

MINUTES OF THE SENATE NATURAL RESOURCES COMMITTEE

The meeting was called to order by Chairman Carolyn McGinn at 8:30 a.m. on February 20, 2006, in Room 423-S of the Capitol.

All members were present.

Committee staff present:

Raney Gilliland, Kansas Legislative Research Department  
Emalene Correll, Kansas Legislative Research Department  
Lisa Montgomery, Revisor of Statutes Office  
Judy Holliday, Committee Secretary

Conferees appearing before the committee:

David Pope, Chief Engineer, Department of Water Resources  
Tracy Streeter, Kansas Water Office  
Brent Haden, Asst. Counsel, Kansas Livestock Assn.  
Mike Hayden, Secretary of Wildlife and Parks

Others attending:

See attached list.

Chairperson McGinn opened the meeting with discussion on **SB 459, Concerning persons who owe arrearages on child support, Secretary of Wildlife & Parks not issue license, permit, stamp or tag to person**. Chairperson McGinn told the Committee in the past there was no centralized system, and the bill has surfaced due to federal changes in child support laws. **Senator Francisco made a motion to move the bill out of Committee, seconded by Senator Taddiken. The motion carried.**

Chairperson McGinn called the Committee's attention to **SB 540, Requiring submission of breach inundation maps for dams**. She asked the Committee members to read the handout from Dan Riley, Chief Legal Counsel for the Kansas Department of Agriculture, regarding a legal opinion on liability when a state licensed dam fails (**Attachment 1**). Chairperson McGinn asked for discussion on the bill. Senator Francisco told the Committee that she understood the insertion of the word "may" rather than "shall" meant they would not be requiring maps on every structure, but only when the classification of the dam changed.

David Pope, Chief Engineer, Department of Water Resources, told the Committee the intent of the language was a tool for getting information out to the public regarding a breach in a dam. He stated that maps for all dams are not necessary as they are too expensive, but from now on would be used to make selective decisions regarding zoning for high-hazard dams.

Senator Ostmeyer asked if there had been a problem in asking for this bill, and Mr. Pope stated that the essence of the law was not that maps were required, but that they would be filed with the Register of Deeds in the county.

Senator Bruce asked about the cost of the maps. Mr. Pope stated that it could be around \$5,000 if there is development below the dam or if extensive surveying is needed. Senator Bruce asked about notification of county officials, and Mr. Pope told the Committee that in addition to zoning authorities, developers, and the registers of deeds, the landowners could be notified via registered mail that their properties are in a breach zone. Mr. Pope noted that the language could be inserted, "and such other officials as may be appropriate" to give the Department the latitude to work with various county officials.

Senator Bruce stated that he felt the statute is overly broad, and the use of "shall" is not correct because it does not provide for a dam owner applying for a downgrade of a dam to be covered.

Senator Huelskamp told the Committee he feels it premature to make any recommendations until the Committee hears from some registers of deeds and others with input on where the bill needs to go. Chairperson McGinn stated she felt it was a two-step process and that she would like to move it forward to the Senate floor for debate and perhaps amend it there.

CONTINUATION SHEET

MINUTES OF THE Senate Natural Resources Committee at 8:30 a.m. on February 20, 2006, in Room 423-S of the Capitol.

Tracy Streeter, Kansas Water Office, stated that the Shawnee County Register of Deeds was in attendance at the last Committee meeting and was comfortable with the notification process as long as agency personnel worked with them on the proper format in satisfying the intent of the legislation.

Brent Haden, Kansas Livestock Association, stated that the KLA's position on this bill is that if notification goes to the registers of deeds, it needs to go to the landowners and all that are affected, and that the language should be amended to that effect.

Senator Lee made a motion that the bill be blessed and worked on when there is more information received, seconded by Senator Ostmeyer. The motion carried.

Senator Janis Lee testified before the Committee on **SB 526, Concerning deer licenses** (Attachment 2). Senator Lee explained the bill came from Wildlife and Parks after the legislative session last year and without the input of the legislative committee that non-residents would be allowed to purchase non-antler permits over the counter regardless of whether they had been successful in the drawing for antlered tags. The new regulation states that "All deer hunters will be required to have deer permit that allows them to take an antlered deer before they may acquire an antlerless-only permit or game tag." The reason given to her by Wildlife and Parks was that when a wildlife officer found a group of non-resident hunters and only one had a non-resident antler permit, the officer could not be certain which hunter had shot the antler deer. Another reason given was that probably the best marksman in the group who shot the deer may not be the one with the non-resident antler permit. Senator Lee stated that she did not see the logic in the position Wildlife and Parks has taken on this issue.

Senator Lee stated that the statistics have shown that many of the antlerless permits were purchased by non-resident hunters who were not lucky in the drawing but were willing to spend \$320 plus the cost of a non-resident hunting license to hunt deer in Kansas. This impacts the Wildlife and Parks budget and the travel and tourism industry in Kansas.

Senator Lee told the Committee that as she drives across the state, her concern is not about the other drivers but about the abundant population of deer that she may encounter on the roads. She called the Committee's attention to the attachment to her testimony which showed the number of deer-related automobile accidents by county since 1973.

Senator Lee testified that she had talked to numerous Legislators and had not found anyone in favor of the change made last year, and the benefits of the old legislation far outweigh the new regulation with regard to the state's economy and in deer population management. Senator Lee told the Committee that she felt this bill should be tabled at this time.

Chairperson McGinn asked the Committee to entertain a motion that this bill be blessed. Senator Ostmeyer so moved, seconded by Senator Teichman, and the motion carried.

Mike Hayden, Secretary of Wildlife and Parks, testified in opposition to **SB 526**. Secretary Hayden told the Committee that deer poaching by non-residents was a continuing problem and employees of the agency were trying to stop illegitimate hunters. He testified that since the bill would reduce poachers, law enforcement likes the bill. He agreed with Senator Lee that it would be best to hold the bill over for additional discussion. Senator Lee asked Secretary Hayden how much deer poaching was done by Kansas residents, and Secretary Hayden replied that about 17% of poachers are residents.

Christopher Tymeson, Chief Legal Counsel for Wildlife and Parks, was asked about preference points, and he replied that there are preference points whereby a hunter would pay \$20, and if their name is not drawn then they get an extra chance in the drawing for the next year. Senator Lee stated that she felt the system was skewed by allowing this to occur.

With no further discussion to come before the Committee, the meeting adjourned at 9:25 a.m.

KATHLEEN SEBELIUS, GOVERNOR

## MEMO

TO: Members of Senate Natural Resources Committee

FROM: Dan Riley, Chief Legal Counsel, Kansas Department of Agriculture

DATE: February 20, 2006

ISSUE: If a state licensed dam fails in Kansas and results in loss of life or property and is found that improper hazard classification was responsible of the loss of life or property, is the state, KDA, or the chief engineer likely to be sued and found liable?

This question was asked after testimony on this bill last week. The specific question presented here has not been determined by the Kansas courts. However, in virtually all dam failures resulting in property damage, injury or death, litigation either civil or criminal or both follow.

Kansas Law (KSA 82a-301a) establishes that, "It is the intent of the legislature by this act to provide for the exclusive regulation of construction, operation and maintenance of all dams or other water obstructions by the state **to the extent required for the protection of public safety.**" KSA 82a-301a further directs that the chief engineer "**shall supervise the construction, modification , operation and maintenance of dams and other water obstructions for the protection of life and property**" KSA 82a-303a requires that the chief engineer establish standards to administer the provisions of the act.

The legislative intent seems clear that it is the **duty** of the chief engineer to develop and enforce standards that adequately protect the lives and property of the people of Kansas from the inherent danger associated with unregulated or substandard water structures. The 3 brief paragraphs of KSA 82a-301a and KSA 82a-303c, contain numerous references to "**public safety and protection**", "**protection of life and property**", "**safety of life**", and "**dangerous and threatening**" which also clearly indicate the legislature recognized the inherent danger of unregulated dams or inadequate safety standards.

A September 2002, opinion of Attorney General Stovall (2002)-40 opined that the state/DWR/chief engineer does not incur liability for damages to a downstream landowner when construction of a new bridge or stream obstruction permitted by the chief engineer results in a damage claim (erosion damage and flooding) due to the change in the stream flow. That opinion **did not** involve a situation in which an improper hazard classification was a factor in the damage claim. The opinion cited Johnson v County Commissioners of Pratt County, 295Kan305(1996) in which the county as owner of the bridge had a duty not to cause injury downstream, and was found to have been the cause of the downstream erosion and damage. DWR was named as a defendant to the suit, but later dismissed after it was determined that the agency had performed its statutory function in review of the permit to construct the bridge. The liability for the damages in the Pratt County case is premised upon tort liability when a duty owed and not fulfilled is found to be the causation for the damages. The finding was consistent with other Kansas court cases involving damages related to flood waters and stream obstructions.

The specific question presented here has not been determined by the Kansas courts. However, in virtually all dam failures resulting in property damage, injury or death, litigation either civil or criminal or both follow. Also in virtually all cases, the agency responsible for regulatory oversight of the failed dam is named as a party to the lawsuit. The agency performance and standards related to the dam is reviewed and if the agency is found to have performed its duty and enforced the appropriate standards liability for the damages is not placed upon the regulatory agency. If however, the agency fails to establish and enforce the appropriate standards, such as hazard classification adequately reflecting the threat to property and lives in the inundation area of the dam, the tort theory of negligent performance of the duty could arguably be applicable. If the standards for hazard classification were contrary to accepted engineering standards for dam safety or otherwise unreasonably inadequate to protect the public from threats to life and property, the state would likely be faced with a perilous claim of liability. It is a relative certainty that lengthy and costly litigation would be the result, even if ultimately the state is able to prevail in terms of liability, the litigation costs involved will be substantial.

**SB 526**  
**Senator Janis Lee Testimony**  
**February 20, 2006**

Senator McGinn and fellow members of the Senate Natural Resources Committee;

The following is the testimony I presented to the Wildlife and parks Commission this past summer in Wichita regarding the decision the Commission made regarding non-resident whitetail antlerless deer <sup>permits</sup> game tags. This decision was made in April of 2005 - after the regular session of the legislature and also without and discussion with or notice to any legislative committee.

The commission vote to instate this change was not a unanimous vote. The justification for the change given to the Commission is one that would NEVER has passed muster in the legislature. The reason given for the change in regulation was that when a Wildlife Officer came upon a group of hunter in the field many times the group would have only 1 antlered permit amongst the group with the rest of the group having antlerless game tags. The Officer could not be certain which amongst the group had actually shot the antlered deer. So therefore we should not allow non-resident hunters who did not have a antlered permit the opportunity to be out in the field. Frankly as long as the group has killed only one antlered deer it should be the concern if the individual who paid \$322.00 for that permit, but of very little consequence in the overall number of antlered deer taken.

Chairman Dykes, Commissioners Harrington, Lauber, Meyer, Wilson, Sebelius, and Johnson;

I come before you today to respectfully ask that you reconsider a change you instituted in April regarding the regulations for non-resident hunters and antlerless deer tags. After a series of discussions with various Wildlife and Parks employees I am aware of at least some the reasons that were given to justify the change from previous years. It would appear to the average Kansan that using the same logic when considering the merits of allowing non residents to drive in our state we simply would not allow non residents to drive in Kansas because we are certain that some non resident drivers exceed the speed limit.

*Senate Natural Resources*  
*2-20-06*  
*Attachment 2*

As I am certain that you know for the past several years non residents big game hunters were allowed to purchase antlerless tag over the counter regardless of whether they had been successful in the draw for antlered tags.

The new regulation which states that "All deer hunters will be required to have a deer permit that allows them to take an antlered deer before they may acquire an antlerless-only permit or game tag" is not the most appropriate policy for our state, for your agency, nor for the travel and tourism industry in Kansas.

Given the number of non resident antlerless tags sold last year as indicated from the information provided to me by Sec. Hayden, it would appear that the non resident antlerless permits were popular with both those who had been lucky in the draw and those who had not. I know from personal experience that many of the antlerless permits were purchased by non resident hunters who had participated in the non-resident antlered draw and were unsuccessful. These were individuals who were willing to spent \$320 plus the cost of a non resident hunting licence to hunt deer in Kansas.

By entering the drawing non resident "would be" hunters automatically forfeit \$20 to the state of Kansas and now your agency is telling these hunters who are not successful in the draw they can no longer come to Kansas to spend more money - some of which will go to help fund the Wildlife and Parks budget (which is in great need) - and some of which will go to the travel and tourism industry in Kansas.

As one who travels more than 40 to 45,000 miles every year in our state - mostly in the more rural areas, I absolutely assure you that we continue to have an abundance of deer in our state. Whenever I travel I worry very little about the other drivers I encounter... But I always worry a great deal about the deer (and sometimes turkeys) that I am more than likely to encounter.

As you can see from the documentation I received from Chris Tymeson there is still time to reverse the decision for the firearm season yet this year. I have discussed this issue with numerous legislators from both the House and Senate and have not found one that is in agreement with the change made in April, 2006. The benefits of the old regulation far out weigh the revised regulation in term of both dollars brought into our state and in terms of deer population management..

As a long serving member of the Senate Natural Resources Committee I am aware that the Dept. Of Wildlife and Parks is in the process of proposing a complete reworking of all of the regulations regarding deer hunting in our state and respectfully suggest that a change as the one the Commission made in April would more appropriately be proposed as a part of this package for further consideration by the legislature.

Thank you for your consideration and your service to the state of Kansas.

Senator Janis Lee

Senator Lee-

Here are the numbers you requested earlier this morning.

Thanks,  
Chris

**Sent:** Thursday, February 02, 2006 2:13 PM  
**Subject:** Senator Lee's request

In 2004, we sold 8,553 whitetail antlerless game tags to nonresidents and 1,101 whitetail antlerless permits.  
In 2005, we sold 4,082 whitetail antlerless game tags to noresidents and 350 whitetail antlerless permits

## Deer Permits and Tags

**ALL DEER APPLICATIONS (not sold over the counter) must be downloaded and mailed to the Pratt Operations Office.**

### 2006 Proposed Deer Season Dates

- early muzzleloader season: Sept. 9 through Sept. 22;
- youth and disability season: Sept. 23 through Sept. 24;
- archery season: Oct. 1 through Dec. 31;
- early firearms (DMU 19 only) season: Oct. 14 through Oct. 22;
- regular firearms season: Nov. 29 through Dec. 10;
- extended whitetail antlerless-only season: Jan. 1 through Jan. 7, 2007; and
- extended archery (DMU 19 only) season: Jan. 8 through Jan. 31, 2007.

In addition to the proposed season dates, the department is recommending that Fort Leavenworth be included in Deer Management Unit 19, which would provide additional hunting opportunity and the use of additional game tags to assist in control of deer populations on Fort Leavenworth, which is adjacent to the DMU 19 boundary.

Proposed application availability for all deer permits is July 1, 2006. Proposed application deadlines are May 31 for nonresidents, July 15 for limited draw resident permits, Dec. 30 for unlimited antlered permits, and Jan. 30, 2007 for unlimited antlerless permits.

### LICENSES & FEES

**General Resident Any Deer: \$37.15**  
 Can only be purchased at the [Pratt Operations Office](#).

All or portions of the state may have a limited competitive draw for permits.

Can only be purchased at the [Pratt Operations Office](#)

All or portions of the state may have a limited competitive draw

**2006 Resident Any Deer Applications MUST be recieved or postmarked by Jul**

**General Resident Whitetail Either Sex: \$32.15**

Can be purchased over the counter after July 1, 2006.

**Landowner/Tenant Whitetail Either Sex: \$17.15**

Can be purchased over the counter or [online](#) after July 1, 2006.

**Hunt-Own-Land: \$12.15**

**Nonresident Hunt-Own-Land: \$52.15**

Can be purchased at the [Pratt Operations Office](#) or at any [Region](#) or [Parks Office](#) a

**Nonresident Antlered or Any Deer: \$322.15**

All or portions of the state may have a limited competitive draw for permits.

**APPLY on line May 1 - May 31. 2006 applications MUST be recieved or postma 2006.**

**Draw Results will be mailed out mid-July.**

All deer hunters will be required to have a deer permit that allows them to take an a before they may acquire an antlerless-only permit or game tag. Antlerless permits a may be purchased on-line or from Kansas Department of Wildlife & Parks offices ai vendors after July 1, 2006. A proposed change for 2006 would allow hunters to pur or antlerless-only permit as the hunter's first or only tag after December, 30, 2006 fc season.

**Statewide Whitetail Antlerless Only Permit: \$32.15 - resident; \$17.15 Landowne nonresident**

Must have an **Antlered Deer Permit** before acquiring

Can be purchased over the counter or [online](#) after July 1, 2006.

**Whitetail Antlerless Deer Game Tags: \$12.15 - resident; \$22.15 - nonresident**

Must have an **Antlered Deer Permit** before acquiring

Not valid on Public lands and Only valid in units that allow Game Tags

Can be purchased over the counter or [online](#) after July, 2006.
