Two amendments to HB 2901 are requested by the Kansas Department of Economic Development.

The first is to strike the language concerning the recertification of previously designated enterprise zones to comply with 1983 amendments to the law. Since all such cities have been recertified, the language on lines 0069 to 0076 are no longer necessary and create confusion if left in the law.

The second amendment attempts to clarify multiple areas within one enterprise zone. Conflicting interpretation of whether the act provides for multiple areas in one zone and/or multiple zones within one city could create future problems. Currently, most cities have multiple areas within one zone.
