

This is my testimony in favor of SCR 1610

Honorable Senator Tyson and Committee Members:

I would like to enter this as my testimony in support of SCR 1610. It is vital that we ensure there are stops to the amount of property taxes that our citizens can be expected to pay. We are literally in this state of Kansas taxing people out of their homes. A fundamental principle of this great nation of ours is the principle of PRIVATE PROPERTY RIGHTS and ENJOYMENT thereof. Outrageous taxing of property is a death knell to this fundamental right. Additionally the huge increases in property taxes forces many landlords to raise rents appropriately which is a direct influence in people not being able to afford rent payments and ultimate homelessness. We must enact stop gap measures against this NOW!

Please advance and vote YES for SCR 1610.

Thank you,
Robin Jackson, Ph.D.
Hutchinson, Kansas
