MINUTES OF THE HOUSE COMMITTEE ON EDUCATION

The meeting was called to order by Chairman Don E. Crumbaker at
Chairperson

3:30 ~~xxx~~ a.m./p.m. on February 23, 1989 in room 519-S of the Capitol.

All members were present except:
Representatives Hensley, Pottorff, and Williams, excused.

Committee staff present:
Avis Swartzman, Revisor of Statutes' Office
Ben Barrett, Legislative Research
Dale Dennis, Department of Education
Thelma Canaday, Secretary to the Committee

Conferees appearing before the committee:

Representative Graeber
Representative Gross
Mr. Fred Kaufman, Superintendent of Schools, Hays USD #489
Mr. Kent Sisson, Board of Education member, USD #464
Mr. Jim Thompson, Superintendent, USD #229, Blue Valley
Mr. Bill Young, President, Board of Education, USD #202, Turner
Ms. Joy Beery, Parent Leader, Wyandotte County PTA
Mr. Ken Fisher, Asst. Superintendent of Schools, USD #497, Lawrence
Mr. Mike Slusher, Superintendent, USD #453, Leavenworth
Mr. Clark Whiting, Superintendent, USD #373, Newton
Dr. Howard Schuler, Superintendent, USD #437, Auburn-Washburn
Dr. Jerry Steele, Superintendent, USD #250, Pittsburg
Mr. John Koepke, Executive Director, Kansas Association of School Boards
Mr. Chuck Stuart, United Schools Administrators
Ms. Kay Coles, Kansas National Education Association
Mr. Ken Rogg, Schools for Quality Education
Mr. Dale Dennis, Department of Education
Mr. Bill Curtis, Kansas Association of School Boards

The meeting was called to order by Chairman Don E. Crumbaker.

The chair opened hearings on HB 2261, concerning school district finance, fourth enrollment category, local effort rate, operating expenses per pupil.

Representative Graeber explained HB 2261. Mr. Graeber stated the one purpose of HB 2261 is to seek an equitable adjustment in the "budget per pupil" factor in the school finance formula and to afford those students attending schools in the fourth enrollment category an equal opportunity with the other two-thirds of the students in the state of Kansas. (Attachment 1)

Representative Gross endorsed the testimony given by Representative Graeber. Representative Gross added the enactment of HB 2261 would enable schools in the fourth enrollment category to compete salary wise with the smaller and larger school districts.

Fred Kaufman testified in support of HB 2261. Mr. Kaufman said the fourth enrollment category schools were asking for relief in budget funding. Mr. Kaufman said provisions needed to be made to allow the fourth enrollment category to catch all the way up and prevent continual falling behind. (Attachment 2)

Chairman Crumbaker recognized Mr. Bill Medley who introduced Mr. Kent Sisson, member of UDS #464 board of education. Mr. Sisson drew the committee's attention to the changes in the mill levy in Category IV schools. (Attachment 3)

Mr. Jim Thompson spoke in support of HB 2261. Mr. Thompson said a child's educational support should not be based upon an arbitrary comparison of the costs of living in his area compared against the costs of living in other, less similar, areas of the state. (Attachment 4).

CONTINUATION SHEET

MINUTES OF THE HOUSE COMMITTEE ON EDUCATION

room 519-S, Statehouse, at 3:30 ~~am~~/p.m. on February 23, 1989.

Mr. Bill Young testified in favor of HB 2261. Mr. Young pointed out his district, USD #202, receives \$274 less Norm Budget Per Pupil than do the fifth enrollment districts. Mr. Young believes the provisions of HB 2261 can bridge the gap. (Attachment 5)

Ms. Joy Beery spoke in favor of HB 2261. Ms. Beery said as a parent she wishes equal education opportunity for the children in the Turner USD #202 and she believes enactment of HB 2261 would correct the inequity which appears to exist. (Attachment 6)

Mr. Ken Fisher testified in support of HB 2261. Mr. Fisher feels the schools in the fourth enrollment category should have a lower norm budget per pupil in the formula than the norm budget per pupil allowed for the fifth enrollment category. (Attachment 7)

Mr. Mike Slusher stated his concerns about inequities in the school finance formula. Mr. Slusher provided figures to show the inequities between the fourth and fifth enrollment categories. (Attachment 8) Mr. Slusher encouraged support of HB 2261.

Mr. Clark Whiting testified in support of HB 2261. Mr. Whiting gave statistical information showing the comparison between the fourth enrollment category districts actual budgets and the amounts they could have received if they had been able to use the fifth enrollment category budgets per pupil. (Attachment 9). Mr. Whiting also offered two hypotheses relating to the problem experienced by the fourth enrollment category. (Attachment 10).

Dr. Howard Schuler testified in support of HB 2261. Dr. Schuler said it's hard to believe in equity when the adjoining fifth enrollment category school has a higher budget per pupil than his own fourth enrollment category school USD #437. Dr. Schuler pointed out the shift of enrollment has been the cause of the problem.

Dr. Jerry Steele testified in support of HB 2261. Dr. Steele pointed out the Pittsburg schools have the lowest cost per pupil and the highest tax burden in all of Southeast Kansas. Dr. Steele said he understood the need of smaller schools for more dollars per pupil but the fourth enrollment category schools should not be penalized and forced to fall further back each year in teacher salary increases and providing quality education programs for the students.

John Koepke seconded the concerns expressed by previous conferees regarding HB 2261. Mr. Koepke pointed out HB 2261 is the first of a series of bills relating to the operation of the School District Equalization Act. Mr. Koepke believes the formula should be adjusted to narrow the gap between the budget per pupil in the fourth and fifth enrollment categories. (Attachment 11)

Chuck Stuart testified in support of HB 2261. Mr. Stuart recommended a provision should be included in the bill to increase state funding so no district would be forced to increase the local ad valorem property tax. (Attachment 12).

Kay Coles spoke in support of HB 2261. Ms. Coles advocated bringing the budget level back to the four percent difference established in 1982. (Attachment 13)

Ken Rogg testified that the schools he represents have not adopted a position on HB 2261 since they are of the three lower enrollment categories. Mr. Rogg agreed there is a problem concerning the fourth and fifth categories but cautioned against overcorrecting thus creating another inequity. (Attachment 14).

Chairman Crumbaker called on Dale Dennis to give an explanation of a printout showing what the effects would have been in 1987-88 if the state aid norm for the fourth enrollment category had been increased by 3.5 percent and an amount equal to the fifth enrollment category. (Attachment 15)

A period of discussion followed the testimony on H.B. 2261.

CONTINUATION SHEET

MINUTES OF THE HOUSE COMMITTEE ON EDUCATION,
room 519-S Statehouse, at 3:30 ~~xxx~~ a.m./p.m. on February 23, 1989

Chairman Crumbaker declared hearings on HB 2261 closed.

Hearings on HB 2201, an act concerning school districts; relating to expenditures for which competitive bids are required.

Mr. Dale Dennis testified in favor of HB 2201 in place of Mr. Bill Musick who was unable to be present. It is the belief of the State Board of Education that permitting districts to purchase goods from the state bid list would result in saving money for both the school districts and the state. (Attachment 16)

Mr. Bill Curtis referred to his written testimony as being in support of HB 2201. (Attachment 17)

Mr. Charles Stuart testified in support of HB 2201. Mr. Stuart pointed out allowing school districts the option to purchase from the state bid list without a compulsory bid provision for purchases greater than \$10,000 allows each district another option to consider in the economic operation of the school system. (Attachment 18)

The chairman closed hearings on HB 2201.

The meeting was adjourned by Chairman Crumbaker at 4:50.

The next meeting will be February 28, 1989 at 3:30 in Room 519-S.

Testimony of Representative Clyde Graeber, February
 23, 1989 In Re: House Bill 2261

Mr. Chairman, members of the committee, I first want to thank you for the opportunity to testify on H.B. 2261. The subject of this legislation is, I believe, one of the most important issues to come before your committee and this legislature. I am sure that each of you are aware that the current equalization formula creates a very negative impact on schools in the fourth enrollment category. The basic problem lies with the "budget per pupil" element of the formula. Our schools in the fourth enrollment category must use a "lower budget per pupil" than all of the smaller school districts and also all of the districts larger than our category.

House Bill 2261 has one purpose and that is to seek an equitable adjustment in the "budget per pupil" factor in the school finance formula and to afford those students attending schools in the fourth enrollment category an equal opportunity with the other two-thirds of the students in the state of Kansas.

Schools in the fourth enrollment category currently operate with approximately a 10% funding handicap while these schools do their best to prepare their students for the same race and the same education goals as all other Kansas pupils.

Schools in the fourth enrollment category are forced to compete for the same teachers as our neighboring schools, they must provide the same materials and supplies, and they must provide the same services, but currently they must do all of this with far less money.

Currently, the "budget per pupil" differential for the fourth enrollment category schools has gone from \$4.00 to over \$300.00 since the formula revisions of 1982. The goal of H.B. 2261 is that the "budget per pupil" for the fourth enrollment category schools be increased over a three year period to the same level as the fifth enrollment category.

*Attachment 1
 House Education

Page 2

Our schools are not asking to be treated in any way other than what is fair and equitable. I ask that you give them the tools to compete on a level playing field with other schools so that they may be able to provide the best education possible for their students. Thank you.

TESTIMONY ON HOUSE BILL 2261
before the
House Education Committee

by
Fred Kaufman, Superintendent
U.S.D. 489, Hays

Mr. Chairman and Members of the Committee,

Thank you for allowing me to speak to you. I am Fred Kaufman, Superintendent of Schools in U.S.D. 489 and I represent the students and patrons of U.S.D. 489.

I want to encourage your support for House Bill 2261. We are sharply concerned about provisions of the current finance law that allocates funding and budget authority based on enrollment categories and we feel that House Bill 2261 would address that problem.

It is important that I say initially that we feel that both budget authority and funding need to be addressed, and that we are not asking for more than anyone else. We just want as much.

I am not here to criticize the concept that says that small schools should be allowed to spend more per pupil than larger ones, although at some point I would think we need to take a look at the size of that difference. Are we subsidizing inefficiency? I would like to say that when we raise the spending authority of both larger and smaller districts above that of the 4th enrollment category, we have created a situation for which there is no justification.

I am certain that they need all of their budget authority, but we need it every bit as much and think that we are entitled to it.

I can see school districts both larger and smaller than we doing things with instructional supplies, textbooks, at risk children and, most importantly teacher salaries, that we can't begin to do with the current finance law.

Let me share with you some facts that point out a need for the changes incorporated in House Bill 2261:

1. In 1987-88 the Hays district spent \$2,682 per pupil, the 4th lowest in the state. In the same year our general fund levy of 76 mills was the 19th highest in the state. The equalization formula is not doing what was intended.

Attachment 2
House Education
2/23/89

2. A 4% per pupil budget increase for us this year will be \$107 per student. For the other Ellis County school districts it will be \$158 and \$200 per student. For the state's largest school district it will be \$125 per student. We can only fall farther and farther behind until the problem is corrected. If it is not totally corrected as suggested by House Bill 2261 we will immediately begin to fall behind again.
3. State Department of Education statistics reveal numerous school districts with mill levies 1/2 as high as ours that are drawing 3 times as much equalization per pupil. The formula is not working as intended.
4. According to State Department of Education statistics, U.S.D. 489 would be in the top 15% of the state's 304 school districts in the percent of their budget that goes into teacher salaries. Yet our salaries are at least \$1,000 per teacher below the Kansas average. We can't compete without the budget authority that others have.

The combination of budget limits, funding by enrollment categories, a strong equalization formula, and changes made to the formula have created a situation far different than the original intent. I would like to request your support for changes that will restore equity.

February 23, 1989

Kent Sisson, Member Board of Education
Winfield USD 465
920 Millington
Winfield, KS 67156
316-221-2860

I am Kent Sisson, a member of the Winfield USD 465 Board of Education. I appreciate the opportunity to appear before the Education Committee of the Kansas House of Representatives to offer support for the concepts embodied in House Bill 2261. My colleagues on the USD 465 Board and other members of our community support my appearance before you and appreciate the time you are taking to consider a situation that we believe is unfair to our District and others in the similar size category.

I call to your attention the information I have provided you that shows that while the mill levy in Category IV schools has increased over 50% since 1981, the budget per pupil has increased 32 per cent. For all school districts in Kansas, the average mill levy increase has been 29% while the Budget per pupil has been 38.7%. In the school district I represent, the difference is even more dramatic - the mill levy has increased by 87.5% and the budget per pupil has increased 30.5%.

We desire the opportunity to increase our budget per pupil at a higher level to provide the educational services our community desires and to receive an increased portion of State Equalization Aid to provide our property owners a less dramatic increase in the taxes they pay for the programs of Winfield USD 465.

Again, I appreciate the time before you this afternoon and encourage your favorable consideration of the concepts embodied in HB 2261.

CATEGORY IV INFORMATION

MILL LEVY

Since 1981 the average general fund mill levy for Category IV (1900-9999) school district has increased 50.1%

For Category V (10000+) school districts, the average increase has been 37.6%

For all 303 Kansas school districts, the average increase has been 29%

	<u>GENERAL FUND MILL LEVY 1981</u>	<u>GENERAL FUND MILL LEVY 1987</u>	<u>INCREASE</u>	<u>% INCREASE</u>
All School Districts	43.13	55.65	12.52	29 %

Category IV Districts	\$2183.78	\$2882.16	\$698.38	32 %
USD 465	\$2165.30	\$2826.12	\$660.82	30.5%

If USD 465 could have a used Budget Per Pupil amount granted to the Category V Districts for 1988-89, we would have had \$720,109 more budget authority of which \$682,637 would have been State Equalization Aid. (+\$319.50 a pupil)

(Prepared for the Winfield USD 465 Board of Education from information in publications of the Kansas State Department of Education and Newton USD 373.)

Blue Valley

"growing with pride"

Office of the
Superintendent

Dr. James C. Thompson

Jim Thompson
Superintendent of Schools
Blue Valley Unified School District #229

Mr. Chairman and honorable members of the Committee, I am here today to speak in favor of H.B. 2261 and to urge your support for that measure. What I will say regards primarily the Blue Valley Schools and the way in which the school finance law currently treats our district regarding distribution of state equalization aid after comparing districts on the basis of budget per pupil. However, our experience is similar to and shared by other districts in the "Fourth Enrollment Category" and, thus, our story is only representative of the inequity which exists in the school finance law.

School District 229 is surrounded by the Shawnee Mission and Olathe School Districts, both Fifth Enrollment Category districts. We are located within the Kansas City metropolitan area and are frequently grouped and compared with Shawnee Mission, Olathe, Kansas City, Kansas, Raytown, North Kansas City, Independence, and Kansas City, Missouri School Districts. All of them are considerably larger.

The cost of educating a student in our locale is higher as a result of the increased costs associated with competitive teacher salaries, general operating expenses, and the relative demand for comprehensive services in the metropolitan area. In our case, the matter is compounded by our rapid growth. We grow by 800 to 1200 students a year, we open one to three additional schools a year, and we hire over 100 additional teachers each year. As a result, our budget per pupil is nearly twenty percent higher than the next highest among the Fourth Enrollment Category districts and considerably higher than the median budget per pupil in that category. However, our budget per pupil is more comparable to the districts in the

*Attachment 4
House Education
2/23/89*

Fifth Enrollment Category.

We believe that a child's educational support should not be based upon an arbitrary comparison of the costs of living in his area compared against the costs of living in other, less similar, areas of the state. Blue Valley students should have access to good teachers just as other students living in the metropolitan area. Educational services to our students should not be restricted because we are penalized in comparing our costs against different areas of our state.

I appreciate the effort which has gone into the Legislature's consideration of various factors which affect educational opportunities of all Kansas children. I am not asking for anything which would be unfair in distributing state aid to support those educational opportunities. I do believe that H.B. 2261 contains appropriate changes which should be enacted. I urge you to support this bill.

House Education Committee Hearing
Thursday, February 23, 1989

Testimony by Bill Young, President
Turner Unified School District #202 Board of Education
1800 South 55th Street
Kansas City, Kansas

Chairman Crumbaker, Committee Members:

1. My name is Bill Young. I'm president of the Turner School District Board of Education. We are one of approximately 32 fourth enrollment category schools that collectively represent some 130,000 public school-age pupils. As fourth enrollment districts, our state aid applications are based on a Norm Budget Per Pupil of \$2,995 -- which is \$274 less per pupil than the \$3,269 figure for the State's fifth enrollment category schools.
2. The State's five larger category schools represent less Kansas kids than do the fourth enrollment category schools like Turner. Those fifth enrollment category districts, however, are a major factor in setting the competitive market trend wherever they may be located, and it is up to the other districts in their geographical area to try to keep up -- believe me, please, when I say this as a businessman who, as a business owner, must compete every day in that Kansas City marketplace dominated by three of the State's five 5th Enrollment Category School Districts.
3. It is that market in which our school district must be competitive -in teacher salaries, classified employee salaries, the purchase of goods and services, text books and instructional supplies, and in other operating expenses that apply to a district of 4,000 students. Some examples of those expense items are:
 - (1) Adult basic education;
 - (2) area vocational technical school programs;
 - (3) alternative education and drop-out prevention;
 - (4) substance abuse;
 - (5) human sexuality/AIDS education;
 - (6) elementary school counselors;
 - (7) extensive remediation programs;
 - (8) diverse student backgrounds and needs;
 - (9) ethnic diversity;
 - (10) school building security;
 - (11) student transportation and
 - (12) special education costs.
4. The State's 1st/2nd/3rd enrollment category schools have Norm Budget Per Pupil formulas that range from \$4,785 to \$4,421, or \$1,516 to \$1,152 more per pupil than the \$3,269 figure for fifth enrollment category districts. Now, what is the picture for the Turner district as a fourth enrollment category school?

*Attachment 5
House Education 2/23/89*

5. Instead of receiving an amount greater in Norm Budget Per Pupil as do the 1st/2nd/3rd category schools, we, as a fourth enrollment category with a N.B.P.P. of \$2,995, receive \$274 less than do the fifth enrollment districts. What we could do if we could just receive that \$3,269 Norm Budget Per Pupil as fifth enrollment category schools do. Committee Members -- that \$274 amount per pupil would help us in our race to keep up in that competitive marketplace.

6. Provisions of House Bill 2261 can bridge that gap, and over the three-year period, will bring our Norm Budget Per Pupil as a fourth enrollment category school to that of the fifth enrollment category schools. I urge your support of this bill.

Testimony by Joy Beery, Parent
Turner Unified School District #202
1800 South 55th Street
Kansas City, Kansas

Chairman Crumbaker, House Education Committee Members:

1. My name is Joy Beery, a resident taxpayer in the Turner Unified School District, located in Southern Wyandotte County, Kansas City, and I speak in favor of House Bill 2261. My husband and I, as parents of two school-age children, want very much for them to have equal education opportunity in the metropolitan area school system where we reside.
2. We have been active in our school district community for many years; have tried to learn as much as we can about a school district's operation; and in recent years, have discussed what appears to be an inequity in the State's school aid distribution formula.
3. If, in fact, the larger school districts in Wyandotte/Johnson County do receive greater amounts per pupil in computing their state aid than does the Turner District, then it appears there is an inequity. My husband and I, as business persons, must compete in that major market setting just as the Turner District has to compete in its major competitive market setting.
4. We know that includes employee salaries, supplies, equipment, materials for the day-to-day instructional process, contracted services for upkeep and repair of district buildings, services such as special education, transportation, alternative high school, alcohol and drug abuse, service to minority, service to single parent, to teenage pregnancy students, and these services cost dollars in the Turner District just as they do in the three larger metropolitan school systems.
5. As I understand House Bill 2261, it would correct the inequity which appears to exist. If that is the case and if the House Bill would over the three-year period close the gap and bring the amount per pupil for state aid purposes in the Turner District to that same figure as the districts which surround us, then I support House Bill 2261, and would encourage you, as the House Education Committee, to do the same.

Thank you!

Attachment 6
House Education
2/23/89

February 23, 1989

TO: The House Education Committee
CONCERNING: House Bill 2261

We feel we have a good basic state school finance formula. We would not want the basic concepts of the formula to be changed. However, as times change, the formula needs fine-tuning (adjustments) to make the formula continue to provide equity to all public schools in Kansas. The state legislature has most always made adjustments each year to keep the basic formula equitable.

We feel H.B. 2261 is a good adjustment that is needed at this time in order for the basic state school finance formula to continue to provide equity to all school districts in Kansas and particularly to the school districts in the fourth enrollment category.

We provide, as one example, the following reasons to show why H.B. 2261 would help provide equity to the Lawrence school district:

Reason # 1

Lawrence is located within just a few miles of four of the five largest school districts in Kansas. Because of this location, it costs just as much to educate a child in Lawrence as it does in the five schools making up the fifth enrollment category. The following budgets per pupil for the 1988-89 school year point out this fact.

School District	Budget Per Pupil 1988-89
Shawnee Mission	\$ 3,756.76
Olathe	3,787.46
Kansas City	3,329.04
Topeka	3,292.43
Wichita	3,311.73
Lawrence	3,449.15

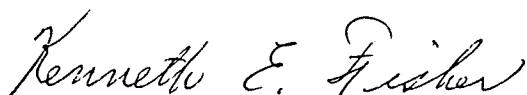

Reason # 2

The present state formula makes the norm budget per pupil for school districts in the fourth enrollment category lower than all the other school districts in Kansas. In turn, this part of the formula causes less state aid to be distributed to schools in the fourth enrollment category. H.B. 2261 would cause the state aid to be distributed more equitably.

Reason # 3

We fully believe that the smaller school districts in Kansas must be allowed a higher budget per pupil than the larger school districts. This helps equalize the educational opportunities of all school children in our state. However, we do not feel schools in the fourth enrollment category should have a lower norm budget per pupil in the formula than the norm budget per pupil allowed for the fifth enrollment category.

Presented by:

Kenneth E. Fisher
Assistant Superintendent of Schools
Lawrence, Kansas

House Education
2/23/89*

SEEK
SCHOOLS FOR EQUALIZATION OF EDUCATION IN KANSAS

SEEK is an organization composed of 30 of the districts in the fourth enrollment category. It was formed for only one purpose. That being to seek an adjustment in the Budget Per Pupil factor in the school finance formula to give our students an equal chance with the other two-thirds of the students in the state of Kansas.

The following are our proposals.

- I. Increase the Budget Per Pupil amount in the fourth enrollment districts to equal that of the fifth enrollment category.

This change should occur over a three year period.
- II. Provide sufficient flexibility in the Legal Maximum Budget aspect of the formula to allow fourth enrollment districts to expend the increased funds to give their pupils and equal chance.
- III. Increase state funding for school finance to allow for the realization of these proposals without penalizing the students in the other enrollment categories.

RATIONALE FOR SEEK PROPOSALS

- I. We are currently operating with a 9% funding handicap while trying to prepare our students for the same race as all the other Kansas pupils. (In a 10,000 meter race that places us in excess of one-half mile behind.)
- II. We are forced to compete for the same teachers as our neighbors, we use the same materials and supplies and we require the same services but we are required to do so with less money.
- III. The differential in Budget Per Pupil has grown from \$4 to over \$300 since the 1982 revisions.
- IV. The original formula was justifiably based on the premise of "the smaller the district the greater the operating costs". The 1982 revision maintained the premise for most districts but reversed it for others in what eventually resulted in discrimination against the more efficient school districts.

STATISTICAL INFORMATION

I. General Fund Budgets and State Equalization Aid (Page 3, 4)

These statistics are provided to show the comparisons between the fourth enrollment category districts actual budgets and the amounts they could have received if they had been able to use the fifth enrollment category budgets per pupil.

Example Emporia U.S.D. 253 could have increased their budget by \$1,516,912 with \$1,391,742 of that amount (92%) being paid for by increased state aid.

II. Enrollments by Category 1987-88 (Page 5)

This chart shows the 1987-88 statewide enrollment in each of the five enrollment categories.

III. Median Budget Per Pupil (page 6)

The table indicates the differential in funding which has developed between the two larger enrollment categories since 1982.

GENERAL FUND BUDGETS AND STATE EQUALIZATION ID - 1988-89

The following statistics were developed to show the effects of allowing districts in the Fourth Enrollment Category to use the Budget Per Pupil amounts granted to the districts in the Fifth Enrollment Category. Column descriptions on second page.

I SCHOOL DISTRICT	II BUDGET PUBLISHED	III BUDGET - 5TH CATEGORY BPP	IV DIFF.	V STATE AID INCREASE

2nd	\$11 to \$230
3rd	\$260
4th	\$345
5th	\$305

TWO HYPOTHESES

PRESENTED TO THE HOUSE OF REPRESENTATIVE COMMITTEE ON EDUCATION

BY

NEWTON UNIFIED SCHOOL DISTRICT #373

FEBRUARY 23, 1989

*Attachment 10
House Education
2/23/89*

HYPOTHESIS NUMBER 1

The districts in the fourth enrollment category have a legitimate concern that should and can be addressed.

Statements in Support:

- A. The United School Administrators, which has members from every size of district, has reached the conclusion that the problem is real and needs to be addressed.
- B. The Kansas School Board Association, which represents every size of district, has reached the conclusion that the problem is real and needs to be addressed.
- C. Newton U.S.D. #373 knows that the problem is real and needs to be addressed. They know they are at a distinct disadvantage when competing with their fine neighbors. The following illustrates the problem.

District	Budget Per Pupil 1987-88	Average Teacher Salary 1987-88	Mill Levy 1988
Fine Large Neighbor to the South	\$ 3134	\$29,498	86.10
Newton U.S.D. #373	\$ 2808	\$27,551	98.78
Fine Small Neighbor to the North	\$ 3998	\$29,114	58.84

a-10-2
2/23/89

HYPOTHESIS NUMBER 2

The fourth enrollment category districts are a special interest group selfishly and unrealistically attempting to divert funds from all other districts.

Statements in Support:

- A. The fourth enrollment districts represents only one-third of the students in Kansas.
- B. Students need to learn at an early age that life is not necessarily fair. As Category IV students are already acclimated to financial discrimination, it will be less traumatic for them to continue in that state.

Testimony on H.B. 2261
before the
House Education Committee

by
John W. Koepke, Executive Director
Kansas Association of School Boards

February 23, 1989

Mr. Chairman and members of the Committee, we appreciate the opportunity to appear before you on behalf of our 301 members boards of education with regard to H.B. 2261. This is the first of a series of bills which you will consider affecting the operation of the School District Equalization Act and which our members believe deserve your serious consideration during this legislative session.

For the past two years, our organization has had a School Finance Committee which has been studying the entire system of funding for elementary and secondary education in Kansas. That committee presented a comprehensive proposal regarding school finance to our Delegate Assembly in December of 1988. That proposal was adopted overwhelmingly by our delegates and we will be sharing all of its features with you at the appropriate time.

For the purposes of this hearing, however, we will limit our remarks to issues surrounding the problems of school districts in the so-called "fourth enrollment category". In the minds of our members, there is not question that the present operation of SDEA has worked to

*Attachment 11
House Education
2/23/89*

the unfair disadvantage of the school districts in this enrollment category. They have been made to suffer disadvantages in both budget authority and state aid due to their efficiency.

We believe that that school districts in this enrollment category have amply demonstrated the ill effects they have suffered in recent years under the formula and under the provisions of the policy adopted by our Delegate Assembly, we believe they are entitled to relief. We do not believe, however, that that relief should eliminate the differentiation between the fourth and fifth enrollment categories. We would suggest that rather than eliminating that difference, the formula should be adjusted to narrow the gap between the budget per pupil in the fourth and fifth enrollment categories. In that manner, the concerns of schools in both enrollment categories could be adequately addressed. We appreciate the opportunity to express our concerns and I would be happy to answer any questions.

HB 2261

Testimony presented before the House Committee on Education
by Chuck Stuart, Legislative Liaison
United School Administrators

February 23, 1989

Mister Chairman and members of the committee:

United School Administrators of Kansas recognize the inequity of budget limitations of fourth enrollment category districts in the current SDEA law and, therefore, supports HB 2261.

We support the bill with the provision that additional SDEA funding be such that no district be forced to increase local ad valorem property tax to offset the shift which would be created by the passage of HB 2261.

Kay Coles Testimony Before The
House Education Committee
Thursday, February 23, 1989

Thank you, Mr. Chairman. My name is Kay Coles and I represent Kansas-NEA. I appreciate this opportunity to visit briefly about HB 2261.

Kansas-NEA believes that when the fifth enrollment category was created in 1982, the Legislature was given and believed the reasons for having the fifth enrollment category's median budget set higher than the fourth enrollment category. That difference was approximately 4%. That difference was allowed to grow to over 12% as of two years ago, basically because of a declining enrollment in the largest category.

Kansas-NEA supports the increase of the median budget of the fourth enrollment category in a similar fashion to the interim education proposal. That plan would bring the level back to the 4% difference established in 1982. Additional increases should be allowed only after careful assessment of the actual differences between the districts; e.g., number of Title I students, number of "at-risk" pupils, number of bilingual students, etc.

Until a more in-depth study of the differences in our schools (and we believe one should be done), we believe that the interim study committee approach should be implemented. Thank you for listening to the concerns of our members.

STATEMENT TO HOUSE EDUCATION COMMITTEE
BY
KEN ROGG, LEGISLATIVE REPRESENTATIVE
SCHOOLS FOR QUALITY EDUCATION
RE:
HB2261

Schools for Quality Education consists of 96 unified school districts of the three lower enrollment categories. We have not, therefore, developed a formal position on the topic at hand. We do have two concerns that we would share with you.

First of all, if the committee in its deliberation should determine that an inequity does indeed exist, we support correction of that flaw. We are concerned with overcorrection, thus creating another inequity. The condition should be corrected only to that relationship that existed at the time that the fourth and fifth categories were separated and thus created.

Secondly, we believe the correction process should be phased in rather than creating abrupt shifts in the State's share in school finance for either the upper or lower enrollment categories.

Kansas State Department of Education

Kansas State Education Building

120 East 10th Street Topeka, Kansas 66612-1103

February 15, 1989

TO: House Education Committee

FROM: State Department of Education and
Legislative Research Department

SUBJECT: School Finance Comparisons

The attached computer printout (L8932) shows what the effects would have been in 1987-88 if the state aid norm for the fourth enrollment category had been increased by 3.5 percent and an amount equal to the fifth enrollment category. The increases would have been higher in some school districts if the budget medians would have been increased by the same amounts. This printout is based on the budgets legally adopted by the school districts for the 1987-88 school year. Listed below is a column explanation of the printout.

COLUMN EXPLANATION

Actual 1987-88 Current Law

Column 1 - 1987-88 General State Aid
Column 2 - 1987-88 Income Tax Rebate
Column 3 - Total (Column 1 + 2)

Actual 1987-88 Current Law Except State Norm BPP Increased in 4th Enrollment Category by 3.5 Percent

Column 4 - Estimated general state aid assuming the state aid norm for the 4th enrollment category was increased 3.5 percent.
Column 5 - 1987-88 Income Tax Rebate
Column 6 - Total (Column 4 + 5)
Column 7 - Difference (Column 6 - 3) Comparison of 1987-88 actual general state aid and income tax rebate and effects of assuming the state norm for the 4th enrollment category was increased 3.5 percent.

Actual 1987-88 Current Law Except State Norm BPP Increased in 4th Enrollment Category to an Amount Equal to the Fifth Enrollment Category

Column 8 - Estimated general state aid assuming the state aid norm for the 4th enrollment category was increased to an amount equal to the fifth enrollment category norm
Column 9 - 1987-88 Income Tax Rebate
Column 10 - Total (Column 8 + 9)
Column 11 - Difference (Column 10 - 3) Comparison of 1987-88 actual general state aid and income tax rebate and effects of assuming the state norm for the 4th enrollment category was increased to an amount equal to the fifth enrollment category

FROM: State Board of Education
SUBJECT: 1989 House Bill 2201

My name is Bill Musick, Legislative Committee Chairman of the State Board of Education. It is a pleasure for me to appear before this Committee on behalf of the State Board.

House Bill 2201 grants permission for unified school districts to purchase goods, materials, and wares from the state bid list which is prepared by the State Director of Purchasing.

The State Board believes this bill has the potential of saving school districts money and because of the increased purchasing volume could also save the state money. Since the bill is permissive, it is not possible to estimate the savings at this time.

The State Board of Education recommends that House Bill 2201 be recommended favorably for passage.

Testimony on HB 2201 before the House Education Committee

by

Bill Curtis, Assistant Executive Director
Kansas Association of School Boards

February 16, 1989

Mr. Chairman and members of the committee, we appreciate the opportunity to testify today on behalf of the 301 member districts of the Kansas Association of School Boards. HB 2201 permits school districts to access the state bid list. KASB supports HB 2201.

This bill is permissive in allowing school districts to use the state bid list when buying supplies or products necessary for the operation of schools. Some districts already participate in buying cooperatives. The savings realized are due to quantity discounts. If districts should decide to use the state bid list, they should be able to realize savings for the same reason. Bid specifications can be compared to insure that the products are identical.

We appreciate the attention of the committee and urge favorable consideration for HB 2201.

HB 2201

Testimony presented before the House Education Committee
by Charles Stuart, Legislative Liaison
United School Administrators

Thursday, February 16, 1989

Mr. Chairman and members of the House Education Committee. I am Chuck Stuart, representing the United School Administrators of Kansas. We appreciate the opportunity to testify in support of House Bill 2201.

House Bill 2201 amends the statute known to school administrators as the "compulsory bid law". The compulsory bid law requires sealed bids and contracts awarded to the lowest responsible bidder. This requirement is for expenditures of more than \$10,000 for construction, reconstruction or remodeling, and for the purchase of materials, wares or goods by a school district.

The amendment contained in HB 2201 would allow school districts the option of making purchases greater than \$10,000 without competitive bids if the item to be purchased has previously been bid by the state director of purchasing and the school district purchase was made from the approved state provider.

An example of how this amendment would assist school districts is the current practice in the purchase of tires for school district vehicles. Major tire companies submit a bid price to the state for many different sizes of tires. The tire company sends the state bid price information to their dealers. Any political subdivision can then purchase tires at this "state net" price from their local dealer.

The selling price to political subdivisions is less than the purchase price of tires by the dealer. The local dealer provides proof of sale and is then credited for the difference between his purchase price and the lower selling price. The dealer thus avoids a loss from the sale. The dealer is also credited for 5% of the selling price for handling the sale.

In the case of tires, local dealers use this procedure whether the total bid price is below or above the \$10,000 compulsory bid level. It is possible that not all companies submitting bids to the state would handle smaller bids as is done by the tire companies.

The state is one of the largest purchasers of materials and goods similar to those used by a school district. Allowing school districts the option to purchase from the state bid list without a compulsory bid provision for purchases greater than \$10,000 allows each district another option to consider in the economic operation of the school system.

We therefore ask your favorable consideration of HB 2201.
