John Myers. Mr. Myers discussed with the committee the intricate issues and options pertaining to decisions that will be forthcoming by the legislature on school finance. He presented counsel on his interpretation of Judge Bullock's opinion. He said in the burdensome task ahead there are three kinds of issues, 1) philosophical, 2) technical and 3) political, and previewed the relevance of these issues when pursuing school finance decisions as per the judge's order.

The committee took advantage of Mr. Myers expertise and a valuable discussion ensued on a myriad of school finance issues, pupil weighting, local control, special education needs, etc.
