 RE: Subtracting USD General Fund and Building Fund Levies from Car Tax Levy

This memo is in response to your request for a fiscal note on removing from the definition of countywide average levy for purposes of motor vehicle taxes, that portion attributable to USD general funds (35 mills) and the state building funds (1.5 mills). Your plan calls for this to occur over a two-year period. In 1996, the levies and distribution formulas would be adjusted such that the assumed levy applicable to distributions to USD general funds would be 17.5 mills and distributions of receipts to the building funds would be equivalent to 0.75 mills. In 1997, distributions of motor vehicle taxes to USD general funds and state building funds would cease altogether.

In addition, the assessment rate would be reduced to 27 percent in 1996 (and would continue to decline until it reached 15 percent in 2000).

Based on some numbers I obtained from Ben Barrett and assuming that 25% of a calendar year's receipts are distributed to taxing subdivisions by each June 30, the bill would reduce receipts to USD general funds and the state building funds as follows:

(\$ in thousands)

	USD General Funds	State Building Funds	Total
FY 1996	(\$12,500)	(\$463)	(\$12,963)
FY 1997	(\$61,000)	(\$2,260)	(\$63,260)
FY 1998	(\$94,900)	(\$4,085)	(\$98,985)
FY 1999	(\$98,200)	(\$4,289)	(\$102,489)
Cumulative thru FY 99	(\$266,600)	(\$11,097)	(\$277,697)

Please remember that the fiscal notes presented above reflect only the impact on USD general funds and on state building funds. To the extent that other taxing units would see a reduction in receipts or in the rate of growth in receipts, such impacts are not included in the above table.

Attached, however, you will find the county-by-county printout from the Kansas Department of Revenue's vehicle tax model. That printout suggests that for CY 1996, the reduction in receipts to all taxing units would be about \$61.5 million. USD general funds have not been disaggregated from this estimate at this point in time.
