MINUTES OF THE SENATE COMMITTEE ON EDUCATION

The meeting was called to order by Chairperson Barbara Lawrence at 9:00 a.m. on April 9, 1997 in Room 521-S of the Capitol.

All members were present except:

Committee staff present: Ben Barrett, Legislative Research Department
Avis Swartzman, Revisor of Statutes
Jackie Breymeyer, Committee Secretary

Conferees appearing before the committee: Harry Craig, Jr., CEO, Martin Tractor Company, Topeka, KS
Sidney T. Warner, Warner Ranches, L.P. Cimarron, KS

Others attending: See attached list

Chairperson Lawrence called the meeting to order and began by asking Mr. Craig to begin his remarks. Mr. Craig distributed an attachment to the Committee. (Attachment 1) Background on Mr. Craig was provided to each member of the Committee and labeled (Attachment 2)

Mr. Craig stated that after a three-hour orientation session with the Regents staff, he is present today knowing a great deal more about the Board of Regents than he did just two days ago. If confirmed, it will be his honor and privilege to serve all Kansans as a Regent. In his opinion, all Kansans can be extremely proud of the Regents' universities and their Board.

If confirmed, Mr. Craig stated he would be a strong advocate for adequate funding to continue university operations at a high level of quality; equitable distribution of available funds among institutions under control of the Board and provide new academic and career opportunities to meet the continuously changing needs of Kansans.

Mr. Craig gave the Vision Statement of his company, Martin Tractor Company and ended his talk by hoping that the Committee would give him the ability to "walk the talk" as a member of the State Board of Regents where he will work to provide leadership, focus on Mission, manage strategy, set policy and provide an environment for risk taking.

The Chairperson asked Mr. Craig what major changes or emphasis would he make as applies to the universities.

Mr. Craig expressed his concern over the cost of education and stated there were two things he would like to focus on. The first is to provide world class educational opportunity to our young people, whether they take advantage of it or not. The second would be to examine if we are the low cost provider of that opportunity; to find out how to do the job better and not just throw money at it. There is a tremendously changing environment which will involve a changing curriculum and how to fund it.

The Chairperson expressed her concern about the representation for the smaller universities.

Mr. Craig responded that he sees no problem in representing all schools, whether large or small.

Another question asked of Mr. Craig was if he thought there was enough emphasis and adequate focus being placed on the American enterprise system as a goal in either secondary or primary education.

He responded that he didn't think the young people were entirely focused on this, either through curriculum not being offered or students not taking advantage of it, but sometimes young people fail to appreciate the private, competitive enterprise system because they haven't experienced something different. His company strongly believes in public affairs, with employees sitting on planning commissions and Board's of Education - they are given the time to do this. He mentioned former Representative J. B. Littlejohn, an employee of Martin Tractor when he was in the Legislature.

Mr. Craig was asked if, in orientation, he had heard about the defunct post secondary education task force - a council developed several years ago at the request of the Legislature in statute to pursue the objective of a governance system that might be uniform and consistent. The thrust was to sit down with vocational and technical schools, community colleges, regent universities and private colleges and come to some type of conclusion on how higher education should look in the future, which would be reflected in funding and articulation of transfer between universities. It was only to discover after about two and one-half years that everyone pulled back to protect their own turf and threw it back to the Legislature. After giving this brief history, the member stated her concern and said the Regents carry significant weight in the state; she feels it is up to them, as standard bearers, to be the standard in asking for this change. She did not see this happen and issued that challenge to Mr. Craig.

Mr. Craig agreed with these comments and stated that as resources become more scarce, the money for post-secondary education will have to be used in the best possible way.

Mr. Craig was asked if, in his three-hour orientation, he had had any discussion of Senate Bill 18, conflicts of interest disclosure. He responded that he has been well advised by counsel of what the current laws are. As part of his financial disclosure, every customer that does more than \$2,000 worth of business with his company had to be listed.

The Chairperson thanked Mr. Craig and called on Sidney T. Warner to give his remarks. Mr. Warner stated that this is his third appearance before this Committee. His remarks were distributed and labeled (Attachment 3) Background information on Mr. Warner was labeled (Attachment 4) Mr. Warner is a lifelong resident of Cimarron, Kansas, and attended grade and high school in that town. He attended Kansas State University, graduated with a B.S. in Economics and upon graduation served two years in the U.S. Army Signal Corps and two years in the reserve. After service he returned to the Cimarron community where he continues to be involved in farming, cattle and insurance businesses. Mr. Craig has been active in Boy Scouts and stated he has been interested in the growth and development of young people all his life. He has served as a member of the Board of Regents for the past four years.

Mr. Warner was asked what he felt was the single most important accomplishment of serving on the Board.

Mr. Warner replied that one that stands out was Chairing the Facilities Committee where he worked hard for passing a classroom bond issue to address the needs of buildings and infrastructure.

Mr. Warner was asked what he would like to accomplish during the next four years.

He replied that when he first came on the Board in October, 1992, the Board had just finished a mission role and aspiration process to see if the institutions visions were appropriate for the time and what changes needed to be made and what programs should be phased out for an in-depth look at each institution. This process is beginning again and discussions are being held now on renewing the mission role and aspirations process. The Board will be asking each institution to take a look from the inside out to see where it can improve the quality of education and whether the programs are adequate for todays enrollment. He also mentioned the financing of the system and if they are being efficient in its internal operations. There will be a limited resource situation in the next few years. Some institutions are well along at assessment and some are not so far along; all are making progress in this extremely important process.

Mr. Warner stated that one of the things he has found interesting since he has been on the Board of Regents is looking at the areas where some of the universities are located and the businesses that have moved into these communities to take advantage of the people, research capabilities and expertise of the campuses. He mentioned pharmaceuticals, autos, planes and software in different parts of the state as an example. The schools bring economic opportunities to the state. There are about 80,000 people in our educational system at the present time; 65,000 attend community colleges and about 7-10,000 attend the vocational-technical schools. The big challenge is to look at all institutions and fund at the appropriate level.

One of the Committee stated she hopes that dialogue is still continuing between the Regents, State Board and Community Colleges. Also ensuring that credit hours of community colleges are transferrable to the universities.

The Chairperson thanked Mr. Craig and Mr. Warner and called for action on the appointees.

Senator Langworthy moved to recommend the confirmation of Harry Craig as a member of the Board of Regents to the full Senate. Senator Downey gave a second to the motion.
The motion carried.

Senator Jones moved to recommend the confirmation of Sydney Warner as a member of the Board of Regents to the full Senate. Senator Lee gave a second to the motion.
The motion carried.

The meeting was adjourned.

**THE SENATE EDUCATION COMMITTEE
CONFIRMATION HEARING
HARRY W. CRAIG, JR.
WEDNESDAY, APRIL 9, 1997**

Madam Chairperson and Members of the Committee:

When first asked by the Governor if I would be interested in public service, I responded that I would be interested in serving the State of Kansas in any area where I have an understanding of the issues and the skills to make a difference.

After one three-hour orientation session with the Regents staff, I sit before you today knowing a great deal more about the Board of Regents than I did just two days ago.

If confirmed by the Senate, it will be an honor and privilege for me to continue my education and to serve all Kansans as a Regent.

From my discussions with Regents staff, former regents and university presidents, it is my opinion that all Kansans can be extremely proud of the Regents' universities and their Board of Governance. They truly live out their Mission Statement.

Even though it has been said by many that if I'm cut I'll bleed Crimson and Blue, let me assure all of you that if confirmed, I will do all within my power to be a strong advocate for all Regents universities;

To ensure that adequate funding is provided to continue university operations at a high level of quality;

To assure an equitable distribution of available funds among the institutions which are under Board control; and

To provide new academic and career opportunities to meet the continuously changing needs of Kansans.

*Senate Education
Attachment 1
4-9-97*

I will also do everything within my power to make sure that the Board of Regents and Regents universities continue as good stewards of the trust and funds given to them by all Kansans.

In our Vision Statement at Martin Tractor Company we state:

“We are a team committed to being a Company:

- That will continue to strongly encourage its employees to participate in community, political, educational, and charitable affairs, and
- That continues to support and believe that the American private enterprise system is essential to the accomplishment of its Corporate Mission and Vision.”

It is my hope that by your confirmation you will give me the ability to “walk the talk” as a member of the State Board of Regents. As a Regent I will work to:

- Provide enlightened leadership,
- Focus on Mission,
- Manage Strategy not operations,
- Set policy that will allow us to be leaders in postsecondary education, and
- Provide an environment for risk taking.

Based upon the vast amount of knowledge which I accumulated in my three-hour orientation session, I would be happy to answer at this time any questions which you may have.

MARTIN TRACTOR COMPANY HISTORY

Martin Tractor Company is the second oldest Caterpillar dealership in the world and is a privately owned corporation. The owners are Harry W. Craig, Jr., Chairman and Chief Executive Officer and, Janet Martin McKinney, President and Chief Operating Officer.

The Company has stores in Chanute, Concordia, Colby, Emporia and Topeka. It sells and services Caterpillar and Ford New Holland equipment at locations serving fifty counties in Eastern and Northern Kansas.

Martin Tractor Company first came into existence in 1911 when Charles H., Sr. and Fred P. Martin, natives of Princeton in Franklin County, Kansas, purchased the Ottawa Foundry and Machine Shop in Ottawa, Kansas. After the purchase, the two brothers added the manufacture of road drags, concrete mixers, silo and culvert forms to their product lines.

The deep interest of these men in road building and the construction industry resulted in the Company becoming a subdealer for the Holt Manufacturing Company in 1920. When Holt merged with The Best Company to form Caterpillar Inc. in 1925, Martin Tractor became a dealer.

With business thriving in Ottawa, the partners decided to expand. In 1928 C. H. moved to Topeka to establish the Martin Tractor and Harvester Company at 137 Kansas Ave. Fred remained in Ottawa and the brothers bought the Ensminger Tractor Co. of Parsons, Kansas in 1934.

In 1935 the Ottawa store was closed when Fred and several employees moved to Topeka to consolidate the business in a larger facility at 700 East 8th Street. The Parsons branch was moved to Chanute, Kansas in 1938 where it remains today.

Shortly after World War II Charles H. Martin, Jr. and Harold W. Gerlach became partners in the organization. In 1947 the Company was incorporated with Charles Martin, Sr., Fred P. Martin, Charles H. Martin, Jr. and H. W. Gerlach as the stockholders. In 1949 William W. Martin, son of Charles H. Martin, Sr., joined the Company after working as a conservation and road contractor in Southeast Kansas. Also at this time, H. W. Gerlach terminated his interest in the Company. In 1952 Donald D. McRae, son-in-law of Fred P. Martin and a C.P.A. with the firm of Hood & Strong in San Francisco, joined the Company.

In 1951 the second branch store was opened in Concordia and in 1958 the third branch was established in Colby, Kansas. In 1968 the Topeka store moved to its current location in Southgate Industrial Park.

Charles H. Martin, Jr. sold his stock ownership in 1966 and retired as Chairman of the Board, having served the Company as Secretary, Vice President of Sales and President.

On January 1, 1979, Harry W. Craig, Jr., acquired common stock ownership in the Company. Harry has been with Martin Tractor and Martin Company (a sister corporation) in various capacities since 1970.

On September 23, 1980, Greg J. Martin acquired common stock ownership in the Company. Greg started with the Company in 1975 and served in several positions until his retirement in 1992 as Executive Vice President.

The Martin Engine Division building was erected just east of the heavy equipment building in Topeka in 1981. MED is home for the Engine Division, Accounting, Training and Informational Service divisions of the Company.

In June of 1989 Janet Martin McKinney acquired common stock ownership in Martin Tractor Company. Janet has been with the Company in several positions since 1981.

Donald D. McRae sold his stock ownership and retired from the Company as Chairman in 1983 after 31 years with the Company.

On July 1, 1989, William W. Martin retired as Chairman and sold his stock ownership. During his 40 years he served the Company in various capacities. Under Bill and Don's leadership the Company became the dominant supplier of earthmoving and power generation equipment in Kansas.

In March of 1994 the Company added its newest branch by acquiring Precision Truck & Diesel in Emporia. A new facility to house the Emporia operations was completed in November of 1994.
