

MINUTES OF THE Senate COMMITTEE ON Assessment and Taxation

The meeting was called to order by Senator Fred A. Kerr at
Chairperson

11:00 a.m./p.m. on Friday, February 22, 1985 in room 519-S of the Capitol.

All members were present except:

Senator Bud Burke (Excused)
Senator Nancy Parrish (Excused)

Committee staff present:

Tom Severn, Research Department
Melinda Hanson, Research Department
Don Hayward, Revisor's Office
LaVonne Mumert, Secretary to the Committee

Conferees appearing before the committee:

Dale Dennis, Department of Education

S.C.R. 1615 - Constitutional amendment; classification of property for purposes of taxation

S.C.R. 1616 - Constitutional amendment; classification of property for purposes of taxation

Dale Dennis distributed "Computer Printouts Showing Effects of Reappraisal and Classification Under SCR 1615" to the Committee (Attachment 1).

Staff explained a proposed amendment (Attachment 2) for S.C.R. 1616. It would restore public utility personal property except rail personal property so that public utilities would continue to be taxed as they are at the present. It was pointed out that the computer printouts for S.C.R. 1616 assumed that the personal property would continue but the amendment would be needed to conform the resolution to the intent. It was discussed that the federal 4R Act prevents railroads being treated differently than other business and industrial property.

The Committee discussed the two resolutions and related issues. There was discussion about a possible phase-out of personal property tax. The Committee generally agreed that any classification rates should be constitutional rather than statutory. It was brought out that attempts to retain the status quo are not necessarily desirable because this would only continue present inequities. Some members stated their preference for reappraisal preceding classification. It was mentioned that reappraisal is projected to take between three and five years. There was considerable discussion about the testimony concerning the problem of inventories, particularly farm implement dealers and similar businesses. The Committee talked about a constitutional amendment which would simply exempt inventories. There was discussion about the effects on ag land of a classification resolution. It was pointed out that the figures on the printouts relating to ag land are very soft, partly because use value appraisal methodology is not yet law. The Committee was advised that the sales ratio figures used in the 1984 printouts are through August 31, 1984. Senator Thiessen requested a state-wide printout based on S.C.R. 1616 but using a 20% figure for ag land. Senator Karr requested a state-wide printout based on S.C.R. 1616 but exempting only inventories. Senator Hayden moved that S.C.R. 1616 be amended as proposed (Attachment 2). Senator Thiessen seconded the motion, and the motion carried. The Chairman said further consideration of a classification amendment would take place at a later meeting.

Senator Mulich moved that the minutes of the February 19 and 20, 1985 meetings be approved. Senator Karr seconded the motion, and the motion carried.

Meeting adjourned.

Kansas State Department of Education

Kansas State Education Building

120 East 10th Street Topeka, Kansas 66612

February 22, 1985

TO: Senator Fred Kerr, Chairperson
Committee on Assessment and Taxation

FROM: Division of Financial and Support Services
and Legislative Research Department

SUBJECT: Computer Printouts Showing Effects of Reappraisal
and Classification Under SCR 1615

Attached are computer printouts from the 1984 property tax survey.

We have also included the assessment ratios for 1984, by county, and subclassification, as well as the ratios proposed by SCR 1615.

COLUMN EXPLANATION

- Column 1 - 1984 Assessed valuation
- 2 - Percent of total of Column 1
- 3 - Estimated market values after reappraisal
- 4 - Percent of total of Column 3
- 5 - Estimated assessed valuation after reappraisal (30%)
- 6 - Percent of total of Column 5
- 7 - Estimated assessed valuation using the assessment ratios as listed under SCR 1615
- 8 - Percent of total of Column 7

RATIOS OF ASSESSMENT

Assessment
Ratio Under
SCR1615

1.	<u>RURAL REAL ESTATE</u>	
2.	Agricultural (including agriculture investment and non-investment and mineral interests, non-severed and severed)	6%
3.	Home Sites and Planned Subdivisions	10%
4.	Spot Industrial, Commercial, and Recreational	20%
5.	TOTAL RURAL REAL ESTATE	
6.	<u>URBAN REAL ESTATE</u>	
7.	Residential (including mineral interests, non-severed and severed)	10%
8.	Multi-Family	10%
9.	Commercial	20%
10.	Industrial	20%
11.	Vacant Lots	20%
