

MINUTES OF THE SENATE COMMITTEE ON WAYS AND MEANS.

The meeting was called to order by Chairperson Steve Morris at 10:35 a.m. on February 1, 2001, in Room 123-S of the Capitol.

All members were present except: All present

Committee staff present:

Alan Conroy, Chief Fiscal Analyst, Kansas Legislative Research Department
Leah Robinson, Kansas Legislative Research Department
Amory Lovin, Kansas Legislative Research Department
Michael Corrigan, Assistant Revisor, Revisor of Statutes Office
Mary Shaw, Committee Secretary

Conferees appearing before the committee: None

Others attending: See attached guest list

Chairman Morris welcomed Alan Conroy, Chief Fiscal Analyst, Kansas Legislative Research Department, who gave a briefing on the Overview of the Fiscal Year 2002 Governor's Budget Report ([Attachment 1](#)).

Mr. Conroy mentioned that the Homestead Property Tax Refunds are a \$15.1 million dollar expenditure and the Governor has recommended shifting that so that it will no longer be a state expenditure. The Governor is recommending that the refunds would be paid out of individual income tax receipts that the Kansas Department of Revenue receives and would be treated as a refund rather than an expenditure from the State General Fund.

Mr. Conroy noted that the State does have the preliminary State General Fund receipts through the end of January. State General Fund receipts are about \$58 million dollars below the consensus group estimate and it is in three major sources: corporate income, individual income taxes and sales tax. He noted that the consensus group will meet in April and decide whether or not the State General Fund estimates should be revised up or down.

Mr. Conroy also mentioned that last Fall the Kansas Department of Revenue had determined that \$19 million dollars of sales tax receipts had been mis-coded and had been credited to the State General Fund when in fact it should have been deposited into local sales tax collections. He mentioned that due to the oversight the State General Fund ended up being overstated by \$19 million dollars. Mr. Conroy explained that the Division of the Budget and Kansas Legislative Research Department were aware of that and about \$4.9 million was attributed to fiscal year 2001 and \$15 million to fiscal year 2002. The Consensus group met in November and arrived at a consensus number for sales tax receipts. Mr. Conroy mentioned that after the meeting both the Division of the Budget and Kansas Legislative Research Department left the room with different understandings of how that adjustment would be handled. The Division of the Budget had assumed that the new consensus number for FY 2001 for sales tax took the adjustments into account and the adjustment was made. The Kansas Legislative Research Department's understanding was that the adjustment for sales tax receipts in the current year only counted for the \$4.9 million dollars and the actual receipts for FY 2000 would have to be adjusted downward by \$15 million dollars. The Governor's \$429.9 million dollars beginning balance in FY 2002 reflects the Division of the Budget's understanding in terms of how that sales tax adjustment was handled. Kansas Legislative Research Department's profile would reflect that, instead of having \$429.8 million dollars, they would have a number that would be \$15 million dollars less than that. Mr. Conroy mentioned that they are meeting with the Division of the Budget and both departments will come to an understanding and will work it out when the consensus group meets in April.

CONTINUATION SHEET

The Committee requested copies of information regarding the intergovernmental transfer money and tobacco money. Mr. Conroy noted that they also have spreadsheets regarding the tobacco money that will be distributed to the Committee. Committee questions and discussion followed.

The meeting was adjourned at 11:35 a.m. The next meeting is scheduled for February 2, 2001.

OVERVIEW OF THE FISCAL YEAR 2002 GOVERNOR'S BUDGET REPORT

In this Budget Overview, various summaries of state expenditures and the plan for their financing are reviewed. The summary data were obtained from *The FY 2002 Governor's Budget Report*. The Legislative Research Department utilizes the classification of expenditures by function of government so as to coincide with the Division of the Budget and the Division of Accounts and Reports. The Department has made some changes in the classification of expenditures in order to be consistent with its prior reports to the Legislature.

The summary data in this overview compare actual expenditures for FY 2000, the Governor's revised estimates for FY 2001, and the Governor's recommendations for FY 2002.

SUMMARY OF CHANGES TO ESTIMATED FY 2001 EXPENDITURES

Based on actions of the 2000 Session of the Legislature, it was estimated by the Research Department that FY 2001 expenditures from **all funds** would total \$8.789 billion. *The Governor's Budget Report* revises the all funds FY 2001 budget to \$9.158 billion, **an increase of \$368.9 million** from the earlier estimate. Major differences from the session-end estimate and the Governor's revised estimate include:

- ◆ Increases of \$207.4 million in the budget of the **Kansas Department of Transportation**, primarily due to construction expenditure changes related to the Comprehensive Transportation Program; \$48.9 million in the budget of the **Department of Social and Rehabilitation Services**, primarily for caseload adjustments; \$44.7 million for the **Board of Regents and the Regents Institutions**, primarily reflecting capital improvement expenditures carried forward from FY 2000; \$31.9 million in the budget of the **Adjutant General** reflecting federal emergency aid adjustments; and \$24.6 million from the **Department of Human Resources**, reflecting increased expenditures for benefit grant programs.

At the close of the 2000 Session, FY 2001 expenditures from the **State General Fund** were estimated to be \$4.406 billion. *The Governor's Budget Report* revises the FY 2001 General Fund budget to \$4.434 billion, a **net increase of \$28.2 million** from the earlier estimate. Major differences from the session-end estimate and the Governor's revised estimate consist of:

- ◆ An increase of \$21.0 million in the budget of the **Department of Social and Rehabilitation Services**, largely reflecting caseload adjustments; an increase of \$2.7 million for the **Board of Regents and its Institutions**, reflecting the shift of State General Fund monies from FY 2001; and an increase of \$2.0 million in Welfare-to-Work matching funds in the budget of the **Department of Human Resources**.

The following tabulation summarizes the changes to FY 2001 expenditures by major category.

TOTAL STATE EXPENDITURES FOR FY 2002

Summary of Expenditures from All Funds

The Governor's recommendation for FY 2002 state expenditures from all funds totals \$9.152 billion, a **reduction of \$5.3 million** (0.1 percent) above the Governor's revised estimate for FY 2001 of \$9.158 billion. Actual FY 2000 expenditures from all funding sources were \$8.418 billion.

Expenditures by Major Purpose

State Operations. *Actual agency operating costs for salaries and wages, contractual services, commodities and capital outlay.*

The Governor's FY 2002 recommendation for state operations increases by \$72.1 million or 2.6 percent above the revised FY 2001 amount. Of the recommended increase, \$21.3 million is reflected in the budget of the Kansas Department of Transportation, reflecting increased costs related to the Comprehensive Transportation Program, and \$20.3 million is included in the budgets of the Board of Regents and the Regents institutions, related primarily to salary increases for faculty and other employees. All other state operations expenditures increase by \$30.5 million.

Aid to Local Units. *Aid payments to counties, cities, school districts, and other local government entities. May be from state or federal funds.*

Aid to local units increases by \$74.3 million or 2.3 percent in FY 2002. Aid to local units in the Department of Education increases by a total of \$68.2 million in FY 2002. General and supplemental state aid to local school districts from the Department of Education increases by \$46.9 million, while KPERS-School employer contributions increase by \$16.4 million. A tabulation appearing later in this memorandum provides details about state aid programs.

Other Assistance, Grants, and Benefits. *Payments made to or on behalf of individuals as aid, including public assistance benefits, unemployment benefits, retirement payments and tuition grants.*

Other assistance increases \$74.6 million or 3.1 percent above the revised FY 2001 amount. Major increases include \$57.3 million in the Department of Social and Rehabilitation Services and \$18.6 million in the

Department on Aging budget (caseload increases), and \$ 9.4 million for increased unemployment insurance bene- payments in the budget of the Department of Human Resources.

Capital Improvements. *Cash or debt service payments for projects involving new construction, remodeling and additions, rehabilitation and repair, razing, and the principal portion of debt service for a capital expense.*

Capital improvements are recommended to decrease by \$226.3 million below the FY 2001 level. Included are reductions in construction expenditures for the Department of Transportation (\$204.3 million, related to fewer than anticipated construction projects being bonded in FY 2001), and \$13.6 million in Regents institutions' projects.

Expenditures by Function of Government

The following table summarizes expenditures from all funds by function of government. Functions of government reflect the six classifications into which similar agencies are grouped that share similar basic purposes of state government. The functions include: General Government; Human Resources; Education; Public Safety; Agriculture and Natural Resources; and Transportation. The education function is by far the largest component with 46.0 percent of the total. The three largest functions of government—education, human resources, and transportation—comprise 85.5 percent of the recommended expenditures for FY 2002.

Summary Plan for Financing

Total state expenditures are financed by the resources contained in approximately 1,300 distinct funds. The following tabulation summarizes total state expenditures by major fund class. The tabulation separates the plan for financing into operating purposes and capital improvements. The General Fund operating amount shown in the table for FY 2002 is based on current resources of the Fund. The net increase in General Fund operating expenditures from FY 2001 to FY 2002 is \$162.5 million or 3.7 percent. The Governor's recommendations do, however, include both positive and negative adjustments for individual agencies.

The State General Fund, to which most state tax receipts are credited, is the predominant source of financing for state expenditures. The General Fund finances 48.4 percent of estimated FY 2001 expenditures. In FY 2002, the General Fund finances 51.0 percent of the recommended expenditures.

Special revenue funds include most federal grants, student and patient fees, and other charges for benefits received. The All Other category is a combination of several fund classes, including trust and agency funds, shared tax collection funds, and enterprise funds.

Schedule 8 in *The Governor's Budget Report* (Volume 1) summarizes actual and estimated receipts of federal funds. Estimated FY 2001 receipts are \$2.596 billion, an increase of \$371.2 million or 16.7 percent from the FY 2000 actual receipts. The FY 2002 estimate of \$2.548 billion is \$48.1 million or 1.9 percent below the FY 2001 estimated receipts. Three agencies – the Department of Social and Rehabilitation Services, the Department of Transportation, and the Department of Education – account for 72.5 percent of FY 2002 estimated federal receipts.

Federal receipts for fiscal years 2001 and 2002 are dependent on future actions of the federal government. Past experience indicates that the final outcome of those actions will not be known prior to adjournment of the 2001 Legislature.

Expenditures for State Operations

Expenditures for state operations, i.e., for purposes other than local aid, other assistance, and capital improvements, comprise 31.5 percent of total recommended expenditures for FY 2002. The tabulation below divides state operations expenditures into four major components: salaries and wages; contractual services (communications, rent, travel); commodities (food, supplies, stationery); and capital outlay (equipment and furniture, not building and highway construction projects). The All Other category is comprised primarily of debt service.

Salaries and wages expenditures, including fringe benefits, comprise almost two-thirds of the state operations budget for FY 2002 (62.7 percent) and represent a \$62.5 million or 4.1 percent increase from the FY 2001 estimate.

Salaries and wages policy recommendations incorporated into the proposed FY 2002 budget include the following:

* Amounts reflect the difference between the Governor's recommendation for FY 2001 and the amount of longevity bonus payments that are estimated to be paid in FY 2002.

Financing for all employee benefit recommendations are contained in the recommended budgets for each state agency.

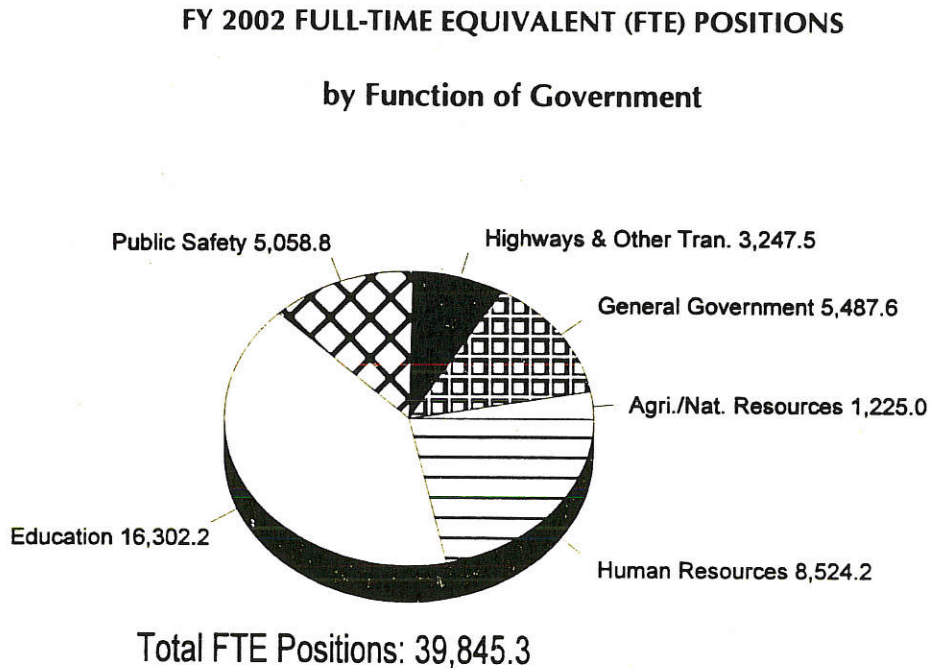

Other Pay Plan Recommendations

The Governor's recommendation would also provide that classified employees at steps 1,2,and 3 of each pay grade on the current pay matrix would be moved to step 4 effective with the pay period beginning February 4, 2001. All new hires would start at the current step 4. In addition, a 16th step would be added at the top of each pay grade in FY 2002, although no employee would move to the next step during FY 2002.

Authorized FTE Employees by Function of Government

Expenditures for salaries and wages are also affected by policy recommendations which change the size of the state's workforce. The FY 2002 budget recommendations of the Governor finance 39,845.3 full-time equivalent positions, an increase of 220.5 or 0.6 percent from the FY 2001 recommended level of 39,624.8. In addition, the Governor recommends 962.9 other unclassified positions in FY 2002, a reduction of 43.4 or 4.3 percent from FY 2001. These employees are not included in the FTE limitation.

The following pie chart reflects the Governor's recommended FY 2002 full-time equivalent positions by function of government.

State Workforce Adjustments

The Governor's FY 2002 recommendation increases the size of the state's workforce by 220.5 FTE positions. Factors contributing to the increase in positions include:

- ◆ The Governor's recommendation for FY 2002 includes the addition of 92.0 FTE for full staffing of the Kansas Veterans' Home in Winfield and 73.5 FTE for the Department of Corrections and the Correctional Facilities reflecting staffing for capacity expansion projects.

Program or Agency Components of the FY 2002— All Funds Budget

To this point, this memorandum has dealt primarily with measuring **year-to-year** changes proposed in *The Governor's Budget Report*. The following tabulation pertains to **FY 2002 only** and measures major programs or agency expenditures in dollar terms and as a percent of the total budget. The budgets of the Department of Education, the Department of Social and Rehabilitation Services, and the Board of Regents and its institutions account for just under two-thirds (65.0 percent) of the total state budget.

* Includes Department of Education, Schools for the Blind and Deaf, State Library, Arts Commission, and Historical Society, except for state aid to local units.

** Includes Public Broadcasting, except state aid of \$0.339 million which is part of Education-State Aid.

a) Aid to Washburn University is included in state aid to local units (\$10.594 million).

Note: All expenditures for each entry from SRS through "All Other" exclude state aid, if any.

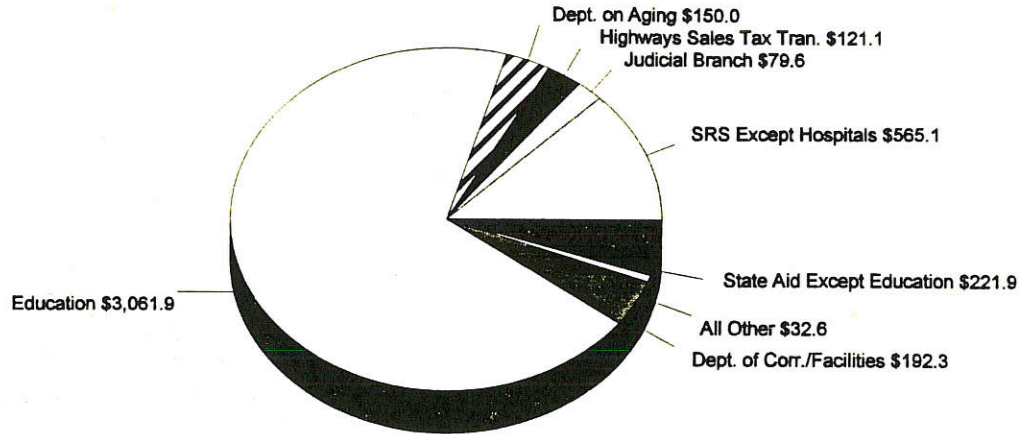

In the Department of Education budget, the Governor recommends State General Fund increases of \$67.4 million, including \$29.9 million to increase base state aid per pupil by \$50 (from \$3,820 to \$3,870).

The Governor's FY 2002 recommendation for the Board of Regents and the Regents institutions is a State General Fund increase of \$28.8 million, including an \$8.4 million faculty salary pool intended to provide an average faculty salary increase of 5.5 percent. The Governor's FY 2002 recommendation for the Department of Social and Rehabilitation Services is a State General Fund increase of \$38.6 million, primarily reflecting caseload adjustments.

The following pie chart displays the FY 2002 State General Fund expenditures by major program.

The next tabulation summarizes General Fund expenditures by function of government. The increases in education are largely related to the local aid increases and the increases at the Regents institutions which have previously been discussed. The increase in transportation reflects an increase in the demand transfer to the State Highway Fund recommended by the Governor in FY 2002.

State Aid to Local Units of Government

The tabulation on the following page lists state aid by major program or financing source. Although most of the programs of state aid to local units are financed from the State General Fund, some significant ones are financed from the resources of other funds and these are also listed in the tabulation. Some programs are jointly financed from two sources or financing has shifted among sources from time to time. Federal aid is not included in this tabulation.

The tabulation reflects General Fund aid to local school districts in FY 2002 which increases \$66.9 million or 3.0 percent above the FY 2001 level. Total General Fund aid to local units in the budget year increases \$87.1 million or 3.4 percent above the current year.

DEMAND TRANSFERS FROM THE STATE GENERAL FUND

Demand transfers, certain expenditures specified by statute, are recommended by the Governor to increase by \$85.3 million in FY 2002. The Governor recommends funding the transfers to the Local Ad Valorem Tax Reduction Fund and the County-City Revenue Sharing Fund at the FY 2000 level. The Governor recommends reductions of \$24.3 million in the FY 2002 demand transfer to the State Highway Fund, and \$7.3 million in the demand transfer to the City-County Highway Fund. The Governor's recommendation also increases the demand transfer to the State Water Plan by \$250,000. The recommendation for the other funds reflects current law. Current law for all demand transfers would require the expenditure of \$45.9 million more than is proposed in FY 2002. In FY 2001, the Governor's recommendation reduces the demand transfers to the State Highway Fund by \$86.7 million, the County-City Revenue Sharing Fund by \$11.5 million, the City-County Highway Fund by \$7.7 million and the State Water Plan by \$1.5 million. The demand transfer amounts for FY 2000 through the FY 2002 recommendation are reflected in the following table.

FY 2000—The County-City Revenue Sharing Fund was capped at a 1.0 percent increase and the City-County Highway Fund was capped at a 1.7 percent increase over FY 1999; additional reductions were made to the State Highway Fund and the Water Plan Fund.

FY 2001—The Governor recommends capping the State Highway Fund demand transfer at 1.7 percent over FY 2000 levels. The Governor also recommends a 6.5 percent reduction from the FY 2000 level for the Local Ad Valorem Tax Reduction Fund and the County-City Revenue Sharing Fund. The Governor's recommendation also reduces the FY 2001 transfer to the City-County Highway Fund by 7.5 percent from the statutory amount and reduces the Water Plan demand transfer by \$1.5 million.

FY 2002—The Governor's recommendation funds the State Highway Fund transfer at the statutory 9.5 percent, but recommends reductions in the KDOT operations and building construction budgets. The Governor's recommendation restores the Local Ad Valorem Tax Reduction Fund County and City Revenue Sharing Fund and Special City and County Highway Fund transfers to the FY 2000 level.

Status of the State General Fund

The following tabulation summarizes the status of the State General Fund as to receipts, expenditures, and unencumbered cash balances based on the Governor's recommendation for fiscal years 2001 and 2002.

The FY 2002 General Fund ending balance as a percentage of expenditures under the Governor's recommendations would be 7.5 percent, the targeted minimum ending balance required under K.S.A. 75-6702 and 75-6703. **Receipts for FY 2001 and FY 2002 are equal to the consensus estimates except for certain transfers and proposals recommended by the Governor which increase receipts to the State General Fund by \$0.2 million in FY 2001 and reduce receipts by \$12.4 million in FY 2002. The Governor's proposals include the following:**

- ◆ For FY 2001, the Governor recommends a transfer of \$168,750 from the Department of Health and Environment's Trauma Fund to the State General Fund.
- ◆ For FY 2002, the Governor's recommendation decreases State General Fund revenues by \$12.4 million. A reduction of \$14.4 million in individual income tax occurs because Homestead Property Tax Refunds are changed from being counted as an expenditure to a revenue transaction. The reduction is partially offset by transfers of \$1.0 million from the Juvenile Detention Facilities Fund to the State General Fund and \$1.0 million for the Workers' Compensation Self Insurance Fund in the Department of Administration to the State General Fund.
