New Sec. 2. In order to achieve uniform reporting of expenditures by school districts in school district budgets, districts shall report expenditures in the manner required by the state board.

New Sec. 3. (a) The nonproficient pupil weighting of each district shall be determined by the state board as follows:

(a) The at-risk pupil weighting of each district shall be determined by the state board by multiplying the number of at-risk pupils included in enrollment of the district by ~~.193~~ .278 *for school year 2006-2007, by .378 for school year 2007-2008 and by .456 for school year 2008-2009 and each school year thereafter*. The product is the at-risk pupil weighting of the district.

(b) Except as provided in subsection (d), of the amount a district receives from the at-risk pupil weighting, an amount produced by a pupil weighting of .01 shall be used by the district for achieving mastery of basic reading skills by completion of the third grade in accordance with standards and outcomes of mastery identified by the state board under K.S.A. 72-7534, and amendments thereto.

(c) A district shall include such information in its at-risk pupil assistance plan as the state board may require regarding the district's remediation strategies and the results thereof in achieving the third grade reading standards and outcomes of mastery identified by the state board. The reporting requirements shall include information documenting remediation strategies and improvement made by pupils who performed below the expected standard on the second grade diagnostic reading test prescribed by the state board.

(d) A district whose pupils substantially achieve the state board standards and outcomes of mastery of reading skills upon completion of third grade may be released, upon request, by the state board from the requirements of subsection (b).

(e) (1) *A district may expend amounts received from the at-risk pupil weighting to pay for the cost of providing full-day kindergarten to any pupil enrolled in the district and attending full-day kindergarten whether or not such pupil is an at-risk pupil.*

(2) *Nothing in this subsection shall be construed as requiring school districts to provide full-day kindergarten nor as requiring any pupil to*

attend full-day kindergarten.

(3) As used in this subsection (e):

(A) "District" means any school district which offers both full-day and half-day kindergarten.

(B) "Cost" means that portion of the cost of providing full-day kindergarten which is not paid by the state.

(f) A school district may expend amounts received from the at-risk weighting to pay the cost of providing preschool-aged at-risk, bilingual and vocational education programs and services.

Sec. 15. K.S.A. 2005 Supp. 72-6414a is hereby amended to read as follows: 72-6414a. (a) There is hereby established in every district a fund which shall be called the at-risk education fund, which fund shall consist of all moneys deposited therein or transferred thereto according to law. ~~Notwithstanding any other provision of law, all moneys received by the district from whatever source for at-risk assistance plans or programs shall be credited to the at-risk education fund established by this section.~~ The expenses of a district directly attributable to providing at-risk assistance or programs, *including assistance or programs provided to nonproficient pupils*, shall be paid from the at-risk education fund.

(b) Any balance remaining in the at-risk education fund at the end of the budget year shall be carried forward into the at-risk education fund for succeeding budget years. Such fund shall not be subject to the provisions of K.S.A. 79-2925 through 79-2937, and amendments thereto. In preparing the budget of such school district, the amounts credited to and the amount on hand in the at-risk education fund, and the amount expended therefrom shall be included in the annual budget for the information of the residents of the school district. Interest earned on the investment of moneys in any such fund shall be credited to that fund.

(c) *Each year the board of education of each school district shall prepare and submit to the state board a report on the at-risk program or assistance provided by the district. Such report shall include information specifying the number of at-risk pupils and nonproficient pupils who were served or provided assistance, the type of service provided, the research upon which the district relied in determining that a need for service or assistance existed, the results of providing such service or assistance and any other information required by the state board.*

(d) *In order to achieve uniform reporting of the number of at-risk pupils and nonproficient pupils provided service or assistance by school districts in at-risk programs, districts shall report the number of at-risk pupils and nonproficient pupils served or assisted in the manner required by the state board.*

Sec. 16. K.S.A. 2005 Supp. 72-6414b is hereby amended to read as follows: 72-6414b. (a) There is hereby established in every district a fund which shall be called the preschool-aged at-risk education fund, which fund shall consist of all moneys deposited therein or transferred thereto according to law. ~~Notwithstanding any other provision of law, all moneys received by the district from whatever source for preschool-aged at-risk assistance plans or programs shall be credited to the preschool-aged at-risk education fund established by this section.~~ The expenses of a district directly attributable to providing preschool-aged at-risk assistance or programs shall be paid from the preschool-aged at-risk education fund.

(b) *A school district may expend amounts received from the preschool-aged at-risk weighting to pay the cost of providing at-risk, bilingual and vocational education programs and services.*

~~(b)~~ (c) Any balance remaining in the preschool-aged at-risk education fund at the end of the budget year shall be carried forward into the preschool-aged at-risk education fund for succeeding budget years. Such fund shall not be subject to the provisions of K.S.A. 79-2925 through 79-2937, and amendments thereto. In preparing the budget of such school district, the amounts credited to and the amount on hand in the preschool-aged at-risk education fund, and the amount expended therefrom shall be included in the annual budget for the information of the residents of the school district. Interest earned on the investment of moneys in any such fund shall be credited to that fund.

(d) *Each year the board of education of each school district shall prepare and submit to the state board a report on the preschool-aged at-risk program or assistance provided by the district. Such report shall include information specifying the number of pupils who were served or provided assistance, the type of service provided, the research upon which the dis-*

*strict relied in determining that a need for service or assistance existed, the results of providing such service or assistance and any other information required by the state board.*

Sec. 17. K.S.A. 2005 Supp. 72-6415b is hereby amended to read as follows: 72-6415b. ~~(a) Except as provided by subsection (b),~~ School facilities weighting may be assigned to enrollment of a district only if the district has adopted a local option budget in an amount equal to ~~the state prescribed percentage for the school year~~ *at least 25% of the amount of the state financial aid determined for the district in the current school year.* School facilities weighting may be assigned to enrollment of the district only in the school year in which operation of a new school facility is commenced and in the next succeeding school year.

~~(b) School facilities weighting may be assigned to the enrollment of a district which adopted a local option budget in an amount which is not less than 25%, if the issuance of bonds to finance such facilities has been approved at an election held on or before June 30, 2005.~~

Sec. 18. K.S.A. 2005 Supp. 72-6426 is hereby amended to read as follows: 72-6426. (a) There is hereby established in every district a fund which shall be called the contingency reserve fund. Such fund shall consist of all moneys deposited therein or transferred thereto according to law. The fund shall be maintained for payment of expenses of a district attributable to financial contingencies as determined by the board. Except as otherwise provided in subsection (b), at no time in any school year shall the amount maintained in the fund exceed an amount equal to ~~4%~~ 6% of the general fund budget of the district for the school year.

(b) ~~(1)~~ In any school year, if the amount in the contingency reserve fund of a district is in excess of the amount authorized under subsection (a) to be maintained in the fund, and if such excess amount is the result of a reduction in the general fund budget of the district for the school year because of a decrease in enrollment, the district may maintain the excess amount in the fund until depletion of such excess amount by expenditure from the fund for the purposes thereof.

~~(2) Except as provided in paragraph (1) of this subsection, at no time in school year 2005-2006, shall the amount maintained in the fund exceed an amount equal to 6% of the general fund budget of the district for such school year.~~

Sec. 19. K.S.A. 2005 Supp. 72-6433 is hereby amended to read as follows: 72-6433. (a) (1) The board of any district may adopt a local option budget in each school year in an amount not to exceed an amount equal to the district prescribed percentage of the amount of state financial aid determined for the district in the school year. As used in this section, "district prescribed percentage" means:

(A) For any district that was authorized to adopt and that adopted a local option budget in the 1996-97 school year and to which the provisions of K.S.A. 72-6444, and amendments thereto, do not apply in the current school year, in the 2001-02 school year and in each school year thereafter, a percentage that is equal to 80% of the percentage specified in the resolution under which the district was authorized to adopt a local option budget in the 1996-97 school year;

(B) for any district that was authorized to adopt and that adopted a local option budget in the 1996-97 school year and to which the provisions of K.S.A. 72-6444, and amendments thereto, apply in the current school year, a percentage in the 2001-02 school year and each school year thereafter that is equal to the sum of the percentage of the amount of state financial aid the district was authorized to budget in the preceding school year and the percentage computed for the district by the state board under the provisions of K.S.A. 72-6444, and amendments thereto;

(C) for any district that was not authorized to adopt a local option budget in the 1996-97 school year and to which the provisions of K.S.A. 72-6444, and amendments thereto, apply in the current school year, a percentage in the 2001-02 school year and each school year thereafter that is equal to the sum of the percentage of the amount of state financial aid the district was authorized to budget in the preceding school year and the percentage computed for the district by the state board under the provisions of K.S.A. 72-6444, and amendments thereto;

(D) for any district to which the provisions of K.S.A. 72-6444, and amendments thereto, applied in the 1997-98 school year and to which the provisions of K.S.A. 72-6444, and amendments thereto, do not apply in the current school year because an increase in the amount budgeted

by the district in its local option budget as authorized by a resolution adopted under the provisions of subsection (b) causes the actual amount per pupil budgeted by the district in the preceding school year as determined for the district under provision (1) of subsection (a) of K.S.A. 72-6444, and amendments thereto, to equal or exceed the average amount per pupil of general fund budgets and local option budgets computed by the state board under whichever of the provisions (7) through (10) of subsection (a) of K.S.A. 72-6444, and amendments thereto, is applicable to the district's enrollment group, a percentage that is equal to the percentage of the amount of state financial aid the district was authorized to budget in the preceding school year if the resolution authorized the district to increase its local option budget on a continuous and permanent basis. If the resolution that authorized the district to increase its local option budget specified a definite period of time for which the district would retain its authority to increase the local option budget and such authority lapses at the conclusion of such period and is not renewed, the term district prescribed percentage means a percentage that is equal to the percentage of the amount of state financial aid the district was authorized to budget in the preceding school year less the percentage of increase that was authorized by the resolution unless the loss of the percentage of increase that was authorized by the resolution would cause the actual amount per pupil budgeted by the district to be less than the average amount per pupil of general fund budgets and local option budgets computed by the state board under whichever of the provisions (7) through (10) of subsection (a) of K.S.A. 72-6444, and amendments thereto, is applicable to the district's enrollment group, in which case, the term district prescribed percentage means a percentage that is equal to the percentage of the amount of state financial aid the district was authorized to budget in the preceding school year less the percentage of increase that was authorized by the resolution plus a percentage which shall be computed for the district by the state board in accordance with the provisions of K.S.A. 72-6444, and amendments thereto, except that, in making the determination of the actual amount per pupil budgeted by the district in the preceding school year, the state board shall exclude the percentage of increase that was authorized by the resolution.

(2) (A) Subject to the provisions of subpart (B), the adoption of a local option budget under authority of this subsection shall require a majority vote of the members of the board and shall require no other procedure, authorization or approval.

(B) In lieu of utilizing the authority granted by subpart (A) for adoption of a local option budget, the board of a district may pass a resolution authorizing adoption of such a budget and publish such resolution once in a newspaper having general circulation in the district. The resolution shall be published in substantial compliance with the following form:

Unified School District No. \_\_\_\_\_, \_\_\_\_\_ County, Kansas.

RESOLUTION

Be It Resolved that:

The board of education of the above-named school district shall be authorized to adopt a local option budget in each school year for a period of time not to exceed \_\_\_\_\_ years in an amount not to exceed \_\_\_\_\_% of the amount of state financial aid determined for the current school year. The local option budget authorized by this resolution may be adopted, unless a petition in opposition to the same, signed by not less than 5% of the qualified electors of the school district, is filed with the county election officer of the home county of the school district within 30 days after publication of this resolution. In the event a petition is filed, the county election officer shall submit the question of whether adoption of the local option budget shall be authorized to the electors of the school district at an election called for the purpose or at the next general election, as is specified by the board of education of the school district.

CERTIFICATE

This is to certify that the above resolution was duly adopted by the board of education of Unified School District No. \_\_\_\_\_, \_\_\_\_\_ County, Kansas, on the \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_  
Clerk of the board of education.

All of the blanks in the resolution shall be appropriately filled. The blank preceding the word "years" shall be filled with a specific number, and the blank preceding the percentage symbol shall be filled with a specific number. No word shall be inserted in either of the blanks. The percentage specified in the resolution shall not exceed the district prescribed percentage. The resolution shall be published once in a newspaper having general circulation in the school district. If no petition as

specified above is filed in accordance with the provisions of the resolution, the board may adopt a local option budget. If a petition is filed as provided in the resolution, the board may notify the county election officer of the date of an election to be held to submit the question of whether adoption of a local option budget shall be authorized. If the board fails to notify the county election officer within 30 days after a petition is filed, the resolution shall be deemed abandoned and no like resolution shall be adopted by the board within the nine months following publication of the resolution. If any district is authorized to adopt a local option budget under this subpart, but the board of such district chooses, in any school year, not to adopt such a budget or chooses, in any school year, to adopt such budget in an amount less than the amount of the district prescribed percentage of the amount of state financial aid in any school year, such board of education may so choose. If the board of any district refrains from adopting a local option budget in any one or more school years or refrains from budgeting the total amount authorized for any one or more school years, the authority of such district to adopt a local option budget shall not be extended by such refrainment beyond the period specified in the resolution authorizing adoption of such budget, nor shall the amount authorized to be budgeted in any succeeding school year be increased by such refrainment. Whenever an initial resolution has been adopted under this subpart, and such resolution specified a lesser percentage than the district prescribed percentage, the board of the district may adopt one or more subsequent resolutions under the same procedure as provided for the initial resolution and subject to the same conditions, and shall be authorized to increase the percentage as specified in any such subsequent resolution for the remainder of the period of time specified in the initial resolution. Any percentage specified in a subsequent resolution or in subsequent resolutions shall be limited so that the sum of the percentage authorized in the initial resolution and the percentage authorized in the subsequent resolution or in subsequent resolutions is not in excess of the district prescribed percentage in any school year. The board of any district that has been authorized to adopt a local option budget under this subpart and levied a tax under authority of K.S.A. 72-6435, and amendments thereto, may initiate, at any time after the final levy is certified to the county clerk under any current authorization, procedures to renew its authority to adopt a local option budget in the manner specified in this subpart or may utilize the authority granted by subpart (A). As used in this subpart, the term "authorized to adopt a local option budget" means that a district has adopted a resolution under this subpart, has published the same, and either that the resolution was not protested or that it was protested and an election was held by which the adoption of a local option budget was approved.

(3) The provisions of this subsection are subject to the provisions of subsections (b) and (c).

~~(b) The provisions of this subsection (b) shall be subject to the provisions of K.S.A. 72-6433a, and amendments thereto.~~

(1) The board of any district that adopts a local option budget under subsection (a) may increase the amount of such budget in each school year in an amount which together with the percentage of the amount of state financial aid budgeted under subsection (a) does not exceed the state prescribed percentage of the amount of state financial aid determined for the district in the school year if the board of the district determines that an increase in such budget would be in the best interests of the district.

(2) No district may increase a local option budget under authority of this subsection until: (A) A resolution authorizing such an increase is passed by the board and published once in a newspaper having general circulation in the district; or (B) the question of whether the board shall be authorized to increase the local option budget has been submitted to and approved by the qualified electors of the district at a special election called for the purpose. Any such election shall be noticed, called and held in the manner provided by K.S.A. 10-120, and amendments thereto, for the noticing, calling and holding of elections upon the question of issuing bonds under the general bond law. The notice of such election shall state the purpose for and time of the election, and the ballot shall be designed with the question of whether the board of education of the district shall be continuously and permanently authorized to increase the local option budget of the district in each school year by a percentage which together with the percentage of the amount of state financial aid budgeted under

subsection (a) does not exceed the state prescribed percentage in any school year. If a majority of the qualified electors voting at the election approve authorization of the board to increase the local option budget, the board shall have such authority. If a majority of the qualified electors voting at the election are opposed to authorization of the board to increase the local option budget, the board shall not have such authority and no like question shall be submitted to the qualified electors of the district within the nine months following the election.

(3) (A) Subject to the provisions of subpart (B), a resolution authorizing an increase in the local option budget of a district shall state that the board of education of the district shall be authorized to increase the local option budget of the district in each school year in an amount not to exceed \_\_\_\_\_% of the amount of state financial aid determined for the current school year and that the percentage of increase may be reduced so that the sum of the percentage of the amount of state financial aid budgeted under subsection (a) and the percentage of increase specified in the resolution does not exceed the state prescribed percentage in any school year. The blank preceding the percentage symbol shall be filled with a specific number. No word shall be inserted in the blank. The resolution shall specify a definite period of time for which the board shall be authorized to increase the local option budget and such period of time shall be expressed by the specific number of school years for which the board shall retain its authority to increase the local option budget. No word shall be used to express the number of years for which the board shall be authorized to increase the local option budget.

(B) In lieu of the requirements of subpart (A) and at the discretion of the board, a resolution authorizing an increase in the local option budget of a district may state that the board of education of the district shall be continuously and permanently authorized to increase the local option budget of the district in each school year by a percentage which together with the percentage of the amount of state financial aid budgeted under subsection (a) does not exceed the state prescribed percentage in any school year.

(4) A resolution authorizing an increase in the local option budget of a district shall state that the amount of the local option budget may be increased as authorized by the resolution unless a petition in opposition to such increase, signed by not less than 5% of the qualified electors of the school district, is filed with the county election officer of the home county of the school district within 30 days after publication. If no petition is filed in accordance with the provisions of the resolution, the board is authorized to increase the local option budget of the district. If a petition is filed as provided in the resolution, the board may notify the county election officer of the date of an election to be held to submit the question of whether the board shall be authorized to increase the local option budget of the district. If the board fails to notify the county election officer within 30 days after a petition is filed, the resolution shall be deemed abandoned and no like resolution shall be adopted by the board within the nine months following publication of the resolution.

(5) The requirements of provision (2) do not apply to any district that is continuously and permanently authorized to increase the local option budget of the district. An increase in the amount of a local option budget by such a district shall require a majority vote of the members of the board and shall require no other procedure, authorization or approval.

(6) If any district is authorized to increase a local option budget, but the board of such district chooses, in any school year, not to adopt or increase such budget or chooses, in any school year, to adopt or increase such budget in an amount less than the amount authorized, such board of education may so choose. If the board of any district refrains from adopting or increasing a local option budget in any one or more school years or refrains from budgeting the total amount authorized for any one or more school years, the amount authorized to be budgeted in any succeeding school year shall not be increased by such refrainment, nor shall the authority of the district to increase its local option budget be extended by such refrainment beyond the period of time specified in the resolution authorizing an increase in the local option budget if the resolution specified such a period of time.

(7) Whenever an initial resolution has been adopted under this subsection, and such resolution specified a percentage which together with the percentage of the amount of state financial aid budgeted under sub-

section (a) is less than the state prescribed percentage, the board of the district may adopt one or more subsequent resolutions under the same procedure as provided for the initial resolution and shall be authorized to increase the percentage as specified in any such subsequent resolution. If the initial resolution specified a definite period of time for which the district is authorized to increase its local option budget, the authority to increase such budget by the percentage specified in any subsequent resolution shall be limited to the remainder of the period of time specified in the initial resolution. Any percentage specified in a subsequent resolution or in subsequent resolutions shall be limited so that the sum of the percentage authorized in the initial resolution and the percentage authorized in the subsequent resolution or in subsequent resolutions together with the percentage of the amount of state financial aid budgeted under subsection (a) is not in excess of the state prescribed percentage in any school year.

(8) (A) Subject to the provisions of subpart (B), the board of any district that has adopted a local option budget under subsection (a), has been authorized to increase such budget under a resolution which specified a definite period of time for retention of such authorization, and has levied a tax under authority of K.S.A. 72-6435, and amendments thereto, may initiate, at any time after the final levy is certified to the county clerk under any current authorization, procedures to renew the authority to increase the local option budget subject to the conditions and in the manner specified in provisions (2) and (3) of this subsection.

(B) The provisions of subpart (A) do not apply to the board of any district that is continuously and permanently authorized to increase the local option budget of the district.

(9) As used in this subsection:

(A) "Authorized to increase a local option budget" means either that a district has held a special election under provision (2)(B) by which authority of the board to increase a local option budget was approved, or that a district has adopted a resolution under provision (2) (A), has published the same, and either that the resolution was not protested or that it was protested and an election was held by which the authority of the board to increase a local option budget was approved.

(B) "State prescribed percentage" means ~~27% for school year 2005-2006, 29%~~ 30% for school year 2006-2007 and ~~30%~~ 31% for school year 2007-2008 and each school year thereafter.

(c) To the extent the provisions of the foregoing subsections conflict with this subsection, this subsection shall control. Any district that is authorized to adopt a local option budget in the 1997-98 school year under a resolution which authorized the adoption of such budget in accordance with the provisions of this section prior to its amendment by this act may continue to operate under such resolution for the period of time specified in the resolution or may abandon the resolution and operate under the provisions of this section as amended by this act. Any such district shall operate under the provisions of this section as amended by this act after the period of time specified in the resolution has expired.

(d) (1) There is hereby established in every district that adopts a local option budget a fund which shall be called the supplemental general fund. The fund shall consist of all amounts deposited therein or credited thereto according to law.

(2) Subject to the limitation imposed under provision (3), *and subsection (e) of K.S.A. 72-6434, and amendments thereto*, amounts in the supplemental general fund may be expended for any purpose for which expenditures from the general fund are authorized or may be transferred to the general fund of the district or to any program weighted fund or categorical fund of the district. *Amounts in the supplemental general fund attributable to any percentage over 25% of state financial aid determined for the current school year may be transferred to the capital improvements fund of the district and the capital outlay fund of the district if such transfers are specified in the resolution authorizing the adoption of a local option budget in excess of 25%.*

(3) Amounts in the supplemental general fund may not be expended nor transferred to the general fund of the district for the purpose of making payments under any lease-purchase agreement involving the acquisition of land or buildings which is entered into pursuant to the provisions of K.S.A. 72-8225, and amendments thereto.

(4) Any unexpended and unencumbered cash balance remaining in the

supplemental general fund of a district at the conclusion of any school year in which a local option budget is adopted shall be disposed of as provided in this subsection. If the district did not receive supplemental general state aid in the school year and the board of the district determines that it will be necessary to adopt a local option budget in the ensuing school year, the total amount of the cash balance remaining in the supplemental general fund shall be maintained in such fund or transferred to the general fund of the district. If the board of such a district determines that it will not be necessary to adopt a local option budget in the ensuing school year, the total amount of the cash balance remaining in the supplemental general fund shall be transferred to the general fund of the district. If the district received supplemental general state aid in the school year, transferred or expended the entire amount budgeted in the local option budget for the school year, and determines that it will be necessary to adopt a local option budget in the ensuing school year, the total amount of the cash balance remaining in the supplemental general fund shall be maintained in such fund or transferred to the general fund of the district. If such a district determines that it will not be necessary to adopt a local option budget in the ensuing school year, the total amount of the cash balance remaining in the supplemental general fund shall be transferred to the general fund of the district. If the district received supplemental general state aid in the school year, did not transfer or expend the entire amount budgeted in the local option budget for the school year, and determines that it will not be necessary to adopt a local option budget in the ensuing school year, the state board shall determine the ratio of the amount of supplemental general state aid received to the amount of the local option budget of the district for the school year and multiply the total amount of the cash balance remaining in the supplemental general fund by such ratio. An amount equal to the amount of the product shall be transferred to the general fund of the district. The amount remaining in the supplemental general fund may be maintained in such fund or transferred to the general fund of the district.

(e) To the extent the provisions of the foregoing section conflict with this subsection, this subsection shall control. ~~Any district that adopted or was authorized to adopt a local option budget for school year 2004-2005 in an amount equal to 25% may adopt a local option budget for school year 2005-2006 in an amount not to exceed the state prescribed percentage in effect on July 1, 2005, by adoption of a resolution. Such resolution shall not be subject to the provisions of this section relating to publication, protest or election. Any resolution authorizing the adoption of a local option budget in excess of 30% of the state financial aid of the district in the current school year shall not become effective unless such resolution has been submitted to and approved by a majority of the qualified electors of the school district voting at an election called and held thereon. Such resolution shall specify how the moneys will be expended and shall be published in the manner provided by this section. The election shall be called and held in the manner provided by this section.~~

Sec. 20. K.S.A. 2005 Supp. 72-6434 is hereby amended to read as follows: 72-6434. (a) In each school year, each district that has adopted a local option budget is eligible for entitlement to an amount of supplemental general state aid. Entitlement of a district to supplemental general state aid shall be determined by the state board as provided in this subsection. The state board shall:

- (1) Determine the amount of the assessed valuation per pupil in the preceding school year of each district in the state;
- (2) rank the districts from low to high on the basis of the amounts of assessed valuation per pupil determined under (1);
- (3) identify the amount of the assessed valuation per pupil located at the 81.2 percentile of the amounts ranked under (2);
- (4) divide the assessed valuation per pupil of the district in the preceding school year by the amount identified under (3);
- (5) subtract the ratio obtained under (4) from 1.0. If the resulting ratio equals or exceeds 1.0, the eligibility of the district for entitlement to

supplemental general state aid shall lapse. If the resulting ratio is less than 1.0, the district is entitled to receive supplemental general state aid in an amount which shall be determined by the state board by multiplying the amount of the local option budget of the district by such ratio. The product is the amount of supplemental general state aid the district is entitled to receive for the school year.

(b) If the amount of appropriations for supplemental general state aid is less than the amount each district is entitled to receive for the school year, the state board shall prorate the amount appropriated among the districts in proportion to the amount each district is entitled to receive.

(c) The state board shall prescribe the dates upon which the distribution of payments of supplemental general state aid to school districts shall be due. Payments of supplemental general state aid shall be distributed to districts on the dates prescribed by the state board. The state board shall certify to the director of accounts and reports the amount due each district, and the director of accounts and reports shall draw a warrant on the state treasurer payable to the treasurer of the district. Upon receipt of the warrant, the treasurer of the district shall credit the amount thereof to the supplemental general fund of the district to be used for the purposes of such fund.

(d) If any amount of supplemental general state aid that is due to be paid during the month of June of a school year pursuant to the other provisions of this section is not paid on or before June 30 of such school year, then such payment shall be paid on or after the ensuing July 1, as soon as moneys are available therefor. Any payment of supplemental general state aid that is due to be paid during the month of June of a school year and that is paid to school districts on or after the ensuing July 1 shall be recorded and accounted for by school districts as a receipt for the school year ending on the preceding June 30.

(e) (1) *Except as provided by paragraph (2), moneys received as supplemental general state aid shall be used to meet the requirements under the school performance accreditation system adopted by the state board, to provide programs and services required by law and to improve student performance.*

(2) *Amounts of supplemental general state aid attributable to any percentage over 25% of state financial aid determined for the current school year may be transferred to the capital improvements fund of the district and the capital outlay fund of the district if such transfers are specified in the resolution authorizing the adoption of a local option budget in excess of 25%.*

(f) *For the purposes of determining the total amount of state moneys paid to school districts, all moneys appropriated as supplemental general state aid shall be deemed to be state moneys for educational and support services for school districts.*

Sec. 21. K.S.A. 72-6435 is hereby amended to read as follows: 72-6435.

The state board of tax appeals may authorize the district to make a levy which will produce an amount that is not greater than the difference between the amount of costs directly attributable to commencing operation of one or more new school facilities and the amount that is financed from any other source provided by law for such purpose, including any amount attributable to assignment of school facilities weighting to enrollment of the district for each school year in which the district is eligible for such weighting. If the district is not eligible, or will be ineligible, for school facilities weighting in any one or more years during the two-year period for which the district is authorized to levy a tax under this subsection, the state board of tax appeals may authorize the district to make a levy, in such year or years of ineligibility, which will produce an amount that is not greater than the actual amount of costs attributable to commencing operation of the facility or facilities.

(2) The state board of tax appeals shall certify to the state board of education the amount authorized to be produced by the levy of a tax under subsection (a).

(3) The state board of tax appeals may adopt rules and regulations necessary to properly effectuate the provisions of this subsection, including rules and regulations relating to the evidence required in support of

a district's claim that the costs attributable to commencing operation of one or more new school facilities are in excess of the amount that is financed from any other source provided by law for such purpose.

(b) The board of any district that has levied an ad valorem tax on the taxable tangible property of the district each year for a period of two years under authority of subsection (a) may continue to levy such tax under authority of this subsection each year for an additional period of time not to exceed three years in an amount not to exceed the amount computed by the state board of education as provided in this subsection if the board of the district determines that the costs attributable to commencing operation of one or more new school facilities are significantly greater than the costs attributable to the operation of other school facilities in the district. The tax authorized under this subsection may be levied at a rate which will produce an amount that is not greater than the amount computed by the state board of education as provided in this subsection. In computing such amount, the state board shall (1) determine the amount produced by the tax levied by the district under authority of subsection (a) in the second year for which such tax was levied and add to such amount the amount of general state aid directly attributable to school facilities weighting that was received by the district in the same year, and (2) compute 75% of the amount of the sum obtained under (1), which computed amount is the amount the district may levy in the first year of the three-year period for which the district may levy a tax under authority of this subsection, and (3) compute 50% of the amount of the sum obtained under (1), which computed amount is the amount the district may levy in the second year of the three-year period for which the district may levy a tax under authority of this subsection, and (4) compute 25% of the amount of the sum obtained under (1), which computed amount is the amount the district may levy in the third year of the three-year period for which the district may levy a tax under authority of this subsection.

(c) The proceeds from the tax levied by a district under authority of this section shall be remitted to the state treasurer in accordance with the provisions of K.S.A. 75-4215, and amendments thereto. (b) divide the remainder obtained under (a) by the amount determined under (c) of K.S.A. 72-6412, and amendments thereto, and multiply the quotient by the enrollment of the district in the current school year. The product is the ~~correlation~~ *high enrollment* weighting of the district.

If there is a percentage decrease or no change in the CPI (urban) during the preceding fiscal year, the amount of state aid, excluding state aid for special education and related services, shall be no less than the amount of such aid in the preceding fiscal year.

(b) *The increases in the amount of state aid attributable to the new weightings created by this act, the increases in the existing weightings and the increases in the amount of base state aid per pupil shall be deemed to satisfy the requirements of subsection (a) for school years 2007-2008 and 2008-2009.*

(3) prepare a schedule of dollar amounts using the amount of the median AVPP of all school districts as the point of beginning. The schedule of dollar amounts shall range upward in equal \$1,000 intervals from the point of beginning to and including an amount that is equal to the amount of the AVPP of the school district with the highest AVPP of all school districts and shall range downward in equal \$1,000 intervals from the

point of beginning to and including an amount that is equal to the amount of the AVPP of the school district with the lowest AVPP of all school districts;

(4) determine a state aid percentage factor for each school district by assigning a state aid computation percentage to the amount of the median AVPP shown on the schedule, decreasing the state aid computation percentage assigned to the amount of the median AVPP by one percentage point for each \$1,000 interval above the amount of the median AVPP, and increasing the state aid computation percentage assigned to the amount of the median AVPP by one percentage point for each \$1,000 interval below the amount of the median AVPP. The state aid percentage factor of a school district is the percentage assigned to the schedule amount that is equal to the amount of the AVPP of the school district, except that the state aid percentage factor of a school district shall not exceed 100%. (6) multiply each of the amounts computed under (5) by the applicable state aid percentage factor; and

(7) add the products obtained under (6). The amount of the sum is the amount of payment the school district is entitled to receive from the school district capital improvements fund in the school year.

(c) The state board of education shall certify to the director of accounts and reports the entitlements of school districts determined under the provisions of subsection (b), and an amount equal thereto shall be transferred by the director from the state general fund to the school district capital improvements fund for distribution to school districts. (d) Payments from the school district capital improvements fund shall be distributed to school districts at times determined by the state board of education to be necessary to assist school districts in making scheduled payments pursuant to contractual bond obligations. The state board of education shall certify to the director of accounts and reports the amount due each school district entitled to payment from the fund, and the director of accounts and reports shall draw a warrant on the state treasurer payable to the treasurer of the school district.
