

2.26.25

Commerce, Labor, and Economic Committee
Hb 2290, Proponent, Written Only

Chairman Tarwater and Committee,

Protecting Kansas from foreign adversaries is a must. We have to act now, pass Hb 2290. Right now our Johnson County Commissioners have gave incentives (our tax money) and approved a sale of a building at New Century Airport to CNANO who has affiliations with CCP (China Communist Party). They are aware of this affiliation. They have put economic growth above safety and security.

We must stop them from coming in and buying our land around our Military bases. We wont be able to stop CNANO with this bill. We can stop future intrusions of foreign adversaries. Please act now for our safety and security.

Please pass out Hb 2290 favorably out of committee.

Thank you,
Debbie Detmer
