

①

PLEASE HEAR THIS! PLEASE
ABSORB THIS. Not in the way
that we have to but please listen.

YOUR agency - the states agency -
allowed ~~my~~ a child to die. Gone -
never to smile, laugh, cry, hug, run
or just be - EVER AGAIN. Gone -
from the face of this earth. YOUR
AGENCY caused this. St. Francis
allowed MY CHILD to die.

They've shown that he wasn't worth
a phone call until after he was gone.
It's called correlation of services.

We've reported and proved

Dishonest billing practices
misleading us as a family that
we had the same goals.

(2)

That they ran with their own narrative. Failure to follow protocol.

They disregarded diagnoses that had been in place for 12 years and we had records to prove it.

They falsified documents. Broken laws.

And that was BEFORE he died.

After - Still the billing

Taunting

Stalking

Harassment

And for what? We were the victims at this point.

And then we come to these committees, where AGAIN we hear the lies, you hear the lies, we prove their lies.

③

They make up NEW lies.

We bring receipts. And nothing
EVER happens.

Where is the oversight?
Where is the consequence?

I know what ours is. A lifetime
of the absence of a little boy who
could not protect himself.

This committee proves to me
that for most of them.

COGNITIVE DISSONANCE
is a real thing,

And here we are - where this
committee after hearing all of
our 3.5 min. testimonies and
us proving everything we've been
saying,

(4)

This committee over child welfare,
who oversees the agencies.

This committee after making a
motion to resolve this and passing
the motion -

Wants to send us ~~B~~ to yet
another committee for a resolution.
A committee that notoriously declines,
and denies monetary ~~request~~ requests.
A committee that we have to
start all over again with.

When everything has been done
in this committee, up to the end,
they want to send us elsewhere.

This is THE CHILD OVERSIGHT
COMMITTEE.

5

At this point, I don't think it's right that this committee would still have us begging (as the victims) for something they've already agreed to.

Actually, I feel like, with everything we've brought to light and some of the diseases within their agency they should thank us, for the liability, part alone.

JUST PLEASE DO THE RIGHT THING AND END THIS FOR ALL OF US!!
