

House Elections Committee
HB 2518
Opponent Testimony
February 5, 2024

Dear Members of the House Elections Committee,

I strongly urge your opposition to HB 2518. In Kansas you are allowed to drop off ten ballots at a drop box. There is no one watching and there is no chain of custody. Now HB 2518 wants to make drop boxes permanent. We shouldn't even have them. Voting should be very important to someone. Voting should be in-person at a voter's precinct on election day only. Make election a Kansas holiday instead.

I would appreciate your opposition to HB 2518.

Sincerely,
Hannah Mingucci
