AGENCY OVERVIEW

Wichita State University (WSU) was established as Fairmount College and was operated by the Congregational Church from 1895 to 1926. In 1926, it became a municipal university under the jurisdiction of the City of Wichita. Since July 1, 1964, the institution has been a part of the state Regents system of higher education under the auspices of the Kansas Board of Regents. As a metropolitan university located in the state's largest urban area, the University serves a large number of nontraditional students. WSU has two distinct student bodies: one is composed of traditional students ages 18 to 23 who devote themselves full-time to school and campus activities, and the other is composed of older students who work on a part-time or full-time basis while in school.

ACADEMIC SUPPORT

The Academic Support Program provides services for the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (libraries, museums, and galleries); media (audio-visual services); information technology; academic administration (including academic deans but not department chairpersons); personnel development; and support for course and curriculum development.

STUDENT SERVICES

The Student Services Program includes those services with the primary purpose of contributing to students' emotional and physical well-being and intellectual, cultural, and social development outside the context of the formal instruction program. Included within the program are health services, student activities, cultural events, student newspapers, intramural athletics, student organizations, intercollegiate athletics, admissions, registrar, counseling and career guidance, and student aid administration.

RESEARCH

The Research Program includes all expenditures for activities specifically organized to produce research, whether commissioned by an agency external to the institution or separately budgeted by an organizational unit within the institution.

STUDENT AID

The Student Aid Program includes activities covering all forms of financial aid assistance, such as scholarships, fellowships, and loans.

PUBLIC SERVICE

The Public Service Program delivers services beneficial to individuals and groups external to the institution. These activities include community service programs, community education, conferences, institutes, general advisory services, reference bureaus, public broadcasting, consulting, community education, training grants, and other similar services to particular sectors of the community.

AUXILIARY

An auxiliary enterprise exists to furnish goods or services to students, faculty, or staff, and charges a fee directly related to, although not necessarily equal to, the cost of the goods or services. The distinguishing characteristic of an auxiliary enterprise is that it is managed as an essentially self-supporting activity. Examples are residence halls, food services, and parking.

PHYSICAL PLANT

The Physical Plant Operations Program is responsible for the administration, supervision, operation, maintenance, preservation, and protection of the institution's physical plant. It includes expenses normally incurred for such items as janitorial and utility services; repairs and ordinary or normal alterations of buildings, furniture and equipment; care of grounds; maintenance and operation of buildings and other plant facilities; security; disaster preparedness; environmental safety; hazardous waste disposal; facility rental; facility planning and management; and central receiving.

DEBT SERVICE

The Debt Service Program includes expenditures for principal and interest payments for bond issues that are a direct obligation of the university.

CAPITAL IMPROVEMENTS

The Capital Improvements Program includes estimates for capital projects as approved by the Kansas Board of Regents in the university's five-year capital improvement plan.
