

Approved: 2-7-95  
Date

MINUTES OF THE SENATE COMMITTEE ON AGRICULTURE.

The meeting was called to order by Chairperson David Corbin at 10:00 a.m. on February 22, 1995 in Room 423-S of the Capitol.

All members were present except: Quorum was present.

Committee staff present: Raney Gilliland, Legislative Research Department  
Jill Wolters, Revisor of Statutes  
Lila McClafin, Committee Secretary

Conferees appearing before the committee:

George Teagarden, Kansas Livestock Commissioner  
Nancy Zogleman, Pfizer Pharmaceutical  
Larry Woodson, Department of Agriculture  
Dennis Peterson, President, County Weed Dealer's Association of Kansas

Others attending: See attached list

Chairperson Corbin said the hearing would continue on **SB - 310 - relating to animal remedies; creating the animal fee fund; authorizing the livestock commissioner to issue certificates of health; video auctions.**

George Teagarden testified the Governor's recommended budget for FY 96 is \$65,000 less than what they believe is necessary for them to complete their statutory duties. In order for their department to meet their statutory obligations and maintain adequate fee fund balances they must have more state general fund dollars committed to their agency or expand the fee structure. Attached to Mr. Teagarden's testimony is a FY 1996 budget appeal and a fact sheet, which he referred to as the fat in their budget (Attachment 1). Mr. Teagarden responded to questions on their budget and fees.

Nancy Zogleman testified in opposition to **SB 310**. She said this fee is being put on only one segment of the industry. She said the information that was requested of Ms. DeQuasie had been distributed. Miles Inc., (Attachment 2) and Pfizer (Attachment 3).

Larry Woodson distributed information on the companies that have products registered in the state (Attachment 4). He made some clarifying remarks regarding the registration of animal health products

The hearing on **SB 310** was closed.

Chairperson Corbin stated he sensed a great deal of concern with **SB 310**. He was going to request that the bill be sent to a non-exempt committee and be referred back so the committee would have more time to work it.

**SB - 164 creating the Kansas Dairy Commission**

Committee action was called for regarding the motion on the floor from the meeting of February 20, 1995. Staff reviewed the amendment and stated the motion on the floor was to pass as amended SB 164. Discussion followed. The question was called for and the motion carried.

Chairperson Corbin opened the discussion on **SB 206 - giving the county weed directors the power to seize noxious weed seeds or plants; amending the penalty section; unpaid labor costs collected as other taxes.** Staff was called on to review the provisions in the bill. Several Senators expressed concern with the legislation.

Dennis Peterson, Riley County, stated the first priority of the Weed Dealers Association was the increase in fines that are outlined in the bill.

Discussion on **SB 206** was continued until February 23. The meeting adjourned at 11:02 a.m.

The next meeting is scheduled for February 23, 1995.

---

February 21, 1995

Chairman Corbin, members of the Senate Agriculture committee, I am George Teagarden, Livestock Commissioner for the State of Kansas. The Kansas Animal Health Department is experiencing fiscal problems because of a reluctance by the legislature to support our agency with more general fund money and declining revenues through our current fee structure.

The KAHD is organized into four functions; administration, disease control, brands and kennel inspections. disease control represents 60 percent of our budget, however, the principle source of revenue for disease control (70%) is market fees, which are declining at a rate of \$18,112 per year. Balances in our disease control fund are nearly zero at the end of fiscal year 1996 and disease control is being supplemented by brands at a rate of \$35,532 for FY 96. We cannot sustain this action.

S.B. 310 will broaden the fee base for our agency, put a more stable fee structure in place and reduce the reliance on a decreasing source of funds.

Some might suggest that we make adjustments in our budget so that the existing revenue sources will fund the agency. I've included a copy of budget numbers from 1974 through the Governor's recommendations for FY 96. These figures show that the real growth in our budget has been salaries and wages. We are packing them high and tight; we have fewer employees today than in 1974 and have added the kennel program, domesticated deer and ratites to our responsibilities.

The Governor's recommended budget for FY 96 is \$65,000 less than what we believe is necessary for us to complete our statutory duties. In order for our department to meet our

*Senate Ag. Co.  
2-22-95  
attachment 1-1*

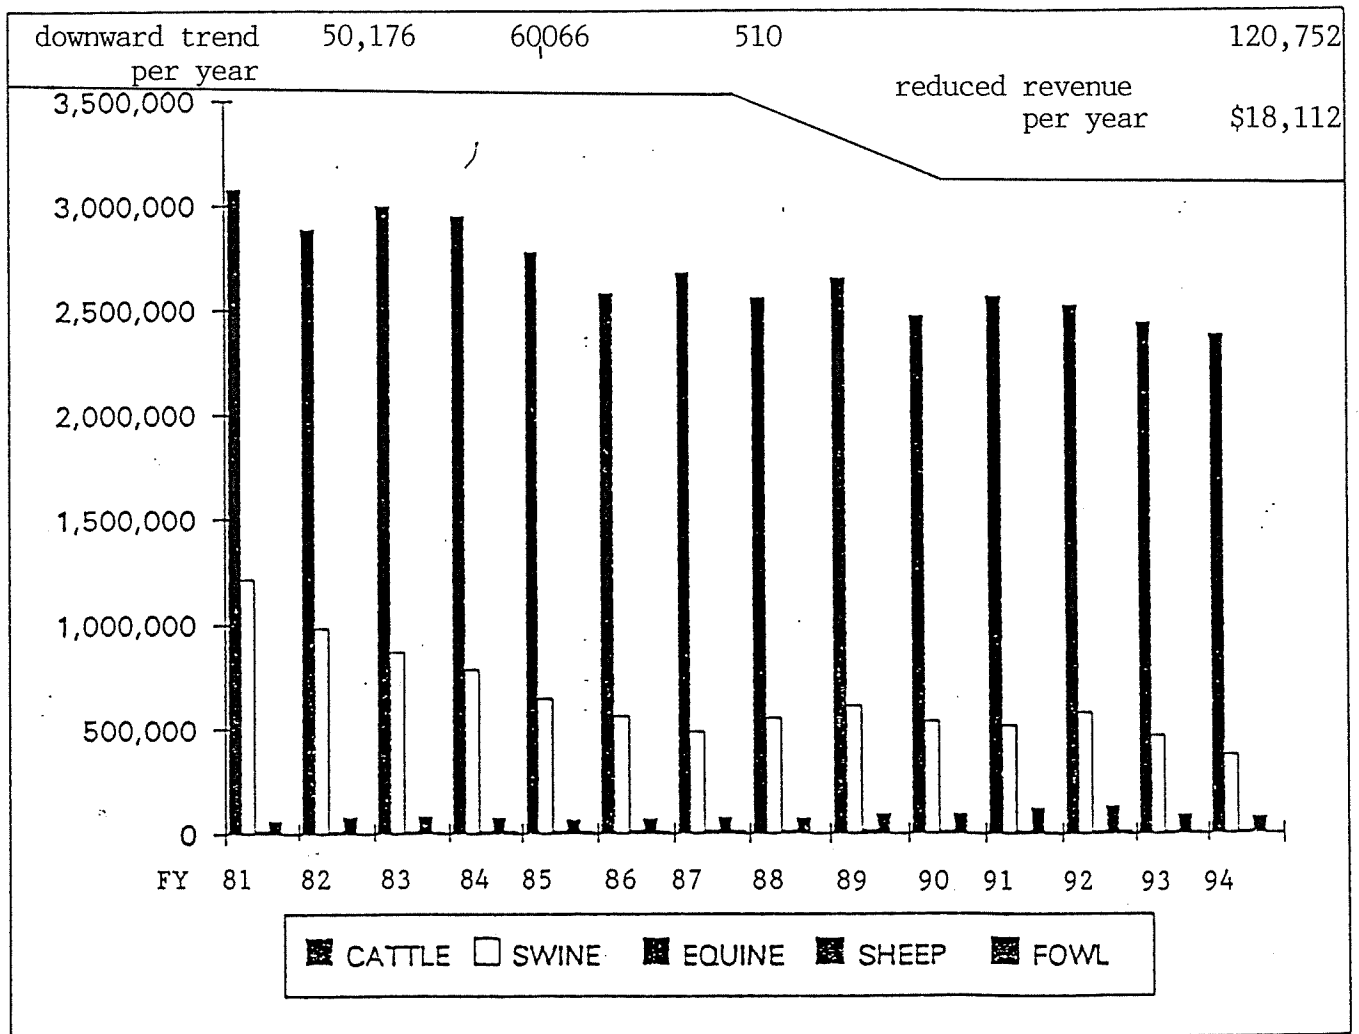

statutory obligations and maintain adequate fee fund balances we must have more state general fund dollars committed to our agency or this expanded fee structure.

Thank you.

George Teagarden

**Kansas Animal Health Department  
 FY 1996 Budget Appeal**

TO: Senator Barbara Lawrence  
 Subcommittee Chair  
 Senator Dave Kerr

Dear Senators:

The Kansas Animal Health Department appeals the following amount from the Governor's Budget Recommendation:

**FY 1995**

Communications: \$1,523  
 (postage rates have increased by 10 percent)

**FY 1996**

Agency wide: \$ 27,985  
 Administration: 5,000  
 Animal Disease: 8,100  
 Animal Facilities: 12,545  
 Brands: 9,042  
**TOTAL: \$ 62,672**

**Funding: State General Fund**

Funding Justification: Under the Governor's FY 1996 recommendation, expenditures exceed receipts in each of the agency's 7 fee funds. FY 1996 ending balances are estimated, by the Governor, as follows:

Livestock Market Brand Inspection \$ 15,336  
 Veterinary Inspection (pass-through) 2,067  
 Livestock Brand Fee Fund 5,882  
 County Option Brand 14,037  
 Animal Disease Control Fund 1,991  
 Animal Dealer Fee Fund 10,134

As recommended by the 1994 Legislature, the Livestock Commissioner has increased all fees to the statutory maximum. In addition, the Senate Committee on Agriculture as recommended for introduction a bill to restructure agency fees relating to disease control of large animals. As introduced, the bill would increase revenue to the Animal Disease Control Fund by approximately \$200,000.

Re: Kansas Senate Bill No. 310  
Livestock Remedy Law

Dear Senator Corbin:

This letter is written to provide our comments regarding the proposed changes in the Kansas Livestock Remedy Registration law and the fees involved.

Currently, Miles Animal Health is required to register livestock remedy products in several states. Example are listed below:

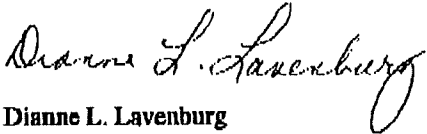

STATE	FEES	PRODUCT TYPE	REGISTRATION PERIOD
California	\$180.00 each	OTC Pharmaceuticals only	2-year registration
Louisiana	\$15.00 each (\$150 max.)	All pharmaceutical and biological products.	Annual registration
Michigan	\$20.00 each	Biologicals & OTC Pharmaceuticals	Annual registration
North Dakota	\$10.00 each	All pharmaceutical and biological products.	Annual registration
Oregon	\$65.00 each	All pharmaceutical and biological products.	Annual Registration
South Dakota	\$25.00 each	Pharmaceuticals only.	Annual Registration
Virginia	\$25.00 each	OTC Pharmaceuticals only.	Annual Registration
Wisconsin	\$6.00 each	All Pharmaceuticals/Letter to state vet at first introduction of a biological.	Annual Registration
Wyoming	\$5.00 each	All pharmaceutical and biological products.	Annual Registration
Kansas	\$12.00 each	All Pharmaceuticals	Annual Registration

As a company residing in Kansas, we have a vested interest in supporting the state and its programs, as well as serving our customer's needs. As you can see from the table on page one, however, the proposed fee increase would make Kansas *the most expensive state* currently registering these types of products, with the exception of California. California, however, does not require the registration of biologicals or ethical (prescription) pharmaceuticals.

We believe some firms would find this fee increase unpalatable or not economically feasible and consider not registering products. That type of action could defeat the purpose of raising the fees. Some companies might cease sales in the state altogether, decreasing the availability of drugs and biologics for veterinarians and consumers.

As a company based in Kansas, we completely support the activities of the state Division of Disease Control, but are concerned about the possible impact such a drastic, immediate increase in registration fees could have, for animal health firms and the clients they serve.

Sincerely,

Dianne L. Lavenburg
