Senate Committee on Agriculture and Natural Resources

SB 417, Proponent, written testimony only

Respected Chair Peck and Committee Members,

I am a proponent of SB 417 for several reasons.

1. Only our elected officials should have the power to make official decisions that affect Kansans
2. The power of exercising eminent domain needs to be considered very seriously, and again, only by those who can be held accountable at the ballot box.

Thank you for looking out for Kansans by wanting only elected officials to make these important decisions.

Most sincerely,

Jill O'Connor
