Prayer by guest chaplain, Father Mike Leiker, St. Peter and Paul Catholic Church, Clay Center, and guest of Rep. Bloom:

Heavenly Father,

We thank you for bringing us to this day, and the many blessings you bestow upon us. We ask that you send your spirit upon these representatives of the great state of Kansas and inspire them to work for the people they represent.

We also ask that you bless our fields, crops, and livestock with good weather that will produce much fruit to share with the rest of the world.

Show your love and mercy to those struggling to make ends meet, those around the world who have experienced tragedy from fires, natural disasters, the recent air accidents, and those suffering from every disease and illness. Bless their care givers and the relief workers who are instruments of peace and comfort.

Bless our military, law enforcement and first responders, that they may return safely home.

We pause in silence to add our own personal intentions...

We ask all this through Christ our Lord.

The Pledge of Allegiance was said by Rep. Pickert.

## **INTRODUCTION OF GUESTS**

There being no objection, the following remarks of Rep. Poskin are spread upon the Journal:

I just learned an awe-inspiring fact. By the time we finish this legislative biennium, nearly 70,000 babies will have been born in Kansas. Those littlest Kansans will be in the midst of the most important period of development of their lives. This is a unique time in which the brain is being wired at an astonishing rate of nearly one million new neural connections per second. This is why, as a mom of seven, I've been so active in the Early Childhood caucus since the day I stepped into this building.

Widely accepted findings from decades of brain science research provide compelling evidence that relationships with caregivers, experiences early in life, and environmental exposure significantly influence the well-being of children.

The brains we develop as young children are the same brains we take with us into adulthood. What happens to us as children has consequences for physical and mental health, future relationships, and our ability to work and engage with our communities.

These facts guide the work of thousands of child care providers, home visitors, health care providers, parents, and other early childhood professionals who care for Kansas children. And today, nearly 200 of them are in the Statehouse for Early Childhood Advocacy Day. Up here with me today are:

- Jen Pishny, Kansas Child Care Training Opportunities
- Annell Harmon, Harmon & Harmon Family Child Care
- Angie Carnes, Child Care Provider Coalition of Kansas
- Heather Schrotberger, Kansas Head Start Association
- Gail Cozadd, Kansas Children’s Service League
- Paula Neth, The Family Conservancy
- Christi Smith, Child Care Aware of Kansas
- Tanya Bullock, Child Start

All are members of the Partnership for Early Success, a coalition of early childhood organizations, local chambers of commerce, and other advocates working to strengthen the early childhood system in Kansas.

They are here to make sure that we understand how important it is to invest in young children; to invest in child care providers; to invest in evidence-based home visiting programs; to invest in parents. They hope you will feel their passion for the work they do every day, despite low wages and long hours.

Many of you will have the opportunity to meet with these advocates one-on-one today. But in case you don’t, they wanted me to remind you of some simple facts about the science of early childhood development:

1. Just like a house, our brains require a solid foundation and wiring to support all future development and learning. Genes and life experiences shape the wiring of the brain—which means there isn’t a question anymore of whether it’s “nature vs. nurture”—it’s both.

2. Responsive, caring, and supportive relationships between a child and her caregivers are essential to building a strong brain.

3. Sturdy brain architecture and support from caring adults leads to the development of executive function skills. Executive function skills help us prioritize, juggle multiple tasks, organize, and focus. These skills, as well as an ability to self-regulate, are critical to healthy development well into young adulthood.

4. Excessive stress and a lack of positive relationships can derail healthy development.

5. If a child does not have safe, stable, and supportive caregivers and environments, then the stress response can be long-lasting and extreme. We call this toxic stress because it damages the developing brain and can have lifelong consequences.

Please keep these simple truths in mind as you go about your work in the Legislature. Regardless of your committee assignments, you’re going to be making decisions that impact young children in Kansas, because so many factors contribute to their development. Transportation, Agriculture, Tax, Appropriations, Insurance, Child Welfare, Health—all of it matters to children.

As I close, please join me in thanking early childhood professionals in the gallery, in the building, and around the state who cannot be here today. Their work is essential to creating a state where every child can grow up healthy and thrive.

#### EXPLANATIONS OF VOTES

MR. SPEAKER: I VOTE NO ON **HCR 5004**. This Constitutional Amendment might make sense to my constituents and me, at face value. It might seem harmless in the Kansas political atmosphere to reiterate that citizenship is a requirement to vote, but, when the headlines read, "The White House begins migrant flights to Guantanamo Bay," I worry that this ballot measure will be used to send antagonistic messages about immigrants in the next election cycle. Kansans must stand against rhetoric that we know puts immigrants in danger. Given that this amendment isn't really needed and tensions are already high among immigrant communities; I VOTE NO. – JO ELLA HOYE

MR. SPEAKER: I VOTE NO ON **HCR 5004**. This is not a good use of taxpayer dollars. It comes with a \$50,000 price tag that would change nothing. It's already clear that only American Citizens are able to vote. This is political grandstanding and I will not be a part of this political theater. – NIKKI McDONALD

On motion of Rep. Croft, the House resolved into the Committee of the Whole, with Rep. Hoffman in the chair.

**HOUSE CONCURRENT RESOLUTION No. HCR 5010—**

By Representatives Williams, K., Bloom, Brantley, Bryce, Buehler, B. Carpenter, Chauncey, Corbet, Croft, Delperdang, Francis, Goetz, Howell, Howerton, James, T. Johnson, Kessler, Neelly, Reavis, Schmoie, Smith, A., Smith, C., Sutton, Tarwater, Waggoner, Ward, Wasinger and Wilborn

A CONCURRENT RESOLUTION supporting the full authorization and funding of the public safety autonomous technologies research, testing, certification and commercialization program and supporting the passage of the national defense authorization act for fiscal year 2025.

WHEREAS, The public safety autonomous technologies research, testing, certification and commercialization program is a potential research grant awarded by the United States department of commerce; and

WHEREAS, The mission of the program is to research, create prototypes and develop new innovations for small uncrewed aerial systems (UAS) and catalyze such efforts in Kansas, if a Kansas research institute is chosen for the program; and

WHEREAS, Evidence has shown an urgent need to advance affordable UAS without adversarial foreign influences by promoting and developing innovations created in the United States and supporting supply chains that provide operational enhancement designs that would serve state and local public safety missions; and

WHEREAS, The urgent need to rapidly develop United States UAS capabilities to counter the Chinese CCP DJI drone threat that has captured more than 90% of the commercial and public safety markets has become clear to Kansans: Now, therefore,

*Be it resolved by the House of Representatives of the State of Kansas, the Senate concurring therein:* That we support the full authorization and funding of the public safety autonomous technologies research, testing, certification and commercialization program by the United States department of commerce to support the innovation and development of UAS in the United States; and

*Be it further resolved:* That we also support the national defense authorization act (NDAA) for fiscal year 2025, which bans the acquisition and operation of CCP DJI drones by the United States federal government and United States grant recipients; and

*Be it further resolved:* That we also support section 162 of the NDAA, which requires the United States department of defense to make a determination within one year of enactment of the unacceptable risks posed by the Chinese CCP DJI drone and, upon making such determination, ban the DJI drone in the United States. The possibility of such prohibition has created a stronger sense of urgency within state and local public safety agencies to work with industries and universities to solve this problem without sacrificing performance and affordability; and

*Be it further resolved:* That the Secretary of State shall send an enrolled copy of this resolution to Representative Kristey Williams.
