Representative McKinney stated that the House Minority Leadership Office requested the installation of Quicken software on Leadership Office computers in order to track expenses. Discussion focused on types of comparable software and its application to legislative use. Representative Holmes asked about pertinent Legislative Coordinating Council (LCC) policy. Jeff Russell, Director, Legislative Administrative Services, replied that the present request was not directly addressed by LCC policies. Representative Holmes requested a copy of all LCC IT policies. Staff will distribute them to SCIM members.

The SCIM unanimously recommended providing Quicken to all Leadership offices that request it. (Motion, Representative Dean, second, Representative Farmer.) The chair will prepare a letter of recommendation to present to the Speaker for approval. After the request is approved, Legislative Computer Services will obtain and install the software.

The meeting was adjourned at 3:45 p.m. No further meeting was scheduled.
