

MINUTES OF THE PRESIDENT'S TASK FORCE ON MEDICAID REFORM.

The meeting was called to order by Chairperson Senator Stan Clark at 3:30 p.m. on March 13, 2003 in Room 234-N of the Capitol.

All members were present except: Senator Barnett, Excused
Rep. Bethell, excused
Rep. Hill, excused

Committee staff present: Emalene Correll, Legislative Research
Norman Furse, Revisor of Statutes
Ann McMorris, Secretary

Conferees appearing before the committee:
Jim Cleland, WaKeeney

Others attending: See enclosed list

SRS provided the federal list of allowable drug exclusions and the extent to which Kansas Medicaid pays for any of the items on the list, as requested by Senator Huelskamp. (Attachment 1)

Jim Cleland, pharmacist from WaKeeney, recalled some of the history of Medicaid and noted pharmacists were paid acquisition cost for all drugs. There has never been an increase in this fee but it has dropped from \$7.05 to \$3.40. The pharmacist is the health care provider who sees the patient face to face. New pharmacists don't want to buy into a small shop and move into a small community. Medicaid is the big buyer for drugs and this runs up the cost. Pharmacists are simply trying to survive and especially small shops.

He provided several listings of prescriptions he filled over a period of time, drugs purchased and the costs thereto and discussed the alternatives he could use in both areas. (Attachment 2)

He felt the challenges are to find a different way of purchasing drugs to negotiate the best price and to give pharmacists more reimbursement.

Round table discussion with those in attendance covered rebates, wholesalers, manufacturers and the pharmacists, possible abuse and fraud.

The next meeting of this committee will be on March 14, 2003.

Adjournment.

Respectfully submitted,

Ann McMorris, Secretary

March 13, 2003

The Honorable Stan Clark, Chair
President's Task Force on Medicaid Reform
Statehouse, Room 449-N
Topeka, KS 66612

Dear Senator Clark:

During the Task Force's meeting on Tuesday of this week, Senator Huelskamp asked SRS to provide the federal list of allowable drug exclusions and the extent to which Kansas Medicaid pays for any of the items on that list. The following information is provided in response that request.

Listed below are drugs and drug classes that Federal law allows to be excluded from coverage or otherwise restricted by state Medicaid programs.

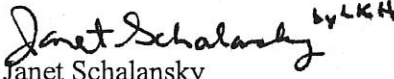

Social Security Act Sec.1927 (42 U.S.C. 1936r-8)

(d)(2) LIST OF DRUGS SUBJECT TO RESTRICTION.--The following drugs or classes of drugs, or their medical uses, may be excluded from coverage or otherwise restricted:

- (A) Agents when used for anorexia, weight loss, or weight gain.
- (B) Agents when used to promote fertility.
- (C) Agents when used for cosmetic purposes or hair growth.
- (D) Agents when used for the symptomatic relief of cough and colds.
- (E) Agents when used to promote smoking cessation.
- (F) Prescription vitamins and mineral products, except prenatal vitamins and fluoride preparations.
- (G) Nonprescription drugs.
- (H) Covered outpatient drugs which the manufacturer seeks to require as a condition of sale that associated tests or monitoring services be purchased exclusively from the manufacturer or its designee.
- (I) Barbiturates.
- (J) Benzodiazepines.

Items on the list that Kansas Medicaid currently provides coverage for include: prescription weight loss drugs and smoking cessation products for limited duration with prior authorization, cough and cold products and multivitamins for Kan Be Healthy beneficiaries, over-the-counter products that are less costly than their prescription counterparts (i.e. Zantac, Pepcid and their generic equivalents), and a limited number of benzodiazepines with prior authorization.

Sincerely,

Janet Schalansky
Secretary

President's Task Force
on Medicaid Reform

Dear Senator,

HB 2233 is a bill to require insurance companies to put the information needed to file a prescription claim on the patient's prescription card. On the following page is a photocopy of the front and back of a prescription card. Nine different companies that could possibly be the prescription processing company are listed on the front of the card, and Cigna is listed as a possibility on the back of the card. After being on hold for 15 minutes to the phone number on the back of the card I was able to determine that Express Scripts International, (ESI), is the prescription processing company, a name that doesn't appear anywhere on the card! After being on hold for another 15 minutes with ESI at a different phone number, I was able to determine that the patients group number is LWCA, and the plan code is A4.

◀ All of this information is required by the insurance company to file a claim and fill the prescription for their customer, yet none of this information is printed on the card. ▶

Please vote in favor of HB 2233 to require insurance companies to give us the information that they require.

Sincerely,

S. Douglas Perrine RPh

NOTICE OF PRECERTIFICATION REQUIREMENTS

Inform your physicians that they must contact Cigna's Proview staff 4 days in advance for any outpatient surgeries and all non-emergency hospital admissions. Emergency admissions must be reported within 2 business days. Failure to comply with the precertification requirements will result in reduced benefits.

Contact Cigna's automated response unit for eligibility, claim, and payment status. Customer service representatives are available from 8 am to 8 pm EST Monday through Friday for questions about plan benefits, eligibility, and claim status.

1-800-542-4296

Send medical claims and bills to:
Cigna HealthCare
P.O. Box 188007
Chattanooga TN 37422-0007

All benefits for the Copay and Copay 500 options are administered by:
Connecticut General Life Insurance Company (CIGNA)

CIGNA HealthCare
