Approved: //9/99

#### MINUTES OF THE SENATE WAYS AND MEANS.

The meeting was called to order by Chairperson Dave Kerr at 11:00 a.m. on January 12, 1999 in Room 123-S of the Capitol.

All members were present except:

ok

Committee staff present:

Alan Conroy, Legislative Research Department Debra Hollon, Legislative Research Department Rae Anne Davis, Legislative Research Department

Norman Furse, Revisor of Statutes Michael Corrigan, Revisor of Statutes Judy Bromich, Administrative Assistant Ann Deitcher, Committee Secretary

Conferees appearing before the committee:

Others attending:

See attached list.

Senator Kerr called the meeting to order and welcomed the members of the Ways and Means Committee. The Senator introduced his intern for 1999 session, Mike Brassell and then spoke of the additional committee that would be meeting in the Ways and Means committee room and the tight scheduling of the room. He then called upon Alan Conroy, Chief Fiscal Analyst, who introduced each new staff member and then handed out copies of the Legislative Fiscal Analyst Assignments – FY 2000. (Attachment 1).

Alan Conroy spoke to the Committee and answered questions in regard to the preliminary study of actual FY 1998 resources, demands and balances of the State General Fund, (Attachment 2), the State General Fund Receipts for FY 1999 (Revised) and FY 2000, (Attachment 3), and estimates and profiles, (Attachments 4, 5 and 6). Following this, he spoke of the changes in the budget analysis format, (Attachment 7), pointing out that the document was only an example.

Senator Morris moved and Senator Salmans seconded, that bill draft 9RS 0299 be introduced. The motion carried on a voice vote.

It was moved by Senator Jordan and seconded by Senator Salisbury that bill draft 9 RS 0159 be introduced. The motion was adopted by a voice vote.

The meeting was adjourned at 12:05 p.m. The next meeting is scheduled for Wednesday, January 13, 1999.

Re: Actual FY 1998 Resources, Demands, and Balances

of the State General Fund—Preliminary

On the basis of final action of the 1998 Session of the Legislature, the Kansas Legislative Research Department estimated that the June 30, 1998, State General Fund unencumbered cash balance would be \$661.4 million. The session-end estimate, as usual, was based on the assumptions that actual receipts would be the same as then estimated and that expenditures in FY 1998 would be the same as authorized. As shown in Table I, the actual ending balance was \$753.9 million, or approximately \$92.5 million above the estimate. However, it should be noted that the FY 1998 data as contained in this report are subject to minor revisions by the Division of Accounts and Reports, Department of Administration.

Actual receipts were \$52.6 million, or 1.3 percent, more than the estimated amount. Lapses of encumbrances for fiscal years prior to FY 1998 were \$3.6 million more than estimated.

Actual FY 1998 expenditures were \$36.2 million less than the total approved by the 1998 Legislature. However, \$34.0 million budgeted for FY 1998 is now authorized to be spent in FY 1999, *i.e.* "shifted" to FY 1999. Thus, net underspending was \$2.2 million.

Table II identifies the major items of underspending and shifting revealed by the Research Department's analysis of FY 1998 General Fund appropriations accounts, including reappropriations to FY 1999. <u>Underspending</u> occurred within the Department of Education (\$734,000 for Kansas Public Employees Retirement System school employer contributions); the Department of Social and Rehabilitation Services (\$336,000, including \$181,000 in operating expenditures and \$155,000 for mental health and developmental disabilities services and institutions); and the Board of Regents and the Regents institutions (\$228,000 in operating expenditures). Other examples of underspending include \$143,000 for salaries and wages and other operating expenditures in the Department of Health and Environment budget; \$132,000 in Kansas Guardianship Program operating expenditures; \$127,000 in various programs of the Department of Corrections and the correctional facilities; and \$127,000 in judiciary operations in the budget of the Judicial Branch.

Significant shifting of expenditures from FY 1998 to FY 1999 include: the Department of Education (\$16.1 million, including \$15.8 million in local school aid, \$1.0 million of which will be transferred, as directed by the 1998 Legislature, to the inservice education aid account to fund approved inservice education programs); the Board of Regents and the Regents institutions (\$5.0 million in operating expenditures); and the Department of Human Resources (\$3.4 million, primarily in state funds to match federal Welfare to Work funds which were appropriated but

Senate Ways and Means Committee

Date //12/99 Attachment # 2 - / not expended during FY 1998). Other examples of shifting include the Department of Social and Rehabilitation Services (\$2.8 million including \$2.0 million in Youth Services Aid and Assistance, related to contracted adoption and foster care expenses, and \$779,000 in children's mental health expenditures, reflecting a delayed start for the program); and the Department of Health and Environment (\$1.4 million, including \$1.1 million in unexpended Year 2000 expenditures and \$235,000 appropriated by the 1998 Legislature for AIDS medication expenditures).

Table III updates selected data on the year-end status of the General Fund which has been reported to the Legislative Budget Committee for many years.

- \* Includes limited reappropriations which can be released only by the State Finance Council.
- a) Before adjustment for miscoding of insurance premium and insurance privilege taxes. After adjustment, receipts were \$12,716,000 over the estimate.
- b) Expenditures were above the estimate. In FY 1985, SRS expenditures exceeded the estimate by about \$7.4 million, which was partly offset by \$4.5 million underspending by other agencies.
- c) Difference between actual and estimated released encumbrances.
- d) Unlike other years, these amounts for underspending and shifting include some transactions which occurred during the first quarter of FY 1991. #25326.01(1/12/99{8:06AM})

DATE: November 10, 1998

SUBJECT: State General Fund Receipts for FY 1999 (Revised) and FY 2000

percent foregast a year ago. The growth in Kansas Personal Income has moderated, with a 4.7. Estimates for the State General Fund are developed using a consensus process that involves the Legislative Research Department, Division of the Budget, Department of Revenue, and three consulting economists from state universities. This estimate is the base from which the Governor and the Legislature build the annual budget. The consensus group met on November 5, 1998, and increased the FY 1999 estimate by \$107.8 million or 2.7 percent above the previous estimate and developed the first estimate for FY 2000. The revised FY 1999 estimate is \$4.076 billion and the FY 2000 estimate is \$4.231 billion. The FY 1999 estimate represents an increase of \$52.0 million (1.3 percent) over actual FY 1998 receipts of \$4.024 billion. Adjusting for the large one-time corporation income tax payments in FY 1998 and the tax reductions approved by the 1998 Legislature would have produced an FY 1999 increase of 6.8 percent. The initial FY 2000 estimate is \$154.9 million or 3.8 percent above the revised FY 1999 figure. Detailed information regarding the specific sources of revenue constituting total receipts is presented in Table 1. Table 2 compares the FY 1999 estimate developed on April 3, 1998, as adjusted on May 26 for subsequent legislation, with the revised estimate from the November 5, 1998 suggests an annual increase of 1.6 percent. Lower energy prices in 1998 have helped to gnitesm the overall growth in consumer prices. The forecast for 1999 and 2000 is for inflation to grow at

# Economic Forecast for Kansas as mesone (2.2 to ease as rebeat that and bigst storm between as

The economic expansion that began in March 1991 has maintained a strong pace through 1997 and into 1998. Record levels of employment, especially in transportation manufacturing (aviation), have contributed significantly to strong statewide personal income growth. The unemployment rate continues at historically low levels, dropping in FY 1998 to 3.6 percent from 4.2 percent in FY 1997. It is expected to remain at 3.6 percent for the current fiscal year and increase to 3.8 percent for FY 2000. The inflation rate for 1998 is estimated to be 1.6 percent.

Senate Ways and Means Committee

Attachment # 3 - 1

which is a drop of 0.7 percent from the very moderate 2.3 percent rate in 1997. These three factors, strong growth, low inflation, and low unemployment, have contributed to a healthy economy for both Kansas and the entire country. The forecast for Kansas in 1999 and 2000 is for a slower growing, but continued healthy economy.

Overall, there is increasing uncertainty in the economy. Kansas farmers have continued to produce at high levels, but low prices and lack of foreign markets have limited their ability to sell grain. Payments from the federal government have helped to ease this situation for some Kansas farmers. The oil and natural gas industries also are suffering from low prices. The large stock market increases since 1995 have increased consumer wealth and have had a positive impact on spending. The stock market has fluctuated considerably since the middle of 1998. This volatility might dampen consumer confidence somewhat. The Federal Reserve System eased monetary policy by reducing the Federal Funds rate on September 29 and October 15. The stock market has reacted positively to these moves. By October 21, stock prices were up five to ten percent for the year. The financial crisis in Asia and other areas of the world is having a negative effect on the U.S. economy, but is not expected to have a major impact on Kansas, at least through the end of FY 2000. The forecast and consensus estimates assume a gradual slowdown in the growth of the economy without predicting a downturn.

### Kansas Personal Income

Kansas Personal Income in 1997 grew by 6.0 percent over the 1996 level. This is a significant increase, although somewhat less than the 6.3 percent realized in 1996 and the 6.2 percent forecast a year ago. The growth in Kansas Personal Income has moderated, with a 4.7 percent increase projected for 1998. The rate of personal income growth is expected to continue to slow during the next two years, with forecasts of 4.1 percent for 1999 and 4.0 percent for 2000. These projections are consistent with the overall forecast for a reduced rate of growth in both the state and national economies. As was pointed out last year, the unexpected increases in individual income tax receipts that Kansas and other states have experienced over the last two years are thought to be largely attributable to record levels of capital gains and dividends. Capital gains, an increasingly important (and volatile) part of the individual income tax base, is not among the components of income which constitute the federal and state personal income forecasts.

### Inflation Rate

Inflation, as measured by the Consumer Price Index for all Urban consumers (CPI-U), increased by 2.9 percent in 1996, but only 2.3 percent in 1997. The current estimate for 1998 suggests an annual increase of 1.6 percent. Lower energy prices in 1998 have helped to restrain the overall growth in consumer prices. The forecast for 1999 and 2000 is for inflation to grow at a somewhat more rapid, but still moderate, pace of 2.3 percent and 2.6 percent, respectively.

# Interest Rates nous a barriagness and 1991 darch in Maria aged had no sangre of monogo of i

The Pooled Money Investment Board makes investments in bank certificates of deposit, repurchase agreements, and other statutorily authorized securities. In FY 1998, the state earned 5.73 percent on its SGF portfolio. The average rate of return being forecasted for FY 1999 is 5.22 percent. For FY 2000, it is 4.68 percent. The rate of return over the forecast period is

anticipated to be the equivalent of about 40 basis points above forecasted rates for the six-month.

Treasury Bill.

The model of the equivalent of about 40 basis points above forecasted rates for the six-month.

# increase of \$107.8 million over the previous estimate produced on April 3 sab bns liO subsequently adjusted for 1998 caste legislation. The revised estimate is \$52.0 million or 1.5

The average price per taxable barrel of Kansas crude oil is estimated to be \$12.00 for FY 1999 and to increase to \$13.00 in FY 2000. The final average taxable price per barrel in FY 1998 was \$16.52, which is a 21.7 percent drop from the FY 1997 price of \$21.09. Gross oil production in Kansas, which has been declining steadily over the last decade, is expected to continue to decline over the forecast period, driven further downward by low prices. The estimated decline for FY 1999 is 21.2 percent, moderated to 9.4 percent in the FY 2000 forecast.

The price of natural gas is expected to decrease from the final FY 1998 figure of \$1.94 per mcf to \$1.75 per mcf in FY 1999. The FY 1998 price was an 11.0 percent drop from the strong FY 1997 price of \$2.18. Prices dropped in August 1998 and have remained low. According to industry sources, gas storage levels are higher than they have been for several years heading into the winter so that a normal winter likely will maintain the current prices. For FY 2000, the price is expected to recover to \$1.85 per mcf. Natural gas production in FY 1998 of 650 million cubic feet represented a decrease of 7.7 percent from the 704 million cubic feet in FY 1997. Production is expected to continue to decline, both as a function of the low price and, as with oil, of a reduction in the available natural resource. The projections for FY 1999 and FY 2000 are 595 and 550 million cubic feet, respectively.

# State General Fund Receipts Estimates

FY 1999. The revised estimate of SGF receipts for FY 1999 is \$4.076 billion, an increase of \$107.8 million over the previous estimate produced on April 3, 1998, and subsequently adjusted for 1998 state legislation. The revised estimate is \$52.0 million or 1.3 percent above actual FY 1998 receipts. Details of the revised estimate are reflected in Tables 1 and 2.

Increases in individual and corporation income taxes, inheritance and estate taxes, compensating use taxes, and interest accounted for \$127.2 million which were offset, in part, by reductions in other sources.

Each individual SGF source was evaluated independently in view of revised and updated economic forecasts, collection information from various state agencies and year-to-date receipts.

The estimate for individual income tax was increased by \$96.3 million. This upward revision was attributed to the continued strong employment and personal income forecasts, and assumptions of another moderately strong year for capital gains and dividends. The 2.2 percent income tax increase from FY 1998 is understated because of the approximately \$106.3 million in tax reductions enacted for FY 1999. Without the tax cuts, the growth rate would be 8.3 percent. But even this performance represents a significant reduction from the 14.7 percent growth experienced in FY 1998, when receipts were fueled by the robust economy and strong performance of the stock market.

The inheritance and estate tax category was increased by \$10.5 million on the strength of year-to-date collections.

The estimate for compensating use was increased by \$5.2 million over the previous estimate. This change was made because of the strong performance of this source the past several years and the fact that collections through October exceeded the prior estimate by 4.1 percent.

Interest earnings generated through the investment of state idle funds were increased by \$12.4 million. A greater than expected State General Fund balance has contributed to earnings exceeding the estimate by \$8.3 million through October.

The estimate for severance tax was reduced by \$14.9 million. As indicated previously, oil and gas prices and production have experienced significant decreases. The financial institutions privilege tax was reduced by \$5.5 million because it is expected that refunds will need to be made later in the fiscal year. Also, a decrease of \$4.9 million was projected for the insurance premiums tax.

**FY 2000.** SGF receipts are estimated to be \$4.231 billion in FY 2000, an increase of \$154.9 million or 3.8 percent when compared to the newly revised FY 1999 estimate. Details of this estimate are shown in Table 1.

The principal SGF revenue sources expected to increase in FY 2000 are as follows: individual income tax by 6.7 percent; retail sales tax by 3.6 percent; and compensating use tax by

5.0 percent. The transfer from the State General Fund for the Department of Revenue's Project 2000 is expected to decrease by \$13,400 as the transfers reach the prescribed payout level.

The estimate for estate taxes reflects the full year impact of the change from an inheritance to an estate tax. The severance tax estimate takes into account expanded exemptions from the severance tax for low producing wells and for enhanced recovery efforts to increase production. The expansion of exemptions for low producing oil wells in conjunction with low prices for oil is expected to have a major impact on the amount of production exempt from the tax. Under the new law, production in FY 2000 from oil wells pumping ten or fewer barrels per day will be exempt from the severance tax. The exempt price threshold is determined by the average price of oil from July through December of the previous year. Based on the new estimate for average price and on information on the number of low producing wells provided by the Interstate Oil and Gas Compact Commission, the consensus group expects that 70.0 percent of the oil produced in Kansas during FY 2000 will be exempt from the tax.

### **Accuracy of Consensus Revenue Estimates**

For 24 years, State General Fund revenue estimates for Kansas have been developed using the consensus revenue estimating process. Besides the three state agencies referred to on the first page, the economists currently involved in the process are Joe Sicilian from the University of Kansas, Ed Olson from Kansas State University, and John Wong from Wichita State University. Each of the entities and individuals involved in the process prepared independent estimates and met on November 5, 1998, to discuss estimates and come to a consensus for each fiscal year.

The table on the next page presents estimates compared to actual receipts since FY 1975, the fiscal year for which the current process was initiated. First, the adjusted original estimate is compared to actual collections and then the final estimate is compared to actual receipts. In the first six fiscal years of the process, actual receipts were an average of 4.3 percent higher than the adjusted original estimates; from FY 1982 to FY 1987, receipts were lower than the estimates by an average of 6.3 percent; and beginning in FY 1988, actual receipts have been higher than original estimates except in FY 1992 when collections were 0.5 percent less than estimated.

As might be expected, there was a smaller difference between actual receipts and the final estimate because only three months remained in the fiscal year when the final estimate was made. In the last nine fiscal years, the difference ranged from (0.8) percent to 1.6 percent and in five of these years the difference from the estimate was less than 1.0 percent.

# **Concluding Comments**

Consensus revenue estimates are based on current federal and state laws. The group will meet again in April to revise these estimates. Developments which may occur between the November and April meeting will be taken into account at the April meeting.

Cotiment to similate	ioi a fiscal year a	is included in	he Governor's	s Budget Report to	the Levislet						303.5	0.5	52.7	1.3	

1. The first estimate for a fiscal year as included in the Governor's Budget Report to the Legislature, adjusted to delete the estimated effect on receipts of any policy recommendations by the Governor. For FYs 1975-1988, not adjusted for 1988 legislation which changed three revenue transfers (netted out of receipts) to demand transfers (expenditures).

a) The first estimate of the Consensus Estimating Group was the revised estimate for FY 1975. This final estimate of \$614.9 million reflects a reduction in receipts of about \$127,000 made by the 1975 Legislature. b) Includes \$6 million added on 1/8/76 to reflect increase in the state income tax withholding rate and extension of the federal Revenue Adjustment Act of 1975 through FY 1976.

c) This reduction was to account for a Kansas Supreme Court decision which affected sales tax receipts.

e) The 1987 Legislature authorized a revenue transfer of \$7.43 million for county reappraisal aid and is so reflected in the "First Session" column. This was later changed, by executive action, to a demand transfer (expenditure) and that change f) Includes nearly \$15.2 million (net) due to enactment of 1993 S.B. 393, which revamped the unclaimed property law.

g) Includes about \$31.3 million in inheritance tax from one estate received after the November 1995 estimate. Note: Details may not add to totals due to rounding.

\* Effective in FY 1966, the former Retail Sales Tax Fund was abolished and combined with the General Fund. Sources of the basic data in this table are the annual reports of the Division of Accounts and Reports, except for any changes explained in the footnotes.

Special Note. When applicable from FY 1975 through FY 1988; both receipts and expenditures have been increased by identical amounts in order to be consistent with the FYs 1989-1994 data, which reflect 1988 legislation that changed three revenue transfers (which were netted out of receipts) to demand transfers (expenditures). The transfers affected were to the Workers Compensation Fund (FY 1975 on), City-County Highway Fund (FY 1981 on), and State Highway Fund (FY 1984 on). See tabulation on the following page. This adjustment, of course, had no effect on the actual ending balance in FYs 1975-1988. The transfer to the Workers Compensation Fund was eliminated, effective in FY 1994, by 1993 legislation.

- a) Receipts in both 1966 and 1967 included nonrecurring revenue; approximately \$25 million of such revenue in 1966 resulted from institution of the income tax withholding and declaration system.
- b) Adjusted for miscoding of insurance premium taxes and domestic insurance companies privilege taxes.
- c) Receipts in FYs 1983 and 1984 include accelerated receipts from income tax withholding and sales and use taxes as required by 1983 legislation.
- d) Includes \$22.9 million from acceleration of insurance premium tax payments.
- e) Includes revenue from temporary limitation on deductibility of federal income tax on state individual income tax returns.
- f) Includes revenue from sales and use tax rate increase enacted in 1986.
- g) The 1983 Legislature lapsed \$52.2 million and deferred certain state aid payments by changing distribution dates.
- h) The 1987 Legislature lapsed \$60.1 million and shifted \$24.9 million from FY 1987 to FY 1988.
- i) Includes some part or all of the so-called income tax "windfall" due to the 1986 federal tax reform law.
- j) Adjusted for State Fair transfer; receipts and expenditures both offset by \$575,000.
- k) In August 1991, the State Finance Council approved the Governor's recommendation for a 1 percent reduction affecting nearly all General Fund expenditures.
- l) Receipts -- consensus estimate as of November 10, 1998.

  Expenditures -- as authorized by the 1998 Legislature (reflects vetoes not overridden), plus shifting of \$18.237 million from FY 1998, but excluding \$15.792 million for general and supplemental state aid to school districts which might or might not be needed to finance fully the aid formula in FY 1999. General and supplemental school aid amount estimated by the Department of Education, Division of the Budget, and the Kansas Legislative Research Department on November 9, 1998.
- m) Reflects income, sales, and use taxes increased in 1992 to provide greater state aid to school districts.

Kansas Legislative Research Department Revised January 12, 1999 \* Effective in FY 1966, the former Retail Sales Tax Fund was abolished and combined with the General Fund. Sources of the basic data in this table are the annual reports of the Division of Accounts and Reports, except for any changes explained in the footnotes.

FY 1998 - FY 2004

Senate Ways and Means Committee

- a) Includes actual released encumbrances of \$3.5 million in FY 1998.
- b) Receipts are actual for FY 1998. Receipts for FY 1999 and FY 2000 reflect the November 5, 1998 consensus revenue estimates.

  The projections for FYs 2001 2004 are not consensus estimates of receipts but are based on a growth rate of 4.0 percent in FY 2001; 4.1 percent in FY 2002; 4.3 percent in FY 2003; and 4.3 percent in FY 2004.
- c) Base estimate of general and supplemental school aid payments in FY 1998 (actual), estimates for FY 1999 (revised) FY 2002 were made by the Department of Education, Division of the Budget, and the Legislative Research Department on November 9, 1998. For FY 1999 the amount reflects an increase in the base per pupil amount of \$50 from \$3,670 to \$3,720, an additional correlation weighting adjustment and an increase in at-risk weight from .065 to .080, and the reduction in the uniform property tax rate from 27 to 20 mills and a homestead exemption of \$20,000. The FY 2004 estimates assume a uniform school mill levy of 20 mills and a \$20,000 homestead and a base aid per pupil amount of \$3,720. FY 2003 and FY 2004 are estimated by the Legislative Research Department.
- d) FY 1998 actual all other expenditures. The FY 1999 amount is as approved by the Legislature on all other expenditures, plus shifting of \$18.2 million in expenditures from FY 1998 to FY 1999. For FY 2000 FY 2003 all other expenditures generally reflect the prior year's all other expenditures, plus the prior year's amount that is available for other purposes.
- e) Demand transfers for the School District Capital Improvement Fund, Water Plan Fund, State Fair and the Local Ad Valorem Tax Reduction Fund (FY 1999 FY 2003) all reflect current law. For the State Highway Fund, County-City Revenue Sharing Fund, and the City-County Highway Fund are actual in FY 1997 and for FY 1998 a cap of 1.75 percent. For FY 1999 a cap of 2.4 percent; FY 2000 a cap of 0.1 percent; FY 2001 a cap of 1.9 percent; FY 2002 a cap of 3.8 percent; and for FY 2003 and FY 2004 a cap of 3.5 percent.
- f) Current law minimum ending balance requirement is 7.5 percent of expenditures.
- g) Available for other purposes such as additional expenditures or tax reductions.

Re:

Changes in Budget Analysis Format

The attached sample budget analysis includes the changes noted below. Please note that this document is only an example; the numbers contained therein are fictitious and are not correctly calculated.

#### **Budget Trends Section**

- The "Change From Approved Budget" table has been expanded to reflect approved current year expenditures, and the revised agency estimate and Governor's recommendation for current year expenditures.
- FTE positions have been removed from the operating expenditure graph and an independent FTE graph and table by program have been added.

#### **Budget Overview Section**

- Narrative has been recast into bullet form for quicker identification of issues.
- New tables reflecting anticipated Kansas Savings Incentive Program expenditures and the Governor's recommended pay plan adjustments by program for the budget year have been added.
- The "Change Table" has been expanded to reflect one year of actual expenditures and dollar and percent change information from the current year to the budget year for both the agency request and the Governor's recommendation.

#### **Budget Detail Section**

- Pie charts reflecting All Funds and General Fund expenditures by program with an accompanying table have been added.
- For each program section, a five-year trends chart is added after each summary table.

#### Capital Improvements Table

Table has been modified to include current year projects and expenditures.

#### **Performance Measures**

Selected performance measures have been grouped at the end of

Senate Ways and Means Committee

#### A. FY 1998-Current Year

#### **CHANGE FROM APPROVED BUDGET**

	19	Approved 97 Legislature	_	Agency Est. FY 98	gency Change rom Approved	 Gov. Rec. FY 98	Gov. Change rom Approved
State General Fund All Other Funds	\$	1,684,493 207,093,206		59,762,471 27,665,603	\$ 53,271 1,683,027	\$ 5,071,964 229,953,347	\$ 3,387,471
TOTAL	\$	208,777,699		225,113,997	\$ 16,336,298	\$ 235,025,311	\$ 22,860,141
FTE Positions		1,014.5		1,003.5	(11.0)	1,003.5	(11.0)

The agency's estimate for FY 1998 operating expenditures of \$225,138,997 is an increase of \$16,336,298 from the approved budget. This results from:

- Increase in unemployment benefits due to an adjustment in the amount of weekly benefit payments. While subject to appropriation, the employment security benefit fund is treated as a "no limit" appropriation.
- Kansas Quality Management (KQM) savings of \$53,271(SGF)

The Governor recommends \$235,025,311 in FY 1998 for operating expenditures, an increase of \$9,911,314 (4.4 percent) from the agency request. The Governor recommends:

#### Welfare to Work

- The majority of this increase is in other assistance and is accounted for by a welfare to work grant received after the agency's submission of the budget.
- \$5,071,964; \$3,334,200 or 191.9 percent above the agency request from the State General Fund
- \$229,953,347; \$6,577,114 or 2.9 percent above the agency request from other funds

#### Capital Improvements

 The Governor recommends an additional \$244,000, all in federal and special revenue funds

### B. FY 1999-Budget Year

CHA	ANGE	FROM FY 199	8	
		Agency Request		Governor's
Dollar Change: State General Fund All Other Funds TOTAL	\$ \$	3,418 6,959,142 6,962,560	\$	(3,329,744) 881,337 (2,448,407)
Percent Change: State General Fund All Other Funds TOTAL		0.2% 3.1 3.1%		(65.6)% 0.4 (1.0)%
FTE Positions		0.0		(2.0)

The agency requests for FY 1999 operating expenditures funding of \$232,076,557 is an increase of \$6,962,560 (3.1 percent) above the FY 1998 estimate. The agency requests:

#### • State General Fund:

o \$1,741,182 or 0.8 percent of the total FY 1999 operating request

#### Federal and Special Revenue Funds

- \$230,335,375 or 99.2 percent of the total FY 1999 operating request
- An estimated increase of \$8.0 million in unemployment insurance benefits, offset by reductions in other federal and special revenue funds

#### Salaries and Wages

- \$35,676,368 for 1,003.5 FTE positions and 29.0 unclassified temporary positions
- An increase of \$945,053 (2.7 percent) over the FY 1998 estimate
- The agency has requested no enhancements

**The Governor** recommends operating expenditures of \$232,576,904 for FY 1999, an increase of \$500,347 (21.6 percent) from the agency request. The Governor recommends:

- \$1,742,220 from the State General Fund
- \$230,834,684 from other funds

#### Salaries and Wages

- A total of \$36,101,715 or 15.5 percent of the total recommendation for operating expenditures
- \$496,202 for a 1.5 percent unclassified base salary adjustment and a 4.0 percent unclassified merit pool

#### Capital Improvements

 \$123,500 (federal funds), a decrease of \$2,050,000 (94.3 percent) from the agency request Staff Note: Reorganizing the employment Security (Unemployment Insurance) Division; Changes processing of initial unemployment insurance claims under the Kansas Initial Claims (KIC) project:

- Claimants will use a touch-tone telephone keypad to enter basic information to file for unemployment insurance benefits
- Program is entirely federally funded. The agency has received federal grants in the amount of \$752,746 earmarked specifically for this automation project.
- The agency will combine the seven current district Unemployment Insurance offices into three telephone call centers located in Wichita, Topeka and Kansas City
- Anticipate the Topeka call center up by August 1998 and the Wichita and Kansas City centers operating by November 1998

## Important Issues in This Program

- ♦ The agency requests \$177,000 for capital outlay for FY 1999. The request is itemized below:
- Purchase of law books and legal supplements (\$12,000)
- Replacements of personal computers and CRTs (\$130,000)
- Replacement of laser printer for mainframe computer (\$35,000).

 The Governor recommends \$177,000 for capital outlay, the same as the agency's request.

#### B. Division of Workers Compensation

The Division administers the Kansas Workers Compensation Act. The Division is fee funded by assessments from insurance carriers and self-insured employers. Assessments are based on paid claims during the most recent calendar year in relation to the approved budget.

\* This includes \$9,064 for personal computer CD updates and reference books and \$200,000 KQM.

## Important Issues in This Program

- ◆ The agency requests funding of \$6,502,771 for FY 1999, a decrease of \$230,515 or 2.7 percent from FY 1998.
- ◆ The Governor recommends funding of \$656,702 for FY 1999, a decrease of \$307,246 or 2.4 percent from FY 1998.

### C. Division of Employment Security (Unemployment Insurance)

The Division operates the state's unemployment insurance program. The unemployment insurance program provides workers the means of getting through a temporary period of unemployment. **Staff Note:** The agency is reorganizing the Employment Security (Unemployment Insurance) Division. The agency is developing program changes for the way it processes initial unemployment insurance claims. Under the **Kansas Initial Claims** (KIC) project, claimants will use a telephone to file for initial unemployment insurance benefits. The total estimated cost of the program changes is approximately \$2.5 million, funded entirely with federal money from the Unemployment Insurance Administration Fund. The agency anticipates most of this money being expended in FY 1998 and FY 1999.

#### Welfare to Work Grant

- → The agency requests \$4 billion for FY 1999, an increase of 99 percent, or \$3 billion, from FY 1998.
- The Governor does not recommend funding for this program.

- The grant was received arrer the submission of the agency's budget.
- ◆ For FY 1996 the Governor recommends \$10 million for Welfare to Work, including \$3. million from the State General Fund.
- **E. Employment Security Systems Institute (ESSI)**. ESSI develops and maintains computerized data systems used by federal and state employment agencies. ESSI is funded through a consortia of state employment security agencies and other government contracts.

#### Important Issues in This Program

- ◆ The agency requests funding of \$6,502,771 for FY 1999, a decrease of \$230,515 or 2.7 percent from FY 1998.
- ◆ The Governor recommends funding of \$656,702 for FY 1999, a decrease of \$307,246 or 2.4 percent from FY 1998.

### F. Labor Relations and Employment Standards Program

This program enforces laws relating to employment standards, labor relations, and public employee relations. The Employment Standards Section is primarily responsible for the enforcement of minimum wage, wage payment, and child labor laws, but also regulates private employment agencies. The Labor Relations Section provides assistance in the organizational or collective bargaining process to employers and employees in the private sector who are exempt from federal laws, agricultural employers and employees, and all public employers and state employees. Mediation, fact finding, and arbitration services are available in the event of an impasse in negotiations.

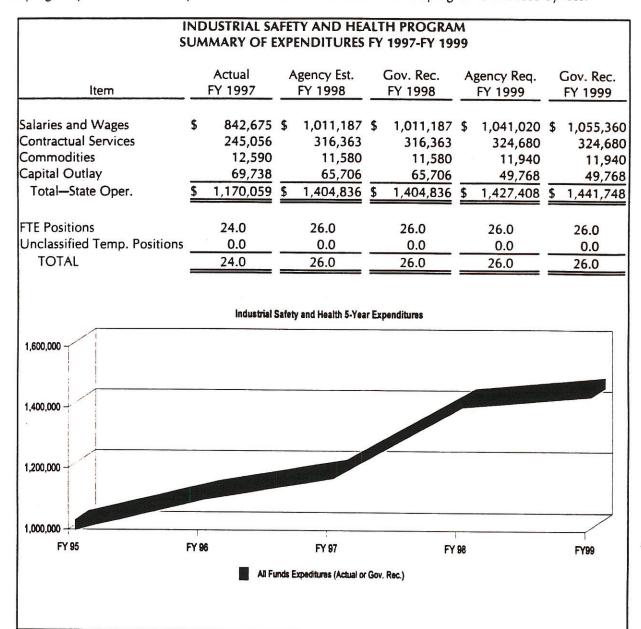

#### Important Issues in This rogram

- The agency requests funding of \$6,502,771 for FY 1999, a decrease of \$230,515 or 2.7 percent from FY 1998.
- ◆ The Governor recommends funding of \$656,702 for FY 1999, a decrease of \$307,246 or 2.4 percent from FY 1998.

#### G. Industrial Safety and Health Program

This program has two subprograms: Industrial Safety and Health and Boiler Inspection. The Industrial Safety and Health subprogram provides a free program to the private sector which interprets the requirements of the federal Occupational Safety and Health Administration's (OSHA) laws, rules, and regulations. The Boiler Inspection subprogram provides for the inspection of all boilers in the state. This subprogram is financed by fees.

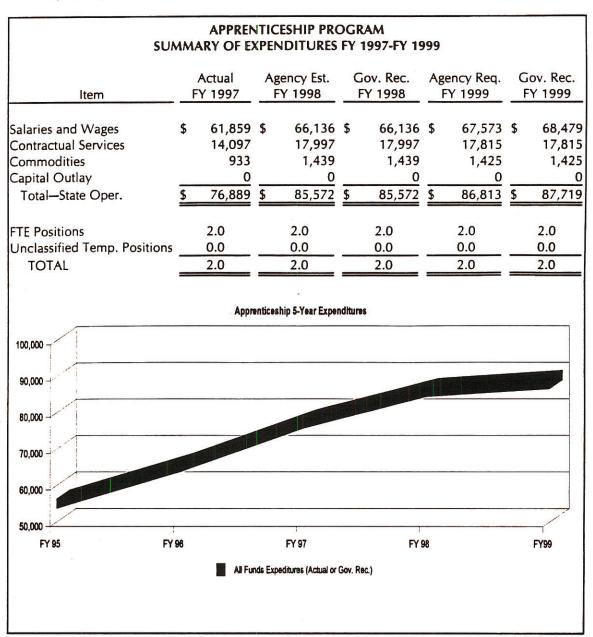

# Important Issues in This r'rogram

- ◆ The agency requests funding of \$6,502,771 for FY 1999, a decrease of \$230,515 or 2.7 percent from FY 1998.
- ♦ The Governor recommends funding of \$656,702 for FY 1999, a decrease of \$307,246 or 2.4 percent from FY 1998.

## H. Apprenticeship Program

This program is designed to develop, and provide technical assistance for the maintenance of apprenticeship programs. Staff coordinates activities with the Kansas Apprenticeship Council, State Board of Education, U.S. Department of Labor Bureau of Apprenticeship and Training, and the Job Training Partnership Act to promote the apprenticeship concept.

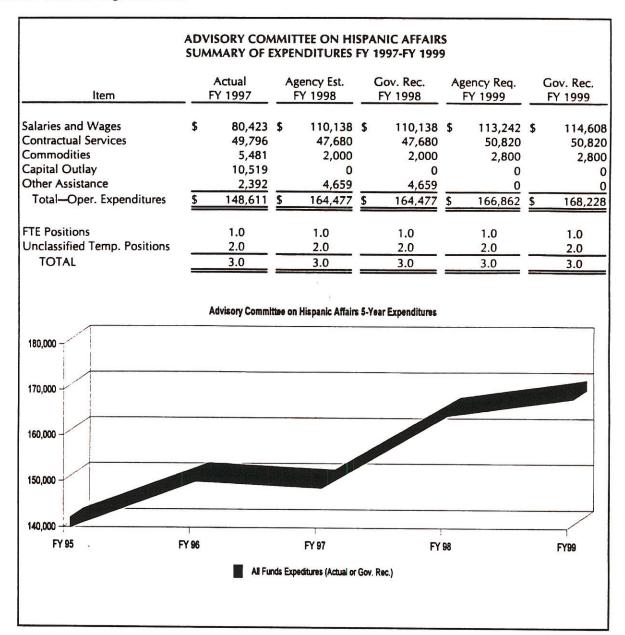

#### Important Issues in This rogram

- The agency requests funding of \$6,502,771 for FY 1999, a decrease of \$230,515 or 2.7 percent from FY 1998.
- ◆ The Governor recommends funding of \$656,702 for FY 1999, a decrease of \$307,246 or 2.4 percent from FY 1998.

#### I. Advisory Committee on Hispanic Affairs

The Committee is designed to respond to the special needs of Kansas Hispanics through the provision of technical assistance to Hispanic community-based organizations, and research and policy analysis on issues of concern to Hispanics. The Committee also disseminates information to a network of Hispanic individuals and organizations, monitors legislation, and serves as a liaison between the Hispanic community and the executive, legislative, and judicial branches of government.

# Important Issues in This rrogram

- ◆ The agency requests funding of \$6,502,771 for FY 1999, a decrease of \$230,515 or 2.7 percent from FY 1998.
- ★ The Governor recommends funding of \$656,702 for FY 1999, a decrease of \$307,246 or 2.4 percent from FY 1998.

# J. Commission on Disability Concerns

The Commission promotes the independence of disabled Kansans by presenting workshops on disability rights and advocacy, pursuing legislative initiatives, rendering technical assistance on reasonable accommodation, and engaging in policy analysis and research.

# Important Issues in This Program

- The agency request funding of \$189,810,876 for FY 1999, an increase of \$7,106,732 or 28.6 percent from FY 1998.
- ◆ The Governor recommends funding of \$189,966,670 for FY 1999, an increase of \$7,016,732 or 28.6 percent over FY 1998.

- ♦ The agency requests \$72,121 in funding for other operating expenditures in FY 1999. The request is an increase of \$9,041 (14.3 percent) over the FY 1998 estimate. This includes an increase of \$5,254 (33.4 percent) in travel and subsistence to account for increases in per diem, lodging and mileage and to provide an additional training opportunity for staff attendance; and an increase in fees-other services to pay for the anticipated increase in interpreter fees to accommodate the newest commissioner who is deaf (\$2,140 or 115.1 percent). Actual FY 1997 other operating expenditures were \$67,466.
- ◆ The Governo, concurs.

#### K. Advisory Committee on African-American Affairs

The 1997 Legislature established this program as of July 1, 1997. The commission is to gather and disseminate information on problems concerning African-Americans, assist and cooperate with other state agencies to serve the needs of African-Americans, and to propose new programs concerning African-Americans.
