

## **Military Servicemember and Spouse Occupational Licensing Fee Waiver; HB 2745**

**HB 2745** amends law on reciprocal occupational licensing for military servicemembers and military spouses to limit its application to only those residing in Kansas or planning to reside in Kansas due to the assigned military station of the individual or their spouse.

The bill also exempts such applicants from all fees for applications for any such credential assessed by the licensing body, including criminal background report fees, whether assessed by the licensing body or another agency, including initial applications and any fees associated with renewal of any credential. The bill specifies that applications for credentials by such applicants are to be considered complete applications without the submission of any such fees.
