Appropriations

**Brief\***

HB 2764, as amended changes the way the Department on Aging (DOA) allocates funds to area agencies on aging. The bill changes to allow the DOA to allocate funds through contract agreements, as opposed to grants based on an accepted program plan. The set match rate for funding is eliminated, and the use of a formula and match rates adopted by the Secretary in the DOA rules and regulations is added. A maintenance of effort requirement is set at the FY 2002 level, with a set match rate. Finally, the application of a sliding fee scale to all clients is added.

**Background**

HB 2764 was requested by the Governor. DOA spoke in support of the bill. No one spoke in opposition to the bill. Amendments were added to the bill by the Committee to Section 2(a)(3) to limit matches from county funds to ad valorem property tax levy funds, and allowing distribution of funds from a single entity responsible for ad valorem property tax levies for service for the aging designated by the local units of government, in addition to local units of government.
