Company	EXPLANATION	Supporting Resources
Board of Regents	"Return scholarships to KS Board of Regents..." for assorted programs. These scholarships have restricted guidelines, and if the student drops classes or doesn't enroll as initially authorized, the funds must be sent back to KBOR. It is very labor intensive to manage these funds, but the resources benefit our eligible students tremendously.	
All Class Limo, Inc.	All Class Limo provided transportation services to and from NIAR facilities for large groups attending contract discussions, facility tours, and related engagements. Their fleet includes 15-passenger vans, which were essential in accommodating these group travel needs. In addition, services could be scheduled in advance with designated pickup and drop-off times, and the company actively monitored flight schedules to ensure timely and reliable service.	https://allclasslimo.com/our-fleet/

Inergex, LLC	WSU IDP engaged with Inergex, DBA Crossfuzze to deliver/implement Smart ServiceNow ITSM (IT Service Management). SmartLaunch ITSM is Crossfuzze's flagship rapid deployment offering for ServiceNow ITSM. The objective was to deploy a cloud product for our everyday IT workflows from putting in a ticket of an issue, ordering hardware/software, access requests, etc. This is a common practice and is frequent when deploying IT software.	
J&J Jewelry	Tom Ho is affiliated with J&J Jewelry and joined IDP with a PSA in May 2023. His role was design engineer and primarily supported Spirit (Engineering Services arrangement). His last day with Spirit was November 6, 2025.	
Melvin L. Cox	Melvin Cox joined IDP with a PSA in February 2021. His role was design engineer and primarily supported NIAR CAD CAM Lab (Reverse Engineering support). NIAR Engineering Design Modification Team Lab last paid Mr. Cox August 2023. We are not sure of his living or deceased status.	
Richard A Nygren	Rick Nygren is affiliated with Nygren Aero LLC and joined IDP with a PSA in November 2021. His role is DER (Designated Engineering Representative) and primarily supports OSR and 777 Programs (Decompression analysis challenges). Mr. Nygren is not deceased.	
Safe, Inc.	WSU IDP engaged Safe Inc. under a Professional Services Agreement to provide specialized engineering services supporting Department of Defense programs. Safe Inc. performed stress analysis, fatigue and damage tolerance evaluations, and failure mode assessments as outlined in the Statement of Work. Deliverables included comprehensive engineering reports and design recommendations critical to aerospace safety and compliance. These services directly align with WSU's mission to advance defense-related research and innovation. Safe Inc. is a recognized industry partner with expertise in structural integrity and maintenance support for defense applications. The engagement was conducted under WSU procurement policies and federal compliance standards, ensuring transparency and accountability. SAFE was instrumental in providing the fractography necessary to secure the prototype backBONE repair which contributed over \$12M to the local economy last year. They are a valued and trusted partner and Veteran-Owned Small Business (VOSB) that currently supports our defense programs as well as the USAF Academy's Center for Aircraft Structural Life Extension (CASTLE) directly.

William J Polzin	WSU IDP engaged William Polzin under an Agreement to provide specialized support for Aviation Science and Technology Portfolio projects. His work included computational aeromechanics, concept design and assessment, and implementation of advanced research tasks. Mr. Polzin was specifically requested by the U.S. Army to collaborate with Pavithra on improving HeliosPlot, a tool critical for aeromechanics analysis. These services were performed as part of active project deliverables, which is why payments were issued. William supported DEVCOM AvMC's Aeromechanics group located at NASA Ames Research Center in Mountain View, CA. He lived in Iowa and was remotely supporting his contract through FirePoint, which concluded on 31 March 2024. At that time, and based on his performance, the Army offered him an onsite contract position in CA. He accepted and relocated to CA. WSU staff have met him in Ames in Oct 2024 while supporting a separate FirePoint effort. We haven't had contact with him since that time. We cannot confirm William Polzin's current living status, however, a quick google search of his name and found obituaries for William Polzins in Ohio, Hoisington KS, and Texas. The associated pictures were not the William Polzin we worked with.
