Fiscal Note  
1986 Session  
March 5, 1986

Bill No.

3-7-86 138 W.

The Honorable Roy Ehrlich, Chairperson  
Committee on Public Health and Welfare  
Senate Chamber  
Third Floor, Statehouse

Dear Senator Ehrlich:

SUBJECT: Fiscal Note for Senate Bill No. 569 by Senators  
Hayden, Allen, Anderson, et al

In accordance with K.S.A. 75-3715a, the following fiscal note concerning Senate Bill No. 569 is respectfully submitted to your committee.

Senate Bill No. 569 creates the Emergency Medical Services Development Fund and provides for revenue to this fund through a .25 percent tax on life insurance premiums. Expenditures from this fund would support Bureau of Emergency Medical Services operations, grants-in-aid and other assistance. Grants-in-aid and other assistance would be limited to agencies providing education or training in emergency medical services (EMS), ambulance services, emergency medical services and Emergency Medical Services Regional Councils.

The Insurance Department estimates revenue generated for this fund at \$1.45 million annually beginning in FY 1988. FY 1987 revenues would be approximately \$725,000. Revenues to the State General Fund would be reduced by at least \$130,000 but possibly as much as \$460,000 annually due to reductions in retaliatory tax receipts. It is also estimated that revenues from annual privilege tax collections will be reduced approximately \$1,500.

The FY 1987 budget for the Bureau of Emergency Medical Services within the Kansas Highway Patrol is recommended at \$333,010 for state operations and \$154,000 for grants-in-aid. Of this amount, \$455,010 would be from the State General Fund. Passage of this act would allow for a reduction in expenditures from the State General Fund by this amount.

Upon passage of this act, state operations would be increased \$30,186 for a Registered Nurse V to initiate and coordinate a program of increased grants-in-aid. Aid to local units, and grants and other assistance could be increased approximately \$207,804 in FY 1987 and an additional \$725,000 in subsequent years.

In summary, passage of this act would reduce expenditures from the State General Fund, reduce revenues to the State General Fund, and provide for a new fund to support EMS activities which would be funded by revenues generated through a new tax on life insurance premiums. These modifications in revenue and expenditures are not reflected in the FY 1987 Governor's Budget Report.
