Proponent of SB 366

Chairman Mike Thompson and Respected Committee Members,

I am a proponent of this bill, SB 366, because we need to make sure Fred Sherman never pulls this stunt again. This proves once a man has power, he'll use it over and over, until someone stops him. Actually, I don't believe Fred Sherman really had this power but he did, he exercised it, was not stopped (actually got approval the first time, I think), and did it again. Johnson County did not need preprinted, pre-populated advance voting applications sent to every Johnson County resident the first time, in spite of the pandemic, nor did we need it this time. This move by Fred Sherman risked our privacy and wasted more of the taxpayers' money. He needs to lose his job over this, but for now, SB366 will stop him from ever doing it again. Thank you for writing and sponsoring this bill!

We The People are very grateful to Chairman Thompson for bringing this bill and holding this hearing. He and others are patriots and are upholding their Oaths of Office to uphold the Kansas Constitution and protect the citizens of Kansas.

Please pass this bill.

Most sincerely,

Jill O'Connor

Precinct Committee Woman, Overland Park, 5-18
