Subject: FW: SB37 and HB2025

Committee Members:

As mayor of Burrton, I am opposed to the SB37 and HB2025 as I am understanding these bills would repeal the three-mile extraterritorial planning and zoning authority for cities. At this current time Burrton is working towards a three-year goal where the three-mile extraterritorial planning and zoning authority is needed for the sustainability of our future as a town. These bills are an overhaul of more than 60 years of statutes used by cities and counties to make planning decisions and investments. Changing the law comes with significant consequences, none of which are accounted for in either bill. I request an interim committee be created to further examine the effects of such bills. Thank you for considering the detrimental results these two bills could have on a small town like Burrton, KS and not passing them before further information can be obtained.

Missy Ducimetiere
Mayor of Burrton
