

MINUTES OF THE HOUSE COMMITTEE ON APPROPRIATIONS.

The meeting was called to order by Chairman Kenny Wilk at 12:30 p.m. on March 28, 2001, in Room 514-S of the Capitol.

All members were present except: Representative Larry Campbell
Representative Phil Kline

Committee staff present: Alan Conroy, Legislative Research
Rae Anne Davis, Legislative Research
Amy Kramer, Legislative Research
Carolyn Rampey, Legislative Research
Ben Barrett, Legislative Research
Mike Corrigan, Revisor of Statutes
Nikki Feuerborn, Committee Secretary

Conferees appearing before the committee: Dale Dennis, Department of Education
Mark Tallman, Kansas Association of School Boards
Alan Shuler, Leavenworth School District

Others attending: See Attached Representative Shari Weber proxy for Representative Kline

Ben Barrett, Legislative Research Department, walked the Committee through data on how Kansas compares with the other states in spending on education, pupil-teacher ratio, teacher salaries, high school ACT scores, and high school completion rates (Attachment 1). Staff also distributed copies of a graph on selected school finance data (Attachment 2).

The Committee requested further information on how teacher salaries in the comparison data were figured i.e. experience, total years of service, add-ons, year-round teaching assignments; a comparison showing teacher salaries on a state-wide regional basis; and a nation-wide comparison of 18-19 year olds completing high school.

Dale Dennis, State Department of Education, provided copies of Kansas USD's Total Expenditures Per Pupil (Attachment 3), Cash Balances as of June 30—Special Education, Capital Outlay, Food Service, and Contingency Reserve Funds (Attachment 4), Percent of Cash Balances by Fund (Attachment 5), Capital Expenditures and Repair of Buildings (Attachment 6), and Expenditures (Attachment 7). Mr. Dennis explained the statutes concerning school expenditures and how the different funds can be spent and when. Also discussed by the Committee was the cause for the loss of teachers in Kansas and lack of persons staying in the profession: is it salary alone or are there other factors such as behavior of students, interference in teaching by state and federal mandates, location of schools in remote areas, benefit packages and lack of opportunity for advancement.

Mark Tallman, Kansas Association of School Boards, presented testimony on the position of the school finance coalition, the Governor's Task Force, and the State Board of Education regarding the need for additional school district funding and whether the base budget per pupil fallen behind inflation or has school funding increased more than inflation? (Attachment 8). It was noted that Kansas is 600 teaching positions short and that one-half of all teachers in the US will retire in the next 10 years. It was pointed out that there is a shortage of qualified personnel in the business sector also. The Committee questioned why the 30% increase in funding the schools have received has not been spent on teacher salaries. In response, Mr. Tallman explained that many times extra money is spent on technology rather than upgrading teacher salaries.

Alan Shuler, Deputy Superintendent of the Leavenworth School District, responded to questions from the Committee regarding capital outlay expenditures and school district's reluctance to spend this money for teacher salaries (Attachment 9).

Representative Nichols moved for the introduction of legislation regarding the use of US census data in redistricting. Motion was seconded by Representative Klein. Motion carried.

Representative McCreary moved for the introduction of legislation which would allow law enforcement to use evidence gathered from breath analysis on minors in the courts. Motion was seconded by Representative Stone. Motion carried.

Spending Per Pupil, 1998-1999

State	Spending per pupil \$	Rank

EXPENDITURES PER PUPIL
FOR KANSAS PUBLIC SCHOOLS
1999-2000

This publication has been prepared by the School Finance Section of the Kansas Department of Education to provide the expenditure per pupil for each of the 304 unified school districts in Kansas for the 1999-2000 school year.

It is hoped that this report will be beneficial to school boards, school administrators, and others who may be interested in the educational programs of local public school districts.

Dale M. Dennis
Assistant Commissioner
Division of Fiscal and Administrative Services

Veryl D. Peter, Team Leader
School Finance
Division of Fiscal and Administrative Services

COLUMN HEADING DEFINITIONS

- Column 1 FTE Enrollment – The total enrollment in grades kindergarten through 12 and three and four-year-old preschool special education of a district on September 20, 1999. Any pupil who is not regularly enrolled full time shall be counted as that proportion of one pupil (to the nearest one-tenth) that his/her regular enrollment bears to full-time regular enrollment. Pupils enrolled in three and four-year-old preschool special education or kindergarten shall be counted as a half-time pupil.
- Column 2 Total Expenditures – Actual expenditures less transfers as reported on the USD budgets. Expenditures include the General Fund, Supplemental General Fund, Adult Education, Adult Supplemental Education, Bilingual Education, Capital Outlay, Driver Training, Educational Excellence Grant Program, Extraordinary School Program, Food Service, Inservice Education, Parent Education Program, Summer School, Special Education, Technology Education, Transportation, Vocational Education, Area Vocational School, Judgements, Special Liability Expense, School Retirement, Extraordinary Growth Facilities, Disability Income Benefits Reserve, Health Care Services Reserve, Group Life Insurance Reserve, Risk Management Reserve, School Workers' Compensation Reserve, Contingency Reserve, Student Material Revolving, Textbook Rental, Bond and Interest #1, Bond and Interest #2, No-Fund Warrant, Special Assessment, Temporary Note, Cooperative Bilingual Education, Cooperative Elementary Guidance, and Cooperative Special Education Funds. There are some Federal Funds that are not required to be budgeted, these have been excluded.
- Column 3 Expenditures Per Pupil – Total expenditures divided by FTE enrollment.

STATE TOTALS

Academic Year	FTE Enrollment	Total Expenditures	Expenditures Per Pupil
1999-2000	448,610.3	\$ 3,302,703,457	\$ 7,362.08
1998-1999	448,925.7	\$ 3,158,047,102	\$ 7,034.68
1997-1998	448,609.0	\$ 2,975,137,606	\$ 6,631.92

Education Priorities for a New Century

The Kansas State Board of Education is charged with the general supervision of public education and other educational interests in the state. While clearly acknowledging the role and importance of local control, the State Board of Education has the responsibility to provide direction and leadership for the supervision of all state educational institutions under its jurisdiction.

With this in mind the Board has adopted the following mission:

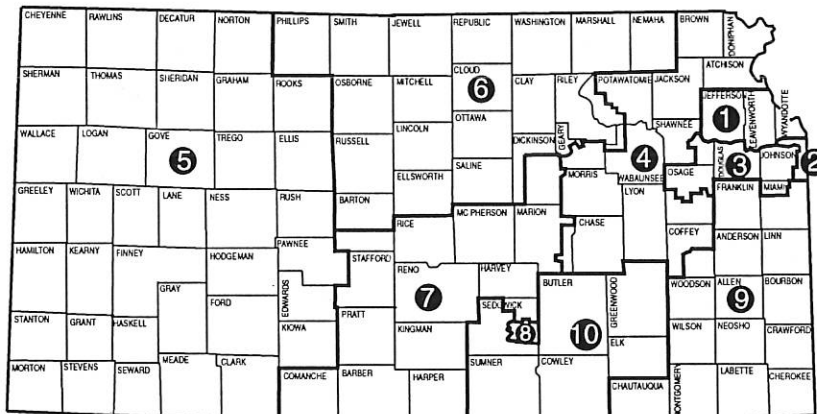

The Kansas State Board of Education promotes student academic achievement by providing educational vision, leadership, opportunity, accountability, and advocacy for all.

The Board believes that focusing on this mission will lead to an educational system which is embodied in the following vision statement:

Schools will work with families and communities to prepare each student with the living, learning, and working skills and values necessary for caring, productive, and fulfilling participation in our changing society.

To this end the State Board has established the following priorities to guide its work to begin a new century:

- Improve teaching in Kansas schools utilizing performance measurement for teachers and creative approaches to effective teacher recruitment, preparation, and development.
- Raise the achievement of students with an emphasis on low achievers to acquire basic academic skills.
- Continuously improve state curriculum standards and assessments.
- Address the needs created by changing enrollment trends.
- Ensure that students read at the appropriate level, including diagnosis of skills and the use of effective interventions.
- Ready children to learn by supporting families with quality early childhood and primary programs.

Legislative Research Department

FROM: Dale M. Dennis, Deputy
Commissioner of Education

SUBJECT: Percent of Cash Balances By Fund

As per your request, we are providing a computer printout (EDLG9950) which shows the cash balances for 17 funds utilized by unified school districts. This information was derived from the 1999-2000 U.S.D. budget document. We have compared the July 1, 1999, cash balance with the 1999-2000 expenditures in each fund to arrive at the percentage of cash balance.

The contingency reserve fund has been included for school districts since it can be used for general purposes for expenditures which were not anticipated at the time the budget was adopted. The expenditures in this fund are normally small unless an emergency arises.

The overall statewide cash balances as of July 1, 1999, compared to expenditures equates to 5.64 percent for the funds listed on the table.

The printout has been sorted in county order and low to high on Column 20.

- Columns 1 through 17 shows the percentage of cash balances on July 1, 1999, of each fund to the 1999-2000 expenditures.
- Column 18 shows the 1999-2000 total expenditures of Columns 1 through 17.
- Column 19 shows the total cash balances of all the funds.
- Column 20 provides the percentage of cash balance to expenditure (Column 19 ÷ 18).

Kansas State Department of Education

120 S.E. 10th Avenue
Topeka, Kansas 66612-1182

March 27, 2001

TO: Representative Kenny Wilk
FROM: Dale M. Dennis, Deputy
Commissioner of Education
SUBJECT: Capital Expenditures and Repair of Buildings

Attached is a computer printout (L0124) which provides the amount expended for the 1999-2000 school year in the general and supplemental general funds for equipment and repair of buildings. Equipment and repair of buildings totaled \$29,044,570 out of general fund expenditures of \$2,174,078,931 or 1.3 percent. Equipment and repair of buildings totaled \$23,918,755 in the supplemental general fund out of expenditures which totaled \$320,463,731 or 7.5 percent.

I hope this information will be of assistance to you.

COLUMN EXPLANATION

- Column 1 -- 1999-2000 Estimated general fund expenditures for equipment and repair of buildings
- 2 -- 1999-2000 Estimated general fund expenditures
- 3 -- 1999-2000 Estimated supplemental general fund expenditures for equipment and repair of buildings
- 4 -- 1999-2000 Estimated supplemental general fund expenditures

TO: Representative Kenny Wilk

FROM: Dale M. Dennis, Deputy
Commissioner of Education

SUBJECT: Expenditures

Attached is a table and bar graphs comparing the 1992-93 and 1999-2000 total expenditures, by fund, for unified school districts. We have also provided the percent increase for each fund.

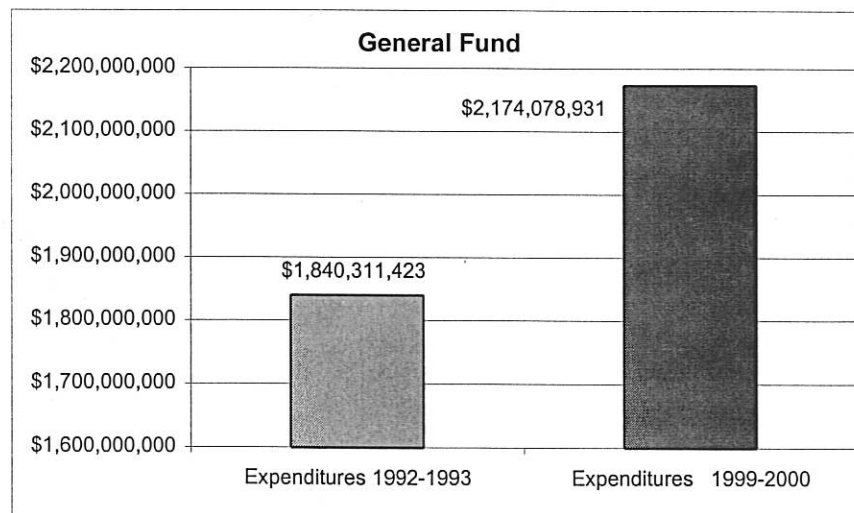

The smaller funds, which are listed in the footnote, have been totaled for comparison purposes.

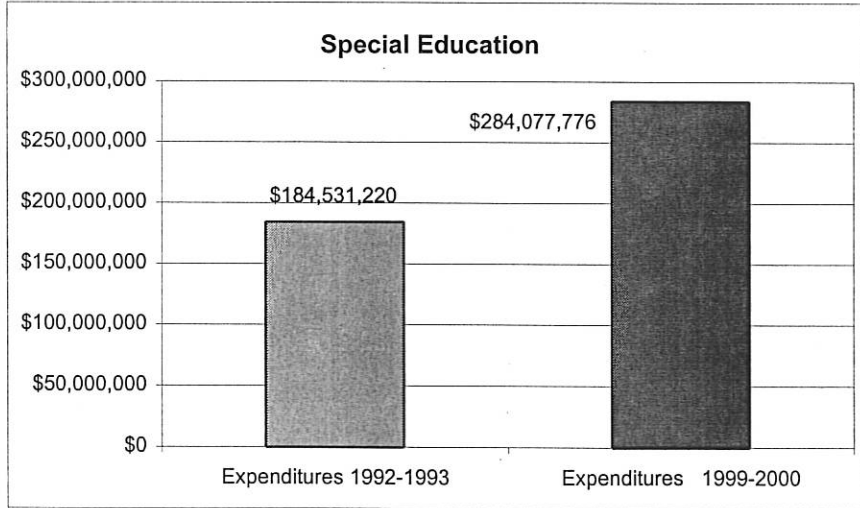

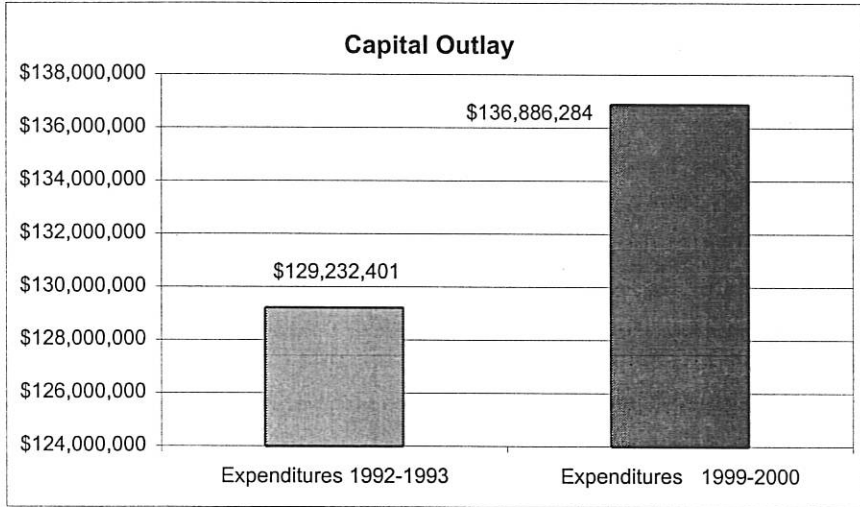

I hope this information will be of assistance to you.

	<u>Expenditures</u> <u>1992-1993</u>	<u>Expenditures</u> <u>1999-2000</u>	<u>Percentage</u> <u>Increase</u>
General Fund	\$1,840,311,423	\$2,174,078,931	18.1%
Supplemental General Fund	\$97,949,720	\$320,463,731	227.2%
Capital Outlay	\$129,232,401	\$136,886,284	5.9%
Special Education	\$184,531,220	\$284,077,776	53.9%
Bond & Interest	\$67,613,852	\$183,409,608	171.3%
Food Service	\$112,749,851	\$152,190,427	35.0%
Special Education Cooperatives	\$92,682,067	\$144,333,253	55.7%
Vocational Education	\$23,538,959	\$48,332,510	105.3%
Transportation	\$81,449,905	\$101,464,267	24.6%
Other*	\$99,144,275	\$174,066,667	75.6%

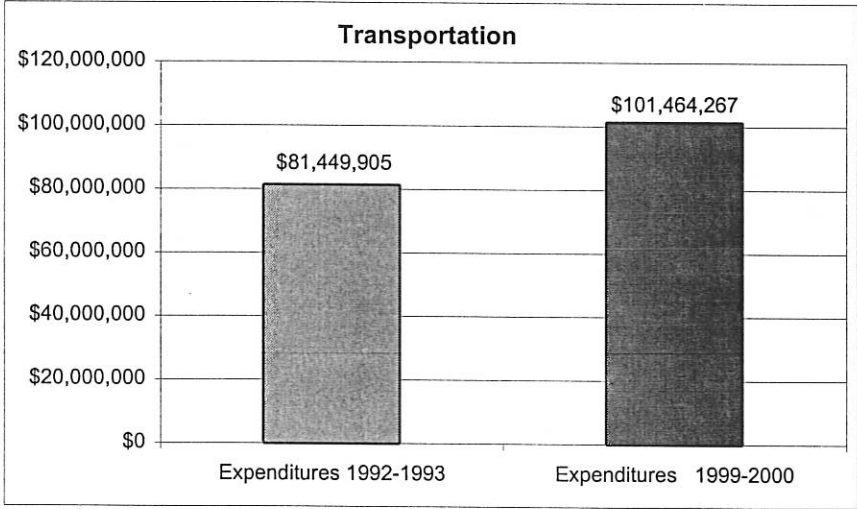

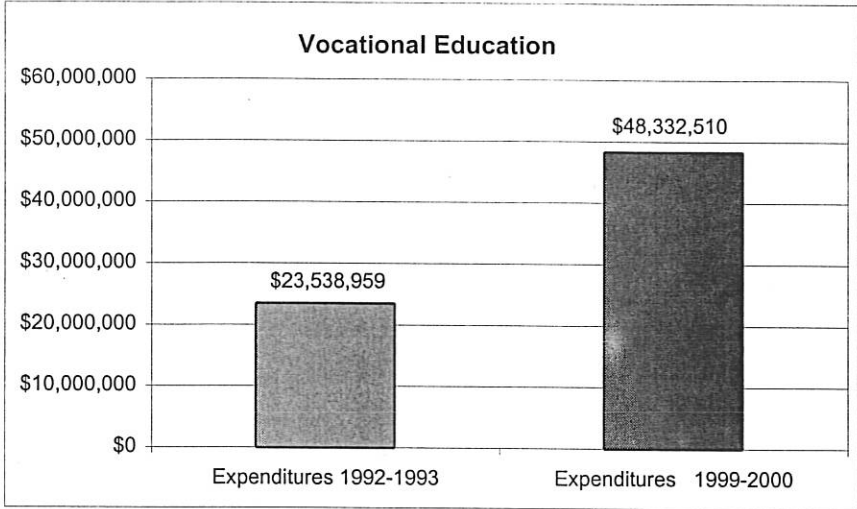

*Other expenditures include Adult Education, Adult Supplemental Education, Bilingual Education, Driver Training, Educational Excellence Grant Program, Extraordinary School Program, Inservice Education, Parent Education Program, Summer School, Technology Education, Area Vocational School, Special Liability Expense, School Retirement, Extraordinary Growth Facilities, Disability Income Benefits Reserve, Health Care Services Reserve, Risk Management Reserve, School Workers Comp Reserve, Contingency Reserve, Student Material Revolving, Textbook Rental, and Special Assessment.

**Expenditures include any transfers to other funds.

Kansas School District Expenditures: Basic Facts

*Prepared by the Kansas Association of School Boards in support of the School Finance Coalition
January, 2001*

Introduction

The school finance coalition is a group of education organizations and school districts that believe the quality of public education in Kansas can be sustained only by raising educator salaries, helping all children reach high standards, supporting technology and insuring safe schools. The coalition has adopted a position that over \$650 million in additional state funding is required to assure that each child receives a high quality education.

A task force appointed by Governor Bill Graves also addressed many of these issues. The recommendations from this group would increase state spending on education by approximately \$200 million. In addition, the task force endorsed a number of proposals in the State Board of Education's Fiscal Year 2002 budget request totaling over \$100 million. The Task Force also recommended that the state fund a study to determine cost of providing a "suitable" education in each school district in Kansas. This study could find that even an even greater increase in state funding is necessary.

Implicit in the positions of the coalition, the Governor's Task Force and the State Board is the concern that school district funding has not kept up with needs since the current system was adopted in 1992. For example, the base budget per pupil has fallen far behind inflation since 1992-93. However, some reports indicate that school funding has increased more than inflation over that period, and note that state aid to public school districts has nearly doubled. Which position is correct?

Actually, both are. This paper reviews the basic features of the Kansas school finance system and how those features changed between 1992-93, when the current law took effect, and 1999-2000, the last year complete figures were available from the State Department of Education. It demonstrates the following basic facts:

- The base budget per pupil is the foundation of the school finance system, and is determined by the state.
- Although total school district expenditures have increase more than inflation, most of this growth has been in restricted use areas of the budget, not available for general education needs.
- General, or discretionary spending has slightly exceeded inflation only because school districts have increased local option budgets, which increase property taxes.
- Even within the general fund, much of the increase has been directed to specific programs, such as at-risk and correlation weighting.
- Much of the increase in state aid has been offset by reductions in local revenues, specifically reducing the statewide mill levy from 35 mills to 20 mills.

The base budget per pupil is the “foundation” of the school finance system.

The base amount is multiplied by the total of the actual full-time equivalent enrollment plus various weighting factors and other adjustments in each district to determine the general fund budget. Districts may adopt a local option budget (also called the supplemental general fund) which is a percentage of the general fund, up to a maximum of 25%. Therefore, the value of the base determines the value of weighting factors and the LOB.

The base budget per pupil is determined by the State Legislature.

The base is currently set at \$3,820 by state statute. To change the base, the Legislature must pass a bill. Although the base budget per pupil is set in law, the Legislature must also pass a separate appropriations bill to actually fund the base each year. (Any change in law or appropriations requires a majority vote in both the House and Senate, and is also subject to the Governor’s veto. The Legislature can override a veto by a two-thirds vote of both houses.) If the Legislature does not appropriate enough money to fund the required state aid in every district, the base is prorated (proportionately reduced for each district).

State aid is not the same as the base budget per pupil.

In addition to setting the base, the Legislature also sets a uniform mill levy on property in all districts. To fully fund the base at the statutory level each year, the Legislature must appropriate enough money to make up the difference between the general fund budget and the amount raised by the statewide general mill levy in each district, plus a few other revenue sources. This appropriation is called “general state aid.” (If the statewide general fund mill levy raises more in a district than is required to fund the general fund budget, the excess amount is “recaptured” by the state and used to fund general state aid for other districts. This occurs in only a few very districts with very high property valuations - probably only one in 2000-01.) The legislature also provides assistance for local option budgets, based on the property valuation per pupil in a district. The wealthiest districts do not receive any “supplemental general aid.”

The general fund and local option budget are the “discretionary” parts of school budgets.

The general fund and supplemental general fund (if any) combined represent the “discretionary” portion of a school district’s budget, although a portion of these funds must be transferred to other funds restricted uses. Last year, total general fund expenditures of all districts was \$2.174 billion, and supplemental general fund expenditures totaled \$320.9 million. Combined, these funds represented less than two-thirds (63.9%) of all school district expenditures. All other expenditures are restricted to use for very specific purposes outside of general or regular education, such as building construction, food service and special education.

Restricted purpose funds are important, but cannot be used for regular education costs.

Expenditures outside of the general and supplemental general funds are almost always restricted to very specific purposes. This does not mean they are unimportant, but it means they are not available for general education costs, such as regular teachers’ salaries.

Major examples of these “restricted use” funds include:

- Special education aid, which may only be used for special education teacher salaries, transportation and related costs. (\$248.4 million last year)
- Capital outlay, which may only be used for equipment, construction, and repairs or remodeling. (\$136.9 million last year)
- Food service, which provides meals for low income children and meal preparation support. (\$152.2 million last year, mostly provided by the federal government)
- Bond and interest costs, which pay off the debt on construction projects approved by district voters. (\$183.4 million last year)
- Other federal programs, such as Title I aid for disadvantaged children. (\$100 million last year)

In addition, districts received \$136 million within the general fund through “program weightings” that must be used on specific programs, such as bilingual and vocation programs and student transportation. Districts also had to transfer approximately \$36 million to cover additional special education costs that exceeded special education aid provided by the state.

Restricted expenditures have increased much more than discretionary expenditures.

Total “discretionary” expenditures (general and supplemental general fund) have increased from \$1.939 billion in 1992-93 to \$2.495 billion in 1999-00, or 28.7%. Because enrollment increased statewide, this represents a per pupil increase of 23.7%, from \$4,454 to \$5,561.

However, total expenditures from **all** funds increased from \$2.498 billion to \$3.403 billion (36.2%). Total per pupil expenditures increased from \$5,791 to \$7,585 per pupil (30.9%). This means that a decreasing portion of total district expenditures is available for discretionary purposes. General “discretionary” spending fell from 77.6% of the total in 1992-93 to 63.9% in 1999-00.

Not only do total expenditure figures contain many funds with restricted uses; these funds are not equally available to all districts. For example, only districts with outstanding bonded debt have bond and interest expenditures, and most federal funds are distributed on the basis of student poverty. These two items alone account for 12.8% of total district expenditures, up from 9.1% in 1992-93.

Discretionary spending kept up with inflation only because of the Local Option Budget

Since 1992-93, total expenditures per pupil have increased 30.9%, considerably more than the consumer price index, which increased 19.4%. However, discretionary expenditures (general and supplemental general fund) per pupil have increased just slightly more than inflation (23.7%).

This increase has been possible only because of increased use of local option budgets. Total LOB expenditures (supplemental general fund) increased \$97.9 million in 1992-93 to \$320.5 million in 1999-00. Without the LOB, discretionary general spending would have fallen behind inflation. From 1992-93 to 1999-00, general fund spending per pupil (excluding the LOB) increased from \$4,267 to \$4,846, or 13.6% - only about 70% of the increase in the CPI. The base budget per pupil increased just 4.7%, from \$3,600 to \$3,770.

Much of the increase in the general fund has also been restricted to specific programs.

Total general fund expenditures increased more than the base because of changes in enrollment weighting factors. Between 1992-93 and 1999-00, general fund expenditures increased by \$304.9 million. Without changes in enrollment or weightings, the increase would have been just \$87.8 million. The additional increase in the general fund expenditures result from the following changes since 1992-93:

- FTE enrollment rose statewide by 17,810 students (approximately 4%). In addition, the legislature approved a declining enrollment feature to help districts phase in budget reductions when enrollment falls. These two changes added \$88.3 million.
- The Legislature created a “correlation weighting” feature to assist districts with enrollment over 1,725 because it believed these districts were underfunded by the original 1992 finance act. This change added \$73.5 million, all for districts with enrollment over 1,725.
- More students are enrolled in approved bilingual and vocation programs, at a cost of \$16.8 million.
- The Legislature increased the at-risk weighting factor from 0.05 to 0.09. This factor is applied to students who qualify for free lunch and must be used for approved programs to assist students at risk of academic failure. This change added \$23.2 million.
- Higher costs for busing children to and from school added nearly \$10 million to the transportation weighting.
- Weightings to assist districts with the special costs of opening new buildings added \$14 million.

State aid increased more than district expenditures because of reductions in property taxes.

In addition to changes in total school district expenditures since 1992-93, the sources of funding have also changes. Total state aid for school districts rose by just over \$1 billion, or 90.8%. Federal funds also rose by \$81.8 million, or 69.6%. But school district revenue from local sources – primarily property taxes – fell by \$196.5 million, a decline of 15.6%.

A significant portion of increased state aid for districts was used to reduce local property taxes. For example, in 1993-94 state aid rose 33.6%, but local revenues dropped 22.2%. In 1997-98, state aid rose 15.9% while local revenue dropped by 11.9%. As a result, state aid increased from 44.9% of the total expenditures in 1992-93 to 62.9% in 1999-00
