

Approved: Feb. 2, 1998
Date
(As Corrected)

MINUTES OF THE SENATE COMMITTEE ON UTILITIES.

The meeting was called to order by Chairperson Pat Ranson at 1:30 p.m. on January 22, 1998 in Room 531-N of the Capitol.

All members were present except:
Sens. Hensley and Pugh were excused

Committee staff present: Lynne Holt, Legislative Research Department
Mary Torrence, Revisor of Statutes
Jeanne Eudaley, Committee Secretary

Conferees appearing before the committee:

Michael Byington, Director, Envision Governmental Affairs Office
William Wix, General Counsel, Conservation Division., Corporation Commission
Glenn Smith, Chief of Natural Gas & Pipeline Safety, Utilities Division, Corporation Commission
J. C. Long, Director of Government Affairs, UtiliCorp United Inc.
Steve Hanna, Director of Network Operations, UtiliCorp United Inc.
Fred Taylor, Director of Network Operations for S.W. Kansas, UtiliCorp United Inc.

Others attending: See attached list

Sen. Ranson welcomed four pages who are assisting with the committee today and asked their names and stated two of them were paging for her and the other two for Sen. Brownlee.

Sen. Ranson introduced Michael Byington, who presented a bill request (Attachment 1) to the committee which would insure the blind and visually impaired utility customers receive their billings in a format allowing them to independently handle their business without assistance. Sen. Lee made a motion the committee introduce it as a bill, and it was seconded by Sen. Brownlee; the motion passed.

Sen. Ranson then introduced William Wix, who returned to the committee to discuss issues relating to Gas gathering. Mr. Wix first addressed the question of the Corporation Commission's phone number and its distribution to customers, and he stated it appears on all bills, was printed in a mailing and appears in phone books. He then referred to a letter dated January 12 signed by all three commissioners, which was distributed to the committee on January 15. It addressed the question of exemptions and the form being used. Mr. Wix stated the form is considered preliminary and that some change in that form was anticipated. He also stated the questions of exemptions is set out in Section 22 of the gas gathering legislation, which states that companies transporting gas are exempt, if the company does not re-sale it. He also stated that gas gatherers who are transporting gas only were not regulated as common carriers prior to passing the bill.

Sen. Lee stated her disagreement that companies transporting are not common carriers, and stated her belief that the bill was intended to exempt systems only. Sen. Ranson then said this is an issue of contention, and that the intent was to exempt a few for specific reasons, and the language was broader than intended as it emerged from conference committee.

Sen. Morris raised the questions of subsidiaries, and in particular Williams Companies and its subsidiaries. Mr. Wix defined "common carriers" for the committee, which is a carrier for public good and further stated Rep. McKinney asked for an Opinion on that question in November, 1997. Sen. Ranson stated her understanding is that an attempt may be made in the House to change language in the legislation.

Discussion turned to the form being used and that the Commission feels it has seen good disclosure on it. He stated the break-down factors are important, not just the actual rates. Sen. Lee then requested the commission submit revisions to the form before the end of this legislative session.

Sen. Brownlee returned to the definition of common carriers and exemptions. Joe Staskal, Senior

CONTINUATION SHEET

MINUTES OF THE SENATE COMMITTEE ON UTILITIES, Room 531- -N, Statehouse, at 1:30 p.m. on January 22, 1998.

Government Relations Specialist for Williams Field Services, commented on the licensing for Williams Gas Companies and acknowledged they come under the new statute, its investigatory regulations and complaint procedures. Mr. Staskal commented on the subsidiaries of the Williams Companies and stated Williams Gas Company purchases only a small amount of gas for its compressors and only transports gas and is not engaged in reselling the gas. Sen. Brownlee commented on the spinning down of companies by Williams and stated the intent of legislation passed last year was not reason to exempt the Williams Company”.

Sen. Ranson introduced Glenn Smith, who referred to questions from the committee when he appeared last week. Copies of the following were distributed to the committee:

Certificate and Order Re: application of Peoples Natural Gas Company, Docket No. 183,775-U, (Attachment 2)

Application for Certificate Re: Peoples Natural Gas Company, Docket No. 183,775-U, (Attachment 3)

Mr. Smith discussed Certificates issued by the Commission for specific customers within an area, as opposed to a Certificate issued by the Commission for service within an area. He noted that Peoples' application is for specific customers it can provide service to within an area. Mr. Smith also provided a Certificate in the Application of Kansas Gas Supply Corporation, Docket No. 181,418-U, (Attachment 4), which is for an enlargement of its present Certificate to serve thirteen additional customers. Mr. Smith also provided copies of an Order in the case of Western Resources, Inc. vs. Peoples Natural Gas Company, Docket No., 193,371-U (Attachment 5), which is a customer complaint and sets out terms and conditions in the contract (which is attached to the Order). Mr. Smith stated he was trying to point out the difference between a gathering system and transmission. Mr. Smith also furnished two maps to the committee - one of Panhandle Eastern Pipeline showing where it provides service and the other a map of the state showing certified areas of natural gas pipelines (maps are available from the Kansas Corporation Commission).

Chairperson Ranson then introduced J. C. Long representing UtiliCorp United for presentations regarding low pressure problems, which the committee had discussed last week. Mr. Long briefly spoke to the committee (Attachment 6) and introduced the following:

Steve Hanna, (Attachment 7)

Fred Taylor, (Attachment 8)

Also present was Robert Fox, General Counsel for UtiliCorp United. The presentations emphasized that they do not own the pipelines and do not have control of pressure. Mr. Taylor emphasized communication with their customers and in his presentation outlines steps they are taking to improve and upgrade service to their customers.

Sen. Ranson then recognized the attorney for the company, Mr. Fox, and inquired regarding a meeting in Hugoton last week. She called on David Heinemann to tell the committee more about the meeting. Mr. Heinemann explained the meeting involved interested parties, irrigators and gatherers involved with providing service to the Hugoton area. He stated the Commission has received an application from KN Energy and a notice of intent from Midwest Energy to provide service to that area. Mr. Heinemann stated the Commission will conduct a general investigation and will determine if statutory requirements have been met. The Commission will also map the Hugoton fields. Mr. Heinemann stated the Corporation Commission is the only agency which can gather the information required to attempt to solve problems in this area. He felt the meeting was successful in getting the players together to discuss the situation. Sen. Morris stated his concern again to the problem the irrigators are having regarding certificated areas which may not be served, and the efforts to provide flexibility to hook to another supplier. Mr. Taylor responded there is the opportunity to hook onto another system and utilize multiple suppliers which the Corporation Commission can grant. Sen. Ranson stated the need for notification before an interruption of service, and Mr. Fox responded that his company cannot stop service unless they notify the Commission and go through a permission process.

Discussion by the committee continued regarding special contracts and limited certification. In answer to a question from Sen. Ranson regarding special contracts, Mr. Fox stated that his company serves some customers under special contract and under limited certification. His company did not purchase the certificate nor the right of way; however, they did purchase the obligation to serve those customers under the limited certificate. Sen. Ranson then asked Mr. Fox if, under the limited obligations, do you notify the customers. Mr. Fox responded that prior to the gas gathering legislation's effective date (on November 1), his company sent out 41 letters to 41 customers telling them of the problem in continuing service to them. Sen. Ranson then asked Mr. Wix if companies can stop serving specific customers, and Mr. Wix pointed out that under Section 28 of the legislation, it allows for multiple certificates, but the Commission cannot amend contracts. Mr. Fox stated the position of his company is that whether it is a limited or unlimited certificate that they will go to the commission.

CONTINUATION SHEET

MINUTES OF THE SENATE COMMITTEE ON UTILITIES, Room 531- -N, Statehouse, at 1:30 p.m. on January 22, 1998.

Sen. Barone asked Mr. Fox if his company has gone to the Commission to notify them that they are going to disconnect service to customers. Mr. Fox responded they gave up certification to serve four customers in Western Kansas to a company closer to them who could provide service. Mr. Fox stated they have not discontinued service based on pressure problems. Sen. Barone referred to the 41 letters the company sent to customers and if they warned customers they were facing problems providing service to them. Mr. Taylor stated his company has to approach the problem with a business perspective to make decisions on abandonment; however, it is not their intention to abandon customers. Sen. Barone then asked if his company has gone to the Commission and filed notification that there is a problem serving certain customers, and Mr. Fox responded that they would so notify the Commission. Sen. Morris stated the intention of the legislation passed last year was to give flexibility to the irrigators and make the Corporation Commission aware of the problems and give them an option of going to someone else for service. Sen. Ranson then asked if a specific customer could break the contract and go to another provider for service under a special contract. Mr. Fox responded under a special contract, the customer would not be able to enter a contract with another provider unless the company holding the contract could not provide service. Sen. Ranson stated the legislation passed last year for dual certification apparently did not solve the problem and they have more work to do.

Meeting adjourned at 2:30.

The next meeting is scheduled for January 26, 1998.

January 22, 1998

TO SENATE UTILITIES COMMITTEE:

This is a bill request. The intent of the Legislation is quite simple. It is to insure that blind and visually impaired utility customers receive their billings in a format allowing them to independently handle their business without involving friends, volunteers, or other sighted assistance if they choose not to do so.

A bill similar to the draft I have provided here is also being proposed in the Missouri Legislature this year by Representative Bill Boucher, Kansas City. Representative Boucher sent a copy of his Bill to Envision. I believe it is his hope that the two States of Kansas and Missouri can join in adopting this Legislation. For informational purposes, I shall attach a copy of Representative Boucher's Bill after my draft.

Also the fact that retail wheeling is being contemplated constitutes a solid reason to introduce this Legislation this year. After all, the Legislature is going to call upon utilities to change the way they do billing anyway, it makes sense to handle all needed issues at once rather than to ask them for change after change year after year.

I want to thank Chairperson Ranson for the opportunity to come before this Committee and make this request for introduction. Chairperson Ranson was quite frank when I talked with her about this bill in telling me that her reaction to it is not initially positive. She has said, however, that she will hold hearings if others on the Committee encourage her to do so. I appreciate her willingness to allow the processes of participatory government to move forward even when she personally does not support the measure in question.

I realize that the merits of proposals are not normally debated as a part of bill introduction. Given that Chairperson Ranson, however, has said that others must encourage her to hold hearings before she will be willing to do so, I would like to take the opportunity to explain a little more about the rationale and legal background behind this proposal. This may help others on the Committee consider whether it is worthy of hearings.

We are as a society encouraging persons who have more and more severe disabilities to remain in their homes and remain as independent of assistance as is possible for longer and longer periods of time, thus avoiding more costly institutionalization at the taxpayers' expense. This is the case with regard to both younger disabled individuals and individuals who are disabled in combination with advancing age. In order for this scenario to work, and in order for it to ultimately reduce the overall burden on the taxpayer, it is essential that we make our society as accessible as possible.

Blind persons living independently and alone as a part of generations past have found it relatively easy to find volunteer readers to help with bill reading and such activities as check writing. In a society now where double income families with both husband and wife serving as breadwinners is the norm, honest, trustworthy, competent help to handle business needs, particularly those needs which relate to the transfer of funds, is becoming harder and harder to find. Such services are not currently funded under the Medicaid waver programs based on blindness although they are covered for a limited number of multiply disabled blind individuals. Such deficits, however, are driving increasing numbers of blind and visually impaired seniors into institutionalization before they want to go there. Not all such persons have family members close by to help.

Lastly, accommodations such as alternate formats for utility bills are required under the Americans With Disabilities Act (ADA). The difficulty in leaving such requirements at the federal level only, and without authenticating State statutes is that the ADA is enforced essentially only through lawsuits and adversarial actions. Such enforcement would undoubtedly eventually be brought about through these procedures, but when adversarial actions bring about such changes, they happen with much more expense and difficulty. Also, they would probably happen well after retail wheeling becomes a reality and thus implementation would be more difficult than if all changes are made at the same time. I realize that some of you who are on this Committee feel supportive of the ADA, and others opposed this legislation during its initiation. I certainly respect that these divergent opinions exist, and I will not attempt to debate the merits or short falls of the ADA. The fact is, however, that the ADA is reality. It is the law of the land. Assistance in seeing that it is implemented pro-actively through State statutes makes the process much easier and less painful than implementation through adversarial actions.

If hearings are held, I will provide information on costs to utilities of implementation. You will find that such costs will be less than you might expect.

Sincerely yours:

Michael Byington
Director of Governmental Affairs

Section 1. Any provider of sewer, water, electric, gas, telephone, or cable utility service, or any provider of any combination of these services, whether public or private, shall, upon the request of a visually impaired or blind customer of such provider, provide the customer's bill and related information concerning billings, in braille, large print, textfile on computer disk, or audio cassette, or any combination of braille, large print, textfile on computer disk and audio cassette. The provision of such bills and related information concerning billings in alternate formats shall be at no additional cost to the customer.

AN ACT

Relating to utility provider billing
procedures.

~~BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF MISSOURI,
AS FOLLOWS:~~

~~Section 1. Any provider of sewer, water, electric, gas,
telephone or cable utility service, or any provider of any
combination of these services, whether public or private, shall,
upon the request of a visually impaired or blind customer of such
provider, provide the customer's bills in braille, large print or
audio cassette, or any combination of braille, large print and
audio cassette. The provision of said bills in an alternative
format shall be at no additional cost to the customer.~~

THE STATE CORPORATION COMMISSION
OF THE STATE OF KANSAS

Before Commissioners: Jim Robinson, Chairman
F. S. Jack Alexander
Rachel C. Lipman

In the Matter of the Application of Peoples Natural Gas Company, Division of UtiliCorp United Inc., for a Certificate of Convenience and Authority to transact the business of a natural gas public utility in various counties in the State of Kansas.)
) DOCKET NO.
) 183,775-U
) 93-PNTG-145-C
)
)

CERTIFICATE AND ORDER

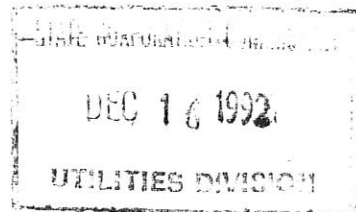

NOW, there comes on for consideration and determination by the State Corporation Commission of the State of Kansas (Commission), the above-captioned matter. Having examined its files and records and being duly advised in the premises, the Commission finds and concludes that:

1. Peoples Natural Gas Company, Division of UtiliCorp United Inc., (Peoples) is a public utility under the provisions of K.S.A. 66-104.

2. The application in the instant docket was filed with the Commission on October 14, 1992. A public hearing was not held on the instant application.

3. Peoples is requesting authority to acquire approximately 753 right-of-way customers currently served by Panhandle Eastern Pipeline Company (Panhandle). These are existing customers and potential customers who have a tap or

Senate Utilities
1-22-98
2-1

①

rights to a tap under an unexercised tap right, pursuant to a right-of-way agreement between Panhandle and the landowner.

4. The purchase of Panhandle's right-of-way tap customers by Peoples is in accordance with the April 9, 1992 "Agreement for the Sale of Farm and Irrigation Taps" filed as Exhibit A attached and made a part of the instant application.

5. Peoples requests a Certificate to transact the business of a natural gas public utility to serve all customers and potential customers, who are entitled to service by reason of right-of-way agreement between Panhandle and grantor, landowner or predecessor in the following Kansas Counties.

Franklin, Miami, Marion, Chase, Lyon, Coffey, Pratt, Reno, Kingman, Harvey, Butler, Clark, Ford, Kiowa, Stafford, Edwards, Haskell, Stevens, Morton, Barber, Seward, Meade, Harper, Kearny and Grant.

Maps reflecting the location of Panhandle's main line and customer lists, identified as Tap Listing for Greensburg, Haven, Olpe and Louisburg areas, Irrigation Gas contracts and Kansas Farm taps are attached to and made a part of the application herein.

6. Peoples is better able to provide efficient and effective service given the interstate status of Panhandle and its recent restructuring under Federal Energy Regulatory Commission Order 636. Peoples will continue service to Panhandle's customers under the existing contracts and will do so in conjunction with its existing local distribution activities in Kansas. Panhandle agrees to continue transportation of gas for Peoples through Panhandle's existing facilities.

7. Although Peoples' application states that it plans to serve these newly acquired customers under its current rates, it has not requested authority to change the rates provided for under the contracts between Panhandle and these customers. Therefore, Peoples should provide service to these new customers, acquired from Panhandle, under Panhandle's existing rates, unless and until different rates are justified by Peoples.

8. In a separate application in Docket No. 183,772-U, Panhandle Eastern Pipeline Company is, this date, being granted authority to cease operating as a natural gas public utility with respect to the services as described in Finding No. 5 herein.

9. Public convenience will be promoted by permitting Peoples to transact the business of a natural gas public utility, to the extent described in Finding No. 5 herein and the application should be granted with provisions and a Certificate issued in accordance with the provisions of K.S.A. 66-131.

IT IS, THEREFORE, BY THE COMMISSION CONSIDERED AND CERTIFIED:

The application by Peoples Natural Gas Company, Division of UtiliCorp United Inc., for a certificate of convenience and authority as a natural gas public utility, as described in Finding No. 5 herein, is hereby granted.

IT IS, THEREFORE, BY THE COMMISSION ORDERED THAT:

The rates to be charged are those rates as referred to in Finding No. 7 herein.

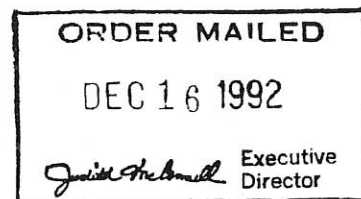

A party may file a petition for reconsideration of this order within 15 days of service. If the order is mailed service is made upon mailing, and three (3) days are added to the above time period.

The Commission retains jurisdiction of the subject matter and parties for the purpose of entering such further order or orders as it may deem necessary.

BY THE COMMISSION IT IS SO CERTIFICATED AND ORDERED.

Dated: **DEC. 15 1992**

of a natural gas public utility in)
various counties in the State of)
Kansas.)

Docket No.

183,775-U

93-PNTG-145-C

APPLICATION FOR CERTIFICATE

COMES NOW Peoples Natural Gas Company, Division of UtiliCorp United Inc. of Omaha, Nebraska, ("Peoples") and represents and shows to the Commission:

1. Peoples is a natural gas public utility in Kansas, and other states, and as such wishes to distribute natural gas to certain customers it does not presently serve, which are being acquired from Panhandle Eastern Pipeline Company ("Panhandle"). The Kansas customers and potential customers, approximately 753 in number, are along the right-of-way of Panhandle's interstate pipeline system. Peoples is also acquiring similar customers of Panhandle in Texas and Oklahoma.

2. A separate Application is being filed with the Commission by Panhandle for permission to cease serving said Kansas

Senate Utilities
1-22-98

①

customers, namely, farm tap and grain drying/irrigation customers. The transfer of customers is a part of a sale under an Agreement for Sale of Farm and Irrigation Taps, ("Sale Agreement") dated April 9, 1992, which is filed with the Panhandle Application.

3. Peoples presently serves customers in the general vicinity of Panhandle's pipeline facilities so that it is in a position to assume the service obligations to the customers and potential customers along Panhandle's right-of-way. The public convenience will be promoted, and it is appropriate that Peoples be granted a Certificate authorizing it to assume the service obligations to the customers in Kansas listed in the exhibits to the Sale Agreement. Peoples should be issued a Certificate authorizing it to serve all customers, and potential customers, who are entitled to service by reason of a right-of-way agreement between Panhandle and such grantor, landowner or predecessor in the following Kansas counties, to-wit:

Franklin, Miami, Marion, Chase, Lyon, Coffey,
Pratt, Reno, Kingman, Harvey, Butler, Clark,
Ford, Kiowa, Stafford, Edwards, Haskell,
Stevens, Morton, Barber, Seward, Meade,
Harper, Kearny and Grant.

Main line and west end gathering system maps are filed herewith reflecting the areas for which a Certificate is sought. Also filed herewith are customer lists identified as Tap Listing for Greensburg, Haven, Olpe and Louisburg areas, Irrigation Gas Contracts and Kansas Farmtaps.

4. Peoples knows of no other natural gas public utilities operating in close proximity to the Panhandle customers.

5. Peoples will serve these new irrigation customers under its LGS Tariff and domestic customers under its GS-3 Tariff.

6. Panhandle's application should be consolidated with this Application so that secession and commencement of service can be coordinated. Further, the allegations and exhibits of the Panhandle Application are incorporated herein by reference.

WHEREFORE, Peoples Natural Gas Company, Division of UtiliCorp United Inc., requests that a Certificate of Convenience and Authority be issued authorizing it to acquire the customers and transact the business of a natural gas public utility as described in the foregoing Application.

Respectfully submitted,

PEOPLES NATURAL GAS COMPANY,
DIVISION OF UTILICORP UNITED INC.

Ms. Judith A. McConnell
Executive Director
KANSAS CORPORATION COMMISSION
1500 S.W. Arrowhead Road
Topeka, Kansas 66604

Dear Ms. McConnell:

On behalf of Peoples Natural Gas Company, Division of UtiliCorp United Inc., we file herewith an original and seven copies of an Application for Certificate of Convenience and Authority to transact the business of a natural gas public utility in certain counties in Kansas. This Application is made in furtherance of a contract between Peoples and Panhandle Eastern Pipeline Company whereby Peoples is to undertake service of the right-of-way tap customers of Panhandle along its facilities in Kansas, Oklahoma and Texas. We also file herewith for the Staff's consideration Panhandle's maps reflecting the area involved and also customer lists, all as referred to in the Application.

We further enclose Order of the FERC entered October 13, 1992, by which it grants authorization for Panhandle to abandon the service being assumed by Peoples.

October 14, 1992
Page 2

Should the Staff have any questions or need for additional information, please advise me.

Very truly yours,

FOULSTON & SIEFKIN
Topeka Office

James L. Grimes, Jr.

JLG:cas

Enclosures

cc: Jack Graves

the facilities would occur no later than forty-five (45) days following the receipt of all necessary regulatory approvals, provided that the closing date does not occur before January 1, 1993.

Panhandle proposes to account for the abandonment/sale of the farm tap and grain drying/irrigation facilities as gas plant sold. As a result, Panhandle proposes to charge the original cost of the facilities (\$2,205,725), and the costs of retiring them (\$15,000) to Account No. 102. The related accumulated depreciation (\$1,671,881), and the salvage value (proceeds in the amount of \$675,000) will be credited to Account No. 102.. Panhandle proposes to record the resulting gain, \$126,155, in Account No. 421.1, Gain on Disposition of Property, which is appropriate.

INTERVENTIONS:

After due notice by publication in the Federal Register on June 26, 1992 (57 Fed. Reg. 26,657), five timely, unopposed motions to intervene were filed.^{4/} No protests to the granting of the application were filed.

FINDINGS:

At a hearing held on October 13, 1992, there was received and made a part of the record in this proceeding all evidence, including the application and exhibits thereto, submitted in support of the authorization sought herein.

No facilities are to be removed from service, therefore, I find that no environmental impact would be involved with the approval of Panhandle's proposal.

I am taking this action under 18 CFR 375.307, and I order that:

(A) Permission for and approval of the abandonment by Panhandle of the facilities by sale to Peoples and the related transportation service, as described above and in the application, are granted, effective the date that Panhandle and Peoples close on the sale of the facilities.

(B) Panhandle shall notify the Commission within 10 days of the abandonment of the farm taps and grain drying/irrigation installations.

^{4/} Timely, unopposed motions to intervene are granted by operation of Rule 214.

(C) This order constitutes final agency action. Requests for rehearing by the Commission may be filed within 30 days of the date of issuance of this order pursuant to 18 CFR 385.713.

Kevin P. Madden, Director
Office of Pipeline and Producer
Regulation

THE STATE CORPORATION COMMISSION
OF THE STATE OF KANSAS

Before Commissioners: Jim Robinson, Chairman
F. S. Jack Alexander
Rachel C. Lipman

In the Matter of the Application of Kansas Gas Supply Corporation, Applicant, for an Enlargement of Certificate of Convenience and Authority to Transact Business as a Public Utility within the State of Kansas.)
) DOCKET NO.
) 181,418-U
) 92-KANG-380-C
)

CERTIFICATE

NOW, there comes on for consideration and determination by the State Corporation Commission of the State of Kansas (Commission) the above-captioned matter. Having examined its files and records and being fully advised in the premises, the Commission finds and concludes that:

1. Kansas Gas Supply Corporation (Applicant) is a public utility under the provisions of K.S.A. 66-104.
2. The application in the instant docket was filed with this Commission on the 13th day of April 1992. A public hearing was not held on the instant application.

Senate Utilities
1-22-98
4-1

3. Applicant currently holds a certificate under Docket No. 68,149-U, issued by the Commission on April 11, 1962. Pursuant to this Certificate, Applicant has authority which includes, but is not limited to, authority to serve its right-of-way customers.

4. Applicant has recently purchased the Zenith Natural Gas Company (Zenith) gathering gas system located in Barber County, Kansas. Applicant was issued a Certificate from this Commission dated December 9, 1991, under Docket No. 179,063-U to sell wholesale for resale to the City of Hardner, Kansas, a former customer of Zenith.

5. In addition to serving the City, the Zenith System also provides natural gas service to thirteen residential customers (the "Zenith Farm Tap Customers") by means of farm taps connected at points located along the Zenith System in Barber County, Kansas. The locations of the Zenith Farm Tap Customers and the residences served thereby are described on Exhibit A attached to and made a part of the Applicant herein. Exhibit A is also attached to this Certificate. The Zenith Farm Tap Customers existed and were served by the Zenith System prior to and at the time of Applicant's acquisition of the Zenith System.

6. In the intervening period from issuance of Applicant's initial Certificate to present, Applicant has agreed to provide natural gas service to certain other residential customers (the "Right-of-Way Farm Tap Customers") by means of farm taps connected to Applicant's system. The locations of the Right-of-Way Farm Tap

Customers and the residences served are described on Exhibit B attached to and made a part of the Application herein. Also, Exhibit B is attached to this Certificate.

7. Applicant further states that in order for it to provide natural gas service to the Zenith Farm Tap Customers, it is necessary that Applicant's Certificate hereinbefore issued be enlarged authorizing such provision of service. In addition, Applicant desires clarification of Applicant's authority under the certificate to continue to serve its Right-of-Way Farm Tap Customers.

8. Public convenience will be promoted by permitting Applicant to transact the business of a natural gas public utility by enlarging and clarifying its Certificate authority as described herein, and the application should be granted and a Certificate issued in accordance with the provisions of K.S.A. 66-131.

8. A party may file a petition for reconsideration of this order within fifteen (15) days of the service of this order. If this order is mailed, service is complete upon mailing, and three (3) days may be added to the above time limit.

IT IS, THEREFORE, BY THE COMMISSION CONSIDERED AND CERTIFIED:

That the application of Kansas Gas Supply Corporation, for a Certificate of Convenience and Authority to enlarge and clarify its certificate authority with respect to the farm tap customers and right-of-way customers as referenced in Findings No. 5 and 6 herein is hereby granted.

The Commission retains jurisdiction of the subject matter and parties for the purpose of entering such further order or orders as it may deem necessary.

BY THE COMMISSION IT IS SO CERTIFICATED.

Dated: AUG. 14 1992

THE STATE CORPORATION COMMISSION
OF THE STATE OF KANSAS

Before Commissioners: Timothy E. McKee, Chair
Susan M. Seltsam
John Wine

WESTERN RESOURCES, INC.,)
Complainant,)
v.) Docket No. 193,371-U
PEOPLES NATURAL GAS COMPANY, DIVISION)
OF UTILICORP UNITED INC.)
Respondent.)

ORDER

COMES NOW the above captioned matter for consideration and determination by the State Corporation Commission of the State of Kansas (Commission). Appearances in this matter were as follows: Western Resources, Inc. (Western Resources or Western) by Martin J. Bregman and Diana G. Edmiston; Peoples Natural Gas Company, Division of Utilicorp United Inc. (Peoples) by Robert A. Fox and James L. Grimes; Mountain Iron & Supply Company (Mt. Iron) by Richard W. Stavely; The Citizens' Utility Ratepayer Board (CURB) by Walker Hendrix; and the Commission Staff (Staff) by Christopher G. Arth. Having reviewed its files and records and being duly advised in the premises, the Commission finds and concludes as follows:

I. BACKGROUND

1. On September 19, 1995, Western Resources initiated this matter by filing a formal complaint against Peoples. The complaint included three violations.

Senate Utilities
1-22-98
5-1

The first two violations alleged Peoples has and continues to unlawfully provide natural gas service outside its certificated territory. The third violation alleged that certain transportation management type services provided by Peoples constitute new rates or terms of service in violation of K.S.A. 66-117.

2. Western Resources' Complaint was reviewed by Staff. The Complaint was determined to have met the requirements of a prima facie complaint pursuant to K.A.R. 82-1-220, and was therefore served upon Peoples on September 22, 1995. In response, Peoples filed its Answer to Complaint on October 2, 1995.

3. Petitions to Intervene were filed by CURB on September 26, 1995, and by Mt. Iron on October 13, 1995. The Commission issued an Order dated November 9, 1995 granting both petitions.

4. On October 11, 1995, Peoples filed its Motion for Stay or Consolidation. The motion sought to have Violation #3 of Western Resources' Complaint stayed pending a final order of the Commission in Docket No. 190,358-U; *In the Matter of a General Investigation into Natural Gas Utility Practices With Regard to Marketing Affiliates*. (Hereafter, the Marketing Affiliates Docket). In the alternative, Peoples sought to have Violation #3 of the Complaint by Western consolidated with the Marketing Affiliates Docket. On October 18, 1995, Western filed a response in opposition to this Motion by Peoples.

5. On October 25, 1995, Western Resources filed its Petition for Issuance of Deposition Subpoena. The Petition sought leave to issue subpoenas to four named individuals directing their attendance at discovery depositions to be held in Pratt,

Kansas on November 14, 1995. The Commission issued subpoenas which were served via certified mail by Western Resources on November 8, 1995. On November 20, 1995, depositions were taken of Mr. Blake Himmelwright, Mr. Stewart Briggeman and Mr. Dale Mott at the office of Mr. Himmelwright in Pratt, Kansas.

6. The Commission issued a procedural order dated November 21, 1995, which was agreed to by all parties. The order set forth deadlines for discovery and prefiled testimony and set the matter for hearing on January 11 and 12, 1996.

7. On December 5, 1995, Peoples filed its Motion to Impose Conditions on the Participation of Mt. Iron. The motion sought to limit the participation of Mt. Iron to designated issues in which Mt. Iron's interests are clearly identified, specifically Violation #3 of the Complaint of Western Resources.

8. This matter came on for hearing as scheduled on January 11, 1996. As a preliminary matter to the hearing, Counsel for Western Resources, Peoples and Staff stated to the Commission that they had agreed to continue the hearing of Violation #3 of the Complaint pending issuance of proposed rules in the Marketing Affiliates Docket. The agreement of the parties specified that if the proposed rules were issued within 90 days of the hearing, Western would move to dismiss its complaint as to Violation #3. Thereafter, the Commission transferred the issues in Violation #3 to the Marketing Affiliates Docket. An evidentiary hearing proceeded, and evidence and testimony were offered in regard to Violations #1 and #2 of Western's Complaint. During the hearing, the Commission took under advisement

a Motion to Dismiss by Counsel for Peoples, made after Western Resources and Staff concluded their direct testimony. In its post hearing brief, Peoples requested that the Commission treat the Motion to Dismiss as one for Summary Judgment on the entire record.

9. On January 16, 1995, Western Resources, Peoples and Staff filed a Joint Motion for Clarification. The Joint Motion requested an order clarifying the intent of the Commission in its Bench Ruling made during the hearing. The Joint Motion suggested the order specify that a hearing on the issues presented in Violation #3 of the Complaint be set for a date 90 days from the January 11, 1996 hearing, and that the hearing would be vacated and Violation #3 withdrawn by Western Resources in the event that Staff filed proposed rules in the Marketing Affiliates Docket prior to the date established for such hearing. On January 17, 1996, Mt. Iron filed its Comment and Objection to the Joint Motion. On February 6, 1996, the Commission issued its Order Approving Joint Motion for Clarification. The Order set April 10, 1996 for the hearing of Violation #3 of the Complaint.

10. On February 12, 1996, Western filed its Initial Brief. Briefs by Peoples and Staff were filed on March 4, 1996. Western then filed its Reply Brief on March 14, 1996.

11. On April 5, 1996, Staff filed a document entitled Proposed Rules of the Staff of the State Corporation Commission. Pursuant to the agreement of the parties, and through the self-executing order of the Commission dated February 6,

1996, the hearing of Violation #3 of the Complaint by Western Resources was vacated.

12. At the regularly scheduled Administrative Meeting of the Commission held on April 11, 1996, all pending matters in this docket were decided by unanimous vote of the Commission, as more fully set forth herein.

II. FINDINGS AND CONCLUSIONS

A. Jurisdiction

13. The Commission finds that pursuant to K.S.A. 66-104, 66-105 and 66-1,200 Peoples is a natural gas public utility and a common carrier. As such, the Commission concludes that it has jurisdiction in this matter pursuant to K.S.A. 66-1,201, 66-1,205 and K.A.R. 82-1-220.

B. Peoples Motion to Dismiss / Motion for Summary Judgment

14. During the January 11, 1996 hearing of this matter, the Commission took under advisement a Motion to Dismiss by Counsel for Peoples. In its post-hearing brief, Peoples asked that the Commission treat the Motion to Dismiss as one for Summary Judgment on the entire record.

15. The Commission finds that sections 82-1-216, 218 and 219 of the Commission's Rules of Practice and Procedure provide detail as to the service, form and rules related to pleadings including motions. However, the Commission finds that its rules do not specifically address Motions to Dismiss or Motions for

Summary Judgment. Therefore, the Commission concludes it is appropriate to apply the **Kansas Rules of Civil Procedure** in ruling on this motion.

16. The Commission finds that K.S.A. 60-256 sets forth the law in Kansas on Summary Judgments. The Commission finds that the statute, as well as case law interpreting the statute preclude a ruling in favor of Peoples. The Kansas Supreme Court has stated that "[t]he trial court is required to resolve all facts and inferences which may reasonably be drawn from the evidence in favor of the party against whom the ruling is sought. . . . and where we find reasonable minds could differ as to the conclusions drawn from the evidence, summary judgment must be denied." *C.J.W. v. State*, 253 Kan. 1, 16 (1993).

17. The Commission finds that it has in fact already undertaken the analysis outlined in the previous paragraph when it accepted the Complaint of Western Resources and served it upon Peoples in accordance with K.A.R. 82-1-220 (c). Thus, in light of the statutes and case law pertaining to Motions for Summary Judgment, and pursuant to its own Rules, the Commission concludes that the Motion for Summary Judgment by Peoples should be denied.

B. Issues of the Complaint

18. The Commission finds that K.S.A. 66-131 requires a public utility to have a certificate from the Commission. Further, the Kansas Supreme Court has held that, beyond the initial certification process, if a utility desires to extend its service, "a certificate of convenience and necessity must be obtained from the

commission" *Kansas Gas & Elec. Co. v. Public Serv. Comm.*, 124 Kan. 690, 694 (1927). See also, *Central Kansas Power Co. v. State Corporation Commission*, 206 Kan. 670, 676 (1971).

19. The Commission finds that Peoples' certificated authority is limited by certain right-of-way agreements granted to Panhandle Eastern Pipeline Company (Panhandle). Peoples authority, granted by Order of the Commission in Docket No. 183,775-U, and pursuant to the precise request by Peoples, grants authority "to serve all customers and potential customers, who are entitled to service by reason of right-of-way agreement between Panhandle and grantor, landowner or predecessor in the following Kansas Counties . . . Pratt." The Commission finds that the language in the right-of-way agreements and in the Order granting Peoples' authority limit the scope of service that may be provided by Peoples by both use and territory.

20. The Commission finds that the record contains the right-of-way agreement pertaining to the lands at issue in Violation #1. The agreement which covers the "Mott property" described in Violation #1 states that Panhandle was to provide a tap "for domestic use on land above described." The described land included only the quarter section of land on which the tap was situated. As to Violation #2, the Commission finds that no right-of-way agreement was ever produced for the lands on which the tap at issue is situated.

21. However, the Commission also finds that an order was issued by the FERC which approved irrigation use for the lands on which the Panhandle taps are located in both Violations #1 and #2. The Commission finds that the intent of

Peoples when it requested its authority in Docket No. 183,775-U, and that of the Commission at the time it granted Peoples its certificate was to permit Peoples to serve the customers at issue in accordance with the right-of-way agreements and subsequent FERC certificates that were granted. However, the Commission also finds that any subsequent grant of authority from FERC would apply to designated uses, and will in no way expand the lands covered by the Commission's certificate.

22. Thus, the Commission concludes that although use for irrigation purposes shall be allowed on the lands owned by the current holders of the right-of-way agreements at issue, no use shall be allowed outside of those lands specifically described on the right-of-way agreements.

23. The Commission also finds the actions of Peoples to be contrary to Commission policy controlling the issue of point of delivery versus point of consumption. The Commission finds that the situations described in both Violations #1 and #2 of the Complaint create a bypass type arrangement similar to that at issue in Docket No. 153,664-U, *In the Matter of the Complaint of Kansas Power and Light Co. vs. Getty Gas Gathering, Inc. and the City of Augusta*.

24. The Commission finds that Peoples has provided natural gas service to both Mr. Himmelwright and Mr. Briggeman at Peoples' properly certificated taps (the point of delivery). However, the Commission also finds that the gas provided to these customers was used in irrigation engines owned by the customers and others located in the properly certificated territory of Western Resources (the point of consumption). The Commission finds that this arrangement effectively

circumvents the territorial boundary established for service in this area. The Commission therefore concludes that these actions constitute an attempt by Peoples to expand its certificated territory without authority of the Commission in violation of K.S.A. 66-131.

25. Apart from these findings of violations by Peoples, the Commission recognizes that a price disparity exists between customers able to benefit from the fortuitous location of their lands entitled to service from these Peoples/Panhandle taps, and those who must take service from the certificated local distribution company (LDC), in this case Western Resources. Although the Commission understands the financial incentive of these customers in attempting, through rather ingenious means, to acquire low cost gas, the Commission concludes that allowing such activities, even in isolated cases, is not in the best interest of the public generally.

26. However, due to the adverse financial impact this decision may have on those customers currently served by Peoples in violation of its certificate, the Commission finds and concludes that this order shall not become effective until ninety days from the date it is signed by the Commission. The purpose of this delay of effective date is to mitigate the impact of this order on costs associated with the upcoming irrigation season, and to allow those negatively impacted by this order to make any necessary changes in equipment and service.

27. Further, in light of these price disparities and the continued interest of the Commission in developing and promoting gas-on-gas competition throughout

the state, the Commission finds it appropriate to direct Staff to investigate how the benefits of competition could be applied to circumstances such as those existing in this case. Thus, the Commission concludes that Staff shall gather and summarize information including, but not limited to current transportation tariffs, sales volumes, and load factors for these and similar seasonal and agricultural gas customers, as well as the potential impact of competition in this forum on overall rates.

IT IS, THEREFORE, BY THE COMMISSION ORDERED THAT:

- a. The Motion for Summary Judgment by Peoples is denied.
- b. Natural gas service by Peoples, pursuant to authority granted by Order of the Commission in Docket No. 183;775-U, shall be limited to service on those lands described in the right-of-way agreements by which Peoples received its authority. Peoples shall cease and desist providing gas service for use on any lands other than those described in the aforementioned right-of-way agreements.
- c. Natural gas service by Peoples, pursuant to authority granted by Order of the Commission in Docket No. 183,775-U, may include any uses allowed in the right-of-way agreements by which Peoples received its authority, or any uses allowed by subsequent FERC authority.
- d. This order shall not become effective until ninety days from the date it is signed by the Commission.
- e. Staff shall gather and summarize information including, but not limited to current transportation tariffs, sales volumes, and load factors for these

and similar seasonal and agricultural gas customers, as well as the potential impact of competition in this forum on overall rates.

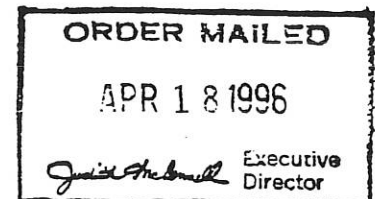

The parties have fifteen (15) days from the date of this Order, plus an additional three (3) days, if service of this Order is by mail, to file for reconsideration regarding the decision herein.

The Commission retains jurisdiction of the subject matter and the parties for the purpose of entering such further order or orders as it may deem necessary and proper.

BY THE COMMISSION IT IS SO ORDERED.

McKee, Chr.; Seltsam, Com.; Wine, Com.

Dated: APR 18 1996

JUDITH McCONNELL
EXECUTIVE DIRECTOR

CGA

IRRIGATION GAS CONTRACT

THIS AGREEMENT made and entered into as of this 1st day of January, 1985, by and between Panhandle Eastern Pipe Line Company, a Delaware Corporation, hereinafter referred to as "Seller," and Arlie D. Stonestreet and Aquina Stonestreet (Owners); and Stuart Briggeman (Tenant), hereinafter referred to as "Buyer" (whether one or more).

The parties agree as follows:

1. That certain Irrigation Gas Contract dated March 16, 1982, executed by Buyer and Seller, or by Seller and Buyer's predecessor in interest, is hereby cancelled effective as of the date of this agreement.

2. Subject to the terms and conditions hereof, Seller agrees to sell and deliver to Buyer, and Buyer agrees to purchase and receive from Seller, natural gas for fuel for irrigation purposes only from a tap on Seller's pipeline located on the following described real property:

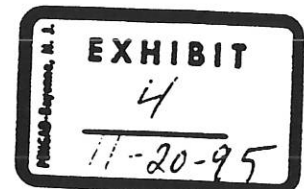

Southwest Quarter (SW/4) of Section 1, Township 28 South, Range 15 West, Pratt County, Kansas.

3. The initial term of this contract shall be from the date hereof through December 31, 1986, and shall continue thereafter until terminated at any time by thirty days' written notice given by one party to the other; provided, however, that Seller may terminate this contract at any time, including prior to expiration of initial term, upon giving ten days' notice if Buyer violates any provision of this contract. Termination by either party shall not affect Buyer's obligation to pay Seller for any amount due prior to the effective date of the termination.

4. The base price for gas sold and delivered during the term of this contract shall be Two dollars and fifty-one cents (\$2.51) per Mcf. Such base price shall be subject to adjustment as follows:

- (a) The base price shall be adjusted to reflect increases or decreases in the weighted average cost of gas purchased West of Seller's Haven, Kansas compressor station, excluding imported gas, as set forth in Seller's filed Purchased Gas Cost Rate Adjustment (PGA).

The base price shall also be adjusted to reflect all changes in Seller's filed Purchased Gas Cost Rate Adjustment (PGA) for the deferred purchase gas cost, carrying cost surcharges and credit for other periods reflected therein.

During the term of this Agreement, the effective date of adjustment for each (PGA) shall be March 1 and September 1, and any other time as PGA Adjustments shall be made pursuant to the provisions of Section 18 of the General Terms and Conditions of Seller's currently effective F.E.R.C. Gas Tariff, Original Volume No. 1, or as permitted by the Federal Energy Regulatory Commission.

The amount of each such Rate Adjustment shall be the PGA deferred purchase gas cost and carrying cost surcharge Rate Adjustments as determined in accordance with Section 18.2 of the General Terms and Conditions of Seller's currently effective F.E.R.C. Gas Tariff, Original Volume 1, or any special tracker permitted by the Federal Energy Regulatory Commission, applicable to Seller's resale (Jurisdictional) customers, expressed in cents per Dekatherm (Dt.).

- (b) If, pursuant to a final determination by the FERC or any administrative agency or successor governmental authority having jurisdiction over this agreement, or by legislative or executive act, Buyer is required to adjust the base price on a prospective or retroactive basis, Seller shall make such an adjustment by crediting or billing Buyer in accordance with the terms of governmental determination. Such credit or information of Seller shall contain sufficient details as will allow the Buyer to determine how the amount of the credit on the invoice was calculated. Any invoice provided for in the Subsection shall be payable as provided for in Section 5, below.

5. Seller shall bill Buyer on or before the 10th day of each month for gas delivered during the preceding month. Buyer shall pay all such gas bills at the office of Seller at 3444 Broadway, Kansas City, Missouri, or shall post payment by ordinary mail to such address as may be designated for payments by mail on the gas bill, on or before the 20th day of each month. Should Buyer fail to pay any such bills within 30 days of the time provided, interest shall accrue upon the unpaid balance due at the lesser of the then current "Federal Energy Regulatory Commission prime rate" or the maximum lawful rate of interest chargeable in the state where such gas delivery occurs. The "Federal Energy Regulatory Commission prime rate" shall be defined as a rate of interest equal to the then effective refund interest rate calculated pursuant to Federal Energy Regulatory Commission Order No. 47 issued September 10, 1979. Resumption of gas deliveries where the contract has been terminated, shall be through the existing tap connection but only after payment in full of all unpaid gas bills and interest accrued thereon, plus a reconnect service charge of \$300.00, and then only if applicant would otherwise be entitled to the same. If bills for gas sold and delivered hereunder are rendered to a tenant, the owner shall, nevertheless, remain jointly and severally liable for payment of said bills in the event of nonpayment by such tenant.

6. If at any time Buyer utilizes gas sold and delivered hereunder for purposes or uses other than those specifically described in Paragraph 2 hereof, then this contract shall be permanently terminated forthwith and Seller shall have no obligation to sell and deliver gas hereunder from the date of such termination, except that Buyer shall pay all amounts due and owing Seller and Seller shall have the right to enter Buyer's premises as soon as practicable after such termination in order to remove Seller's facilities.

7. The unit of measurement for gas delivered hereunder shall be 1,000 cubic feet of gas (Mcf) at a pressure of 14.73 pounds per square inch absolute saturated base for all main lines East of Liberal Compressor Station and Elk City laterals and 14.65 pounds per square inch absolute pressure base in all other locations, computed at a temperature of 60°F. assumed for the purpose of this contract. The average atmospheric pressure shall be assumed to be 14.4 pounds per square inch.

8. Seller shall install (at a cost to Buyer of \$3,000.00), own, operate and maintain a meter and other necessary measuring equipment at a point selected by Seller, of sufficient capacity to deliver volumes of gas as stipulated hereunder. The point of delivery of gas shall be at the outlet side of Seller's meter. Title to the gas shall pass to Buyer at such delivery point, and thereafter all responsibility in connection with the gas shall be upon Buyer. Seller, at its option, may install such regulating equipment as it deems necessary in connection with the metering of the gas. Buyer assumes all responsibility of regulating the pressure of gas after delivery at the outlet side of Seller's meter. The title to all facilities installed and furnished by Seller and not sold to Buyer shall remain in Seller, who shall have the right to remove the same at any time. No charge shall be made by Buyer for use of Buyer's premises occupied by such equipment.

9. Seller's meter and other measuring equipment shall be available for reading by Buyer at all times and shall be open to the inspection of Buyer at all reasonable times upon request of Buyer, but only in the presence of Seller's representative. Seller will test such meter and equipment at reasonable intervals and, if requested, in the presence of a representative of Buyer, but Seller shall not be required to make such test more frequently than once in any sixty-day period. If any such test reflects that said measuring equipment is not accurately measuring gas volumes, such equipment shall be adjusted at once to record accurately. If the error in measuring equipment is found to affect volumes being measured by an amount exceeding two percent at a recording corresponding to the average hourly rate of flow for the period since the last preceding test, then any previous recordings of such equipment shall be corrected to zero error for any period which is known definitely or agreed upon, but in case the period is not known definitely or agreed upon, such corrections shall be for a period extending over one-half of the time elapsed since the date of last test, not exceeding a correction period of thirty days.

10. The Buyer shall furnish, install, and maintain, at his sole risk and expense, whatever service line may be necessary to carry gas from the outlet side of the Seller's meter. The Buyer shall not permit a connection to be made to said service line by others. If the Buyer elects to use steel pipe for his service line, he shall apply a suitable protective coating to the line, which coating shall be furnished free of charge by Seller. If plastic pipe is to be used for the service line, a small copper tracer wire shall be attached to and laid with the plastic line. This tracer wire shall be furnished by Seller to Buyer at no charge. Installation instructions concerning the coating or tracer wire shall be obtained from Panhandle's area office. Buyer shall not bury his service line until Seller's representative has inspected and approved the coating application or tracer wire installation. Seller shall have the right and privilege, if Buyer fails to maintain the service line in good order, to discontinue gas service to Buyer until necessary repairs are made by Buyer to the satisfaction of Seller.

11. Seller shall at all times have dry land access to and from its measuring and regulating equipment. Buyer will not locate any engines, pumps, buildings, or any other facilities, except irrigation ditches and pipes, closer than 50 feet to Seller's pipelines or other facilities. Buyer will not permit his irrigation spraying system to spray water on Seller's measuring and regulating facilities; however, Buyer may irrigate land laying over Seller's pipeline. Should Seller have any occasion to go upon its pipeline right-of-way for the purpose of emergency or other work, Buyer will operate his irrigation system so as to cause no interference with such operations by Seller.

12. In the event that Seller decides it is necessary to lower any of its pipelines located on the land of Buyer due to loss of existing cover over its pipelines resulting from Buyer's land leveling in preparation for irrigation operations fueled by Seller's gas, Buyer herein agrees to reimburse Seller for Seller's costs incurred in such line lowering.

13. Seller may curtail or interrupt all or any part of the deliveries of gas to Buyer when in Seller's judgment, such gas is needed to meet the requirements of other customers of Seller receiving service, either directly or indirectly, from the pipeline system of Seller. Seller shall not be obligated to supply gas at a greater working pressure than the normal prevailing pressure of its pipeline, or 70 pounds psig, whichever is lesser. Seller shall not be liable to Buyer for injury or damage of any kind whatsoever caused by curtailment, interruptions, diminutions or failure of supply or fluctuations of pressure caused by an act of God, the elements, labor troubles, fires, freeze-ups, accidents, breakage, repair, routine maintenance, cleaning or testing of pipelines or machinery, depletion of gas supply, curtailed use or suspension of use of Seller's lines, shut-in of gas wells, requirements of other consumers, or any other causes or contingencies. Buyer acknowledges that he has been informed that the gas to be delivered by Seller is or may be raw natural gas, that such gas may contain natural gasoline and other liquids, that said gas is not artificially odorized, that the pressure at the point of delivery will be subject to fluctuation, and that there will be periods during which no gas will be available, and Buyer agrees to assume all risks resulting therefrom.

14. All gas sold and delivered hereunder is intended solely for use and consumption as fuel for irrigation purposes only and shall not be diverted to domestic or other uses or resold by Buyer. Failure to adhere to the requirements of this paragraph will subject Buyer to the termination provision set out in Paragraph 6.

15. This contract is subject to all present and future valid laws, orders, rules and regulations of duly constituted governmental authorities. Neither Seller nor Buyer shall be liable in damages to the other for failure to perform any obligation under this contract, where such failure is due to valid laws, orders, rules and regulations of duly constituted governmental authorities.

16. This contract shall not be assignable by Buyer without the written consent of Seller.

17. Any notice, statement, or bill provided for herein, or any notice which either party may desire to give to the other, shall be duly delivered when mailed by first class mail to the post office address of either of the parties hereto, as the case may be, as follows:

Seller:

**Senate Utilities Committee
The Low Pressure Problem in Southwest Kansas
January 22, 1998**

Madame Chair and members of the Committee;

My name is J. C. Long and I am Director of Government Affairs for UtiliCorp United. UtiliCorp United's business names in Kansas are Peoples Natural Gas, Kansas Public Service and West Plains Energy.

We are pleased to appear before this committee today to review with you the low pressure situation in Southwest Kansas; and more specifically the low pressure irrigator customers that are served by Peoples Natural Gas in Southwestern Kansas.

With me today is Steve Hanna, Director of Network Operations-gas for UtiliCorp United in Kansas, Missouri and Colorado, Steve has worked in the gas utility business for 31 years, 11 with Gas Service Co. and 20 with UtiliCorp; Fred Taylor Director of Network Operations for Southwest Kansas, Fred has worked for UtiliCorp for 16 years; and Bob Fox, legal counsel for UtiliCorp.

Steve Hanna will provide a brief background of the history of Peoples serving the irrigation community in Southwest Kansas and Fred Taylor will provide information on how we are working to resolve these issues.

We will stand for questions that the committee may have after our presentation.

Senate Utilities Committee
Low Pressure Problems in Southwest Kansas

Steve Hanna
Director of Network Operations
Kansas, Missouri and Colorado
UtiliCorp United Inc.

BACKGROUND

- The Hugoton gas field was discovered in 1922 with well head pressures of 400 psi.
- Today in 1997 the Hugoton gas field has an average well head pressure of 85 psi.
- It is estimated by the Kansas Geological Survey that by 1994, 27 Tcf of natural gas had been removed from the Hugoton field. With current technology, the reserves could be depleted by 2010.
- Northern Natural Gas (NNG) and Peoples Natural Gas (PNG) entered into an agreement on April 1, 1987, whereas NNG requested PNG to perform certain services, such as being the billing agent for farm and irrigation customers, with operational responsibilities related to odorization, leak surveying, and responding to inside odor calls. PNG would not have responsibility for gas quality and delivery pressures.

Senate Utilities
1-22-98
7-1

- At the time of entering into the agreement with NNG there were approximately 7,500 small volume, residential, irrigation and crop dryer farm tap customers being served with natural gas throughout PNG's service territory. The customers involved in this agreement were either connected to transmission lines or gathering systems.
- Panhandle Eastern Pipeline Company (PEPL) and PNG entered into an agreement for the sale of farm and irrigation taps on April 9, 1992, in the states of Kansas, Oklahoma, and Texas. The taps which were purchased were either connected to transmission lines or gathering systems. PNG would own the facilities from the tap connection to the outlet meter ear with total operational responsibilities, excluding gas quality and delivery pressures received at the tap connected to PEPL facilities.
- On March 1, 1995, PEPL sold all of their gathering facilities on the suction side of the Hugoton Plant to Anadarko, which included 190 PNG farm tap and irrigation customer accounts of which approximately 40 are presently active.
- On April 18, 1995, Don Bowlby, marketing representative in the PNG Garden City office, received correspondence from Rick Cates, NNG District Manager in Hugoton, indicating NNG would be in the process of lowering its gathering pipeline pressures due to declining field pressures and gas production. As a result, there would be a number of gathering system customers affected and the problem was expected to expand as the well head pressures continued to decline.
- On November 8, 1995, at PNG's request Mitchell Putnam, Supervising Engineer with PEPL, provided PNG with a list of current operating pressures and system protected pressures for booster stations in the Liberal Gathering Division. This information would allow PNG to be proactive in the sizing of any new connections or the modifications to existing meter sets which might be affected by lowering gathering

system pressures. In addition, Mr. Putnam was asked to inform PNG on an as needed basis of any changes in operating pressures for the same purpose.

- On April 22, 1996, Steve Hanna contacted John Eckels, with Engineering support, to discuss possible design solutions to the low pressure problems PNG was experiencing on the gathering systems in question.
- On April 29, 1996, Steve Hanna received a memorandum from John Eckels with two highly potential designs for taps off the PEPL and NNG low pressure gathering lines. These designs addressed the MAOP (maximum allowable operating pressure) issue in providing economical over pressure protection, as well as affording a substantial reduction in costs for modifications to the meter sets; however, these potential designs would not provide an absolute cure for every low pressure situation.
- On July 19, 1996, Fred Taylor, Director of Operations in the Liberal district, met with Dave Odneal, Region Director with NNG in Holcomb, Kansas. Mr. Odneal informed Fred that NNG was in the compression and gathering business, and as funds became available pressures within the gathering systems would continue to drop into single digits.
- Fred Taylor initiated and conducted meetings with representatives of PEPL and NNG respectively on November 20 and 22, 1996, for the purpose of gathering data concerning gathering system pressure reductions, timelines, maps, and discussion of available options to assist affected customers.
- Due to the hard work and dedication of the operations technicians, measurement technicians, and creative engineering support, PNG was able to adequately serve the farm and irrigation customers in 1996.
- On January 16, 1997, Fred Taylor, Don Bowlby, and Steve Hanna met with operations and engineering personnel with PEPL in Liberal to discuss and

investigate alternative sources of quantitative supplies of natural gas for irrigation customers south of Plains being served off of low pressure gathering systems. PEPL has made a proposal to PNG which is being evaluated by PNG and GSS to see if it is feasible. Initial results do not look favorable.

- On February 4, 1997, Don Bowlby sent out 861 letters to customers with the potential for experiencing declining pressures on the gathering systems. An attachment to the mailing was a "Customer System Information" worksheet which would provide PNG operations a method to analyze each respondents requirements and make timely modifications if necessary.
- On February 4, 1997, Utilicorp United, represented by J. C. Long, Larry Headley, Phil Escareno, Dan Warnock, and Curt Carpenter, met with Senator Carl Holmes in Topeka to listen to his concerns of declining gas pressures in Southwest Kansas.
- On February 8 and 15, 1997, legislative coffees were held in Liberal, Meade, Dodge City, Cimmaron, and Sublette. PNG employees were in attendance at each site to support legislators, if necessary, for high bill complaints and low pressure questions.
- On February 13, 1997, Fred Taylor, Don Bowlby, and Steve Hanna met with operations, engineering, and marketing representatives from Anadarko in Liberal, Kansas. The meeting was initiated by Anadarko to review with us their future plans in the operation of the gathering system located on the suction side of the Hugoton Plant. They informed us that by the end of 1997 the gathering system would be operating at pressures in the single digits and would remain at that status indefinitely.
- On February 19, 1997, Steve Hanna met with Glenn Smith, Chief of Pipeline Safety and Rates with the Kansas Corporation Commission (K.C.C.) in Topeka, and reviewed the facts surrounding the low pressure problems PNG was encountering in

Southwest Kansas. Mr. Smith asked Steve Hanna if he would be willing to act as the liaison for the establishment of a meeting between PNG, Anadarko, and the K.C.C. staff at the earliest possible convenience. Steve Hanna scheduled a meeting for March 5, 1997.

- On February 28, 1997, the Citizens Utility Ratepayer Board ("CURB") filed a complaint with the Kansas Corporation Commission alleging that the letter sent to irrigation customers on February 4, 1997, created considerable uncertainty and was interpreted as a defacto attempt to abandon service to customers in Southwest Kansas.
- On March 5, 1997, a meeting with Anadarko, PNG, the K.C.C., and a representative from "CURB" was held in the commission chambers. PNG was represented by Larry Headley, Fred Taylor, and Steve Hanna. In addition Bob Fox, legal counsel for UCU, was in attendance. Anadarko was represented by Danny Rea, Manager - Field Services, Michael Ross, Manager of Processing and Pipelines, and Emery J. Biro III, Senior Attorney. Glenn Smith and Steve Coleman with the K.C.C., Ron Cook of Petroleum Consultants, Inc., retained by "CURB," and Walker Hendrix, legal counsel for "CURB", were also present. The K.C.C. staff was very appreciative of PNG's efforts, and everyone in attendance seemed to have a better understanding of the problem and how we were trying to find solutions. Mr. Smith asked that PNG continue to gather the same type of background information from the other transmission companies in Southwest Kansas as we had with Anadarko, and as it becomes available to share with the commission staff.
- On March 12, 1997, Fred Taylor and Don Bowlby attended and participated in a panel discussion sponsored by the Southwest Irrigation Association in Ulysses, Kansas. Representatives from Anadarko and the K.C.C. were also part of the panel

and the same type of information, which was discussed on March 5 in Topeka, was disseminated to the audience.

- On March 20, 1997, Fred Taylor, Don Bowlby, and Steve Hanna, met with GPM Gas Corporation, a Division of Phillips Petroleum Company, represented by Ed Hicks, Business Development Director, Philip Moldenhauer, Senior Project Engineer, and F. M. Cornelius, Field Supervisor, in Guymon, Oklahoma. GPM purchased the gathering system in Texas County, Oklahoma from Panhandle Field Services on December 26, 1996 and the closing of the purchase of additional gathering systems in Hansford County, Texas is pending. PNG has approximately 40 active accounts on these gathering systems. The purpose of the meeting was to discuss PNG's concerns over declining gas pressures which were being experienced by farm tap and irrigation customers in Oklahoma and Texas.
- On March 26, 1997, a conference call was scheduled with Operations, Engineering Support, Gas Measurement, and Marketing. Participants included Steve Hanna, Fred Taylor, Don Bowlby, John Eckels, Brian Krohn, Lynn Manske, Ray Stevens, and Danny Lubbers. A discussion centered upon all the various options available to PNG for addressing low pressure on the gathering systems in Southwest Kansas, Oklahoma, and Texas. Steve Hanna asked Engineering Support and Measurement for their personal assistance to answer any technical questions which may arise at upcoming meetings with legislators, K.C.C. staff, and irrigation customers. Their fullest cooperation was extended.
- There are presently 274 farm tap and irrigation customers connected to PEPL and Anadarko's gathering system which may be affected by declining pressures. There are 588 farm tap and irrigation customers in the Holcomb and Sublette zones on NNG's gathering system which may be affected by declining pressures.

Senate Utilities Committee
Low Pressure Problems in Southwest Kansas

Fred Taylor
Director of Network Operations
Southwest Kansas
UtiliCorp United Inc.

Peoples Natural Gas is a gas utility serving farm tap customers off of gathering systems in Morton, Stevens, Seward, Meade, Haskell, Gray, Kearney and Finney Counties in Southwest Kansas.

Since PNG does not own the pipelines our metering facilities are on and have no control over the pressures in the pipelines, in 1997, PNG worked with pipeline companies in an attempt to increase communications on pressure reduction projects in SW Kansas. As information was made available to PNG that would affect our customers, PNG communicated this same information to the customers in a timely manner. PNG has worked on a case by case basis to upgrade taps and equipment to maintain service to the customers affected by lowering pressures. In some instances an upgrade of pipeline and PNG facilities would not help our customers. For this situation, PNG sought and received approval of a tariff that would discount the margin for customers installing compressors.

In 1998, PNG intends to continue what it started in prior years. In addition, PNG is currently gathering information on area irrigation facilities and equipment. This information will be used to determine if there are alternatives to the upgrade of existing facilities. These alternatives would include, but aren't limited to, alternative pipeline taps or line extensions.

In the future you will see PNG continuing to work with individuals on a case by case basis to resolve pressure issues. Were possible, PNG will work with groups of irrigators to resolve pressure problems. PNG will continue to communicate information to it's customers as it becomes available.

Senate Utilities
1-22-98
8-1

- PNG has communicated with it's customers
- PNG has upgraded taps
- PNG has sought and received approval for a gas gathering tariff

- PNG is gathering information on area irrigation facilities and equipment.
- PNG is reviewing alternatives to the lowering pressure.
- Meeting with operators of gathering systems to share information.

- PNG will use the information currently being gathered to assist in resolving pressure problems for individuals and/or groups of irrigators.

- PNG will continue to communicate information to our customers as it comes available to us.
