

## **Testimony for HB 2025**

I am a Proponent.

As a Kansas Landowner and lifelong Resident, I stand for Bills SB-37 and HB-2025 to repeal the “Metropolitan Area Planning and Zoning Authority”.

There is no recourse of justice for property owners if K.S.A 12-749 is not amended and the existing section is not repealed. Additionally, K.S.A. 12-715b, 12-715c and 12-715d must be repealed.

Furthermore, there will be no stopping future land grabs and the erosion of the property owners rights in Kansas.

The “Metropolitan Area Planning and Zoning” growth plan that authorizes a 3-mile zone is inherently WRONG. It is nothing more than an extraterritorial land grab.

It needs to be stopped NOW!!!
