

Senate Public Health and Welfare
SB #5
Proponent Testimony
02/13/2023

Dear Honorable Chairwoman Senator Gossage and Members of the Committee,

I strongly urge your support to SB #5.

This issue should not be a partisan issue. It is imperative that women seeking an abortion via chemical medication have access to an in person doctor in order to receive safe and effective care. To prescribe a drug that induces the death and expulsion of a baby in the uterus can cause significant health issues and needs to be done safely under the care of a physician in person.

I urge you to support SB #5.

Sincerely,
Nicole Vannicola
Douglas County Precinct 52 Committeewoman
