

MINUTES OF THE SENATE COMMITTEE ON WAYS AND MEANS.

The meeting was called to order by Chairperson August Bogina at 11:00 a.m. on February 17, 1995 in Room 123-S of the Capitol.

All members were present except:

Committee staff present: Eric Milstead, Legislative Research Department
Laura Howard, Legislative Research Department
Patricia Pierron, Legislative Research Department
Norman Furse, Revisor of Statutes
Michael Corrigan, Revisor of Statutes
Judy Bromich, Administrative Assistant
Ronda Miller, Committee Secretary

Conferees appearing before the committee

Senator Stephen Morris
Senator Lana Oleen
Glenn A. Caldwell, Jr., Major, US Department of the Air Force
Colonel Ronald K. Williams, USAFA/ROTC Admissions Officers, Central KS
Dr. Pat Bosco, Associate VP for Institutional Advancement/Dean of Student Life
Lieutenant Colonel Ronald F. Nicholl, Professor of Military Science, KU
Major George Stelljes, Professor of Military Science, KSU
Francine Hines, State President for Kansas Assoc. of the US Army and Member of
the Washburn University Board of Regents
Major General James F. Rueger, the Adjutant General
Major Henry Martin, the Adjutant General's Office
Ted Ayres, General Counsel and Director of Governmental Relations, Kansas
Board of Regents
Gloria Timmer, Director, Division of the Budget

Others attending: See attached list

Senator Kerr moved, Senator Morris seconded, that bill draft 5 RS 0102 as requested by the SRS subcommittee be introduced. The motion carried on a voice vote.

Senator Vancrum noted that HB 2465 was stalled in the House. Senator Brady moved, Senator Kerr seconded that a new bill identical to HB 2465 be introduced. The motion carried on a voice vote.

Senator Brady moved, Senator Lawrence seconded, that the minutes of February 13, 14, and 15, 1996 be approved as presented. The motion carried on a voice vote.

SB 187: Board and room assistance to be provided for certain reserve officer training corps cadets

Senator Morris presented written testimony in support of **SB 187 (Attachment 1)** which he reviewed for the Committee. He stated that he was aware that there is a discrepancy in the number of available rooms that the universities claim to have versus those the Department of Research has identified. Senator Morris distributed a document which provided a review of the residency hall occupancy rates from 1990-1994 (**Attachment 2**).

Senator Oleen appeared before the Committee in support of **SB 187 and SB 215**. She noted that the bills afford an opportunity to Kansas students who choose a military career and acknowledged that an amendment might be needed on the housing bill.

Major Glenn Caldwell appeared before the Committee in support of **SB 187** and reviewed his written testimony (**Attachment 3**). In answer to Senator Vancrum, the Major stated that he could not testify on behalf

of all ROTC graduates, but, in his case, it was the Air Force which provided him with enough security to return to farming in Kansas.

Colonel Ronald Williams testified in support of **SB 187**, and provided members with a copy of his biography and a summary of incentives offered to ROTC scholarship students by various academic institutions (Attachment 4). It was his opinion that a nominal increase in the state's support for students enrolled in the ROTC Program provided in **SB 187** would go a long way toward stopping the "brain drain" in Kansas.

Dr. Pat Bosco, the Associate Vice President/Dean of Student Life at Kansas State University, presented testimony which expressed support of the ROTC program but reservations about passing the cost of the board and room waiver on to students who currently live in the residence halls (Attachment 5). He acknowledged the excellence of the ROTC program, but noted that there are other scholarship programs that also have merit which are not receiving additional support. Dr. Bosco told the Committee that the occupancy rate for the fall of 1994 at the KSU residence halls was 95%. In answer to Senator Lawrence, Dr. Bosco stated that KSU is working toward graduating 15 officers each year by recruiting individuals who want a military career and can earn a two year scholarship at KSU once they're in the Army or Air Force.

The Chairman recessed the meeting at 12:05 P.M. for session; it was reconvened at 12:30 P.M.

SB 215: Reserve officers' training corp (ROTC) programs, educational benefits

Lt. Colonel Ronald Nicholl appeared as a proponent for **SB 215** and reviewed his reasons for supporting the bill (Attachment 6). He explained to members that **SB 215** raises the number of tuition waivers from 40 to 60 at each of the regents institutions and includes Washburn University, where 60 positions would be phased in over a four year period.

Major George Stelljes, professor of Military Science at Kansas State University, introduced Capt. Kenwood, a National Guard officer, Capt. Tatham, and 2 cadets who are recipients of the National Guard tuition waiver. He reviewed his written testimony (Attachment 7) and made available files of applicants for the ROTC tuition waiver who could not be assisted.

The Chairman asked Captain Christopher Tatham to address the Committee. Capt. Tatham told members that he accepted a scholarship to Princeton because Kansas schools did not waive room and board. He said that students enter the ROTC program because they need to pay for college and the state awards students for their decision to serve, regardless of what discipline they pursue. He expressed his support of the national Guard program at KSU and noted that **SB 215** reinstates the original intent of legislation to provide 240 tuition waivers.

Francine Hines, State President for the Association of the U.S. Army and a member of Washburn University's Board of Regents, reviewed her testimony in support of **SB 215** (Attachment 8).

Major General James Rueger appeared as a proponent of **SB 215** (Attachment 9). He informed members that a higher level of education is now required by the Department of Army for the military corps. He also mentioned that quality state institution programs have the potential of producing senior leadership positions in the military and he would like Kansas to have those programs.

There was discussion about whether graduates of the programs would return to reside in Kansas. Lt. Colonel Nicholl stated that if a Kansas National Guard scholarship student does not serve four years in the Kansas National Guard, he must repay the state for his tuition.

Major Henry Martin, Recruiter and Retention Manager for the Army National Guard, spoke as a proponent of **SB 215** and submitted testimony (Attachment 10). He stated that if students do not serve in active duty for four years, they must repay the state, so the program has not lost any money for the state. If a student drops out of the ROTC program, he still has to serve four years as an enlisted soldier. Major Martin said that in the federal effort to downsize the military, Kansas structure will be downsized if it doesn't meet quota.

Ted Ayres, General Counsel and Director of Governmental Relations for the Board of Regents, summarized his testimony in support of **SB 215**, but pointed out that expansion of the ROTC program is a policy decision for the Legislature. He mentioned other assistance programs which have not been recommended for increase and which would be of a higher priority for the Board of Regents (Attachment 11).

Written testimony from David Monical, Executive Assistant to the President at Washburn University (Attachment 12), and from Dr. Pat Bosco, Associate Vice President for Institutional Advancement at Kansas

State University (Attachment 13), in support of **SB 215** were distributed.

The Chairman concluded the hearings on **SB 187** and **SB 215**.

SB 94: **State general fund transfers to military retirees income tax refund fund**

Ms. Gloria Timmer, Director of the Budget, appeared on behalf of the Governor and reviewed the Governor's request that transfers to the Military Retirees Income Tax Refund Fund occur in FY 95 (Attachment 14). In answer to the Chairman, she stated that the Governor did not recommend accelerating the repayment date, in part, to take advantage of \$900,000 in interest that would accrue to the SGF and, in part, because there is a certification date of February 18, 1996 which would allow the agency to make adjustments before the final payment is made on June 30, 1996.

Senator Salisbury moved, Senator Brady seconded, that SB 94 be recommended favorable for passage. The motion carried on a roll call vote.

The Chairman adjourned the meeting at 1:15 P.M. The next meeting is scheduled for February 20, 1995.

SENATE WAYS AND MEANS COMMITTEE

SB 187

Mr. Chairman and Members of the Committee:

Senate Bill 187 would be an augmentation to current Department of Defense ROTC scholarship recipients at Kansas State University and the University of Kansas. These scholarships pay for tuition, books, fees and \$100 per month.

Because tuition is paid, many Kansas students choose to attend so-called "big name" schools such as MIT, Stanford, Notre Dame, etc. In addition, many universities around the nation have added their own inducements to attract these students, such as the University of Missouri, that added board and room as an additional award for the recipients attending MU. These recipients have very high ACT scores, high GPA's and compete on a nationwide basis for these scholarships!

Both Air Force ROTC and Army ROTC are having viability problems due to the loss of our Kansas students to other universities with more attractive awards. The Department of Defense has stated that each detachment must have 15 graduates per year or the detachments will be forced to close.

The program I am suggesting with this bill would address this problem to a certain degree. This proposal would grant room and board to Department of the Defense scholarship recipients at both K-State and KU. It would take advantage of empty dorm rooms at both universities and as an offset, bring in federal tuition money. It would also help attract an additional cadre of very bright students to our state universities.

Attachment 1

I am suggesting an amendment to this proposal that would earmark these federal tuition monies to go into a restricted use fund to offset possible loss of revenue to the dorms at both institutions. It is my understanding there are empty rooms at both K-State and KU.

I believe this proposal would help the detachments at both universities maintain viability. Those detachments are important parts of our universities. It would also help to attract a higher percentage of academically gifted young people from our state.

I feel that utilizing empty dorm space and diverting this federal tuition money to the residence hall programs at the schools would be a win-win situation for everyone concerned.

Thank you and I would be glad to stand for questions.

FINAL READING OF PROPOSED ADJUSTMENTS TO HOUSING FEES FOR FY 1996

Summary and Staff Recommendation

Requests for housing fee increases have been submitted by all six universities. The requests for increases submitted by each institution are attached to this issue paper. Additionally, the staff has prepared summary information concerning residence hall rate increases and occupancy, displayed in Attachment C1. Staff recommend Board approval of the increases as requested.

BACKGROUND

Pursuant to Board policy, the institutions submit their proposed housing fee adjustments to the Board for first reading in November, with final action to be taken by the Board in December. Accordingly, all institutions have submitted housing rate adjustments.

The six institutions have different housing and food service rate structures because of such factors as the amount of outstanding bonded debt, occupancy rates, ages of facilities and economies of scale related to the capacity of the housing operation. Because of these differences, comparisons of rates among institutions are difficult. However, to illustrate the overall magnitude of the proposed rate increases, the following table compares the current and proposed yearly rate at each institution for a typical double occupancy room and board contract:

	Present 1994-95 Rate	Proposed 1995-96 Rate	Proposed Increase	
			\$	%
KU	\$3,384	\$3,544	160	4.7
KSU	3,220	3,370	150	4.7
WSU	3,299	3,465	166	5.0
ESU	3,120	3,220	100	3.2
PSU	3,034	3,126	92	3.0
FHSU	3,090	3,214	124	4.0

ANALYSIS AND DISCUSSION

Generally, the institutions propose 3-5 percent increases, indicating that the housing rate increases are necessary to offset expected operating cost increases, that the increase will not adversely impact occupancy rates, and that the increases have been reviewed by the responsible campus groups with student representation. Financial impact statements have been provided by the institutions. Staff have prepared tables contained in Attachment C1 which show trend data on rate increases and occupancy, as well as national comparisons.

CONCLUSIONS AND RECOMMENDATIONS

In addition to the justification provided in the fiscal impact statements, staff requested and received business case justifications are appropriate at KU and KSU, because their anticipated housing revenue increases each exceed \$100,000 for FY 1996. Those business case justifications are included in Attachment C1. Given the justification provided and the fact that all recommended increases have been reviewed and approved by campus groups with student representation, staff concur with the housing increases as proposed by the institutions.

RE: Senate Bill No. 187

I strongly support the passage of Senate Bill No. 187. It is my opinion that the dwindling number of ROTC students will ultimately result in the closure of ROTC programs in Kansas. Passage of Senate Bill No. 187 would be instrumental in providing an avenue for encouraging ROTC participation and keeping our top students in Kansas Colleges and Universities.

ROTC is important from the standpoint of providing leadership in the military that is a cross section of the United States population. ROTC provides leadership in the form of the Citizen Soldier by commissioning officers that have been trained in civilian institutions. By having a military leadership that is a blend of Professional officers from military institutions and Citizen Soldiers from civilian institutions insures that we have a military leadership that is both highly skilled in the Profession of Arms and tempered by the values of the civilian populace that it is sworn to defend. It is in our best interest that Citizen Soldiers be commissioned from Kansas units to provide those rich values that Kansas has to offer.

The profile of ROTC scholarship recipients is the epitome of the student leaders we would like to have come out of Kansas high schools to be student leaders in our universities. These students typically have ACT scores averaging 29 and high school GPA's of 3.7+; they are ranked in the top 10% of their classes and 15% are National Merit semifinalists. Typically the Air Force, Army, and Navy offer 8700 scholarships nation-wide to almost triple that number of applicants. In 1994, 132 Kansas students were offered military scholarships. Navy had 9 accept their scholarships and 8 went out of state; Army had 26 accept their scholarships and 21 left the state; Air Force had 29 scholarship recipients that opted to leave the state.

A basic concern that Senate Bill No. 187 will answer is the retaining of highly talented Kansas students in our universities. I am not one that supports the concept of implementing a program or policy simply because it is found elsewhere; "Keeping up with the Jones" is not my intent. However, Kansas is loosing it's bright ROTC students to other institutions because Kansas is not competing. In the Big Eight Conference it is only the Kansas schools that offer no supplemental appropriations to ROTC Scholarship recipients. The peer institutes (University of Iowa, University of North Carolina-Charlotte, University of Oregon, and University of Portland) also cast a giant shadow over the non-support Kansas has for its ROTC scholarship recipients. 24 schools in 10 nearby states offer financial incentives to ROTC. These are but a few of the institutions nation-wide that offer supplemental funding to ROTC scholarship recipients.

Graduates of ROTC will often leave the state to serve in the military. (The Army does have programs that allow their graduates to serve in Reserve units within the state.) This service to country does not necessarily mean that the individual is lost from the state. While on active duty they generally retain their residence as Kansas; that means they continue to pay income taxes to Kansas and maintain an allegiance to our state. Many of these officers will fulfill their initial service commitment and then return to Kansas. Many will leave active duty because they want to return to college for additional degrees or to change

SWAM
February 17, 1995
Attachment 3

careers. It is my opinion that often their first choice of schools will be one with which they are familiar; the one from which they received their undergraduate degree. In the past ten years it has been my experience that most of ROTC scholarship applicants have been more interested in the funding of their education than they have been interested in the military. Many could have ascended to the higher academic and military standards of our service academies but did not for two reasons. Most have not planned to be career military officers, and even though they have been willing to travel across Kansas borders, they have not been willing to travel as far from home as West Point and Annapolis. These students are the officers that will be separating from active duty and maybe returning to Kansas. If we can keep them in Kansas schools by the passage of Senate Bill No. 187, we will probably see them returning to our schools and state when their initial service commitment is fulfilled.

Viability of our ROTC units is important to us. Besides providing careers and student financial aid, they provide sense of fraternity, intramurals, counseling and develop a professional character for ROTC students. These all contribute to a successful college graduate. The ROTC units can attract active duty officers that are assigned by the military to earn advanced degrees. For example, the Air Force has fifteen officers attending the University of Kansas to earn advanced degrees. These are not officers that have staff duties with the Air Force ROTC Detachment. At Kansas State, one of the Air Force ROTC staff officer's spouse is an Air Force Reservist. They are at Kansas State so the spouse can attend the School of Veterinary Medicine. These families and many more military families at our universities bring considerable dollars into the communities. If the ROTC units were to close, Kansas would lose contributions of these families and the recognition of the excellence in education the military is placing on these schools by allowing its active duty officers to obtain advanced degrees in residence at these institutions. Air Force units have been mandated to graduate 15 officers each year. Neither the University of Kansas nor Kansas State presently meet that mandate. If only half of the 1994 Kansas Air Force scholarship recipients would have stayed in Kansas schools, it is possible that both ROTC units would not be threatened with closure.

Senate Bill No. 187 needs to be passed to stay competitive with other states. It will give Kansas the opportunity encourage some of its brightest high school leaders to further their education and share their leadership in Kansas universities. It will help to insure that the ROTC units in Kansas stay viable and produce military leadership that reflects the values that indicative of life in Kansas.

Sincerely,

BIOGRAPHY

COLONEL RONALD K. WILLIAMS was born and raised in Salina, Kansas and graduated from Salina High School in 1954. He entered the USAF in November, 1956 as an Airman Basic. He was accepted into the Aviation Cadet Flight Training Program and after flying the T-34 and T-28 at Graham AB, Marianna Florida, he was sent to Bryan AFB, College Station, Texas and flew the T-33A. He graduated and was commissioned a 2/Lt. in March, 1957. His next assignment was to Luke AFB Arizona, to check out in the F-84F, then to Nellis AFB Nevada, where he was in the 3rd class of 2nd Lieutenants to complete initial fighter qualification in the Air Force's first supersonic fighter, the F-100A. In December, 1957 he arrived at Itazuke AB, Japan and was assigned as a Fighter Bomber pilot flying the F-100D and F-100F with the 80th Fighter Bomber Squadron, 8th Fighter Bomber Wing, 5th Air Force. The 80th was the first unit in the far east to be equipped with nuclear weapons. In 1960, Lieutenant Williams was selected to be assigned as an Instructor Pilot back at Nellis AFB, in his previous student squadron, the 4521 CCTS. In 1961, he was assigned to the Training Analysis and Development section of Group Headquarters as the F-100 Training Officer. In 1962, Lt. Williams became the youngest ranking officer in the Air Force to fly the F-110A which was later to become the F-4. In 1963, without having attended himself, he was assigned to be an Instructor Pilot in the USAF Fighter Weapons School. In 1964, Captain Williams was selected for one of the 13 USAF/USN exchange tours offered to all USAF pilots every two years. His Navy unit was equipped with the A-3B which is the largest heavy attack jet aircraft ever flown from an aircraft carrier. After a 6 month check out and Carrier qualifications on the USS Oriskany he was assigned to the USS Midway as the Asst. Operations Officer in VAH (Heavy Attack) Squadron 8, Carrier Air Wing TWO. The USS Midway was deployed to the South China Sea and in March of 1965 USS Midway pilots and crew members flew the first combat missions flown in North Viet Nam. Captain Williams flew 110 combat missions over Viet Nam, and made 141 carrier landings. He is the only USAF pilot to be qualified as a "Centurion" (100 arrested landings in one aircraft on one carrier), in the A-3B. In December of 1965, Captain Williams was assigned as an Instructor Pilot in VAH 123, the training squadron (RAG) at NAS Whidbey Island Washington. While there he instructed carrier landing techniques to Navy Student pilots upgrading to the A-3B and the TA-3B. In June 1966 Captain Williams left active duty and joined the Kansas ANG's 184th Tac. Ftr. Gp., flying the F-100C. At this time he was hired as a pilot by Trans World Airlines and domiciled in Kansas City. In 1967, he volunteered for Army Airborne Parachutist Training and made 5 parachute jumps from a C-119 at Ft. Benning GA. At the completion of this training he was presented the Army's "Iron Mike" trophy for outstanding leadership. In 1968, due to the Pueblo Crisis in Korea, Captain Williams was recalled to active duty with the KANG. After 3, non-stop, Trans Pac flights in the F-100C from Wichita Kansas, the 184th was deployed to it's new home of Kunsan AB, Korea. In 1969 he returned to the States and his job at TWA. He transferred from the KANG to the MOANG at St. Louis, Mo., flying the T-33a. In 1971, Captain Williams transferred to the 507th Tactical Fighter Group (AFRES) at Tinker AFB OK. The 507th had been selected to be the first Air Force Reserve unit to be equipped with fighter aircraft (F-105D and F-105F) since the Korea War. Captain Williams was the first reservist in the 507th to fly a tactical mission in the "Thud". After 10 years and over 1,200 hours in the F-105D and F, Lt./Colonel Williams checked out in the F-4D which he flew until being promoted (to Colonel in 1982), and out of a flying slot. While in the 507th, Colonel Williams progressed from Sq. Pilot, to Flight Commander, to Operations Officer, Squadron Commander and Group DCO. In 1982 he was assigned to be the United States Air Force Reserve, M-day Assignee to the Chief of fighter Safety at Norton AFB, CA. In Addition to the aircraft mentioned Colonel Williams has flown the H-43, C-47, DC-6, F-8D, A-4C, F-16D, CV-880, B-727, B-707, L-JetStar, L-1011, DC-9, MD-80, MD-82 and the B-747. He has zero accidents for over 20,000 hours and has Airline Transport Ratings in 4 heavy commercial jet transports up to and including the B-747. Colonel Williams military decorations include the USN Air Medal with 4 Gold Stars, the USN Commendation Medal with Combat V and several other Navy, Army, Air Force and Air Force Reserve medals. He has been a USAFA Admissions Officer since 1978 and resides in Salina, Kansas.. Colonel Williams is currently the USAFA/ROTC Admissions Officer for the Central Kansas area.

Xavier University
(513) 556-2237

All four-year AFROTC scholarship winners will be given a room grant (at the double room rate) for four years only. It is understood that a four-year AFROTC scholarship winner may have his other total tuition paid by the Air Force. However, for those four-year scholarship winners who have only 80% of their tuition paid by the Air Force, Xavier will fund the remaining 20%. The 3-year AFROTC scholarship winners who wish to attend Xavier will have their freshman year tuition paid in full predicated upon their continuance in the AFROTC program, and successful academic performance at Xavier. In return for this tuition grant, the 3-year AFROTC scholarship winners will continue on toward graduation for their remaining three years and they will sign a repayment affidavit for the full cost of the first year's tuition should they not continue for whatever reason, except medical disqualification, on to graduation and commissioning. These are available in a limited number.

665 College of Mount St. Joseph

For students on four-year ROTC scholarships: the college provides room and the difference in tuition, if any, after ROTC funds and any tuition restricted aid are applied to the account. For students on three year ROTC scholarships: the college pays the first year tuition under a signed contract between the College of Mount St. Joseph and the student. If the student does not continue at the College of Mount St. Joseph for the additional three years, the student must repay the first year award.

675 Univ of Oklahoma (OK)
(405) 325-3211

3 year non-resident winners will receive out-of-state tuition waiver; residents receive enrollment fee waiver (slots may be limited, apply early).

695 Univ of Portland (OR)
(800) 227-4568 xt. 7216
(503) 283-7216

University will cover difference between Type II and actual tuition costs. Type I winners receive free room and board for all four years on campus. All Type II winners receive free room and board their first year and a 50% subsidy in subsequent years. All winners may compete for additional financial aid. Application fee is waived for winners.

- 720 The Penn State University (PA) Scholarship winners who are selected to join the University Scholars Program may receive Academic Excellence Scholarships. These merit-based, renewable awards are equal to one-half the Pennsylvania Tuition Rate. Additional Diversity Grants and Scholarships are available for students from underrepresented groups. Statement SB 187

Dr. Pat J. Bosco

Associate Vice President
for Institutional Advancement/
Dean of Student Life

Kansas State University

Presented to
Senator Gus Bogina
Senate Committee of Ways and Means

Mr. Chairman and Members of the Committee:

My name is Pat Bosco. I am the Associate Vice President/Dean of Student Life at Kansas State University. I am responsible for K-State's enrollment management program which includes our recruiting and retention programs and activities. In addition, I chair the university's General Scholarship Committee. I am pleased to have the opportunity to be here today to make some comments concerning Senate Bill 187.

The proposed legislation would require Kansas State University "to provide room and board without charge" to 15 Army and 15 Air Force scholarship students per year, not to exceed 45 per program, for a total of 90 at any one time.

I come to you today sympathetic to the objective of Senate Bill 187, but I have concerns about who is going to pay for this particular mandate.

At K-State, we recognize the importance of our Army and Air Force ROTC programs. I am a graduate of our Army ROTC program and served as the cadet recruiting officer during the late 60s and early 70s. Currently, in cooperation with our Air Force and Army staff and students, we aggressively communicate to students and their families the scholarship and career opportunities available through these very important programs. The Army and Air Force programs are included in our publications and in all our presentations to prospective high school and community college students and their families. We have developed specific recruiting strategies above and beyond all of the direct, general correspondence to the student who initially expresses an interest in one of these programs, including additional scholarship packaging, specifically designed brochures and correspondence for Army and Air Force programs, telemarketing, specialized campus visitation programs, and a wing in one of our residence halls for ROTC cadets. We have also established an endowment account for private donations, specifically for scholarships. We believe the American Legion, Veterans of Foreign Wars, and K-State alumni from these programs would like to support these outstanding students.

Through these efforts, we have substantially increased Army and Air Force student enrollments. The Army ROTC program was recently recognized as one of the best programs in the country. Regrettably, we have grown modestly in attracting ROTC students who have received a four-year scholarship. The cost of attracting these students has simply been too great for all of us at this time. Our growth has been in attracting students who, for whatever reason, did not receive an initial three or four-year scholarship commitment but are interested in a possible military career and are sold on K-State.

Providing additional scholarship support including waiving room and board charges for these outstanding young people is an idea we have discussed on our campus. It rewards hard work and demonstrated interest in serving our country. Further, these waivers respond to the number one reason why they have chosen to attend an out-of-state school. When added to their government four-year scholarship, which includes tuition, fees, and other related support including stipends, the waivers make K-State financially accessible for them. However, we have real costs that are not funded.

This is the same dilemma we find ourselves in as we attempt to respond to the "brain drain" of outstanding National Merit scholars from our state. Our students who leave to go to other schools out-of-state are students with ACTs of 30 and above, outstanding minority students, and a host of other talented high school students who are attracted by financial packages we simply cannot match.

At K-State, we have estimated that the program under Senate Bill 187, when fully operational, will cost \$350,000 to our Department of Housing and Dining Services. This figure is based on double occupancy room and board rate for FY-96 of \$3,370, assuming a five percent inflation rate per year. Our housing operation is totally self-supporting and receives no state funding. All of the department's income is generated by student residence hall contracts and services. If we are asked to absorb this kind of loss, we will be required to pass on the cost of these waivers to students who are living in our residence halls. This would cost the other students living in residence halls an additional \$80 per year.

To ask the Legislature to fund this particular mandate does not seem to be a reasonable request and is not a priority for our institution. At this time, we are submitting budget cuts of \$250,000 for FY-96 in my area alone.

In summary, what we have is a very good idea that becomes an unfunded mandate. Unfortunately, our only recourse would be to pass the cost of the program on to other students who live in the residence halls. This, in our estimation, would be unfair to those students. To ask the Legislature to fund this particular mandate would make it a higher priority than what has already been submitted through the Board of Regents. As such, we could not support that type of priority reordering.

I will be very happy to answer any of your questions.

Statement Senate Bill 215

Lieutenant Colonel Ronald F. Nicholl

Professor of Military Science

University of Kansas

Presented to
Senator Gus Bogina
Senate Committee on Ways and Means

Mr. Chairman and Members of the Committee:

I support Senate Bill 215 for the following reasons:

1. It would assist all of the Army ROTC programs in the state of Kansas by making more scholarships available to men and women that want to serve their state and earn their college degree.
2. It would better support the future officer needs of the Kansas National Guard.
3. It would make the tuition waiver available for a growing Army ROTC program at Washburn University.
4. It would help to ensure the future viability of the Army ROTC program at Emporia State University.

In summary, this bill is good for Kansas. It supports both education and the mission of the Kansas National Guard. I strongly encourage you to support this bill. Thank you for your time.

Mr. Chairman and Members of the Committee:

I support SB 215 for the following reasons:

1. It would strengthen all the Army ROTC programs in the state of Kansas.
2. It would support the recruiting efforts of the Kansas National Guard.
3. Funding for SB 215 is consistent with the intent of KSA 74-3256, which originally established 240 tuition waivers. SB 215 would reallocate these waivers to reflect the change in the number of Kansas ROTC institutions from six to four.
4. Kansas State University Army ROTC has awarded all 40 of its tuition waivers for 1995. We currently have 22 qualified applicants that we cannot assist financially.

In conclusion, I strongly encourage the committee's favorable consideration of SB 215. Thank you.

STATEMENT BY FRANCINE HINES
STATE PRESIDENT FOR KANSAS

ASSOCIATION OF THE UNITED STATES ARMY

and Member, Board of Regents, WASHBURN UNIVERSITY

Re: SB 215

February 17, 1995

TO: Senator Bogina, Chair, and members of the Ways and Means Committee

Mr. Chairman,
Members of the Committee,

I want to thank you for giving me the opportunity to appear before you today in support of SB 215.

I am speaking not only as State president for the Association of the United States Army, but also as a member of Washburn University's Board of Regents because this bill concerns one important group of people, our students, and their right to the best education Kansas can give them.

I believe very strongly that the passage of SB 215 will have a definite and positive effect on the future of our students who, once they are awarded these scholarships, will then be serving in the Kansas National Guard, thus maintaining its level of readiness in case of any state or federal emergency, or mission requirements.

We know from past experience that the Kansas National Guard has played an important part in Desert Storm, and a very special role in disaster relief in the recent Kansas flooding.

Higher education has been and is a major concern in Kansas. I cannot think of a better investment and a unique opportunity for our distinguished legislators to demonstrate their sincere interest in providing certain educational benefits to our students.

I urge you, most respectfully, to support SB 215.

Permit me to express my gratitude to all the senators -and the list is long- for their commitment and their foresight.

Thank you, Mr. Chairman, and members of the Committee for allowing me to express my thoughts, and my hopes.

MR. CHAIRPERSON AND MEMBERS OF THE COMMITTEE

I AM HERE THIS MORNING TO URGE YOUR COMMITTEE'S APPROVAL OF SENATE BILL NUMBER 215 CONCERNING THE RESERVE OFFICER'S TRAINING CORPS PROGRAMS CURRENTLY AT FOUR OF OUR STATE INSTITUTIONS AND OUR MUNICIPAL INSTITUTION WASHBURN UNIVERSITY:

THE UNIVERSITY OF KANSAS
KANSAS STATE UNIVERSITY
PITTSBURG STATE UNIVERSITY
EMPORIA STATE UNIVERSITY
WASHBURN UNIVERSITY

AS THE ADJUTANT GENERAL OF KANSAS, I AM IN THE EDUCATION BUSINESS PRIMARILY FOR THE PURPOSE OF RECRUITING AND RETAINING SOLDIERS WHO ARE HIGHLY MOTIVATED AND ADD VALUE TO KANSAS. TRENDS INDICATE AN INCREASING IMPORTANCE PLACED ON EDUCATIONAL INCENTIVES AND BENEFITS FOR YOUNG KANSANS WHO ENTER MILITARY SERVICE. THE KANSAS ARMY NATIONAL GUARD NEEDS THE HELP OF OUR AFORE MENTIONED UNIVERSITIES TO ASSIST IN PREPARING OUR YOUTH TO SERVE AS OFFICERS IN THE KANSAS NATIONAL GUARD. OUR INSTITUTIONS FOSTER THE KIND OF EDUCATIONAL PREPARATION NEEDED TO KEEP THESE YOUNG OFFICERS COMPETITIVE. ADDITIONALLY, THIS PROGRAM PREPARES INDIVIDUALS FOR ENTRY INTO THE WORK FORCE AND TO ENHANCE THEIR SKILLS TO SERVE IN TODAY'S MILITARY.

I STRONGLY RECOMMEND THIS COMMITTEE'S ENDORSEMENT OF BILL 215 FOR VOTE BY THE FULL SENATE AS IT IS CURRENTLY WRITTEN. THANK YOU.

SENATE BILL 215

SWAM

Attachment 10

Mr. Chairperson and Members of the Committee:

I am here this morning to urge your committee's approval of Senate bill number 215 concerning the Reserve Officers Training Corps Programs currently at five of our state institution.

Bill No. 215 recommends modification of the current Kansas Army National Guard ROTC Scholarship Program. Among other things this ammendment increases the number of tuition waivers available to students from 40 to 60 per institution that offers ROTC at the institution. This increase would return us to the 1980 level of tuition waivers statewide.

The benefits of this proposal are many. I will cite a few of them here for your consideration:

a. Increased enrollment in the Kansas National Guard.

Guardmembers will continue to take advantage of the benefit of this bill. The current record of scholarships awarded is an indicator of their success and popularity. In many instances this tuition waiver is the deciding factor in whether to attend college or not.

b. Retention of students in state universities. Students

considering attending out of state universities would in many cases find a tuition waiver to a university in their home state more attractive. As a consequence, they would remain in Kansas , helping to eliminate the "brain drain".

c. **Increased Federal funding to the State of Kansas.** The Department of Defense bases force structure allocation decisions on assigned strength. The future viability of the Kansas Army National Guard units throughout the state hinge on an educated officer corps. This bill ensures an ability to obtain and retain those officers.

d. **Reduce the emigration from Kansas.** Those recipients of the ROTC Scholarship are required to fulfill a four year service obligation within the state. There is a much higher probability that those recipients who complete the program will remain in the state as working, highly educated, taxpaying citizens, who like National Guardsmen everywhere contribute immeasurably to their communities and country.

I have pointed out to you a few concrete benefits of recommending and passing Senate Bill 215. I am sure that the high return on an investment in the citizens of Kansas outweighs the small cost in passing legislation such as this bill. Thank you for allowing me to speak to you today.

Attachment II

My name is Ted D. Ayres and I am General Counsel and Director of Governmental Relations for the Kansas Board of Regents. I am here this morning representing the Board of Regents. I am here to express support relative to Senate Bill 215.

Senate Bill 215 results from a 1994 Legislative Post-Audit which indicated/pointed out that the existing "scholarship act" legislation for ROTC students, i.e. K.S.A 74-3255 *et seq.* had sunset (legally expired) as of July 1, 1991. Nevertheless, the program has continued to operate.

Senate Bill No. 215 does the following things:

1. It does away with the sunset provision;
2. It extends the program to Washburn University;
3. It expands the number of tuition waivers at each ROTC institution from 40 to 60;
4. It removes the current limitation to **Army** ROTC; and
5. It provides for a "voucher system" for reimbursement of the amount of such tuition.

For FY 1994, the Regents institutions waived a total of \$183,136 in tuition for 126 ROTC students. If that level of program participation was to increase by 50 percent, the amount of tuition reimbursed by the state could increase by 50 percent or an estimated \$91,568, in FY 1994 dollars (\$275,704 total). I have attached historical information relative to past participation in the program since it was enacted by the 1979 Kansas Legislature (effective for the 1980 fall semester). With reference to the addition of Washburn University, this year Washburn has enrolled 21 ROTC students. Assuming all of those students received a waiver of Washburn's full-time tuition of \$2,700, the state would reimburse Washburn a total of \$56,700 for FY 1995.

The Kansas Board of Regents supports continuation of the ROTC scholarship and its funding by the state. Expansion of the program is, of course, a policy decision for this Committee and the Legislature. However, I must point out that there are several student assistance programs which have not been recommended for increase and which would be of a higher priority for the Board of Regents, i.e.

1. **the State Scholarship Program:** The Board of Regents requested \$1,095,500 for the program for FY96. The Governor recommended \$954,450 for FY96.

2. **the Regents Supplemental Grant Program:** The Board of Regents requested \$4,477,000 from the State General Fund in FY96. The Governor recommended \$2,777,000.

3. **the Ethnic Minority Scholarship Program:** The Board of Regents requested \$342,000 for FY96. The Governor recommended \$310,000.

4. **the Tuition Grant Program:** The Board of Regents requested \$5,650,947 for FY 1996. The Governor's FY 1996 recommendation was for \$5,528,144.

5. **the Kansas Work-Study Program:** The Board of Regents requested \$527,305 for FY96. The Governor recommended \$517,227, the same amount as in FY 1995.

Thank you for your attention and consideration of my testimony. I would now stand for questions.

ROTC PROGRAM

The 1979 Kansas Legislature authorized tuition waivers for Kansas resident students effective for the 1980 fall semester. Recipients must provide four years of service to the Kansas Army National Guard.

Executive Assistant to the President**

Mr. Chairman, Members of the Committee:

It is a pleasure to appear before you today and to support Senate Bill 215. Among other things, this legislation would allow for the granting of ROTC scholarships for students enrolled at Washburn University. In the past, the scholarships have only been available to students attending the state Regents institutions.

Because military training, coupled with higher education, is a national and state goal, the issue extends far beyond simply providing scholarships to Washburn students. Because we are in the state's capital, there will be a number of individuals in Topeka who would benefit directly from having access to this program.

We hope you will act favorably on Senate Bill 215.

Mr. Chairman and Members of the Committee:

I support SB 215 before your committee this morning. K-State has always been a strong advocate of the program. As you can see in the information provided by the committee, K-State has 34 students participating in the program. Our records indicate that from 1985 to 1994, 1,147 students have participated in the program.

As a matter of policy, if the state chooses to continue awarding this tuition waiver for Kansas residents enrolled in Kansas schools, it would be beneficial for the students, the schools, and the Kansas National Guard.

In conclusion, I encourage the committee's favorable consideration of SB 215. Thank you.

TO: Senate Committee on Ways and Means
FROM: Gloria M. Timmer, Director of the Budget
DATE: February 17, 1995
SUBJECT: Testimony on SB 94

Good morning, I am representing the Governor on SB 94, a bill introduced at the request of the Governor Graves' regarding scheduled dates for transfers to the Military Retirees Income Tax Refund Fund. I appreciate the opportunity to visit with you today regarding this proposal.

The Governor has recommended that all transfers to this fund from the State General fund be made in FY 1995. The transfers in current law include one made already in FY 1995, one in FY 1996 and the final transfer in FY 1997. As you know, the first transfer was made from the State Budget Stabilization Fund based on a certification by the Secretary of Revenue regarding the total liability based on the settlement approved in Shawnee District Court. The total liability certified by the Secretary was \$55,373,781, for an amount of each transfer of \$18,457,927.

The Governor has recommended accelerating all transfers to FY 1995 to reserve the funds for this clear obligation of the state now, when they are available. At the close of the last Legislative Session, it appeared as though the transfers would need to be spread out over three years. However, the status of the State General Fund has improved since that time, primarily as a result of reduced demands for school finance and increased estimates of State General Fund receipts.

Attached to this testimony is a table detailing the Governor's four-year budget plan presented to the Legislature in January,

adjusted for changes recommended by the Governor since that time. The shaded line highlights the adjustments based on the change in the transfer dates contained in this bill. As you can see, the positive adjustments in FY 1996 and FY 1997 do not equal the transfer amount from December of approximately \$18.5 million. This is because the Consensus Revenue Estimate made in November was build on the assumption of transfers of \$17.3 million and the increase to that estimate needs to reflect the amount that was subtracted from net receipts at that time.

Again, thank you for the opportunity to appear on the Governor's behalf and I would be happy to answer any questions you may have on this legislation.
