Some of these include being chosen as the first state to use the Paladin, a high-tech piece of artillery equipment; a Community Multi-media Learning Center program, which will in cooperation with Kansas State University provide satellite programming, the Internet, multi-media information to rural and urban Kansans; and being chosen for one of five sights in the United States for a Retro Europe program which seeks to rebuild military equipment which was previously being unused in Europe due to down sizing in the military.

Sen. Oleen asked for committee action on approving Committee minutes for the Committee Meeting on January 25. Sen. Tillotson made a motion to correct the minutes of January 25 to read that Sen.
