

Testimony on SB 210
Federal and State Committee
Proponent

Thank you chair and committee members for taking the time to consider a very important bill that is now before you. I appreciate the sacrifices you are making in your personal life to represent us, the people of Kansas, on the future integrity of our elections.

I am a strong proponent of SB 210 because those who vote in any election should be as informed as possible on the candidate they are considering to hold office . The more educated we as voters are, the better prepared we are to have confidence in those who will make decisions on our behalf.

We should all realize there are stark differences in the platforms of the parties in Kansas and people almost always choose the party that best aligns with their belief system. That being said, it is difficult enough to know who the candidates are before an election but at least the party they belong to is a strong clue as to where their values lie and what their thoughts are on certain political positions that are important to all of us.

I hope you will consider how important this is and will vote yes to pass SB210 on to the floor for debate.

Thanks again for considering this

Peggy Mast
