She described other available options to spur economic development and the benefits of providing an exemption verses credits for the business community. She concluded by stating that this is not a simple issue, but rather a huge policy change, that will require much study and work. There is much misinformation and confusion in the state and the Representatives will receive many calls on the issue. She and the DOR stands ready to help in any way to clarify issues that would enable the Legislature to determine what is best for the state.

#### CONTINUATION SHEET

MINUTES OF THE House Taxation Committee at 9:00 A.M. on January 19 in Room 519-S of the Capitol.

She turned her attention to the utility portion of the bill. She explained that the technology explosion had made tax codes very complex. Copies of the Constitution of the State of Kansas - Article 11.— Finance and Taxation were distributed (Attachment 7). Highlighted was (3) under Class 2 that related to Public utility tangible personal property including inventories thereof, except railroad personal property including inventories thereof, which shall be assessed at the average rate all other commercial and industrial property is assessed 33%.

She explained the Constitutional changes that had occurred in 1992 and 1998, as well as Chapter 79. – Taxation Article 5A.–Public Utilities. She summarized by saying that there had been an explosion of technology and Kansas has a Constitutional definition that is *frozen* regarding public utilities. She spoke of the ramifications this issue held for the telecommunications industry. The intent of the utility piece, currently being drafted, was to level the playing field for those companies.

The Vice Chairman thanked the Secretary and her department for their presentations over the past two days.

The meeting adjourned at 10:30 A.M. The next meeting is January 20, 2006.

Computer Software – Tangible vs. Intangible: The Kansas Supreme Court has held that software programs are taxable <u>if</u> they are operational programs, without which the computer cannot operate. These programs are considered an essential portion of the computer hardware and <u>are</u> taxable as *tangible* personal property in conjunction with the hardware. *On the other hand*, application programs, which are particularized instructions, are *intangible* property <u>not</u> subject to taxation in Kansas pursuant to K.S.A. 79-301 or K.S.A. 79-306.

- are programs the computer <u>cannot</u> operate without
- are tangible property and are subject to the personal property tax

<u>Application software programs</u> [e.g., Microsoft Office, Word or Excel, Lotus applications, Word Perfect, Acrobat Reader]:
