RE: Senate Bill 70

House Representative Humphries and members of the Judiciary Committee

On behalf of the Kansas Register of Deeds Association, I would like to thank you for allowing us to comment on SB 70.

The Kansas Register of Deeds Association has worked with the Kansas Policy Institute to reconcile differences between SB 70 and HB 2134. We are in support of language in HB 2134 that allow us to recoup the actual cost in response to open records requests.

We encourage the committee to amend SB 70 to include the language sited in HB 2134 as amended. We have no objection to the KOMA language in this bill.

Thank you for your consideration.

Audrey Anderson, President
Kansas Register of Deeds Association
