was verified to Colorado. As noted in the FY 1981 Annual Report, Licensed Mental Health Technicians do not appear to be as mobile as are the nurses.

Examinations:

A total of 1,812 nurses wrote the examination in FY 1982. Of the RN group, 946 wrote the State Board Examination for the first time, 779 passed, of the repeat 240 RN candidates, 145 passed. The LPN examination was taken by 626 candidates, 563 of whom were first time writers, 521 of this number passed. Again we see a higher pass rate in the LPN group than the RN group. This pattern has been observed over several years.

The LMHT examination was administered to 135 candidates, 114 first time writers, of this group, 100 passed the examination, 10 repeat candidates passed and 11 failed the examination. We tested slightly fewer (4) MHT's in FY 1982 than in 1981.

Foreign Nurse Examinations:

In FY 1982, we saw a significant decrease in the number of foreign nurses examined. A total of 20 foreign nurses wrote the examination. Of the 6 first time writers, none passed, 2 second time writers passed, and 1 third time writer passed. A total of 3 of the 20 passed. The pass rate for foreign nurses has been low. This year, perhaps more from this group should have allowed more time to prepare.

Education:

During FY 1982, 45 schools of nursing were approved by the Board. Preparing RN's, there were 9 Baccalaureate programs, 16 ADN programs and 4 diploma programs. There were 16 programs preparing LPN's. Additionally, the Board approved 9 programs preparing mental health technicians. A grand total of 54 programs were approved by the Board, an increase of 2 over FY 1981, one additional ADN and one additional LPN program.

In terms of graduation from various programs preparing RN's we saw a slight change this fiscal year. A total of 1,007 graduated from these programs, 139 from diploma or 13.8%, 435 from ADN programs or 43.2%, and 433 from Baccalaureate programs or 43%. In FY 1982, we saw an increase in graduations of 59. When compared to FY 1981 the number graduating from diploma programs dropped 2.2%. This trend is nationwide, a decrease in diploma graduates and an increase in ADN graduates, a shorter program, and a slight decrease in baccalaureate graduates. Over the last few years, enrollments and graduations from ADN programs have increased. It may be that the two year nursing program is the most attractive to the student.

Continuing Education:

In FY 1982, there was a total of 79 continuing education providers approved by the Board of Nursing. During this year, the Task Force on Continuing Education for Nurses in Kansas completed their two-year work on "Evaluation of the Mandatory Continuing Education System for Nurses in Kansas." A report of the findings to the Board was planned for early FY 1983.

The area task forces continued to plan programs and hold meetings.

Nursing Practice:

During FY 1982, the increased Board emphasis on nursing practice continued. In FY 1982, we received the same number of complaints, 21. There were 14 administrative hearings, 3 licenses were limited, 3 were suspended and 3 licenses were revoked. In two cases, there was insufficient evidence in which to proceed, and in another two cases, no action against the license was taken. Some cases heard in FY 1982, carried over from FY 1981. In one case a nurse had two licenses, LPN and RN. The Board reinstated 3 licenses in FY 1982 based on the evidence of rehabilitation presented.

Staff Assignment changes:

In FY 1982, the legislature cut one half-time position for nursing practice. The Board had been unable to fill the half-time position. Because of this change and other budget cuts, professional staff assignments were changed, and job descriptions rewritten. One professional nurse, Nursing Education Specialist, became responsible for matters related to all the educational programs preparing our licensees, and for the continuing education programs. The other professional nurse, became the Nursing Practice Specialist, who was assigned responsibility for issues related to nursing practice, and the investigation of complaints against our licensees.

Legislation and Regulations:

FY 1982 was a very busy legislative year which involved several hours of prepared testimony to defeat bills which the Board believed would have had a negative impact on the public. One bill involved using unlicensed personnel, students as employees, as licensed personnel, defeating the purpose of regulation. Another involved allowing aides to give insulin injections to patients in nursing homes.

The Board did however, introduce one important change in the regulations related to disciplinary matters. "Unprofessional conduct", a somewhat vague term, was explicated and defined in the regulations. The changes made, placed more responsibility on supervisors and nursing directors for the staff assignments made, and for reporting infractions of the Nurse Practice Act to the Board. These changes precipitated considerable discussion between the Board and the nursing community.

Advanced Registered Nurse Practitioners:

During FY 1982, there were 137 Advanced Registered Nurse Practitioners certified. The categories of certification were; Clinical Specialist, 27, Nurse Practitioners (some non-graduate degreed), 93, and Nurse Anesthetist, 17.

As reported last fiscal year, the medical society has continued their challenge to the ARNP regulations.

On June 21, 1982, Judge Allen of the Shawnee County District Court ruled the statutes under which Advanced Practitioners were certified were unconstitutional, and therefore the regulations were equally unconstitutional. The decision rendered the ARNP's null and void.

The Board will continue to attempt to certify advanced registered nursing practice.

Finally:

FY 1982 was an interesting and very busy year. It was the year of our Sunset Review. The two assigned auditors spent a great deal of time with us at meetings and in the office. It was a year of fiscal constraints and we lost our part-time position for a Nursing Practice Specialist. This was a serious disappointment because this position was needed. Professional staff responsibilities were changed as noted earlier. It was a year of change.

On behalf of the Board, the professional and clerical staff, and myself, a hearty and warm thank you to all of you, our colleagues, friends, and associates, who made our jobs so much easier. Your cooperation and assistance were greatly appreciated. Our sincere thanks.

OLDER KANSANS SENIOR CARE ACT

Attn #6 1-24-85

AARP/KCOA Draft of 1/24/85

Section 1

This act may be cited as the Older Kansans Senior Care Act of 1985.
Section _____

Legislative findings and purposes of the Act. It is hereby found and declared that:

- (1) There are many older Kansans with disabilities and infirmities who find it difficult to maintain themselves in the mainstream of life due to costs of care that they cannot bear and a lack of awareness of all the options open to them.
- (2) Inappropriate or premature institutionalization often occurs and leads to rapid depletion of financial resources and subsequent eligibility for Medicaid.
- (3) It is the policy of the state of Kansas to help its older, institutionally vulnerable citizens live in the least restrictive environment commensurate with their needs and thereby to help them live with the most personal dignity.

Section _____

Definitions:

Area Agency on Aging means any public or private non-profit agency established under section 305 of the Older Americans Act.

The Secretary shall designate Area Agencies on Aging to administer the program in their respective geographic areas. The Secretary shall designate an Area Agency on Aging only after it has submitted a program plan and the plan has been found by the Secretary to be in conformity with this act. The plan must be developed with the support and approval of a committee representative of the following elements in the area to be served; senior organizations, home health agencies, Department of Social and Rehabilitation Services offices, physicians, nurses, hospitals and other interested parties.

Section _____

- identification of services to be developed and service providers to be reimbursed for services rendered.
- a means acceptable to the Secretary for selecting clients who are most in need of the program's benefits.
- provisions that conform to all other applicable provisions of this act.

Section _____

The Secretary shall develop, wherever practicable, sliding fee scales, based on people's incomes, for the in-home and community support services provided pursuant to this Act.

(b) to defray start-up expenses of providers of needed and insufficiently available services

(c) to administer the program

provided that administration be limited to 15% of the total funds and start-up costs be limited to 25% of total funds in the first and second year and 10% thereafter.

Section ___ Screening, assessment and services management to be done.

Area Agencies which participate in this program shall develop screening for all people who apply for services and assessment of needs, functional abilities and environmental supports for those whose screening shows the need for such assessment. Area Agencies on Aging shall develop care plans for all people assessed. These plans shall be based on the assessment results and recommend services and actions both payed and volunteer providers should take. Section _____

The Secretary shall apply for and may use other funds as appropriate, for this program. All state and federal funds used by the Secretary for the implementation of this Act shall be subject to appropriation.

Proposed
Senior Care Bill
Brief

*Attn #
6-a
1-24-85*

Bill Providers for:

- A program of community based(non-institutional) long-term care services, based on screening, to reach those most in need, assessment, to best fit services to need, and service delivery according to a care plan.
- 1 -a sliding fee scale, to permit the non-poor to receive services and to participate in paying for them.
- 2 -local program planning, administration and supplementation of state dollars.
- 3 -last dollar spending, fiscal constraint and built-in assurances of cost efficiency.
- 4 -gap filling only, not duplication

Summary of the Need

- The old-old population (75+), the chief target group, is large and the fastest growing.
- most older people are very reluctant to accept welfare or impoverish themselves to the point of Medicaid eligibility while in their own homes.
- Many people who need long-term care services can't afford them, yet are not Medicaid eligible, so they don't get the services.
- The result is greater than necessary hospital and nursing home use and poorer quality of life.
- The result to the state is more Medicaid spending, because people spend-down to Medicaid eligibility after being admitted to a nursing home.
- Single service funding(home health, homemaker and home delivered meals) has reached its maximum effectiveness in Kansas. The new direction should be to follow the lead of the Medicaid HCBS waiver and build into programing assessment, care planning, fiscal management and gap filling.
