

2006 SESSION LAWS OF KANSAS

CHAPTER 1

HOUSE BILL No. 2398

AN ACT concerning architectural, engineering and land surveying services for state capital improvement projects; relating to convening of a negotiating committee; amending K.S.A. 75-1253 and 75-5804 and repealing the existing sections.

Be it enacted by the Legislature of the State of Kansas:

Section 1. K.S.A. 75-1253 is hereby amended to read as follows: 75-1253. (a) Whenever it becomes necessary in the judgment of the secretary of administration or in any case when the total cost of a project for the construction of a building or for major repairs or improvements to a building for a state agency is expected to exceed ~~\$500,000~~ \$750,000, the secretary of administration shall convene a negotiating committee. The state building advisory commission shall prepare a list of at least three and not more than five firms which are, in the opinion of the state building advisory commission, qualified to serve as project architect for the project. Such list shall be submitted to the negotiating committee, without any recommendation of preference or other recommendation. The secretary of administration shall meet with each negotiating committee and shall advise the negotiating committee but shall have no vote in the selection process or other matter upon which the committee may vote.

(b) The secretary of administration may combine two or more separate projects for the construction of buildings or for major repairs or improvements to buildings for state agencies, for the purpose of procuring architectural services for all such projects from a single firm. In each case, the combined projects shall be construed to be a single project for all purposes under the provisions of K.S.A. 75-1250 to 75-1267, inclusive, and amendments thereto.

(c) (1) This section shall not apply to any repetitive project with a standard plan that was originally designed by the secretary of administration or an agency architect pursuant to paragraphs (2) and (3) of subsection (a) of K.S.A. 75-1254, and amendments thereto. In such a case, the secretary of administration or the agency architect may provide architectural services for the repetitive project. The repetitive design exception authorized by this subsection shall not apply if the in-house architectural design section of the division of architectural services has a staff of greater than one chief architect and five designers.

(2) "Repetitive project" means a project which uses the same standard design as was used for a project constructed previously, including, but not limited to, sub-area shops and salt domes of the department of transportation and showers and toilet buildings of the department of wildlife and parks. The plans for the project may be modified as required for current codes, operational needs or cost control. The total floor area of the project may be increased by an area of not more than 25% of the floor area of the originally constructed project, except that not more than 25% of the linear feet of the exterior and interior walls may be moved for such increase. A project shall not be considered to be repetitive if it has been over four years between the substantial completion of the last project using the design plans and the appropriation of funds for the proposed project.

Sec. 2. K.S.A. 75-5804 is hereby amended to read as follows: 75-5804. (a) Whenever it becomes necessary in the judgment of the agency head of a state agency for which a project is proposed and, in any case where the total cost of such a proposed project is expected to exceed ~~\$250,000~~ \$500,000, the agency head shall convene a negotiating committee. Except as otherwise provided in subsection (b), the agency head shall submit the list of at least three and not more than five of the most highly qualified firms to the negotiating committee so convened, without any recommendation of preference or other recommendation.

(b) Whenever a negotiating committee is convened under this section

for a proposed project requiring engineering or land surveying services which concerns the construction of any building or facility or any major repairs or improvements to any building or facility, including but not limited, to any heating, cooling or power facility, for a state agency, the agency head for the state agency shall notify the state building advisory commission of the project and shall request a list of firms qualified to provide the engineering or land surveying services for the proposed project. Upon receipt of any such request the state building advisory commission shall evaluate the current statements of qualifications and performance data on file, together with those statements that may be submitted by other firms regarding the proposed project and other information developed and available to the state building advisory commission. The commission shall prepare a list of at least three and not more than five firms which, in the opinion of the state building advisory commission, are qualified to furnish the engineering or land surveying services for the proposed project. Each such list shall be submitted to the negotiating committee so convened without any recommendation of preference or other recommendation.

Sec. 3. K.S.A. 75-1253 and 75-5804 are hereby repealed.

Sec. 4. This act shall take effect and be in force from and after its publication in the statute book.

Approved February 10, 2006.
