

## Carolyn Simms, proponent of HB 2025

---

To Chairman Bergquist and Representatives of the Local Government Committee,

As a private, rural, Kansas land owner, I am urging committee support of HB 2025 and SB 37, to assure that proper representation is given to private, land owner citizens who have been zoned out of having a say in the selection of their city commissions, thus canceling their voice as tax-paying citizens. Thankyou for passing these bills out of their respective, House and Senate committees.

Thank you.

A concerned Kansas citizen,

C. Simms
