HB2018

Opponent

Written Only

Chairman Proctor and Members of the House Elections Committee,

I am submitting my opponent testimony for HB2018.

I do not support this bill for the simple fact that I do not want any special conditions for anyone who will help conduct elections. I support the military, but I believe this is one area that should not be given special consideration. The conduct of elections should be a tightly controlled activity with a strict set of conditions. If one group gets special treatment, then another group will want one, then another, then another.

Yes, I was in favor of this bill last year, but I've had a year to think about it. The conduct of elections should be strict and as clean as possible. For that reason, I do not support HB2018.

Respectfully,

Brett Anderson
Republican Precinct Committeeman
Sedgwick County
